2. BACKGROUND:

Reser's Fine Foods, Inc. ("Reser's") initiated a recall of select products on October 22, 2013 due to the potential of those select products being contaminated with *Listeria monocytogenes*. On October 26, 2013, Reser's expanded its initial recall to cover a broader group of products. In response to that expanded recall, Taylor Farms Florida, Inc. ("TFFL"); Taylor Farms Illinois, Inc. ("TFIL"); Taylor Farms Maryland, Inc. ("TFMD"); Taylor Farms Texas, Inc. ("TFTX"); and Taylor Farms Tennessee, Inc. ("TFTN") are voluntarily issuing a secondary recall on a limited number of deli products that contain components implicated in Reser's expanded recall. The products subject to the recall are limited to the code dates provided. These products are being recalled because they have the potential to be contaminated with *Listeria monocytogenes*, an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, *Listeria* infection can cause miscarriages and stillbirths among pregnant women. To date, there have been no reported illnesses associated with these recalled items.

The grocers involved have been instructed to remove any remaining product from their deli case and to dispose of any of the remaining product in their inventory. No other products or code dates are affected by this recall. Customers who have purchased these products are urged not to consume the products and should dispose of the recalled products immediately. Consumers may call for further information at 1-866-508-7048 between the hours of 9 am (PST) and 5 pm (PST) -Monday through Friday. Consumers with concerns about an illness from consumption of this product should contact a health care provider.
