MEMORANDUM FOR RECORD

SUBJECT: Don Miguel Foods Recalls Frozen Ready-To-Eat Carne Asada Burrito Products Due to Possible Listeria Contamination

1. **REFERENCE:** DHA-MSR 6025.01/AR 40-660/ DLAR 6025.01/NAVSUPINST 10110.8D/AFI 48-161_IP/MCO 10110.38D, DOD Hazardous Food & Nonprescription Drug Recall System, 6 September 2018.

2. **COMPANY ANNOUNCEMENT:** Don Miguel Foods, a Dallas, Texas establishment, is recalling approximately 10,642 pounds of frozen ready-to-eat (RTE) carne asada burrito products that may be adulterated with *Listeria monocytogenes*, the U.S. Department of Agriculture's Food Safety and Inspection Service (FSIS) announced today.

The products subject to recall bear establishment number "EST. 20049" inside the USDA mark of inspection. These items were shipped to retail convenience store locations nationwide.

The problem was discovered after the establishment's laboratory testing indicated the product may be contaminated with *Listeria monocytogenes*. The establishment notified FSIS that some of the affected product was distributed into commerce.

There have been no confirmed reports of adverse reactions due to consumption of these products. Anyone concerned about an injury or illness should contact a healthcare provider.

Consumption of food contaminated with *L. monocytogenes* can cause listeriosis, a serious infection that primarily affects older adults, persons with weakened immune systems, and pregnant women and their newborns. Less commonly, persons outside these risk groups are affected.

Listeriosis can cause fever, muscle aches, headache, stiff neck, confusion, loss of balance and convulsions sometimes preceded by diarrhea or other gastrointestinal symptoms. An invasive infection spreads beyond the gastrointestinal tract. In pregnant women, the infection can cause miscarriages, stillbirths, premature delivery or life-threatening infection of the newborn. In addition, serious and sometimes fatal infections in older adults and persons with weakened immune systems. Listeriosis is treated with antibiotics. Persons in the higher-risk categories who

experience flu-like symptoms within two months after eating contaminated food should seek medical care and tell the health care provider about eating the contaminated food.

FSIS is concerned that some product may be in consumers' freezers. Consumers who have purchased these products are urged not to consume them. These products should be thrown away or returned to the place of purchase.

3. **PRODUCTS AFFECTED:** The frozen RTE carne asada burrito items were produced on September 27, 2023. The following products are subject to recall:

- 7-oz. individual wax paper packages containing “DON MIGUEL Hand Made BURRITO CARNE ASADA” with date code D23270 printed on the package.

4. **PRODUCT LABELS/PICTURES:**

5. **CONTACT INFORMATION:** Media with questions regarding the recall can contact Don Miguel Foods Media Relations at media@mmxfoods.com. Consumers with questions regarding the recall can contact Don Miguel Foods Consumer Engagement, at 800-523-4635 or www.megamexfoods.com/contact-us/.

6. **POSITIVE AND NEGATIVE FINDINGS.**

a. **Army Veterinary Services and Air Force Public Health Personnel:** Report negative and positive findings in the Veterinary Service Information Management System (VSIMS) Subsistence Recalls application. If you are not in one of these two groups, please use the instructions below (paragraphs b-d).

b. Navy:

1) SHIPS AT SEA: Must report positive and negative findings to supporting Veterinary Service unit. Are authorized to destroy or dispose of recalled products utilizing the procedures and reporting requirements outlined in NAVSUP P-486 Paragraph 5302 and 6000(4), to include completion of a DD Form 200 and Standard Form 364. Procedures for completing the DD Form 200 are found in NAVSUP P-486 Paragraph 6001. Procedures for completing Standard Form 364 are found in NAVSUP P-486 Paragraph 5300(2)(c).

2) SHIPS IN PORT/HOMEPORTED/ASHORE GALLEYS: Supporting Veterinary Service unit will conduct inspection and report positive and negative findings in VSIMS Subsistence Recalls application. Contact the appropriate DLA Account Manager via Regional NAVSUP Fleet Logistics Center (NAVSUP FLC) to arrange pickup of recall items. Contact your supporting (NAVSUP FLC) for any issues regarding PV Pickup. Proceed with the same guidance in the paragraph above.
