MEMORANDUM FOR RECORD

SUBJECT: Milo's Poultry Farms, LLC., Recalls Eggs Because of Possible Health Risk

1. **REFERENCE:** DHA-MSR 6025.01/AR 40-660/ DLAR 6025.01/NAVSUPINST 10110.8D/AFI 48-161\_IP/MCO 10110.38D, DOD Hazardous Food & Nonprescription Drug Recall System, 6 September 2018.

2. **COMPANY ANNOUNCEMENT:** Milo's Poultry Farms, LLC. of Bonduel, WI is recalling all "Milo's Poultry Farms" and "Tony's Fresh Market" branded eggs because these eggs have the potential to be contaminated with *Salmonella*, an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with *Salmonella* often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with *Salmonella* can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis and arthritis.

Milo's Poultry Farms' eggs were distributed in Wisconsin, Illinois, and Michigan through retail stores and foodservice distributors. The recall was initiated after the FDA informed the company that environmental samples tested positive for the bacteria. FDA also conducted whole genome sequencing and found that the samples were related to an ongoing *Salmonella* outbreak investigation.

Milo's Poultry Farms, LLC. has ceased production and distribution at this time and will undergo appropriate testing and sanitization of farms and processing equipment.
