PHILADELPHIA, PA 19111-6667

Deliver **HANDCARRIED OFFER**, including delivery by commercial carrier, to:

DLA TROOP SUPPORT
BUSINESS OPPORTUNITIES OFFICE
BLDG. 36, SECOND FLOOR
700 ROBBINS AVENUE
PHILADELPHIA, PA 19111-5092

NOTES:

All hand carried offers are to be delivered to the Business Opportunities Office between 8:00 a.m. and 5:00 p.m., Monday through Friday, except for legal federal holidays as set forth in 5 USC 6103, and except on the closing date of this solicitation, in which case delivery must be made by the time set for receipt of offers as stated in block 8 of the Standard Form 1449. Offerors using a commercial carrier service must ensure that the carrier service "hand carries" the package to the Business Opportunities Office specified above for hand carried offers prior to the scheduled closing time above. Package must be plainly marked **ON THE OUTSIDE OF THE COMMERCIAL CARRIER'S ENVELOPE** with the solicitation number, date, and time set forth for receipt of offers as indicated in Block 8 of the Standard Form 1449.

Examples of "hand carried" offers include: In-person delivery by Contractor, Fed Ex, Airborne, UPS, DHL, Emery, other commercial carrier, USPS Express Mail and USPS Certified Mail.

Contractors intending to deliver offers in-person should be advised that the Business Opportunities Office (Bid Room) is located within a secured military installation. In order to gain access to the facility, an escort may be required. The escort will be an employee of the Bid Room. The following are telephone numbers for the Bid Room: (215) 737-8511, (215) 737-9044, (215) 737-7354, (215) 737-0317, or (215) 737-8566. It is the offeror's responsibility to ensure that the offers are received at the correct location at the correct time. Please allow sufficient time to complete delivery of hand carried offers. Since the length of time necessary to gain access to the facility varies based on a number of circumstances, it is recommended that you arrive at the installation at least one hour prior to the time solicitation closes to allow for security processing and to secure an escort.

Note: This is a suggestion and not a guarantee that you will gain access to the base if you arrive one hour before the offer is due.

BLOCKS 19-24 (continued)

Note: Offeror shall submit their price proposal by completing the below Bakery Component Pricing Table. Unit prices shall be limited to a maximum of four decimal places. Offering on all five tiers is mandatory. Failure to offer on five tiers may be deemed as non-acceptance of the tiers and could result in rejection of the offeror's entire proposal. Tier 2 will follow Tier 1 upon expiration of that period, Tier 3 will follow Tier 2 upon expiration of that period, Tier 4 will follow Tier 3 upon expiration of that period, and Tier 5 will follow Tier 4 upon expiration of that period. Deliveries may fall outside of tier effective periods. However, prices will be based on the time an order is placed, not when an order is delivered. For example, if an order is placed during tier 2, but delivery is made during tier 3, then the prices in effect for that order will be the tier 2 prices. See FAR 52.216-19 – Order limitations for more information.

*Pricing must be submitted for all five tiers for each item for which an offeror wants to submit an offer. Failure to offer pricing on all five tiers may be deemed as non-acceptance of the tier(s), which could result in rejection of the entire proposal as technically unacceptable. However, offerors are not required to offer on all line-items. Offerors are encouraged to submit multiple offers presenting alternative pricing. Since the Government contemplates making multiple awards on a per-line-item basis, each offeror's primary offer should be priced accordingly. Each offeror may also submit an alternative offer on an "all-or-none" basis, with pricing that is based on the condition that the offeror is awarded all 15 items under this solicitation. For each offer (i.e. the primary and the alternative), only one price per line-item, per tier will be accepted.

Note:

The Government anticipates award to multiple bakery producers on a line item basis for the bakery components and the items will be delivered to the Meal, Ready-to-Eat (MRE) assemblers.

AUTHORIZED NEGOTIATORS:

The offeror represents that the following persons are authorized to negotiate on its behalf with the Government in connection with this request for proposal. Please list names, titles, telephone numbers, facsimile (FAX) numbers, and emails for each authorized negotiator.

CAUTION NOTICE

The subject procurement is being solicited under the Federal Acquisition Regulations (FAR) part 12 as Unrestricted with full and open competition and with HUBZONE price evaluation preference. The solicitation is for 15 bakery items used as components in the assembly of the Meal, Ready-to-Eat (MRE) ration program.

DLA Troop Support will establish Rations National Contracts (RNC) with component manufacturers, and will authorize the MRE assemblers to order directly from the national contracts in lieu of DLA providing the components as Government Furnished Material (GFM). The Rations National Contracts will establish the component prices, but the assemblers, who are anticipated to be Wornick, SOPAKCO, and AmeriQual, will order and pay for the material directly. The assemblers will have full control over when to order, how much to order, and have full responsibility for the supply chain and inventory. See FAR 52.216-19 – Order limitations for more information. Any clauses, provisions, or any other terms contained in this solicitation and the resulting contract(s), which states that the Government will place orders and/or make payments, shall be construed to mean that the assembler contractors will place orders and make payments.

CONTINUED ON NEXT PAGE

The terms and conditions of the individual component contract shall prevail in case of a conflict between the individual component contract and the MRE assembly contract.

This solicitation, SPE3S1-16-R-0007, will result in a firm fixed price for a total term of five years, which consist of five, 12-month tiered pricing periods. The contract will be effective from November 17, 2016 through November 16, 2021.

This procurement will utilize Lowest Price Technically Acceptable source selection procedures and will require offerors to submit product demonstration models (PDMs).

In accordance with DLAD Clause 52.215-9023, Reverse Auction, the Government may utilize Reverse Auction as a pricing technique under this solicitation.

The System for Award Management (SAM) is a Federal Government owned and operated free web site that consolidates the capabilities in SAM/Federal Register (Fed Reg), Online Representations and Certifications Application (ORCA), and Excluded Parties List System (EPLS). Future phases of SAM will add the capabilities of other systems used in Federal procurement and awards processes. All contractors who choose to conduct business with the Department of Defense must register or update their profile in the SAM database to be eligible for award (see FAR 52.212-4(t)). All contractors must have an active cage code, and there must be at least one individual listed as the Electronic Business Point of Contact (EB POC) in SAM. To register or update your profile, please go to the SAM website at: <http://www.sam.gov>. In addition, we encourage all vendors who receive contract awards as a result of this solicitation to access the "Dynamic Small Business Search" feature of SAM to identify potential suppliers and teaming partners for this initiative. You may go to the SAM and click on the "Dynamic Small Business Search" button. When making your procurement decisions we encourage your consideration of local business as a means to nurture small business and local economies.

Offerors are cautioned to include a completed copy of the provision FAR 52.212-3 Offeror Representations and Certifications-Commercial Items, with their offer. The Offeror shall complete only paragraph (b) of this provision if the Offeror has completed the annual representations and certification electronically via the SAM website accessed through <http://www.sam.gov>. If the Offeror has not completed the annual representations and certifications electronically, the Offeror shall complete only paragraphs (c) through (p) of this provision.

Proposals submitted are considered proprietary and/or competition sensitive in nature. Use of the information provided in the proposals is for evaluation purposes only and will be limited to duly accredited officials of the Department of Defense who are subject to penalties for unlawful disclosure.

CONTRACTOR CODE OF BUSINESS ETHICS

FAR Part 3.1002(a) requires all government contractors to conduct themselves with the highest degree of integrity and honesty. Contractors should have a written code of business ethics and conduct within thirty days of award. To promote compliance with such code of business ethics and conduct, contractors should have an employee business ethics and compliance training program that facilitates timely discovery and disclosure of improper conduct in connection with government contracts and ensures corrective measures are promptly instituted and carried out. A contractor may be suspended and/or debarred for knowing failure by a principal to timely disclose to the government, in connection with the award, performance, or closeout of a government contract performed by the contractor or a subcontract awarded there under, credible evidence of a violation of federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in title 18 of the United States Code or a violation of the False Claims Act. (31 U.S.C. 3729-3733)

If this solicitation or contract includes FAR clause 52.203-13 - CONTRACTOR CODE OF BUSINESS ETHICS AND CONDUCT; the contractor shall comply with the terms of the clause and have a written code of business ethics and conduct; exercise due diligence to prevent and detect criminal conduct; promote ethical conduct and a commitment to compliance with the law within their organization; and timely report any violations of federal criminal law involving fraud, conflict of interest, bribery or gratuity violations found in title 18 of the United States Code or any violations of the False Claims Act. (31 U.S.C. 3729-3733). When FAR 52.203-13 is included in the contract, contractors must provide a copy of its written code of business ethics and conduct to the contracting officer upon request by the contracting officer.

STATEMENT OF WORK

I. INTRODUCTION

This solicitation is for 15 bakery items used as components in the assembly of the Meal, Ready-to-Eat (MRE) program. The MRE is the primary individual ration of the US Armed Forces. The balanced nutrition and low logistical burden of the MRE give America's Warfighters the ability to fight and win in any environment.

The Government will award a contract(s) resulting from this solicitation to the responsible offeror(s) whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. Lowest Price Technically Acceptable (LPTA) source selection procedures will be used as the source selection method in this procurement. A more detailed discussion of the evaluation criteria is provided later in this solicitation under FAR 52.212-2, Evaluation – Commercial Items.

The Government intends to evaluate offers and make award(s) without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary.

CONTINUED ON NEXT PAGE

The resulting contract(s) will be an Indefinite Delivery, Indefinite Quantity (IDIQ) type contract(s) and a firm fixed-price contract(s) with economic price adjustments. The resulting contract(s) will have a total term of five years, consisting of five, 12-month tiered pricing periods, as follows:

- Tier 1: November 17, 2016 – November 16, 2017
- Tier 2: November 17, 2017 – November 16, 2018
- Tier 3: November 17, 2018 – November 16, 2019
- Tier 4: November 17, 2019 – November 16, 2020
- Tier 5: November 17, 2020 – November 16, 2021

Contract deliveries may fall outside of the tier effective periods. However, prices will be based on the time an order is placed, not when an order is delivered. For example, if an order is placed during tier 2, but delivery is made during tier 3, then the prices in effect for that order will be the tier 2 prices. Offering on all five tiers is mandatory. Failure to offer on all five tiers may be deemed as non-acceptance of the tiers and could result in rejection of an offeror's entire proposal. Tier 2 will follow Tier 1 upon expiration of that period, Tier 3 will follow Tier 2 upon expiration of that period, Tier 4 will follow Tier 3 upon expiration of that period and Tier 5 will follow Tier 4 upon expiration of that period.

Pre-Award Plant Survey: To determine the responsibility of prospective contractors, the government reserves the right to conduct physical surveys of the plants which are to be used in the performance of a contract. In the event the government is prevented from conducting such a plant survey by the offeror or its proposed subcontractor, the offeror's entire proposal may be rejected as technically unacceptable. As a part of the pre-award survey, the offeror may be required to obtain from its intended sources of supply, letters confirming availability of components, materials, machinery, and tooling.

The successful awardee(s) will be required to maintain an acceptable Surge Plan, Production Capability, Quality System Plan (QSP), Integrated Pest Management Plan, and Food Defense Plan throughout the life of the contract. The awardee(s) must have its Surge Plan, Production Capability, QSP, Integrated Pest Management Plan, and Food Defense Plan approved by the contracting officer within 45 calendar days after the award date. Failure to receive an acceptable rating on any one or more of these documents within 45 calendar days after the award date will be a breach of the contract for which the Government may exercise its available rights, including, but not limited to, terminating the contract.

1. Offerors are required to submit a Surge Plan, Production Capability, QSP, Integrated Pest Management Plan, and Food Defense Plan with their proposals. These submissions may be reviewed and discussed with offerors prior to award, but the submissions will not be evaluated as part of the award decision or be used to make a responsibility determination. However, failure to submit any of these documents may make an offeror ineligible for award. As discussed above, after award, the awardee(s) must revise these documents, as needed, to ensure these documents receive an acceptable rating by the Government. The specific requirements for each of these documents are discussed later in this solicitation.

II. GUARANTEED MINIMUM/MAXIMUM

A. The quantities shown in the schedule, below, represent the estimated quantities and, the estimated minimum quantities for each tiered pricing period, and the estimated maximum quantities for all five tiered pricing periods combined that

The guaranteed minimum quantity for the five year contract, that includes all 15 items under this solicitation, is 28,760,000 pouches.

The estimated quantity for the five year contract, that includes all 15 items under this solicitation, is 31,512,000 pouches.

The maximum quantity, including surge requirements, for a five-year contract that includes all 15 items under this solicitation is 514,895,475 pouches, plus the surge quantities for all 15 items combined.

CONTINUED ON NEXT PAGE

4. The guaranteed minimum quantity and the maximum quantity, as stated above, assume one contract is awarded under this solicitation. If multiple awards are made, the guaranteed minimum quantity for each resulting contract will be the aggregate of the estimated minimum quantities (for one tier period) of the line-items under each respective contract. The maximum quantity for each contract will be the aggregate of the estimated maximum quantities (for all tiers combined) of the line-items under each respective contract plus the aggregate of the surge quantities for the line-items under each respective contract. Thus, there will not be a guaranteed minimum quantity or a maximum quantity for each line-item. Further, the guaranteed minimum quantity and the maximum quantity under each contract will apply to the entire five-year term of the contract. Thus, there will not be a guaranteed minimum quantity or a maximum quantity for each tiered pricing period.

Sustainment (S&S) Requirements, Addendum to DLAD 52.217-9006 (Nov 2011)

This solicitation includes items that are critical to support the Department of Defense's ability to conduct contingency operations. These items are designated as the S&S requirements, including the Services' go-to-war requirements. The objective of this requirement is to obtain contractual coverage to meet the S&S quantities and sustainable accelerated delivery specified in this solicitation. S&S coverage includes access to production capability as well as vendor owned or managed inventory/safety stocks. S&S requirements are defined as follows:

(a) Surge and sustainment capability means the ability of the supplier to meet the increased quantity and/or accelerated delivery requirements, using production and/or supplier base capabilities, to support increased requirements with accelerated delivery, such as for Department of Defense (DOD) contingencies or emergency peacetime requirements. This capability includes both the ability to ramp-up to meet accelerated delivery and/or increased quantities (i.e., Surge), as well as to sustain an increased production and delivery pace throughout the contingency (i.e., Sustainment). The spectrum of possible contingencies ranges from major theater wars to smaller-scale military operations.

CONTINUED ON NEXT PAGE

(b) S&S quantity and accelerated delivery schedule are identified on an individual item basis, based on the Services' wartime planning requirements. The surge quantities are identified by Monthly Wartime Rate (MWR) as a percentage or an exact number. The S&S quantity and delivery requirements are above and beyond the peacetime requirements.

(c) S&S capability assessment plan (CAP), (previously referred to as the "Surge Plan"). The CAP provides the offeror's method of covering S&S requirements; identification of competing priorities for the same resources, and date the Contractor can provide the required S&S capability. If any of the S&S quantity and delivery requirements cannot be met, the offeror must identify the shortfall and provide the best value solutions to include a proposed investment strategy to offset the shortfall. For example, the CAP may include, but is not limited to, one of the following scenarios to address wartime delivery requirements:

(1) The S&S quantity and delivery requirements can be fully covered within the supplier's resources.

(2) The S&S delivery schedule can be fully covered with early deliveries due to unit pack shipping (e.g., S&S quantity and delivery requirements is for 10 feet of wire every 30 days, and the wire is sold to the government in 100 foot rolls. A single delivery of one roll in the first 30 days would meet the requirement for ten 30-day delivery periods).

