MEMORANDUM FOR RECORD

SUBJECT: John B. Sanfilippo & Son, Inc. Voluntarily Recalls Snack Mix Products Due to Possible Health Risk

1. REFERENCE: DHA-MSR 6025.01/AR 40-660/ DLAR 6025.01/NAVSUPINST 10110.8D/AFI 48-161_IP/MCO 10110.38D, DOD Hazardous Food & Nonprescription Drug Recall System, 6 September 2018.

2. BACKGROUND: As a follow up to the voluntary recall of dry milk powder by California Dairies, Inc., John B. Sanfilippo & Son, Inc. (Nasdaq: JBSS) (the "Company") announced today that it is voluntarily recalling snack mix products flavored with a seasoning manufactured by a third-party supplier that contained the recalled dry milk powder. The affected seasoning batches tested negative for Salmonella prior to use; however, the Company is taking this action as a precautionary measure because of the potential that these products may contain the presence of Salmonella.

To date, the Company has not received any reports of illnesses in connection with the items listed below.

Consumers who have recently purchased the items listed below should not consume these products and should return them to the store of purchase for a full refund or replacement.

Salmonella can cause serious and sometimes fatal infections in young children, frail or elderly people and others with weakened immune systems. Healthy persons infected with Salmonella often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with Salmonella can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis and arthritis.
