2. Background: Olymel S.E.C./ L.P., an Alberta, Canada establishment, is recalling approximately 4,618 pounds of raw intact pork products because the products were imported from Canada and not presented for import re-inspection upon entry into the United States, the U.S. Department of Agriculture’s Food Safety and Inspection Service (FSIS) announced today. The problem was discovered on Feb. 5, 2018 by an FSIS import inspector. There have been no confirmed reports of adverse reactions due to consumption of these products. Anyone concerned about a reaction should contact a healthcare provider.

These items were shipped to retail and restaurant locations in Oregon and Washington and exported to a Department of Defense Commissary in Japan. However, all retail and foodservice contractors and locations should be checked.

3. Product affected: The raw intact pork products were produced on various dates from Jan. 22, 2018 through Feb. 5, 2018. The following products are subject to recall: [\[View Labels \(PDF Only\)\]](#)