(3) The total S&S quantity and delivery requirements can be met but at a different delivery rate, and the supplier has no cost-effective investment strategy that would improve the capability to deliver according to the quantity and delivery requirements (e.g., the schedule calls for 20 o-ring seals each 30-day period, but the vendor needs a 30 day ramp-up and could deliver 40 in the second period and 20 each delivery period thereafter).

(4) The total S&S quantity and delivery requirements can be met but at a different delivery rate, and includes an investment strategy that would improve the supplier's capability to deliver according to the MWR or D1-D6* (e.g., the schedule calls for 20 seals each 30-day period, and the vendor can meet the schedule starting in the third ordering period but needs a Government investment to be capable of meeting deliveries in the first two months).

* D1, D2 is D-Day (the day that the contingency begins) plus 1 month D-Day plus 2 months etc.

(5) The S&S quantity and delivery requirements can be partially covered (the supplier can only provide a fraction of the total quantities specified); however, the supplier has no cost-effective investment strategy that would improve the capability to deliver at the MWR.

(6) The S&S quantity and delivery requirements can be partially covered (the supplier can only provide a portion of the MWR or D1-D6 quantities specified), and includes an investment strategy that would improve the supplier's capability to deliver at the MWR.

(7) The S&S quantity and delivery requirements cannot be met with existing resources, and there is no cost effective solution to improve the industrial capability to deliver at the MWR.

(d) Exit strategy. The CAP must include a proposed exit strategy describing how to transition and ramp-down S&S assets and/or Government investment. The exit strategy must be designed to conserve protected S&S resources when (1) the contract expires, (2) a follow-on contract transitions to another supplier and/or (3) the requirement is reduced or eliminated by the requiring customer(s). The exit strategy must consider peacetime demand patterns, production run levels, normal lead-times for raw materials used in the production process, and other relevant factors, and address least cost/best-value alternatives that minimize the risk of unused raw materials or the untimely disposition of other serviceable S&S assets before the contract expires.

(e) S&S validation plan. In most cases, the Government will develop a validation plan prior to verifying the supplier's capability against the required S&S CAP and the Schedule. Upon request, the supplier shall submit a S&S validation plan that defines how the S&S capability can be verified when

(1) complex industrial and manufacturing processes are involved, or

(2) the supplier methodologies for gaining visibility over supplier base capabilities within an existing structure to enable a more cost effective alternative. In any case, a validation/test plan will be developed prior to any validation/testing of the supplier's S&S capability.

(f) Agreement to participate in S&S validation. By submission of an offer, the supplier agrees to participate in S&S validation as required by the Government to verify the S&S capability as described in the approved CAP. Validation may include any methodology that can verify the supplier's S&S capability. Validations will be conducted on randomly selected items by the Industrial Specialist after contract award and may be conducted throughout the contract period. Validation includes, but is not limited to, verification that the supplier and any subcontractor(s) have sufficient equipment, facilities, personnel, stock, pre-positioned raw material, production capabilities, visibility of supplier base resources and agreements, networks and plans for distribution (receiving, storing, packaging and issuing) and transportation services to accommodate the S&S requirements in the contract. This validation includes examination of any in-house work, review of the stock rotation plan (if applicable), and other contracts that impact the production of any added or accelerated quantities. The Government reserves the right to require validation using other

methodologies when deemed appropriate by the Contracting Officer. The language in this clause does not limit the Government's right, at any time after award, to perform inspections or validate the supplier's S&S capability.

(g) Supplier notification of S&S capability changes. The supplier agrees to maintain S&S capability to produce and/or deliver the S&S quantity identified in the Schedule of Supplies in accordance with the approved CAP and S&S terms and conditions throughout the life of the contract. Changes that negatively impact S&S capability must be reported in writing to the Contracting Officer within ten (10) working days after the supplier becomes aware of such an impact. Such notification must include a revised S&S CAP with the supplier's proposed corrective action(s) and date when the supplier can attain the required S&S capability. Refer to 52.217-9007(a) for instructions on submitting changes to the CAP.

(h) Government changes, Additions and Deletions to S&S Coverage. The identification of new S&S items in the peacetime schedule or increases in quantities of items already in the S&S schedule must be done through bilateral contract modifications. Deletion of S&S requirements or decreases in quantities will be made by the Government through unilateral contract modifications. The government reserves the right to obtain S&S requirements from other sources without liability to the supplier. This language does not relieve the supplier of the responsibility to provide, in accordance with the applicable delivery schedule, non-S&S and S&S quantities agreed to in the schedule and CAP during the contingency.

(i) Early or unexpected S&S requirements. The supplier shall support S&S requirements to the maximum extent practical (1) prior to the supplier achieving full S&S capability agreed to in the Schedule and the CAP, and (2) for requirements exceeding those agreed upon in the Schedule and the CAP, if agreed to by the Contractor and not exceeding any applicable contract maximum dollar value or quantity. The Government reserves the right to obtain S&S requirements from other sources without liability to the supplier.

(l) S&S execution. The Government will issue a surge order or series of orders equaling the MWR or D1-D6 each month, when executing S&S requirement. S&S orders are in addition to any other requirements included in the contract and do not excuse the Contractor from compliance with orders for non-S&S requirements. The order limitations clause applicable to peacetime requirements does not apply to the surge quantities if it conflicts with the quantity necessary to support a contingency. The Government reserves the right to order less than the MWR or D1-D6 quantity as specified on each surge order. Multiple orders for the same NSN may be issued to support multiple contingencies. The Government reserves the right to order in excess of the MWR or D1-D6 provided the supplier accepts the order.

(1) When a surge order is issued and Government investment is used to establish the S&S capability, the supplier must use funds generated from the order to refresh or replace S&S material (e.g., inventories of lead-time materials, partially finished units, or finished product) consumed within ninety (90) days to support future S&S requirements.

(2) When a surge order is issued and no Government investment is used to establish the S&S capability, the supplier must replace S&S material (e.g., inventories of lead-time materials, partially finished units, or finished product) consumed within ninety (90) days to support future S&S requirements.

(j) Contract expiration or termination. The Contracting Officer will notify the supplier and exercise the approved S&S exit strategy in accordance with the terms and conditions of the contract. The exit strategy must conserve protected S&S resources when (1) the contract expires, (2) a follow-on contract transitions to another supplier and/or (3) the requirement is eliminated by the requiring customer(s). When exercising the exit strategy, the supplier must consider peacetime demand patterns, production run levels, normal lead-times for raw materials used in the production process, and other relevant factors, and address least cost/best-value alternatives that minimize the risk of unused raw materials or the untimely disposition of other serviceable S&S assets before the contract expires.

C. Surge and Sustainment (S&S) Review, Addendum to DLAD 52.217-9008 (Nov 2011)

Surge and sustainment capability is a requirement in this solicitation. The S&S review will be based on the capability assessment plan (CAP), validation plan (if required), surge costs/prices, and S&S performance history (see (c) below). The Government reserves the right to require additional information if necessary. S&S will be reviewed as follows:

(a) CAP. The awardee's CAP will be reviewed and assessed for responsiveness, completeness, technical merit, and S&S performance history (see (c) below). The CAP must demonstrate the awardee's ability to provide the full S&S quantity and delivery requirements as specified in the solicitation; the technical merits of the proposed solutions to any identified shortfalls in S&S quantity and delivery requirements; and the ability to achieve these without Government investment.

(b) Validation plan (if required). The awardee's validation/test plan will be reviewed to determine the extent to which the plan accurately measures the stated capability in the awardee's CAP. If the awardee requests Government investment to conduct the test, the Contracting Officer will make a unilateral determination to whether Government investment will be provided and, if it is, which phase(s) of the S&S capability testing will be funded (e.g., test plan development, testing and/or test plan report).

(c) S&S performance history. The quality and extent of the awardee's historical surge support performance will be considered. In the absence of or in addition to historical S&S capability support, the Contracting Officer may consider other relevant performance history where the awardee demonstrated the ability to quickly respond to and sustain higher than normal production rates or faster than normal delivery requirements, or both.

III. ORDERING RNC COMPONENTS

Orders shall be placed with no less than a 60 day lead time, and must be placed in economic production quantities, unless the component contractor concurs and there is no additional cost.

Orders may be cancelled partially or in total within 15 days of order placement for any reason. Any cancellation after 15 days may only be accepted with the express consent of the component contractor.

Component prices will be based on a FOB Destination basis. Acceleration or delay of any delivery may only occur at no additional cost to the Government and with the consent of the component contractor. Additionally, deliveries must be scheduled to take advantage of economical shipping containers/rates.

FAR 52.216-19 Order Limitations (Oct 1995)

(a) *Minimum order.* When the Government requires supplies or services covered by this contract in an amount of less than *, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) *Maximum order.* The Contractor is not obligated to honor --

(1) Any order for a single item in excess of **;

(2) Any order for a combination of items in excess of ***; or

(3) A series of orders from the same ordering office within 60 days that together call for quantities exceeding the limitation in subparagraph (b)(1) or (2) of this section.

(c) If this is a requirements contract (*i.e.*, includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 60 days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

* The minimum quantity of each line item per delivery order shall meet the Economic Order Quantity (EOQ) preference which covers the minimum material of 14 days of assembly on hand upon the receipt. The EOQ calculation is based on the guaranteed minimum of 2.5 million MRE cases times MRE award percentage times the case count of each bakery item, then divided for 30 days. The table below is an example of the EOQ for the MRE assembler who gets a 35% award share.

MRE 37 National Contract Ration Components - Bakery

** Minimum quantity requirement over 12 months unless Surge & Sustainment is invoked.

*** Aggregate minimum quantity requirement of all items over 12 months.

IV. RNC SPECIAL CONTRACT REQUIREMENTS**Replacement of Defective Components:**

For cases of bulk-packed component items, if upon opening the case or during assembly a number of defective units are discovered in the case which cannot be readily segregated from useable components, e.g. leaking spreads or excessive accessory pack issues, the case shall be removed from the assembly line and upon such verification from the Army Vet Inspector (AVI), the entire case shall be considered defective, and placed on hold. The Contracting Officer shall be given written notice of the defective product including the name and signature of the confirming AVI inspector. The assembler shall include information regarding defective components and replacement of such defective components.

FIFO Requirements:

Components will be utilized in assembly operations on the first-in, first-out (FIFO) basis (or oldest manufacturer's date of pack when receipted). A manufacturer's component lot, described by the Julian date of pack, shall be completely assembled and exhausted before assembling the next component lot.

Bulk Component Packaging:

To assure the unwrapped components are packaged in a satisfactory manner, the following minimum sanitation requirements are established in the performance of any contract awarded:

- a. Strict adherence to Good Manufacturing Practices, in accordance with Code of Federal Regulations (CFR), Title 21, Chapter I, Part 110, is required.
- b. An appropriate level of sanitation will be maintained in the bulk product packaging area in accordance with the facility sanitation program.
- c. Personnel involved in packaging operations will be provided with clean white frocks as needed.
- d. The hands of personnel participating in bulk product packaging operations must be clean at all times and free from sores, cuts, and/or abrasions.
- e. Personnel involved in packaging operations will be required to wear head coverings (hat or hair net) and beard nets, when appropriate.

V. ITEM ADDITIONS/DELETIONS/REPLACEMENTS

Addendum to 52.216-9006 Addition/Deletion of Items (AUG 2005) - DLAD, and as outlined below:

CONTINUED ON NEXT PAGE

A. The Government reserves the right to add new items to the resultant contract(s), through bilateral modification. Pricing for new items will be negotiated with the awardee and must be found fair and reasonable by the Contracting Officer.

B. If multiple awards are made and an awardee defaults on any particular item(s), then the Government reserves the right to delete such item(s) from the defaulted awardee's contract and add those items to another awardee's contract. For another awardee to have such item(s) added to its contract, that awardee must be able to meet all technical acceptability requirements of this solicitation with respect to such item(s). If only two contracts are awarded under this solicitation, the awardee receiving the item(s) must agree to sell the item(s) at the price that such item(s) was/were originally awarded to the defaulting awardee. If more than two contracts are awarded under this solicitation, then the Government will compete the item(s) among the other awardees using LPTA procedures, but the other awardees competing must agree to sell the item(s) at a price no higher than the price that such item(s) was/were originally awarded to the defaulting awardee.

C. The Government reserves the right to unilaterally delete items from the MRE Bakery Program.

D. The Government reserves the right to replace or not to replace any item(s) which have been discontinued or removed from the contract. The Government shall satisfy the guaranteed minimum contract quantity requirements as stated in the contract award.

VI. CONTRACTING AUTHORITY

A. The DLA Troop Support Contracting Officer is the only person authorized to approve changes to, or modifications of, any requirement of the contract. Notwithstanding any provisions contained elsewhere in the contract, said authority remains solely with DLA Troop Support Contracting Officer.

B. In the event the vendor effects any change at the direction of any person other than the DLA Troop Support Contracting Officer, the change will be considered to have been made without authority and no adjustments will be made to cover any costs associated with such change.

VII. NEGOTIATIONS

For the subject acquisition, the Government reserves the right to conduct negotiations. Initial responses to negotiations shall be in a form of communication customary in the industry for transmitting information to include phone, facsimile transmission, letter, in-person and e-mail. Facsimile and e-mail offers are not acceptable forms of transmission for submission of initial proposals or revisions to initial proposals submitted in response to this solicitation. However, as directed by the Contracting Officer, facsimile and e-mail may be used during discussions/negotiations, if discussions/negotiations are held, and for proposal revision(s), including Final Proposal revision(s).

COMPLIANCE WITH APPLICABLE REGULATIONS

1. The Contractor shall comply with 21 C.F.R. Part 110, "Current Good Manufacturing Practice in Manufacturing, Packaging, or Holding Human Food," 21 C.F.R. Part 113, "Thermally Processed Low-Acid Foods Packaged in Hermetically Sealed Containers," and all other applicable federal, state, and local regulations. Also, the Contractor shall ensure that all sub-contractors comply with all applicable regulations.

2. All products shall comply with all applicable federal, state, and local statutory, regulatory, and any other mandatory requirements, including, but not limited to, the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder, relating to the preparation, processing, thermoprocessing, packaging, labeling, packing, storage, and distribution of those products.

PERFORMANCE, PACKAGING AND QUALITY SPECIFICATIONS

1. Unless otherwise specified in this document, the packaging provisions and quality assurance provisions (verifications) for individual component items are cited in their respective PCR, MIL-STDs, MIL-PRFs, PKG&QAPs, and MIL specs.

PRODUCT SANITARILY APPROVED SOURCE REQUIREMENTS

As required by 48 CFR §246.408-70, Subsistence; AR 40-657/NAVSUP 4355.4H/MCO P10110.31H, Veterinary/Medical Food Safety, Quality Assurance, and Laboratory Service; DLAR 4155.3, Inspection of Subsistence Supplies and Services; DLAD 52.246-9044, Sanitary Conditions; and as clarified by the Armed Forces Food Risk Evaluation Committee, all Operational Ration Food Components shall originate from establishments sanitarily approved for supplying the specific food item.

2. Sanitary approval is established by:

Listing in the Worldwide Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement (Worldwide Directory) as established by the Army Public Health Center (USAPHC).

An establishment specifically exempted from listing in the Worldwide Directory by AR 40-657/NAVSUP 4355.4H/MCO P10110.31H paragraph 2-15a(2)(a) through (i).

