2. BACKGROUND: E.A. Sween Company announced the recall of multiple products due to possible contamination of *Listeria monocytogenes*, an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, *Listeria* infection can cause miscarriages and stillbirths among pregnant women.

Tip Top Poultry, Inc., initiated a recall and is an ingredient provider to two of E.A. Sween's suppliers, The Suter Company, Inc. that provides chicken salad products and Baja Foods LLC that provides burritos, to the company. To date, no reported illnesses related to this organism have been reported to the company.

Affected product could have been delivered in the Continental U.S., Hawaii and Guam through convenience stores and grocery and mass retail outlets.

E.A. Sween Company is not requiring customers to search through lot codes but instruct retailers to identify affected SKU/UPC codes and remove these products from store shelves and inventory immediately.
