MEMORANDUM FOR RECORD

SUBJECT: Fresh Express Announces Recall of Fresh Salad Products Due to Potential *Listeria monocytogenes* Contamination

1. **REFERENCE.** DHA-MSR 6025.01/AR 40-660/ DLAR 6025.01/NAVSUPINST 10110.8D/AFI 48-161\_IP/MCO 10110.38D, DOD Hazardous Food & Nonprescription Drug Recall System, 6 September 2018.

2. **COMPANY ANNOUNCEMENT.** Fresh Express is recalling certain varieties of its branded and private label salad products produced at the company's Streamwood, Illinois facility (**VC# 17-0028**) because the product has the potential to be contaminated with *Listeria monocytogenes*. This organism can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, *Listeria* infection can cause miscarriages and stillbirths among pregnant women. Consumers with these symptoms should consult their health care provider.

Recalled salad items were distributed through retailers in the Northeast and Midwest regions of the United States, as well as distributors and retailers in Canada. U.S. distribution includes the states of CT, IA, IL, IN, KY, MA, MD, ME, MI, MN, MO, ND, NH, NJ, NY, OH, PA, RI, WI. Canadian distribution includes the provinces of Ontario and Manitoba.

The full list of recalled products is found at the end of this announcement.

The recall was necessitated when the Michigan Department of Agriculture received a positive result for *Listeria monocytogenes* in a random sample test of a single package of Fresh Express 9 oz. Sweet Hearts salad mix with Use-By Date of December 8, 2021, manufactured at the Fresh Express Streamwood facility. The U. S. Centers for Disease Control and Prevention has reported ten illnesses associated with the strain of *Listeria monocytogenes* detected in the random sample beginning in 2016 to the present.

Fresh Express immediately halted all production at the Streamwood facility (**VC# 17-0028**) and initiated a complete sanitation review. Fresh Express has already been in contact with retailers who received the recalled items, instructing them to remove them from store shelves and stop any further shipments to stores from distribution centers and other inventories. In the event consumers have the recalled products in their refrigerators, they should be discarded and not consumed.