3. This requirement applies to all CFM Operational Ration food components and all Rations National Contract (RNC) components."

4. Requests for inspection and Worldwide Directory listing by USAPHC will be routed through DLA Troop Support-FTR for coordination and action. Situations involving sole sources of supply, proprietary supply sources, and commercial Brand Name items will be evaluated directly by the Chief, DLA Troop Support-FTR, in coordination with the Chief, Approved Sources Division, USAPHC.

5. In addition to the above, all producers of MRE food components shall be listed in the Worldwide Directory.

NUTRITIONAL REQUIREMENTS

CONTINUED ON NEXT PAGE

A nutritional analysis for each product requiring a PDM shall be provided to the U.S. Army Natick Soldier Research, Development & Engineering Center (NSRDEC) within two weeks of the award of the contract and each time there is a major formulation change.

The Nutritional analysis shall be generated by the Genesis[®] R&D Food Analysis and Labeling Software (ESHA Research, Salem, OR, USA), version 9.0 or higher. The analysis shall be sent electronically to NSRDEC (attn.: Julie Smith (julie.e.smith30.civ@mail.mil)).

The Genesis[®] food list files shall be provided for a 100 gm portion.

Genesis[®] food item files shall be included in the analysis file.

The ingredients and weight of each ingredient shall be included for each formulation.

Nutrients included shall be:

Nutrient	Measurement	Nutrient	Measurement
Weight	gram	Kilocalorie	C
Protein	gram	Carbohydrate	gram
Dietary Fiber	gram	Fat (Total)	gram
Cholesterol	milligram	Fat (Saturated)	gram
Water	gram	Fat (Monounsaturated)	gram

Calcium	milligram	Folate	microgram
Iron	milligram	Selenium	milligram
Phosphorus	milligram	Magnesium	milligram
Sodium	milligram	Potassium	milligram
Zinc	milligram	Iodine	microgram
Fluoride	milligram		

The nutrients as required under the Nutrient Content paragraph and the verification of the nutrients as required under the Methods of Inspection paragraph in each specification is mandatory.

Nutrient measurements shall be to the first decimal.

INTEGRATED PEST MANAGEMENT PROGRAM REQUIREMENTS

The "Integrated Pest Management (IPM) Program Requirements for Operational Rations," of April 2011 is applicable to this DLA Troop Support Subsistence contract, except as specifically exempted in this solicitation/contract. The IPM program shall be in existence prior to contract award. The IPM plan and the associated pesticide labels and MSDS documents are to be submitted to DLA Troop Support. The contractor shall have these documents available for on-site review during a Quality Systems Management Visit (QSMV) or Quality Systems Compliance Audit. Evidence of any insect, rodent or pest infestation discovered in contact with materials or equipment used in the production of or found in an end-item component or assembly lot shall be cause for rejection of the involved lot. DLA Troop Support shall be

notified when such pest activity has been found and informed of the corrective actions taken. IPM program requirements are found on the DLA Troop Support website at:
<http://www.dla.mil/TroopSupport/Subsistence/FoodSafety/FoodQuality.aspx>

FOOD DEFENSE

The submission and implementation of a Food Defense Plan is required for this DLA Troop Support Subsistence contract. A Food Defense Plan shall be in existence prior to start of production. The plan shall address those areas of concern listed in the DLA Troop Support Food Defense Checklist applicable to the contractor's facility/operation. To download a copy of the DLA Troop Support Food Defense Checklist, <http://www.dla.mil/TroopSupport/Subsistence/FoodSafety/FoodQuality.aspx> or contact the applicable DLA Troop Support Contracting Officer or the Quality Audits & Food Defense Branch (DLA Troop Support-FTSB). Submit Food Defense Plans to the applicable DLA Troop Support Contracting Officer. The Quality Audits & Food Defense Branch (DLA Troop Support-FTSB) is the only DLA Troop Support office authorized to review and approve Food Defense Plans. All Food Defense Plans are maintained and secured by FTSB.

CONTRACTOR SANITATION PROGRAM

1. The "Contractor Sanitation Program – Operational Rations," of November 2015 is applicable to this DLA Troop Support Subsistence contract, except as specifically exempted in this solicitation/contract. The Contractor Sanitation Program shall be in existence prior to contract award. The program is not to be submitted to DLA Troop Support unless specifically requested by the applicable DLA Troop Support Contracting Officer. The contractor shall have the program available for on-site review during a QSMV or Quality Systems Compliance Audit. Evidence of any insect, rodent or pest infestation; foreign material; or contamination discovered in contact with an end-item component or assembly lot shall be cause for rejection of the involved lot. Contractor Sanitation Program requirements are found on the DLA Troop Support website at:

<http://www.dla.mil/TroopSupport/Subsistence/FoodSafety/FoodQuality.aspx> ADDITIONAL REQUIREMENTS

2. In view of the fact that the ANSI/ASQC Z1.4 Standard does not contain the definitions for critical, major, and minor defects, the following definitions become contractually binding through their inclusion here:

Critical defect: A critical defect is a defect that judgment and experience indicate would result in hazardous or unsafe conditions for individuals using, maintaining, or depending on the item; or a defect that judgment and experience indicate is likely to prevent the performance of the major end item, i.e., the consumption of the ration.

Major defect: A major defect is a defect, other than critical, that is likely to result in failure, or reduce materially the usability of the unit of product for its intended purpose.

Minor defect: A minor defect is a defect that is not likely to reduce materially the usability of the unit of product for its intended purpose, or is a departure from established standards having little bearing on the effective use of operation of the unit.

Age of ingredients: Contractors formulating and producing end-item operational rations food items, and for each item that is manufactured, shall maintain a list of ingredients (generic name, brand name, producer name, or supplier name in case of bulk packed plant or animal ingredients, country of origin) and the time and temperature serviceability limitations the contractor will impose on each ingredient. Each ingredient's time limitation is to be calculable using its date of pack as the starting point. A copy of

CONTINUED ON NEXT PAGE

this list will be made available to the Contracting Officer or to the USDA upon either's request. This paragraph does not modify time and/or temperature limitations specified for ingredients elsewhere in this solicitation/contract, including its technical data package and product specifications.

Ingredients from foreign sources: When ingredients are from a foreign country, the contractor shall have that ingredient listed on their "Master List of Ingredients from Foreign Sources". For each ingredient, the Master List shall list the ingredient, the country of origin, and the product(s) in which the ingredient is used. The Master List shall be updated as necessary. The Master List shall be provided to the in-plant Government's Quality Assurance Representative (GQAR) and, upon request, to DLA Troop Support Contracting Officer."

Rations National Contract RNC deliveries and USDA/USDC certification: All deliveries of USDA/USDC inspected Rations National Contract (RNC) product shall be USDA/USDC certified. USDA/USDC certificates shall accompany each delivery, however, assembler's may elect to receive deliveries based upon certificate facsimiles (faxes, scans, etc.) offered as preliminary evidence of actual USDA/USDC certification. RNC product that requires USDA/USDC certification shall not be accepted without the appropriate USDA/USDC certification.

G. SHIPPING AND COMINGLING OF LOTS:

Formation of Lots: In order to facilitate lot traceability at the assembler's plant, the following is required:

1. Lots shall be shipped on a first produced (and accepted) first out basis. No product shall be older than three months at time of shipments, except when a product at the manufacturer's plant is pending disposition instructions and/or action (request for waiver, deviation, rework, reinspection, etc) and/or as authorized by the Contracting Officer.
2. Each shipping case shall normally contain only one manufacturer's lot. If a partial shipping case remains at the end of the production day, dunnage shall be used to fill the remainder of the case and the outside of the case shall be marked indicating the number of pouches/items within. See the following sub-paragraph entitled "Mixed Code Lots" for exception.
3. Each unit load shall contain only one production lot, as a rule. However, when a partial unit load remains at the end of a production day, the contractor is permitted to complete the unit load with another lot's material. In this instance a unit load may consist of two lots to facilitate shipment.
4. When two lots are incorporated on one pallet, the lots shall be distinctly separated by the use of paper or other material suitable for this purpose. When this occurs, the contractor shall affix a unit load placard on two adjacent sides of the unit load, identifying each lot number on the load and the quantities of pouches/items within each lot.
5. Assemblers shall assemble one (1) component lot at a time, i. e., one (1) component lot shall be used at each assembly line until it becomes necessary to place another lot of the same component on the assembly line to maintain assembly flow.
6. Lot numbers and corresponding lot quantities shall be included on the shipping/receiving documentation. Thermostabilized items, water activity stabilized items and cheese spread shall also cite subcodes delivered.

B. Mixed Code Lots: In addition to the above, the following requirements shall apply to the shipment of "mixed code lots":

A "mixed code lot" is defined as a lot consisting of small quantities of components representing different lots. These components usually accumulate as the result of sampling for the purposes of incubation, USDA standby samples or for similar reasons. Unit loads containing mixed code lots shall be identified by the use of unit load placards. The placards shall list all the lots and the quantities of pouches/items within each lot contained on the pallet. The placards shall be affixed on two adjacent sides of the unit load. Lot numbers and corresponding lot quantities shall also be included on the corresponding shipping/receiving documentation.

Mixed code lots shall be periodically shipped to the assembler(s). Mixed code lots shall be shipped only when an entire unit load is completed of that single item or on a quarterly basis, whichever occurs first. Mixed code lot shipments may be less than a full unit load.

When the quantity of components from one production lot is less than that needed to fill a normal shipping container, product from more than one production lot may be used to fill a case. However, product from one production lot may not be used to partially fill more than one case. When a shipping case contains product from more than one production lot, a placard will be placed on the outside of the case that indicates the lot number and quantity for each lot.

C. Split Lots: Origin manufacturers have the choice of shipping an entire shift's production equaling one lot as follows:

1. The entire lot shall be shipped to only one assembler and received in accordance with the applicable Quality Systems Plan.
2. Whole lots may be split in two (2) portions for separate shipments.
 - (1) Split lot shipments may be shipped to more than one (1) assembler but not more than two (2) assemblers.
 - (2) No lot shall be split into more than two (2) portions and splitting individual subcodes is prohibited.
 - (3) Prior to splitting the lot for separate shipments, the lot shall be contractor and USDA inspected as one homogeneous lot, when origin USDA inspection is required.
 - (4) The origin manufacturer assumes full liability for both portions of a split lot shipment. Therefore, in the event of a defect determination, recall, product investigations, and/or other negative findings, both portions of the lot will be representative of the entire homogeneous lot and any action taken with regard to one portion will be taken with regard to the other portion, regardless of where the product was assembled.
 - (5) Associated lot shipping documentation will reflect split lot status, original lot quantities, and receipt inspection results.
 - (6) Both portions of all split lots will be stored in approved facilities only."

IX. PACKAGING/LABELING/PACKING/UNITIZATION/MARKING

A. PACKAGING: In accordance with PACKAGING of applicable Performance-based Contract Requirements (PCR) document(s).

B. LABELING: In accordance with LABELING of applicable Performance-based Contract Requirements (PCR) document(s).

C. PACKING: Not more than 40 pounds of product shall be packed in a fiberboard shipping box constructed in accordance with style RSC-L of ASTM D5118/D5118M, Standard Practice for Fabrication of Fiberboard Shipping Boxes. The fiberboard shall conform to type CF, class D, variety SW, burst grade 200 or ECT grade 32 of ASTM D4727/D4727M, Standard Specification for Corrugated and Solid Fiberboard Sheet Stock (Container Grade) and Cut Shapes. Each box shall be securely closed in accordance with ASTM D1974/D1974M, Standard Practice for Methods of Closing, Sealing, and Reinforcing Fiberboard Boxes.

D. UNITIZATION: In accordance with paragraph 5.1.5 of ASTM D 3951 "*Standard Practice for Commercial Packaging*".

E. MARKING: Shipping containers shall be marked in accordance with DLA Troop Support Form 3556, Marking Instructions for Boxes, Sacks, and Unit Loads of Perishable and Semiperishable Subsistence.

Food and Drug Administration (FDA) Compliance - DLA Troop Support and Subsistence

If any supplies acquired hereunder are recalled under the provisions of the Federal Food, Drug and Cosmetic Act, and regulations there under, the Contractor shall, at the Government's option, either reimburse the Government or repair/replace the recalled supplies. Additionally, the Contractor shall notify the Contracting Officer immediately when a

CONTINUED ON NEXT PAGE

firm decides to voluntarily recall or withdraw any product from the marketplace. Upon notification by the Contracting Officer that supplies acquired hereunder have been recalled, the Contractor shall either (a) accept certificates of destruction from the Government after the supplies have been properly disposed of, (b) request return of the supplies, or (c) if supplies may be repaired on site without transporting them from their location, furnish all materials necessary to effect repairs. Replacement or reimbursement will be accomplished by the Contractor immediately on receipt of Certificates of Destruction or returned supplies. The costs of replacement or repair of supplies, and transportation and handling costs for movement of returned, replaced or repaired supplies within the contiguous United States shall be paid by the Contractor. The provisions of this clause are applicable only when the value of the recalled supplies in the possession of the Government amounts to \$100 or more. The rights and remedies of the Government provided in this clause are in addition to, and do not limit, any rights afforded to the Government by any other clause in the contract.

X. INSPECTION AND ACCEPTANCE REQUIREMENTS

FAR Clauses 52.246-2 and 52.246-11 are applicable to this solicitation/contract and shall be cited to properly enforce the Higher Level Contract Quality requirements.

Origin inspection shall be contractor-paid, United States Department of Agriculture, Agricultural Marketing Service, Fruit and Vegetable Program, Specialty Crops Inspection Division (USDA,AMS) inspection in accordance with DLAD Clause 52.246-9023, General Inspection Requirements, unless otherwise specified by this solicitation/contract. When USDA, AMS is designated cognizance for the support of the Government's quality assurance requirements, the responsibilities and authorities cited in the regulations, policies, etc. of the respective agency and those regulations, policies, etc. to which that agency is subject, are applicable to the contract in conjunction with the quality assurance requirements of the contract. Optional contractor testing provided by DLAD Clause 52.246-9024, Alternative Inspection Requirements for Selected Items, is applicable unless otherwise specified by this solicitation/contract. Optional contractor testing provided by DLAD Clause 52.246-9024, Alternative Inspection Requirements for Selected Items, is not applicable to microbiological testing.

Those quality assurance provisions (product, packaging, packing, and regulatory requirements, procedures, and inspections) specified in this solicitation, and, as amended by this solicitation, those quality assurance provisions specified in the applicable component's technical requirements documents (ex. MIL-PRF-44073, Performance-based Contract Requirements (PCR)) are required for contractor and United States Department of Agriculture, Agricultural Marketing Service, Fruit and Vegetable Program, Specialty Crops Inspection Division (USDA-AMS) inspection.

DLAD 52.246-9023 is incorporated by reference in this solicitation and the resultant contract(s). In addition, the following procedures will be used for inspection and acceptance. If there is a conflict between the following inspection and acceptance procedures and those stated in DLAD 52.246-9023, then the, the procedures for inspection and acceptance will be as follows:

X.1. Quality Assurance Requirements for Ration Component Production Plants and Ration Sub Assembly and Assembly Plants.

