MEMORANDUM FOR RECORD

SUBJECT: Lyons Magnus Voluntarily Recalls 53 Nutritional and Beverage Products Due To The Potential For Microbial Contamination

1. **REFERENCE:** DHA-MSR 6025.01/AR 40-660/ DLAR 6025.01/NAVSUPINST 10110.8D/AFI 48-161_IP/MCO 10110.38D, DOD Hazardous Food & Nonprescription Drug Recall System, 6 September 2018.

2. **COMPANY ANNOUNCEMENT:** Lyons Magnus LLC ("Lyons Magnus" or the "Company") today announced that it is voluntarily recalling nutritional and beverage products due to the potential for microbial contamination, including from the organism *Cronobacter sakazakii*. The list of recalled products does not include products intended for infants (i.e. under the age of one). While infection related to *Cronobacter sakazakii* is rare, the common symptoms of illness could include fever, vomiting and urinary tract infection. However, vulnerable and immunocompromised populations may be more susceptible to infection. To date, no illnesses or complaints related to these products have been reported. The recalled products should not be consumed. Anyone who has a recalled product in his or her possession should dispose of it immediately or return it to the place of purchase for a refund.

Preliminary root cause analysis shows that the products did not meet commercial sterility specifications.

The 53 products were distributed nationally, while some products were limited in scope. This recall is being conducted in cooperation with the U.S. Food and Drug Administration.

3. **PRODUCTS AFFECTED:** See Table on next page. The products are packed in various formats under many different brand names, which are listed in the table. To identify the Lot Code and Best By Date refer to the top of the carton for individual cartons or the side of the case for multi-carton cases.
