2. BACKGROUND:

On April 23, 2016, CRF Frozen Foods [recalled](#) 11 frozen vegetable products because they may be contaminated with *Listeria*. On May 2, 2016, CRF Frozen Foods [expanded the initial recall](#) to include all organic and traditional frozen vegetable and fruit products processed in its Pasco, Washington facility since May 1, 2014. Recalled items were sold in plastic bags under various brand names, nationwide and in Canada.

Eight people infected with the outbreak strains of *Listeria* have been reported from three states since September 13, 2013. All eight people were hospitalized, including one from Maryland and one from Washington who died, although listeriosis was not considered to be a cause of death for either person.

CDC recommends that consumers do not eat, and restaurants and retailers do not serve or sell, recalled organic and traditional frozen vegetables and fruit products.