X.1.A. Higher Level Quality Requirements - Documented Quality Systems Plan (QSP)

The contractor shall model the documented QSP after ISO/ANSI/ASQ 9001, a system that meets other recognized industry quality standards, or a process control system that is equivalent to or better than ISO/ANSI/ASQ 9001. The contractor shall identify the quality standard used to model their QSP. If the contractor proposes an alternate (i.e., non-standard) process control system, this shall be clearly stated in the QSP. Some contractors may have third party certification of their quality system, which the private sector devised to administer the ISO series standards. However, certification by any third party, to include Government certifications, is not required. Whether or not contractors want to use third party certification is completely optional on their part. Although certification information may be provided as documentation and evidence to support the system proposed by the contractor, third party certification/registration documentation is not a substitute for government quality assurance with regard to components used in the operational ration programs. Regardless of the standard or non-standard document used to model the documented QSP, the documented QSP shall address, at a minimum, the following elements (within each section of the element the

CONTINUED ON NEXT PAGE

contractor shall provide the information and address the questions, as applicable, listed in Operational Rations Quality Systems Audit Workbook I: Documented QSP Evaluation Guideline):

QSP General Outline

- I.** MANAGEMENT RESPONSIBILITY AND QUALITY SYSTEM DESIGN
- II.** TRAINING
- III.** DOCUMENT AND DATA CONTROL AND CONTROL OF QUALITY RECORDS
- IV.** CONTROL OF INSPECTION, MEASURING, AND TEST EQUIPMENT
(IAW NCSL Z540.3 or ISO 10012)
- V.** CONTROL AND PROTECTION OF PRODUCT
 - 1. Handling, Storage, Packaging, Preservation, and Delivery Program
 - 2. Product Identification and Traceability Program
 - 3. Inspection and Test Status and Records
 - 4. Control of Nonconforming Material/Product
- VI.** CONTRACT REVIEW, PURCHASING AND CONTROL OF CUSTOMER-SUPPLIED PRODUCT (Government-furnished material)
- VII.** RECEIPT INSPECTION AND TESTING
- VIII.** IN-PROCESS AND PROCESS INSPECTION AND TESTING:
 - 1. Manufacturing Process Control Techniques (MPC QAP)
 - 2. Statistical Process Control Techniques (SPC QAP)
- IX.** REGULATORY CONTROLS
 - 1. General Regulatory Requirements (as applicable to the plant USDA-FSIS, FDA, GMP, HACCP, SSOP, USDA-Dairy, etc.).
 - 2. Integrated Pest Management and Sanitation Programs*
- X.** END ITEM INSPECTION AND TESTING (IAW product/material specifications/documents and ANSI/ASQ Z1.4)
- XI.** INTERNAL AUDITS
- XII.** CORRECTIVE AND PREVENTIVE ACTION PROGRAM
- XIII.** IMPROVEMENT

*** Integrated Pest Management Plan (IPM) and Contractor Sanitation Program:** Even though the IPM Plan is required to be submitted, the questions concerning the facility's IPM listed in Section IX Regulatory Controls, Area 2 of the Quality Systems Audit Workbook I must be addressed within the QSP. Both the IPM Plan and Sanitation Program (Contractor Sanitation Program- Operational Rations, November 2015) must be in place at time of award and shall be made available for onsite review.

The documented QSP will be evaluated by the Operational Rations Quality System Audit Team (composed of DLA Troop Support-FTSB and USDA-AMS, Quality Systems Auditors), USDA-AMS Operational Rations Program Coordinator, and the Government In-Plant Quality Assurance Representatives (QAR) assigned to perform Government QA functions at contractors' facilities. Government personnel will use the Operational Rations Quality Systems Audit Workbook I: Documented QSP Evaluation Guideline (in conjunction with the standard or other document identified in the contractor's QSP) as the basic framework against which they will evaluate QSPs. Workbook I was developed to standardize the evaluations of documented QSPs submitted by contractors for the purpose of demonstrating their capability to meet the higher-level contract quality requirements using any of the aforementioned documents and for the contracting officer to assess a contractor's capability to meet the contract requirements.

Note: Although Government inspection personnel (USDA-AMS) are required to evaluate the contractors' QSPs, the QSP rating will be determined and assigned by DLA Troop Support-FTSB's Quality Systems Auditors.

Offerors/Contractors can request a copy of Workbook I by contacting the applicable contracting officer or DLA Troop Support-FTSB. Workbook I is also available online in PDF format at the following website:
<http://www.dla.mil/TroopSupport/Subsistence/FoodSafety/FoodQuality.aspx>

DLA Troop Support will recognize a contractor's quality system whenever it meets the contract requirements, whether the quality system is modeled on military, commercial, national, or international quality systems standards. The design and

CONTINUED ON NEXT PAGE

implementation of a QSP will be influenced by the varying needs of a company, its particular goals and objectives, the products produced, and the processes and specific practices employed in the operation. The intent of the requirement is for contractors to improve process capability and process control which, when used effectively, can result in a prevention-oriented approach rather than a detection approach that will improve product quality and lower cost through the use of a single quality system in any contractor facility.

A documented QSP is required when a contract references or requires a contractor to perform under the higher-level contract quality requirements. Contractors are responsible for complying with the quality system requirements set forth in their documented QSP in addition to all detailed requirements cited in the contract and for furnishing products that meet all requirements of the contract. Contractors are required to establish, document, submit for Government review, and maintain a quality system as a means of ensuring that product conforms to the requirements of the contract. The documented QSP shall include the quality system procedures and outline the structure of the documentation used in the quality system. When the requirements of the Statistical Process Control Quality Assurances Provision (SPC QAP) and/or the Manufacturing Process Controls and In-Process Inspection Quality Assurances Provision (MPC QAP) are applicable, these requirements must be addressed under the In-Process and Process Inspection and Testing section of the documented QSP. Redundant areas/requirements (cited in the MPC or the SPC QAPs) need only be addressed once in the QSP. The calibration of measuring and testing equipment shall, as a minimum, adhere to the requirements of NCSL Z540.3 or ISO 10012.

The Higher Level Contract Quality Requirements, Manufacturing Process Controls (MPC), and Statistical Process Controls Quality Assurance Provision (SPC QAP) apply to all CFM and RNC food components and Sub Assembly and Assembly Operations, except as indicated below:

A. The following items are exempt from the Higher Level Contract Quality Requirements, MPC QAP and the SPC QAP (No QSP required): 1. Accessory package components 2. Condiments (even if packaged in laminated barrier pouches): hot sauce; ketchup; mayonnaise; mustard; etc. 3. Bulk packed items: beef snacks; ranger bar; First Strike bars; osmotic fruit; cookies (CID A-A-20295, PCR-C-031); almonds, roasted; cashews, roasted; peanuts, roasted; snacks (CID A-A-20195); commercial sandwich crackers/cookies; and bulk packed items procured using the commercial components solicitation (e.g., candies).

Note: Bulk packed, as used in this paragraph, means packing prior to finished product packaging. However, note that this does not prohibit the prime contractor on their own accord from requiring a QSP from their subcontractors for all products.

B. A QSP is required but SPC techniques are optional for the following items: Beverage bases, cheese spreads, cookies (CID A-A -20295, PCR-C-031), dairy component powders (cocoa beverages, dairy shakes, flavored coffees, non-dairy creamer, etc.), nut raisin mixes, peanut butter, peanut spread, jellies/jams/preserves, and bulked-packed items that are individually packaged by an assembler/packer in military packaging (laminated barrier pouches). However, note that this does not prohibit the prime contractor from requiring SPC techniques from their subcontractors for all products on their own accord.

NOTE: TO THE EXTENT OF ANY INCONSISTENCY BETWEEN THE CONTRACT OR ITS GENERAL PROVISIONS AND A CONTRACTOR'S QSP AND/OR IMPLEMENTED QUALITY SYSTEM, THE CONTRACT AND THE GENERAL PROVISIONS SHALL CONTROL.

The QSP shall be submitted to DLA Troop Support-FTSB, through the Contracting Officer, for review no later than at time of bid submittal. The QSP shall be DOCUMENTED, DATED, AND SIGNED BY A RESPONSIBLE COMPANY OFFICIAL and WILL BE DISTRIBUTED UNDER COMPANY LETTERHEAD TO THE ADDRESSEES BELOW:

A. ONE COPY SHALL BE MAILED **(AT TIME OF BID SUBMITTAL)** TO:

Aforementioned Government inspection personnel and In-Plant Government QARs shall fax, e-mail, or mail (via priority mail) their evaluations and comments regarding the contractor's QSPs and/or QSP's revisions, **within 20 calendar days** from the day of receipt of the QSP/revision.

Failure to submit comments within the suspense date may result in DLA Troop Support-FTSB Quality Systems Auditors not including the applicable inspection agency's comments in Government QSP joint evaluations. In-Plant Government QARs are also required to report quality systems noncompliance within one working day using the Corrective Action Request (CAR) Form. QSP evaluations and CARs shall be faxed to the DLA Troop Support -FTSB Operational Rations Quality Systems Audit Team at fax number (215) 737-0379, the current DLA Troop Support-FTSB's group mailbox (SubsitenceQualitySystems@dla.mil), or mailed to the following address (the preferred and most expeditious method is via E-mail or fax):

During the Acquisition Phase (prior to contract award): A QSP must be submitted as part of an offeror's proposal. However, if an offeror has previously submitted a QSP under a similar acquisition or contract, then the offeror may reference that QSP by date and only submit changes (if deemed necessary by the offeror) with the proposal for this solicitation. The QSP may be reviewed and discussed with offerors prior to award, but the QSP will not be evaluated as part of the award decision or be used to make a responsibility determination. However, failure to submit or reference an existing QSP may make an offeror ineligible for award.

After the Acquisition Phase: After the Acquisition Phase (after contract award), DLA Troop Support-FTSB will assign the contractor's QSP a rating of acceptable, marginally acceptable or unacceptable. If a contractor's QSP is rated unacceptable, the QSP must be revised to receive, at a minimum, a marginally acceptable rating within 45 days of the contract award date. Failure to receive at least a marginally acceptable rating within 45 days of contract award will be a breach of the contract for which the Government may exercise its available rights, including, but not limited to, terminating the contract. The contractor can submit changes to improve the plan throughout the life of the contract.

DLA Troop Support-FTSB Quality Systems Auditors evaluate, assign QSP ratings, and approve or disapprove changes to the QSP. QSP procedures or changes to a QSP that may involve a change to a specific contractual requirement (cited in the contract TDP/ items specification/CID) must be coordinated and approved by the Contracting Officer. To expedite the evaluation process, all QSP changes (that do not involve a specific contractual change) shall be simultaneously provided to the In-Plant GQAR and a copy faxed, E-mailed, or mailed to DLA Troop Support-FTSB and each applicable office for their review. The GQAR's in-plant evaluation will be considered sufficient for production, unless specifically rejected by DLA Troop Support-FTSB after the contractor submits the change to DLA Troop Support. The contractor's documented QSP is considered a living document and continuous improvements are highly encouraged.

Implementation, compliance, effectiveness, and continuous improvement of the QSP (implemented quality system) and the Food Defense Plan will be monitored by on-site quality systems compliance audits conducted throughout the life of the

CONTINUED ON NEXT PAGE

contract by the Operational Rations Quality Systems Audit Team and evaluations/internal audits conducted by the In-Plant Government QARs.

If a contractor fails to submit an acceptable QSP or copies of their QSP's revisions to the Government for review or does not comply with other requirements of the contract, the Government may decline to perform verification acceptance inspection at that time and/or refuse to accept any product produced in accordance with FAR 46.102 and 46.407. Additionally, the Government may also withdraw the acceptance of a QSP during the contract period if it is determined that the contractor has not implemented, complied with the documented QSP, or the implemented quality system is not sufficient to meet minimum contractual requirements.

Note: DLA Troop Support-FTSB and/or the Government QARs shall immediately notify the Contracting Officer of all noncompliance to specific contractual requirements. DLA Troop Support-FTSB will notify and/or obtain contracting officer's support/involvement when a contractor fails to comply with the approved documented QSP requirements or fails to respond to quality systems deficiencies noted during an on-site compliance audit or evaluations/audits conducted by In-Plant Government QARs.

The offeror/contractor agrees to maintain current, and make available, all documents and/or records required by the documented QSP for Government review at any time throughout the life of the contract and for three years after final delivery on the contract (to include any documents/records maintained by any subcontractor used by the prime contractor to fulfill a Government contract).

Note: The procedures of how a contractor intends to comply with the requirements of the MPC QAP or the SPC QAP, as applicable, shall be covered in the In-Process and Process Inspection and Testing Section of the contractors' documented QSP/Quality Manual. If the contractor uses a different/numbering system than the Section/Element number cited in the TDP, the contractor's should cross-reference each applicable section of their QSP.

FOOD DEFENSE PLAN (FDP). The DLA Troop Support Subsistence Directorate provides world-wide subsistence logistics support during peacetime as well as during regional conflicts, contingency operations, national emergencies, and natural disasters. At any time, the United States Government, its personnel, resources and interests may be the target of enemy aggression to include espionage, sabotage, or terrorism. This increased risk requires DLA Troop Support to ensure steps are taken to prevent the deliberate tampering and contamination of Operational Rations.

As the holder of a contract with the Department of Defense, the Contractor should be aware of the vital role they play in supporting our customers. It is incumbent upon the Contractor to take all necessary actions to secure product produced for and delivered to all DLA customers. The Government strongly recommends that all firms review their food defense plans relating to plant security and security of the products produced in light of the heightened threat of terrorism, and secure product from intentional adulteration/contamination.

The Contractor shall comply with its Food Defense Plan (as submitted as the Food Defense portion under this contract solicitation) to prevent product tampering and contamination, and assure overall plant security and food safety. The Contractor must take all practicable measures that are within its control to deter or prevent tampering or contamination of supplies provided for under this contract solicitation. The Contractor must immediately inform DLA Troop Support Subsistence of any attempt or suspected attempt by any party or parties, known or unknown, to tamper with or contaminate subsistence supplies.

Food Defense Plans will be evaluated to ensure compliance with the DLA Troop Support Food Defense Checklist. A copy of the Checklist is available online at <http://www.dla.mil/TroopSupport/Subsistence/FoodSafety/FoodQuality.aspx> or through the applicable Contracting Officer or the DLA Troop Support Quality Audits & Food Defense Branch at 215-737-8656.

Note: The Food Defense Plan may be modified at any point prior to contract start-up/implementation or during the period of performance. Whenever a change is made to the Food Defense Plan, it shall be submitted to the Contracting Officer for evaluation.

DLA Troop Support-FTSB will conduct Food Defense Audits/reviews during Compliance Audits and/or other visits to verify the implementation, compliance and effectiveness of the firm's Food Defense Plan.

CONTINUED ON NEXT PAGE

Note: If more than one facility under direct control of the contractor will be used to produce and/or store product, a separate Food Defense Plan for each facility must be submitted. A completed DLA Troop Support Food Defense Checklist, by itself, is not a Food Defense Plan but may be included as part of the Plan.

X.1.B. The following is applicable to this contract:

QUALITY ASSURANCE PROVISION

MANUFACTURING PROCESS CONTROLS AND IN-PROCESS INSPECTIONS

This clause supplements process control guidance of the International Organization for Standardization (ISO)/American National Standards Institute (ANSI)/American Society for Quality (ASQ) 9000 Series standard, or equivalent standards with process controls, and is applicable when the contract requires a higher-level quality system in accordance with Federal Acquisition Regulation (FAR) 46.202-4. The Contractor shall:

a) Ensure that all manufacturing operations are carried out under controlled conditions which will adequately assure that product characteristics and criteria specified by contract are achieved and maintained in the produced item. Controlled conditions include documented process control and in-process inspection procedures, adequate methods for identifying and handling material, and adequate production equipment and working environments.

b) As a minimum, perform inspections, examinations and/or tests, during manufacturing on those product characteristics which cannot be inspected at a later stage, and ensure that process controls are implemented and effective.

