MEMORANDUM FOR RECORD

SUBJECT: UPDATE to Dole Fresh Vegetables Voluntary Recall of All Dole-Branded and Private Label Packaged Salads Processed at its Bessemer City, NC and Yuma, AZ Facilities Due to Possible Health Risk from *Listeria monocytogenes*

Updates are highlighted in Red.

1. **REFERENCE.** DHA-MSR 6025.01/AR 40-660/ DLAR 6025.01/NAVSUPINST 10110.8D/AFI 48-161_IP/MCO 10110.38D, DOD Hazardous Food & Nonprescription Drug Recall System, 6 September 2018.

2. **COMPANY ANNOUNCEMENT.** **FOR IMMEDIATE RELEASE – December 22, 2021,** Monterey, California – Dole Fresh Vegetables, Inc., is voluntarily recalling from the market all Dole-branded and private label packaged salads processed at its Bessemer City, NC (**VC #37-0002**) and its Yuma, AZ production facilities due to possible contamination with *Listeria monocytogenes* and is also temporarily suspending operations at both facilities to conduct an extensive cleaning and sanitation protocol. Products subject to the voluntary recall are identified by a product lot code beginning with the either the letter “N” or “Y” in the upper right-hand corner of the package (see *photo* examples below) and will have a “Best if Used By” date between November 30, 2021, and January 8, 2022. Consumers who still have any of these products in their refrigerators are urged not to consume the product and to discard it immediately.

This suspension of operations and recall are being performed voluntarily by Dole out of an abundance of caution, in collaboration with the Food and Drug Administration and Centers for Disease Control and Prevention. The decision to suspend operations and recall all products from these facilities was made after analyzing the strain of *Listeria monocytogenes* isolated in a single package of Dole-branded Garden Salad produced in the Bessemer City facility (**VC #37-0002**) and a single package of shredded iceberg lettuce produced in the Yuma, AZ facility. Both of those items were randomly sampled by the state of Georgia and the state of Michigan, respectively, and were a genetic match with a strain of *Listeria monocytogenes* which FDA and CDC believe is responsible for sixteen illnesses since 2014.

Listing of products subject to each of these recalls is set forth below.

UNCLASSIFIED

Recalled salad items from the Bessemer City facility (*VC #37-0002*) were distributed in the states of AL, CT, FL, GA, KY, LA, MA, MD, MI, MS, NC, NY, OH, PA, SC, TN, and VA. Recalled salad items from the Yuma facility were distributed in the states of AL, AZ, CT, FL, IA, IL, IN, KY, LA, MA, MI, MN, MS, NC, ND, NY, OH, PA, SC, TN, TX, VA, and WI.

No products produced from Dole facilities in Springfield, OH (production/lot codes beginning with “W”) or Soledad, CA (production/lot codes beginning with “B”) are included in these voluntary recalls. In addition, no other Dole products, including “ready-to-eat” salad products, fresh fruit, and field-packed fresh vegetables, are part of these voluntary recalls and are safe to consume.

Dole retailers have been advised to check store shelves and warehouse inventories to confirm that no recalled product is available for purchase by consumers.

Dole Fresh Vegetables is coordinating closely with regulatory officials.

CONSUMER SAFETY OFFICER NOTE: This message serves as an update to ALFOODACT 2021-060. Key takeaways are:

- Recall expansion now includes “Best if Used By” date range between November 30, 2021, and January 8, 2022, for *both* the Bessemer City, NC and its Yuma, AZ Dole facilities; the original announcement only had one production/lot code of Y33005B and one “Best if Used By” date of December 12, 2021, for the Yuma plant.
- Operations are suspended at both locations.
- List of products and UPC codes remain the same in para. 3.

3. PRODUCTS AFFECTED: Products subject to the voluntary recall are identified by a product lot code beginning with either the letter “N” or “Y” in the upper right-hand corner of the package (see *photo* examples below) and will have a “Best if Used By” date between **November 30, 2021, and January 8, 2022.**
