2. Background: Bayer is voluntarily recalling Alka-Seltzer Plus packages because the ingredients on the front coupon sticker may not match the actual ingredient in the product. The active ingredient may say aspirin; but the instant redeemable coupon may say acetaminophen, or vice versa.

The ingredients listed on the front coupon sticker of the carton may potentially be different from the ingredients listed on the back of the carton. This may lead consumers to ingest a product to which they may have an allergy or anaphylactic reaction, an ingredient which may be contraindicated for their medical condition or they intend to otherwise avoid. There may be potential for serious health consequences. To date, no complaint has been received that resulted in an adverse health consequence.

3. Product affected: All sizes of all lots of **orange and green** Bayer Alka-Seltzer Plus packages that have a \$1.00 **coupon** attached to the front of the package. If there is no coupon attached to the front of the carton, and if the product isn't orange or green showed in the photo, the product is unaffected.

**PLEASE PLACE THE PRODUCT ON MEDICAL HOLD AND CONTACT YOUR SUPPLIER FOR DISPOSITION INSTRUCTIONS**

4. Product Photos:

**The Orange and Green packages have an instant redeemable coupon attached to the front.**