1) Manufacturing processes shall be evaluated to determine which process characteristics have an effect on the quality of the produced item. These manufacturing processes shall be identified and requirements for their control shall be specified in written process control procedures.

2) When in-process inspection of material is not practical, control by monitoring processing methods, equipment, and personnel shall be provided. Both in-process inspection and process monitoring shall be provided when control is inadequate without both.

3) Prompt corrective action shall be taken when noncompliance or out of control conditions occur.

c) Clearly identify each in-process inspection and process control point at appropriate locations in the manufacturing operation.

d) Prepare clear, complete, and current written procedures for:

1) Each in-process inspection. Identify: the type, frequency, and amount (sampling plan/100 percent) of inspection; product characteristics to be inspected; criteria for approving and rejecting product; the record for documenting inspection results; and the method for identifying the inspection status of approved and rejected product.

2) Each process control. Identify the criteria, frequency, and records used verifying control of the process.

3) Assessing the adequacy of in-process inspections and process controls. The Contractor's quality organization shall assure by periodic surveillance that procedures are followed and are effective. Records of this surveillance will be maintained.

e) Make the documented inspection system available for review by the Government Quality Assurance Representative prior to the initiation of production and throughout the life of the contract. The Government is under no obligation to perform verification inspection or to accept product produced under the contract until the Government has received acceptable written procedures, and has been afforded the opportunity to evaluate the inspection system. Acceptance of the Contractor's inspection system by the Government does not bind the Government to accept any nonconforming supplies that may be produced by the Contractor. Periodic evaluations of the system may be made by the Government throughout the life of the contract.

X.1.C. The following Statistical Process Control Quality Assurance Provision (SPC QAP) applies to this contract:

QUALITY ASSURANCE PROVISION

STATISTICAL PROCESS CONTROLS

DLA Troop Support FT-12-001

The requirements of this QAP shall be addressed in the Documented Quality System Plan (QSP) when applicable. Redundant areas/requirements cited in this QAP or the MPC Clause need only be addressed once in the In-Process and Process Inspection and Testing Section and/or other applicable section of the contractors' documented QSP/Quality Manual. The characteristics requiring control will be those characteristics providing the best assurance of product conformance to end item contractual requirements. Therefore, the techniques (SPC/MPC) selected to control the

CONTINUED ON NEXT PAGE

processes shall be those that can best and most effectively/efficiently control the characteristics identified and provide the best assurance that the system implemented will consistently produce product conforming to contractual requirements. If the contractor uses a different/numbering system than the Section/Element number cited in the TDP, the contractor's QSP should cross-reference each applicable section/element of their QSP.

I. General Requirements:

A. The offeror/contractor agrees to manage and improve process performance through the evaluation of the quality of the product at the prime contractor and, when required by contract, at subcontractor facilities, using SPC techniques or MPC techniques.

B. Minimum criteria are established in the American Society of Quality (ASQ) standards B.1, B.2 and B.3 (formerly the ANSI standards Z1.1, Z1.2, and Z1.3). Alternate SPC techniques such as short run methods are also allowed where applicable.

C. This QAP applies to all work performed at the prime contractor and, when required by contract, at subcontractor facilities. However, in those instances where it is not required of the subcontractor by contract, it does not prohibit the prime contractor from requiring it from their subcontractor of their own accord.

D. The implementation of SPC techniques (or alternate MPC techniques) and procedures shall be prepared in accordance with this provision and included in the documented QSP. Each offeror shall address the requirements of this QAP in their documented QSP (Section/Element VIII) and included with the proposal, when applicable. Failure to do so may result in rejection of the offer.

E. Exclusion of documented QSP submission: If an offeror has previously submitted a QSP, the offeror may reference that QSP by date and only submit changes (if deemed necessary by the offeror) with the proposal for this solicitation.

1. Offerors who consider themselves eligible for exclusion of the documented QSP at bid submittal, based on utilization of a previously submitted QSP for identical or similar supplies, are to submit a written request for exclusion (RFE) to the Procuring Contracting Officer (PCO).

The offeror shall identify in the RFE the contract number(s) under which the supplies were previously furnished by them and accepted by the Government; and the applicable item nomenclature and National Stock Number(s); and the date of the documented QSP. QSP changes/revisions/updates, if applicable, need to be submitted along with the RFE at time of proposal. NOTE: Changes/revisions/updates must be well identified, dated and organized to facilitate posting to the QSP.

If techniques selected (MPC, SPC, or combination of both) were determined to be adequate (in a QSP previously submitted and approved by DLA Troop Support - FTSB), the offeror shall certify that these techniques are still adequate to effectively control the processes and that the system implemented is still capable of consistently producing conforming product.

II. Specific Requirements:

A. The offeror shall identify the characteristics to be controlled using SPC techniques (or the alternate MPC techniques). Application of SPC techniques shall be considered for all characteristics identified by performing pareto analysis on the defects from previous production, or projection of potential defects in future production, to discern the vital few and repetitive type failures from the trivial many. Additionally, offerors are encouraged to calculate quality costs to assist in determining what characteristics or processes to control statistically (QSP Element XIII). These defects, and all other characteristics identified by the offeror from process capability studies on current production, shall be subject to the application of SPC techniques or other analyses. The characteristics requiring control will be those characteristics

CONTINUED ON NEXT PAGE

providing the best assurance of product conformance to end item contractual requirements. In addition to the characteristics identified by the offeror, the following characteristics will be controlled using SPC techniques, MPC techniques, or other alternate controls methods deemed appropriate and effective in controlling the processes. Alternate controls to SPC and MPC must be clearly identified and explained in detail in the In-Process and Process Inspection and Testing Section of the contractors' documented QSP/Quality Manual. The description of SPC or MPC techniques shall be sufficient to allow a reviewer unfamiliar with the item or the contractor's production operation to properly assess the applicability of the control measures/techniques being proposed.

1. For Thermostabilized, High-Pressure Processed, or Hot Filled Items: (1) Laminated barrier pouch/tray integrity (absence of tears, cuts, holes, delamination, abrasions, leakage, and non-fusion bonded seals, etc.), (2) Polymeric tray integrity (absence of tears, cuts, holes, delamination, abrasions, leakage, and non-fusion bonded seals, etc.) and (3) All thermostabilized items - the critical control points of the process schedule as determined by the contractor's Processing Authority and critical control points of the retort process schedule. The critical control points, other control points, and the contractor's Processing Authority shall be clearly identified in the Regulatory Controls Section and/or the In-Process and Process Inspection and Testing Section of the contractor's QSP, as applicable.

2. For Water Activity Stabilized Items: (1) Laminated barrier pouch/tray integrity (absence of tears, cuts, holes, delamination, abrasions, leakage, and non-fusion bonded seals, etc.), (2) Polymeric tray integrity (absence of tears, cuts, holes, delamination, abrasions, leakage, and non-fusion bonded seals, etc.) and (3) All water activity-stabilized items - control of water activity, and oxygen scavenger placement. The control points shall be clearly identified in the In-Process and Process Inspection and Testing Section of the contractor's QSP.

3. Flameless Ration Heater (FRH): The FRH chemical formulation and those processes that affect the formulation, performance, and the packaging (including over-wrapped FRH) of the FRH. The control points shall be clearly identified in the In-Process and Process Inspection and Testing Section of the contractor's QSP.

4. Assembly Operations: The use of SPC and/or MPC techniques is required. However, the Assembler shall determine application of SPC/MPC techniques for the assembly and sub assembly processes by performing a Pareto analysis. NOTE: The assembler shall identify the type of controls (MPC, SPC, or both) being applied for each process identified. The control points for the assembly and subassembly processes shall be clearly identified in the In-Process and Process Inspection and Testing Section of the Assembler's QSP.

5. For Other Items SPC techniques are optional.

B. The SPC and MPC techniques (or combination of both) will be evaluated as part of the documented QSP for the firm or firms eligible for award.

C. SPC Program: The information requested in Workbook I, In-Process and Process Inspection and Testing Section (Area 1 and 2 as applicable) shall be covered in the applicable section of the contractor's QSP. For characteristics as designated by the Offeror and/or the Government to be controlled using SPC or MPC techniques as indicated above, the QSP, as a minimum, must address the following: The QSP must identify and define each in-process control point (IPCP) and/or process control point (PCP) in sequence in relation to the production, subassembly/assembly flow or chain of events (from weighing/mixing/batching of ingredients/materials, packaging, to final product); clearly identify the control technique selected (SPC/MPC or combination) to control each process identified; the number of samples selected, location of sample selection, and frequency of sampling at each IPCP and PCP identified; include procedures that describe the production/assembly operations and how the contractor ensures these are carried out under control conditions to assure that product characteristics and criteria specified in the contract are achieved and maintained in the finished product (end item); and identify documents

CONTINUED ON NEXT PAGE

that are the basis for the SPC/MPC program including internal audits, textbooks, standards, and/ or Government documents.

D. Structure (policy/scope): The QSP shall identify the contractor's policy for applying SPC and the contractor's goals and commitments regarding SPC and continuous process improvement. The contractor may also discuss alternatives to SPC techniques (MPC techniques or other control technique) that have successfully reduced/prevented the production of defects. Information must be covered in the Management Responsibility and Quality System Design Section I of the QSP or other applicable section of the contractor's QSP.

E. SPC Training: Information must be covered in the Training Section of the QSP or other applicable section of the contractor's QSP.

F. Vendor/Subcontractor/Purchase Controls: Information must be covered in the Contract Review, Purchasing, and Customer-Supplied Product of the QSP or other applicable section of the contractor's QSP.

G. Manufacturing Controls: (In accordance with Quality Assurance Provision, Manufacturing Process Controls and In-Process Inspection as applicable). The information requested in Workbook I, In-Process and Process Inspection and Testing Section (Area 1 and 2 as applicable) should be covered in the applicable section of the contractor's QSP (for characteristics as designated by the Offeror and/or the Government to be controlled using SPC or MPC techniques as indicated above): The QSP must clearly identify the control technique selected (SPC/MPC or combination) to control each process identified. Must include procedures that describe the production/assembly operations and how the contractor ensures these are carried out under control conditions to assure that product characteristics and criteria specified in the contract are achieved and maintained in the finished product (end item).

H. Statistical Process Control Procedures (General): The information requested in Workbook I, In-Process and Process Inspection and Testing Section (Area 1 and 2 as applicable) should be covered in the applicable section of the contractor's QSP (for characteristics as designated by the Offeror and/or the Government to be controlled using SPC or MPC techniques as indicated above):

1. Criteria for Using SPC Techniques: How the contractor determined which processes were appropriate for use of SPC or MPC techniques; process capability studies (application); types of charts used and rationale for use; and computer hardware/software used for SPC (if applicable).
2. SPC Auditing and Review Procedures: This information must be covered under the Internal Audit Section or other applicable section of the contractor's QSP
3. SPC Records. How the following records apply/correlate to the SPC program: Incoming inspection, manufacturing inspection, subcontractor inspection, internal and external failure reports, corrective action reports, control charts, scrap and rework reports, lessons learned, recommendations and feedback, etc. The information must be included in the In-Process and Process Inspection and Testing Section (Area 1 and 2 as applicable), the Document and Data Control and Control of Quality Records Section of the QSP or in the applicable section of the contractor's QSP.

I. When the documented QSP is rated acceptable and the system implemented is effective in consistently producing conforming product, the contractor may qualify for Government verification skip-lot inspection (Procedures for Alternative Skip-Lot End Item Inspection Requirements for Government Verification Inspections for Operational Rations). The Government reserves the right to return to the original acceptance sampling requirements if Government source inspection is waived, skip-lot is not in the best interest of the Government or for other causes as indicated in the procedure. The QSP shall be documented, dated, and signed by a responsible company official, and will be distributed under company letterhead as indicated in preceding paragraph "Higher Level Requirement - Quality Systems Plan (QSP)". The contractor is required to incorporate the requirements of this SPC QAP in the In-Process and Process Inspection and Testing Section (Area 1 and 2 as applicable) of the QSP or other applicable sections of the contractor's QSP.

CONTINUED ON NEXT PAGE

X.1.D The contractor's documented QSP and implemented Quality Systems are to be verified by the in-plant Government QARs/inspectors, when Government source inspection is required, in accordance with the Operational Rations Documented QSP Evaluation Workbook I, the regulation/file code of the respective inspection agency, and the particular requirements detailed in the contract.

X.2. Packaging and Packing Materials

Packaging components (e.g., fiberboard shipping boxes, cartons, rollstock, preformed pouches, packets, accessory and menu sub assembly pack bags, material & menu bags, strapping materials, fiberboard caps, adhesive, tape, etc.) are subject to the Certificate of Conformance (COC) FAR Clause 52.246-15. The Government QAR shall have the responsibility for verifying COC's as necessary. Any inspections required by the specifications may be performed by the Government to assure compliance with the specifications. FAR Clause 52.246-15 shall also apply to bond strength tests on retort pouches.

X.3. Operational Ration Component Lot Number and Lot Inspection

The component lot number for thermally processed (retorted), high-pressure processed, and hot-filled products packaged in flexible pouches shall be defined as the Julian lot number assigned at the origin manufacturer's plant and the inspection lot shall include only product produced in one work-shift. For products packaged in tray pack containers (metal/poly) and other products (including the FRH and final assembled lots), a lot number is defined as the quantity of finished product produced/assembled within a production day (Julian date) and the inspection lot shall include product produced in no more than one production/assembly day. The Government QAR reserves the right to separate an inspection lot into smaller inspection lots. The Sample for Government and contractor's end item lot inspection may be drawn after all units comprising the lot have been produced or samples may be drawn during production of the lot. If stratified sampling is utilized (drawing sub-samples from each sub-lot/sub-code during production of the lot), the sub-samples must be drawn at random from the sub-lot and not inspected until all the sub-samples are combined to make-up the complete sample for the applicable lot size (the formation of the lot and lot size is defined as the manner in which the lot is to be presented for Government end item verification inspection).

X.4. Government Verification Inspection. Government verification inspection (conducted by the GQAR or Government laboratory) shall be withheld, at a minimum, until the contractor's completed inspection results are presented to the GQAR. Unless otherwise authorized, in writing, by the contracting officer, the GQAR and/or Government laboratory shall not perform Government verification inspection/testing unless the contractor's lot submittal package (examination/test results-including analytical testing) provided to the GQAR indicates conformance to ALL contractual requirements

X.5. End Item Testing.

Compliance with applicable end-item specific technical data requirements will be determined by the contractor and by the GQAR on the finished product in accordance with the applicable provisions in the food component specification, solicitation, contract, and purchase order and their applicable Packaging Requirements and Quality Assurance Provisions specifications. Regardless of the Government agency designated cognizance for the support of the Government's quality assurance requirements at the supplier's production/assembly facility, a USDA laboratory will perform all Government verification testing. The contractor shall bear all expenses incident thereto, including costs of samples and all associated costs for preparation and mailing. Costs shall be assessed in accordance with the Government laboratory testing charges for individual test characteristics and number of tests required by the specification or contract. A list of fees may be obtained from the appropriate USDA laboratory.

X.6. Alternative Skip-Lot End-Item Inspection Requirements for Government End-Item Verification Inspections for Operational Rations.

The "Procedures for Alternative Skip-Lot End Item Inspection Requirements for Government End-Item Verification Inspections for Operational Rations", dated March 2001, are applicable to current and future contracts. The switching procedures cited in ANSI/ASQ Z1.4, Sampling Procedures and Tables for

CONTINUED ON NEXT PAGE

Inspection and Attributes shall not be used for Government verification inspections. For products requiring a drained weight examination, the following is also required: The contractor shall provide the Government Quality Assurance Representative (GQAR) a copy of the current production standard (PDM/First Article) formula (including ratios of ingredients), and formulation records for each production lot submitted for Government end item verification inspection. The GQAR shall initiate skip-lot inspection based on Government verification inspections results of each product and notification that the contractor's Quality System Plan (QSP) was rated acceptable by DLA Troop Support - FTSB. The Government verification inspection may be further decreased (e.g., skip-lot inspection frequency 1 in 6, 1 in 10, etc.) by the Contracting Officer if he/she determines that this is in the best interest of the Government or he/she may discontinue skip-lot inspection for Government verification inspection if it is determined that skip lot is not in the best interest of the Government.

The sampling plans switching procedures cited in ANSI/ASQ Z1.4, Sampling Procedures and Tables for Inspection and Attributes, are authorized to be used only by the contractors during the performance of contractor's end item verification inspections. Producers using the switching procedures, cited in ANSI/ASQ Z1.4, during the performance of their end item inspections must train personnel and follow all of the switching rules cited in the standard. As indicated in the standard, the sampling scheme is a combination of sampling plans with switching procedures, and each sampling plan has its own set of rules by which a lot is to be inspected and accepted or rejected. Samples may be drawn after all units comprising the lot have been produced or samples may be drawn during production of the lot. However, for those contractors that are using stratified sampling (drawing subsamples from each subplot during production of the lot), the subsamples must be drawn at random from the subplot and not inspected until all the subsamples are combined to make-up the complete sample for the applicable lot size (the formation of the lot and lot size is defined as the manner in which the lot is to be presented for Government end item verification inspection in accordance with paragraph "Operational Ration Component Lot Numbers"). All other inspection procedures must be reviewed by the GQAR, included in the QSP, and approved by the Contracting Officer. The producer's end item verification inspection results must be well documented and the GQAR must be informed in advance of the specific switching procedure (normal, tightened, reduced) being utilized for each product qualified under the standard.

X.7. General Inspection (Examination/Testing) Requirements

(A.) When the contractor determines as a result of his inspection(s) or QSP, or is informed by the QAR as a result of verification inspection, that the supplies do not conform to contractual requirements, he has the following alternatives:

1. Produce and inspect a new lot.
2. Screen or rework and reoffer conforming supplies (provided screening or reworking is not detrimental to the product and does not conflict with other requirements, e.g. time, temperature, etc.) See "Rework of Nonconforming Product Pre or Post Acceptance" for applicable situations.
3. Request the Contracting Officer to consider acceptance of the nonconforming supplies in accordance with paragraph "Request for Rework, Request for Waiver, Request for Deviation, or Reinspection of Nonconforming Supplies".
4. When valid technical reason(s) exist for suspecting the verity of the inspection results, request the Contracting Officer's permission to reinspect the supplies without screening or reworking. The request must be made in writing in accordance with paragraph "Request for Rework, Request for Waiver, Request for Deviation, or Reinspection of Nonconforming Supplies". Any lot with one or more valid critical/major A defect(s) will not be reinspected without reworking or screening of all units. Examples of valid technical reasons are:
 - A. After finding the lot nonconforming for net weight, it is discovered that the scales used for the inspection were out of adjustment or
 - B. After finding the lot nonconforming for a chemical test characteristic, it is discovered that a chemical used in the analysis has deteriorated or had not been properly prepared.

CONTINUED ON NEXT PAGE

(B.) The contractor may petition the Government (through the Contracting Officer) for skip lot or a reduction in verification inspection at such time that the contractor believes his quality program is fully acceptable and reliable. There will be no "skip lot" or "reduced" inspection option for critical defects.

X.8. Rework of Nonconforming Product Pre or Post Acceptance

Rework of Nonconforming Product: The Government QAR must be informed and provided documentation of all rework results when product is presented for Government verification inspection or prior to Government inspection as indicated below.

A. Corrective Action (Rework/Screen Inspections) Taken Prior to Government Inspection (Receipt, In-Process And End-Item Inspections): Unless otherwise specified below, all reworks and screening inspections conducted prior to the initial Government inspection of the lot do not require approval from the Government. Although the GQAR must be informed of all reworks, the contractor is not required to obtain approval to take corrective and preventive action as deemed necessary to ensure compliance with contractual requirements.

Note: All requests for rework shall be accompanied with a comprehensive rework plan. The rework plan will include rational information and data that supports the rework plan and ensures the elimination of nonconforming material from the lot. When a contractor determines as a result of his end item inspection(s) or QSP that supplies do not conform to contractual requirements and the supplies cannot be reworked (such as drained weight, viscosity, piece size, residual air, etc.), he has the alternative to request the Contracting Officer for a waiver for the nonconforming requirement. If the Contracting Officer approves the waiver request for a specific requirement, the written waiver approval shall be provided to the GQAR when the supplies are presented for Government Verification Inspection (the skip-lot inspection does not apply in this case). The GQAR shall only inspect the supplies for compliance with all requirements of the contract, except the waived requirement. The Contracting Officer, in special circumstances, may request nonconforming supplies to be inspected by the GQAR, after the waiver for the nonconforming requirement has been provisionally approved, to determine severity of nonconformance only. Due to the type of statistical sampling cited in the contract, under no circumstances shall a lot found nonconforming by the contractor be inspected by the GQAR to determine conformance to a requirement that has previously been established as nonconforming by the contractor's inspection. After any lot's failure or rework, if the lot is reinspected, it will be both Contractor and Government inspected at the next higher sample size.

B. The Following Reworks Must Be Coordinated with the Supervisory GQAR and, As Required, Approved by the Applicable DLA Troop Support-FTR Office.

1. Insect or Rodent Infestation/Contamination: Reworks must be approved by DLA Troop Support personnel.

(a) Any product that is offered to the Government that has been produced using a bulk product or an ingredient product lot(s) that has, at any time, been identified as containing or having contained evidence of insect or rodent activity must be approved by FTR. When product is presented for Government verification, the Government QAR must be informed and provided documentation identifying the evidence of insect or rodent activity and all corrective action taken to render the bulk/ingredient product serviceable."

2. Food Safety and Foreign Material:

CONTINUED ON NEXT PAGE

(a) All corrective actions performed on product due to foreign material and/or processed/ unprocessed container mix-ups must be approved by FTR. **NOTE:** In addition to FTR approval, approval by the cognizant regulatory agency, FDA, USDA-FSIS, or USDC, is required.

(b) Any product that is offered to the Government that has been produced using a bulk product or an ingredient product lot(s) that has, at any time, been identified as containing or having contained foreign material must be approved by FTR. When product is presented for Government verification, the Government QAR must be informed and provided documentation identifying the foreign material and all corrective action taken to render the bulk/ingredient product serviceable.

(c) Thermal process deviations or deviations from the preparation, formulation or critical factors cited in the approved process schedule must be accompanied by a detailed letter from the plant's Processing Authority. The involved subcode(s), the deviation, and the disposition of the product shall be clearly identified when the complete lot is presented for Government end item verification inspection. If the producer fails to provide enough information/data in the case of a deviation, the GQAR shall contact FTR for approval to proceed with the Government end item verification inspection.

(d) Retesting/reinspection/rework of product that tested positive for food borne pathogens is not authorized.

(e) These requirements are in addition to applicable Code of Federal Regulations or other regulatory requirements (USDA-FSIS, FDA).

NOTE: Deviations (that occur during or prior to the production of a product) from specific preparation/ formulation/ingredient requirements cited in the specifications shall be submitted as a request for product deviation and must be approved and coordinated with the Specification Preparing Activity (Natick) through the applicable contracting officer.

3. Container Integrity Defects: All reworks due to container integrity defects (critical defects only) noted during the producer's end item inspection, the Government's final lot end item verification inspection, the Government's or assembler's receipt inspection, or noted when the established action number/level (as cited in the contractor's QSP) is exceeded during the in-process assembly operation must be approved by the applicable contracting officer, unless a 100% container rework of the entire lot is conducted at source or at the assembler. All containers exhibiting the same or other container integrity defects must be removed during the 100% container rework and noted on the rework paperwork. Reworked lots will be inspected or re-inspected, as applicable, by the GQAR at the location of the rework using the next larger sample size (for example, from 200 samples to 315, or if a second rework, from 315 samples to 500 samples). Rework results must be included with other paperwork when the lot is presented for Government end item verification inspection.

4. Second Time Reworks: All second time reworks must be approved by the applicable FTR contracting officer.

5. Nonconformances Noted During Government Inspection for End Item Compliance: All rework requests submitted for defects noted during Government inspection for end item compliance must be approved by the applicable contracting officer, unless exempted under paragraph 3 above.

6. For reworks requiring the Government's approval, the contractor may submit a standard rework procedure (SRP), for certain defects, under the contractor's documented QSP section XII - Corrective and Preventive Action Program. The SRPs must be specific and these must be evaluated by DLA Troop Support-FTR, FTSB, and approved by the applicable contracting officer.

7. If the contractor elects to rework nonconforming product, it must be reworked and reoffered within 30 days from date of initial rejection.

8. All requests for rework shall be accompanied with a comprehensive rework plan. The rework plan will include rational information and data that supports the rework plan and ensures the elimination of nonconforming material from the lot. See "Request for Rework, Request for Waiver, Request for Deviation, or Reinspection of Nonconforming Supplies". After any lot's failure or rework, if the lot is reinspected, it will be both Contractor and Government inspected at the next higher sample size."

C. Contractor's Quality History:

1. Effectiveness of corrective actions (rework/screen inspections) taken by the contractor prior to Government end item verification inspection (receipt, in-process and contractor's end-item inspections) will be determined by the results of the end item verification inspection performed by the GQAR. Corrective actions taken to ensure compliance with the contractual requirements prior to the Government end item verification inspection will not be counted against the contractor's quality history. If product is found conforming during the Government end item verification inspection, the corrective action will be determined to have been effective. 2. If product is found nonconforming during the Government end item verification inspection following contractor corrective action for the same defect (or defect category in case of critical pouch defects) for which the contractor took a corrective action, the corrective action will be determined to have been ineffective. In addition to any action taken, the contractor must reevaluate their documented QSP and/or the implemented corrective and preventive action program by an internal audit and results must be submitted to FTSB (Quality Systems Auditors). All corrective actions (rework/screening inspections, etc.) taken by the contractor due to a Government end item verification inspection rejection will be documented in the contractor's quality history records.

X.9. Request for Rework, Request for Waiver, Request for Deviation, or Reinspection of Nonconforming Supplies

(A.) When the requirements cited in the section of this solicitation entitled "Rework Of Product Pre or Post Acceptance" require that a written request for deviation, waiver, rework, or reinspection must be furnished, as appropriate, to the Contracting Officer and cognizant Government QAR, that request shall at a minimum contain the following:

1. Contractor's name and address.
2. Contract number, lot number(s), and quantity.
3. Item nomenclature and NSN, whether a component or end item.
4. Specification number, table/paragraph number, sample size, AC/REJ number(s), defect number(s), number of defects. Identify the pouch codes of defective units.
5. Classification of defects: Critical _____ Major _____ Minor _____
6. Cause of nonconformance or deviation, and corrective and preventive action.
 - a) State the root cause of the deficiency.
 - b) State the corrective action and the preventive action contractor has taken/will take to preclude recurrence.
 - c) If preventive action is not possible, state why.
7. If deviation/nonconformance is of a recurring nature, the frequency of occurrence and date/contract/lot number of last occurrence.
8. Effect on cost/price.

CONTINUED ON NEXT PAGE

9. Effect on delivery schedule.
10. Full justification for request for deviation, waiver, rework or reinspection.
11. Submit in-process data (MPC,SPC) and contractor and Government end-item records for the involved lot(s). Submit retort records, copy of process schedule and letter from Processing Authority if a process deviation.
12. Applicable to the defect found or class of defects for critical defects, identify the situations where the lot exceeded control limits (out-of-control, exceeded action level or number) according to in-process records (MPC, SPC), and identify the corrective actions taken for each instance.

NOTE: All requests for rework shall be accompanied with a comprehensive rework plan. The rework plan will include rational information and data that supports the rework plan and ensures the elimination of nonconforming material from the lot. After any lot's failure or rework, if the lot is reinspected, it will be both Contractor and Government inspected at the next higher sample size.

(B.) When a valid technical reason for reinspection is offered and permission is granted by the PCO, the contractor shall take corrective action to eliminate the cause of the inspection revealed failure; reinspect the nonreworked lot after taking the corrective action, and evaluate the results of the initial inspection and the reinspection by means of recognized statistical methods.

1. If the statistical tests reveal no significant difference between the results of the two inspections, acceptability will be based on reinspection results. A significant difference is one that is real and not due to chance variation. Statistically, a difference which has a 0.05 probability of occurring by chance alone is usually considered a significant difference.

2. If such statistical tests reveal no significant difference between the results of the two inspections, both results will be reported to the Contracting Officer.

- A. The results of the two inspections will be averaged and acceptability will be based on whether the resulting average meets the requirement, when the requirement is an average (variable) requirement.

- B. The results of the initial (original) inspection will be the basis for the acceptability decision when the requirement is a unit (attribute) requirement.

X.10. Receipt Inspection at Destination

In addition to the origin inspection specified above, the supplies delivered shall be subject to receipt inspection at destination in accordance with the following criteria:

All items delivered (CFM and RNC) shall be receipt inspected in accordance with the assembler's receipt inspection program as outlined in the assembler's Quality Systems Plan (QSP). The assembler's receipt inspection program will be verified by the U. S. Army Veterinary Inspection (AVI) personnel at the assembly plant. Receipt inspection must include examination for the presence of internal infestation, foreign material, and contamination. Any evidence of insect or rodent infestation, foreign material, or contamination shall be cause for rejection of the entire production lot. Any receipt inspection failure applicable to a particular production lot shall be considered to be representative of the entire production lot and shall be cause for rejection of the entire production lot.

Receipt examinations for pouch integrity (CFM and RNC) shall be performed in accordance with origin pouch examination criteria for each production lot of cheese spread and product packaged in accordance with MIL-PRF-44073. Samples for receipt inspection (ex. 200 samples items packaged in accordance with MIL-PRF-44073) shall be selected throughout the lot at the destination point (applicable for entire lots or split lots). Mixed code lots as defined in the Technical Data Package will be considered as a single lot. Receipt inspection for pouch integrity of entire production lots or split lots from the origin producer to their own assembly plant located within the same state should be performed at their option or performed in accordance with the assembler's QSP.

For RNC product, at no time may the assembler's receipt inspection be more severe than origin inspection criteria. Defect classifications and descriptions shall correspond to the origin specification defect classifications. Generally, defects found in RNC

CONTINUED ON NEXT PAGE

deliveries by the assembler will be verified by the AVI and the AVI findings will be reported to DLA. However, the AVI is not required to verify the assembler's inspection results when the assembler finds that the required USDA/USDC certification is missing or when the assembler finds evidence of insect or rodent infestation, foreign material, contamination, or other food-safety issues. The Government always reserves the right to have the AVI verify the assembler's inspection results, whether or not the assembler finds any defects in RNC deliveries. Final responsibility for acceptance or rejection of RNC product will rest with the Government. The Government's decision to accept or reject RNC product may be based on the assembler's inspection results or the AVI findings, as the Government deems appropriate. The Government's decision to accept or reject product is binding on the assembler.

For wet pack fruit (including applesauce and spiced apples), abrasions at destination, found during the assemblers receipt inspection, may be classified as a major defect and accepted under an Acceptable Quality Level (AQL), if the assembler so chooses. Each assembler would be required to specify in their QSP the AQL for the acceptance of abrasions, based on sampling size. If an assembler chooses not to accept abrasions as a major defect, they may leave the defect as critical, which would result in failure of the lot if found. AQLs for abrasions contained in the assembler's QSP must be approved by DLA Troop Support - FTSB. If the lot is not accepted at one destination due to an abrasion(s) and the lot is redelivered to a second destination without rework, the finding of an abrasion during receipt inspection will be cause for rejection of the entire lot.

Grand lotting of more than one production lot of homogeneous components within a shipment for the purpose of receipt inspection may be performed, except for pouch integrity, as cited above. There will be no grand lotting of items packaged in accordance with MIL-PRF-44073 or with PCR-C-039 for pouch integrity inspection. When the total shipment is inspected as a single lot, the identity of the items must be maintained and samples must be drawn from each lot in proportion to its size. Homogeneous components are defined as follows: items procured by identical prime documents (identical PCRs, Commercial Item Descriptions) except for items packaged in accordance with MIL-PRF-44073 and PCR-C-039.

The reliability of the assembler's receipt inspection system will be determined by the AVI in accordance with paragraph "Reliability Conditions" cited in the assembly solicitation. However, the frequency of verification of the assembler's receipt inspections will remain at the discretion of the Government."

X.11. Periodic Review Samples

All food components that are inspected by USDA-AMS will be subject to periodic review sampling and examination/testing during contract production in accordance with the following criteria: For each calendar month of production, the USDA-AMS inspector will randomly select twelve sample units from a conforming lot of each item (i.e., each type, flavor, etc.) produced and inspected for product examination by USDA-AMS. As instructed by DLA Troop Support, the USDA-AMS inspector shall ship nine of the samples, at the contractor's expense, to the addresses below, once per month.

Six samples selected by USDA/AMS will be sent to:

Three samples selected by USDA-AMS will be sent to:
DEPARTMENT OF THE ARMY
RDNS-SEC-EMR
NATICK SOLDIER SYSTEMS CENTER
10 GENERAL GREENE AVENUE
NATICK, MA 01760

The USDA/AMS inspector shall retain three samples for standby use, and return them to the contractor if not needed.

X.12. FAR Clauses

NOTE: Where “DD Form 250, Material Inspection Receiving Report (MIRR)”, “DD Form 250 (MIRR)”, “DD Form 250”, etc., is cited in the FAR and Clauses contained in this section, read the citation as “DD Form 250, Material Inspection Receiving Report (MIRR) or Wide Area Work Flow Receiving Report”, as applicable.

52.246-11 HIGHER-LEVEL CONTRACT QUALITY REQUIREMENT (DEC 2014)

The Contractor shall comply with the higher-level quality standard selected below. [If more than one standard is listed, the offeror shall indicate its selection by checking the appropriate block.]

Plant: _____
 Street: _____
 City/State/Zip: _____”

XI. INSTRUCTIONS, CONDITIONS AND NOTICES TO OFFERORS

Note: 52.212-1, **Instructions to Offerors—Commercial Items (OCT 2015)** is incorporated in this solicitation by reference. Its full text may be accessed electronically at <http://farsite.hill.af.mil/vfara.htm>. Text is available for viewing in Subpart 52.2 Text of Provisions and Clauses, through either the HTML or PDF Format links.

Addendum to 52.212-1:

The following paragraphs of 52.212-1 are amended as indicated below:

Paragraph (b), Submission of Offers, is amended as follows:

(1) See Standard Form 1449 (Continuation Sheet), on page 3, for any specific instructions on how to submit your offer if mailed, hand carried, or faxed (when authorized).

(2) Faxed offers are **NOT** authorized for this solicitation.

(3) **SUBMISSION REQUIREMENTS:** Offerors are required to submit the completed solicitation; the pricing proposal, which is contained within the solicitation; the Surge Plan, including the Surge instructions contained within the solicitation; the Subcontracting Plan (if required), Production Capability, the Quality System Plan (QSP), the completed Food Defense Plan, and the Integrated Pest Management Plan. The Surge Plan, Subcontracting Plan, Production Capability, QSP, Integrated Pest Management Plan, and Food Defense Plan must be separate documents from the completed solicitation and pricing

spreadsheet. A cover letter may accompany the proposal to set forth any information an offeror wishes to bring to the attention of the Government. Offerors are required to submit one original proposal, including all documents listed above, plus two (2) complete hard copies; a total of three (3) complete copies.

The Government reserves the right to verify any information presented in the Non-Price and Price Proposal.

The offeror's proposal must demonstrate it understands the Statement of Work and contract requirements, and that it has the facilities, equipment, manpower and technical expertise to successfully produce and deliver the required products and quantities within the required order lead-times. Such information should include, at a minimum, the following: a list of equipment to be used; complete illustration or description of the facilities; and the production process.

Production Milestones – Offerors shall provide complete production milestones. At a minimum, milestones shall begin on the estimated date of award and order and finish with the first delivery. Orders for equipment, required facility improvements, etc., shall be listed, to include dates of lease/purchase, delivery, installation completion, pre-production work and ready to use. In accordance with FAR clause 52.216-19, Order Limitations, deliveries shall be required within 60 days from date of issuance of the delivery order not to exceed 90 days from date of issuance of the delivery order. The Government reserves the right to make any part of the proposal a contractual requirement at time of award.

Note: If a contractor has previously submitted a Quality System Plan the contractor may reference this Quality System Plan by date and only changes (if deemed necessary) need to be submitted at time of offer submittal for this or for future contracts.

Note: The Surge Plan, Production Capability, QSP, Integrated Pest Management Plan, and Food Defense Plan may be reviewed and discussed with offerors prior to award, but the submissions will not be evaluated as part of the award decision or be used to make a responsibility determination. The Subcontracting Plan, if required, will not be evaluated as part of the award decision, but the Subcontracting Plan must be acceptable for an offeror to be found responsible. Failure to submit any of these documents may make an offeror ineligible for award.

A. TECHNICAL PROPOSALS:

Acceptable PDMs, also referred to as approved PDMs, will be used as production standards by both the Contractor and the Government. The production lots/product-codes used as the production standards by both the Contractor and the Government shall be identical. The approval of any PDM will not constitute a waiver of the requirement that all delivered product must meet all other contractual requirements, such as, but not limited to, analytical requirements, physical requirements, microbiological requirements and/or performance requirements, unless specifically stated by the Contracting Officer. The Contractor shall be responsible for the shipment of PDM samples to Natick, to DLA Troop Support, and as required, to Government Quality Assurance Representatives (GQAR).

As required by this solicitation/contract, for each component item requiring a PDM, each Contractor shall possess said Contractor's own set of approved PDMs and shall be responsible for the retention and distribution of said PDMs to Government entities.

Initial PDM:

PDMs must be submitted prior to the close of the solicitation and found to meet the standards as referenced elsewhere in the solicitation. Refer to submission and evaluation instructions for PDMs. Offerors shall warrant that product submitted under any resultant contract shall conform to all packaging, labeling and packing requirements as well as analytical requirements. Product from any resultant contract that does not conform to all requirements shall not be accepted by the Government.

New PDM:

During the course of contract performance, new items may be introduced for delivery during the next delivery period. PDMs are required for all new food items and shall be submitted 45 days prior to end of the current delivery period and the start of the delivery period in which the new items will be incorporated into the MRE. If approved product technical requirements documents for new food items are not available to meet this requirement, PDMs shall be submitted within 30 days from the date the requirements document is published. Offerors shall certify that the PDM(s) conforms to all specification/production description characteristics, or shall adequately describe any differences the PDM may have from the requirements of the product description or specification(s).

Upon approval by DLA Troop Support, the New PDM will become the product standard.

CONTINUED ON NEXT PAGE

Replacement PDM:

Changes in production methodology or packaging, such as implementation of new technology, may result in a product noncomparable to one or more observable characteristics of the production standard.

If it is determined by the contractor that any change in a product characteristic, other than changes to shape or dimension compatible with performance requirements, results in a product that is no longer comparable to the production standard, the contractor shall submit a replacement. If it is determined that any changes to shape or dimension impact on the ability to compare the new product to the production standard in terms of the performance requirements designated for appearance, odor, flavor, and texture, the contractor shall submit a replacement. The contractor shall submit a replacement PDM if determined necessary by the Government. Contractors shall certify that the PDM(s) conforms to all specification/production description characteristics, or shall adequately describe any differences the PDM may have from the requirements of the product description or specification(s). The contractor shall bear all expenses incident to the submission of Replacement PDMs to Natick and their evaluations by Natick.

Upon approval by DLA Troop Support, the Replacement PDM will become the product standard.

Replenishment PDM:

Every 12 months, or as needed, for finished-product components inspected by the Government at origin, the Government Quality Assurance Representative (GQAR) shall replenish the Government's supply of PDM's at origin with 70 samples randomly selected from a lot inspected and accepted by the Government for all contractual requirements. In addition, the GQAR shall randomly select from the lot 32 replenishment samples for Natick and 4 replenishment samples for DLA Troop Support.

Upon approval by DLA Troop Support, the Replenishment PDM will become the product standard.

Offerors are required to submit Product Demonstration Models (PDMs) for each item as part of their proposals. The PDMs must be received no later than the time set for closing of offers. Offers will be evaluated to determine compliance with all characteristics listed for evaluation under FAR 52.212-2, as provided later in this solicitation. Failure to furnish PDMs by the time specified in the solicitation may be cause for rejection of the entire proposal. An offer may be rejected, as appropriate, under the late offer clause, for technical unacceptability. A cover letter may accompany the offer to set forth any information you wish to bring to the attention of the Government.

Submission Process for New, Replacement, and Replenishment PDMs:

A total of 106 PDMs of each item shall be submitted as follows:

A total of 32 PDMs of each item shall be sent to:

DEPARTMENT OF THE ARMY
RDNS-SEC-EMR (Jill Bates)
NATICK SOLDIER SYSTEMS CENTER
10 GENERAL GREENE AVENUE
NATICK, MA 01760

Note: The end or side of the Case should have a label, or be printed on the Case, with the following information:

Product Demonstration Model
Contract Number
Product Identity
Lot#
Company Name and Address
Point of Contact Name and Phone Number

CONTINUED ON NEXT PAGE

Inside the Case, along with the 32 PDMs, should be the required paperwork fully identifying the item; the lot number; the contractor; the subcontractor (i.e., supplier of CFM accessory-pack food items and bulk-packed food items^{1/}); the contract number; the type of ration; the type of PDM (New, Replenishment, or Replacement); the current PDM lot number; USDA certification as applicable; analytical and microbiological test results performed by contractor and/or Government; any other information to assist in identifying the product and conducting the evaluation. Analytical and microbiological test results, wherever required, must be submitted with PDMs.

^{1/}Bulk-packed means packing prior to finished-product packaging.

For items requiring Government origin inspection:

a. The contractor shall submit a total of 70 New or Replacement PDMs to the cognizant in-plant Government inspector (GQAR) for Government use. In this instance, the offeror shall advise the Government inspector prior to production of the PDMs and shall obtain a signed statement from the inspector confirming possession of the PDMs and identifying the PDMs as from the same production lot as those submitted to Natick. The offeror shall submit this statement(s) along with four PDMs to DLA Troop Support Bid Room. These four PDMs must come from the same product-code as those submitted to Natick and to the GQAR.

b. The GQAR shall collect a total of 70 Replenishment PDMs for Government use. The offeror shall submit four PDMs to DLA Troop Support Bid Room. These four PDMs must come from the same product-code as those submitted to Natick and collected by the GQAR.

Contractors may possess their own sets of approved PDMs that were derived from identical finished-component production lots and/or identical bulk-component production lots; to be referred to as in-common product-code PDMs. The submitting Contractor will send written notification of in-common product-code submissions, endorsed by each participating Contractor, to DLA Troop Support for approval by the Contracting Officer. DLA Troop Support shall notify Natick as to which contractors are submitting what in-common product-codes. Once notified of Contracting Officer approval, the submitting Contractor shall include in its submission package the identity of the Contractors for whom the submission pertains. The submitting Contractor shall also be responsible for the distribution and shipment of any in-common product-code PDM samples to Natick, to DLA Troop Support, and, for items requiring Government origin inspection, to on-site and off-site GQARs. The GQAR at each participating Contractor shall receive their required 70 PDM samples.

The remaining 4 PDMs for each item shall be mailed along with your technical proposal to DLA Troop Support at the address indicated on block 9 of the SF1449 and must come from the same product lot code as those submitted to Natick and the GQAR.

B. PRICING PROPOSAL

Offerors shall submit their price proposals by completing the bakery pricing spreadsheets.

The Government reserves the right to require information other than certified cost or pricing data, as defined at FAR 2.101 to support a determination of a fair and reasonable price or cost realism of any offer. (See FAR 15.403-1(b)).

Pricing for Bakery MRE component: The pricing/business proposal must include the completed pricing spreadsheets, or the same information in the offeror's similar format, for each unit price proposed. Unit prices shall be limited to four decimal places. For evaluation and award purposes, offers containing a unit price of more than four decimal places shall be rounded off to four decimal places using standard rounding methods.

Pricing must be submitted for all five tiers for each item for which an offeror wants to submit an offer. Failure to offer pricing on all five tiers may be deemed as non-acceptance of the tier(s), which could result in rejection of the entire proposal as technically unacceptable. However, offerors are not required to offer on all line-items. Offerors are encouraged to submit multiple offers presenting alternative pricing. Since the Government contemplates making multiple awards on a per-line-item basis, each offeror's primary offer should be priced accordingly. Each offeror may also submit an alternative offer on an "all-or-none" basis, with pricing

CONTINUED ON NEXT PAGE

that is based on the condition that the offeror is awarded all 15 items under this solicitation. For each offer (i.e. the primary and the alternative), only one price per line-item, per tier will be accepted.

C. ADDITIONAL SUBMISSION REQUIREMENTS:

Food Defense Plan: In accordance with the Product Protection requirement the offeror shall submit its Food Defense Plan to describe what procedures are, or will be, in place to prevent product tampering and contamination, and assure overall plant security and food safety. The Plan should be formatted in accordance with, and address the issues contained in, the DLA Food Defense Checklist. An electronic copy of the DLA Food Defense Checklist is available at https://www.troopsupport.dla.mil/subs/fs_check.pdf

Integrated Pest Management Program: Contractors and subcontractors of food products with Higher Level Quality Requirements (documented Quality Systems Plan required) must submit the following as part of their Quality System Plan (see X.1A for further details):

(A) A statement on whether service is in-house or provided by an external provider. If service is in-house, a copy of the employee's current pesticide applicator certificate/license shall also be submitted. If the service provider is external, submit the name of the company/provider. Additionally, a copy of the current pesticide applicator certificate/license shall be submitted for either in-house or external service providers.

(B) A map of the facility indicating the location of pest management devices (pheromone traps, rodent control devices, etc.). If more than one facility is used (i.e. storage of ingredients or finished goods), a map for each facility is required.

(C) A statement identifying the normal frequency (weekly, bi-weekly, etc.) of inspecting pest management devices by company personnel and/or contracted service, as applicable.

(D) If pesticides are stored on site, how are they controlled (who has access, is the inventory monitored, etc.)

Subcontracting plan: Offerors must ensure their subcontracting plans meet the requirements of FAR 52.219-9 (Oct 2015), which is incorporated in this solicitation by reference.

Paragraph (c), *Period for Acceptance of Offers*, is revised as follows:

Period of acceptance is 180 days.

Paragraph (e), *Multiple Offers*, is revised as follows:

Offerors are encouraged to submit multiple offers presenting alternative pricing, as discussed in more detail in the Addendum to FAR 52.212-2(a)(1). Except for pricing, offerors are not permitted to present any other alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. However, offerors may suggest alternative commercial items that the Government may consider, as market research only, for future procurements. Each alternative offer submitted will be evaluated separately.

Paragraph (h), **Multiple Awards**, is revised as follows:

The Government may make multiple awards or award all solicited items to a single offeror. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

Paragraph (i), **Availability of Requirements Documents Cited in the Solicitation**, is revised as follows:

Contact: Arthur Lowry or Keith Pritts, Food Technologists for the applicable specifications described in the solicitation at:
e-mail: arthur.lowry@dla.mil or telephone: 215-737-7773
e-mail: keith.pritts@dla.mil or telephone 215-737-7771

XII. Addendum to FAR 52.212-2 -- Evaluation -- Commercial Items (OCT 2014)

CONTINUED ON NEXT PAGE

The Government will award a contract(s) resulting from this solicitation to the responsible offeror(s) whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. Lowest Price Technically Acceptable (LPTA) source selection procedures will be used as the source selection method in this procurement. The following factors shall be used to evaluate offers:

(1) Pricing:

(i) Pricing must be submitted for all five tiers for each item for which an offeror wants to submit an offer. Failure to offer pricing on all five tiers may be deemed as non-acceptance of the tier(s), which could result in rejection of the entire proposal as technically unacceptable. However, offerors are not required to offer on all line-items. Offerors are encouraged to submit multiple offers presenting alternative pricing. Since the Government contemplates making multiple awards on a per-line-item basis, each offeror's primary offer should be priced accordingly. Each offeror may also submit an alternative offer on an "all-or-none" basis, with pricing that is based on the condition that the offeror is awarded all 15 items under this solicitation. For each offer (i.e. the primary and the alternative), only one price per line-item, per tier will be accepted. Each alternative offer submitted by an offeror will be evaluated separately. There will be a HUBZone price evaluation preference.

(ii) Award(s) will be based on the lowest, overall price to the Government considering the overall evaluated price under a "per-line-item" evaluation approach and the lowest, overall evaluated price under an "all-or-none" evaluation approach. First, the Government will determine the lowest, total evaluated price per line-item. This will be accomplished by multiplying the minimum quantity for each item by the unit prices offered for all five tiers for each respective item and adding those tier prices together to calculate each offeror's total evaluated price per line-item. The offerors' total evaluated prices per line-item will be compared to determine the lowest, total evaluated price per line-item. The Government will then determine the overall evaluated price to the Government under the "per-line-item" approach by adding together the lowest, total evaluated price per line-item for all 15 items. Second, if any offerors submit pricing for all 15 items, then the Government will compare those offers to determine the lowest, overall evaluated price under the "all-or-none" approach. Finally, the lowest, overall evaluated price under the "all-or-none" approach will be compared with the overall evaluated price under the "per-line-item" approach. The award(s) will be on an LPTA basis, depending on whichever approach produces the lowest, overall evaluated price to the Government. Prior to award, the prices of the proposed awardee(s) will be evaluated individually to determine whether each price is fair and reasonable using analytical techniques deemed appropriate by the Contracting Officer in her/his complete discretion.

(2) Technical Acceptability: A technically acceptable offer is an offer that meets all of the terms and conditions of the solicitation and meets the acceptability standards for all non-price factors. If an offer takes exception to any of the terms and conditions of the solicitation, then such exceptions must be listed and detailed on the first, separate page of the Non-Price Proposal which must be entitled, "Exceptions." **CAUTION:** If such exception(s) do not meet the acceptability requirements of the solicitation, then the entire proposal may be found technically unacceptable and ineligible for award. The rating methodology for the Non-Price Proposal will be Acceptable or Unacceptable. Failure to provide any information requested may cause an offeror's proposal to be found technically unacceptable and eliminated from further consideration for award. All required submissions must be received from offerors before the time set for solicitation closing. Untimely submissions may be cause for rejection of the entire proposal under the late offers clause. The following non-price factors will be evaluated and must be found acceptable for a proposal to be eligible for award:

(i) **Product Demonstration Models (PDMs):** The Government shall evaluate Initial PDMs for compliance with product specifications and for compliance with the sensory characteristics designated and defined in the product's technical documents. These sensory characteristics, namely appearance, odor, flavor, and texture (or combination thereof where dictated by the product's technical documents), shall represent distinct sensory characteristic categories and shall be evaluated by category by panelist. Each panelist shall assign to each sensory characteristic category a quality score by using a 9-point quality scale, where 9 is the highest score and 1 the lowest score. The mean value of the panelists' ratings for each sensory characteristic category shall be determined.

Natick shall assign an overall quality scale score to each Initial PDM that it evaluates. The overall score shall be equal to the mean score of the lowest-rated sensory characteristic category. For each Initial PDM, an overall quality score of

CONTINUED ON NEXT PAGE

6.00 through 9.00 shall indicate an acceptable rating and an overall quality score of 1.00 through 5.99 shall indicate an unacceptable rating.

PDMs must be rated as "Acceptable" to be eligible for award. Vendors will have one opportunity to correct any deficiencies found during the evaluation of PDMs that are submitted as part of the initial proposal. Revised PDMs that are submitted for a second and final evaluation shall be evaluated using the same criteria as discussed above. Vendors are advised that if they have any unacceptable PDMs after the second evaluation, their proposal will be found technically unacceptable with regard to those unacceptable PDMs and they will not be considered for award for those items. However, a proposal that is technically unacceptable due to unacceptable PDMs may still be considered for award for those items having acceptable PDMs, subject to other solicitation requirements.

(b) Options. There are no option periods under this contract.

(c) If an offeror does not understand these instructions, then that offeror should write/e-mail the Contracting Officer for clarification sufficiently in advance of the deadline for the receipt of offers to get an answer in time to meet that deadline. The Government will publish the questions asked and the answers given and distribute them to all other offerors under this solicitation.

52.212-3 Offeror Representations and Certifications -- Commercial Items (Mar 2016)

The offeror shall complete only paragraphs (b) of this provision if the Offeror has completed the annual representations and certification electronically via the System for Award Management (SAM) Web site accessed through <http://www.acquisition.gov>. If the Offeror has not completed the annual representations and certifications electronically, the Offeror shall complete only paragraphs (c) through (q) of this provision.

(a) *Definitions.* As used in this provision--

"Economically disadvantaged women-owned small business (EDWOSB) concern" means a small business concern that is at least 51 percent directly and unconditionally owned by, and the management and daily business operations of which are controlled by, one or more women who are citizens of the United States and who are economically disadvantaged in accordance with 13 CFR part 127. It automatically qualifies as a women-owned small business eligible under the WOSB Program.

"Forced or indentured child labor" means all work or service—

- (1) Exacted from any person under the age of 18 under the menace of any penalty for its nonperformance and for which the worker does not offer himself voluntarily; or
- (2) Performed by any person under the age of 18 pursuant to a contract the enforcement of which can be accomplished by process or penalties.

"Highest-level owner" means the entity that owns or controls an immediate owner of the offeror, or that owns or controls one or more entities that control an immediate owner of the offeror. No entity owns or exercises control of the highest level owner.

"Immediate owner" means an entity, other than the offeror, that has direct control of the offeror. Indicators of control include, but are not limited to, one or more of the following: Ownership or interlocking management, identity of interests among family members, shared facilities and equipment, and the common use of employees.

"Inverted domestic corporation," means a foreign incorporated entity that meets the definition of an inverted domestic corporation under 6 U.S.C. 395(b), applied in accordance with the rules and definitions of 6 U.S.C. 395(c).

"Manufactured end product" means any end product in product and service codes (PSCs) 1000-9999, except—

- (1) PSC 5510, Lumber and Related Basic Wood Materials;
- (2) Product or Service Group (PSG) 87, Agricultural Supplies;
- (3) PSG 88, Live Animals;
- (4) PSG 89, Subsistence;
- (5) PSC 9410, Crude Grades of Plant Materials;
- (6) PSC 9430, Miscellaneous Crude Animal Products, Inedible;
- (7) PSC 9440, Miscellaneous Crude Agricultural and Forestry Products;
- (8) PSC 9610, Ores;
- (9) PSC 9620, Minerals, Natural and Synthetic; and
- (10) PSC 9630, Additive Metal Materials.

CONTINUED ON NEXT PAGE

“Place of manufacture” means the place where an end product is assembled out of components, or otherwise made or processed from raw materials into the finished product that is to be provided to the Government. If a product is disassembled and reassembled, the place of reassembly is not the place of manufacture.

“Restricted business operations” means business operations in Sudan that include power production activities, mineral extraction activities, oil-related activities, or the production of military equipment, as those terms are defined in the Sudan Accountability and Divestment Act of 2007 (Pub. L. 110-174). Restricted business operations do not include business operations that the person (as that term is defined in Section 2 of the Sudan Accountability and Divestment Act of 2007) conducting the business can demonstrate—

- (1) Are conducted under contract directly and exclusively with the regional government of southern Sudan;
- (2) Are conducted pursuant to specific authorization from the Office of Foreign Assets Control in the Department of the Treasury, or are expressly exempted under Federal law from the requirement to be conducted under such authorization;
- (3) Consist of providing goods or services to marginalized populations of Sudan;
- (4) Consist of providing goods or services to an internationally recognized peacekeeping force or humanitarian organization;
- (5) Consist of providing goods or services that are used only to promote health or education; or
- (6) Have been voluntarily suspended.

Sensitive technology—

- (1) Means hardware, software, telecommunications equipment, or any other technology that is to be used specifically—
 - (i) To restrict the free flow of unbiased information in Iran; or
 - (ii) To disrupt, monitor, or otherwise restrict speech of the people of Iran; and
- (2) Does not include information or informational materials the export of which the President does not have the authority to regulate or prohibit pursuant to section 203(b)(3) of the International Emergency Economic Powers Act (50 U.S.C. 1702(b)(3)).

“Service-disabled veteran-owned small business concern”—

- (1) Means a small business concern—
 - (i) Not less than 51 percent of which is owned by one or more service-disabled veterans or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more service-disabled veterans; and
 - (ii) The management and daily business operations of which are controlled by one or more service-disabled veterans or, in the case of a service-disabled veteran with permanent and severe disability, the spouse or permanent caregiver of such veteran.
- (2) Service-disabled veteran means a veteran, as defined in 38 U.S.C. 101(2), with a disability that is service-connected, as defined in 38 U.S.C. 101(16).

“Small business concern” means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR Part 121 and size standards in this solicitation.

“Small disadvantaged business concern, consistent with 13 CFR 124.1002,” means a small business concern under the size standard applicable to the acquisition, that--

- (1) Is at least 51 percent unconditionally and directly owned (as defined at 13 CFR 124.105) by--
 - (i) One or more socially disadvantaged (as defined at 13 CFR 124.103) and economically disadvantaged (as defined at 13 CFR 124.104) individuals who are citizens of the United States; and
 - (ii) Each individual claiming economic disadvantage has a net worth not exceeding \$750,000 after taking into account the applicable exclusions set forth at 13 CFR 124.104(c)(2); and
- (2) The management and daily business operations of which are controlled (as defined at 13.CFR 124.106) by individuals, who meet the criteria in paragraphs (1)(i) and (ii) of this definition.

“Subsidiary” means an entity in which more than 50 percent of the entity is owned—

- (1) Directly by a parent corporation; or
- (2) Through another subsidiary of a parent corporation.

“Veteran-owned small business concern” means a small business concern—

- (1) Not less than 51 percent of which is owned by one or more veterans(as defined at 38 U.S.C. 101(2)) or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more veterans; and
- (2) The management and daily business operations of which are controlled by one or more veterans.

"Women-owned business concern" means a concern which is at least 51 percent owned by one or more women; or in the case of any publicly owned business, at least 51 percent of the its stock is owned by one or more women; and whose management and daily business operations are controlled by one or more women.

"Women-owned small business concern" means a small business concern --

(1) That is at least 51 percent owned by one or more women or, in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more women; and

(2) Whose management and daily business operations are controlled by one or more women.

"Women-owned small business (WOSB) concern eligible under the WOSB Program (in accordance with 13 CFR part 127)," means a small business concern that is at least 51 percent directly and unconditionally owned by, and the management and daily business operations of which are controlled by, one or more women who are citizens of the United States.

(b)

(1) *Annual Representations and Certifications.* Any changes provided by the offeror in paragraph (b)(2) of this provision do not automatically change the representations and certifications posted on the SAMwebsite.

(2) The offeror has completed the annual representations and certifications electronically via the SAM website accessed through <https://www.acquisition.gov>. After reviewing the SAM database information, the offeror verifies by submission of this offer that the representation and certifications currently posted electronically at FAR 52.212-3, Offeror Representations and Certifications—Commercial Items, have been entered or updated in the last 12 months, are current, accurate, complete, and applicable to this solicitation (including the business size standard applicable to the NAICS code referenced for this solicitation), as of the date of this offer and are incorporated in this offer by reference (see FAR 4.1201), except for paragraphs _____. *[Offeror to identify the applicable paragraphs at (c) through (q) of this provision that the offeror has completed for the purposes of this solicitation only, if any. These amended representation(s) and/or certification(s) are also incorporated in this offer and are current, accurate, and complete as of the date of this offer. Any changes provided by the offeror are applicable to this solicitation only, and do not result in an update to the representations and certifications posted electronically on SAM.]*

(c) Offerors must complete the following representations when the resulting contract is to be performed in the United States or its outlying areas. Check all that apply.

(ii) The offeror shall list as other end products those end products that are not U.S.-made or designated country end products.

Other End Products

Line Item No.:	Country of Origin:

[List as necessary]

(iii) The Government will evaluate offers in accordance with the policies and procedures of FAR Part 25. For line items covered by the WTO GPA, the Government will evaluate offers of U.S.-made or designated country end products without regard to the restrictions of the Buy American statute. The Government will consider for award only offers of U.S.-made or designated country end products unless the Contracting Officer determines that there are no offers for such products or that the offers for such products are insufficient to fulfill the requirements of the solicitation.

(h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals--

- (1) Are, are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;
- (2) Have, have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property; and
- (3) Are, are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and
- (4) Have, have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,500 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals Contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) *Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126)*. [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at 22.1503(b).]

(1) Listed End Product

Listed End Product:	Listed Countries of Origin:

(2) Certification. [If the Contracting Officer has identified end products and countries of origin in paragraph (i)(1) of this provision, then the offeror must certify to either (i)(2)(i) or (i)(2)(ii) by checking the appropriate block.]

(i) The offeror will not supply any end product listed in paragraph (i)(1) of this provision that was mined, produced, or manufactured in the corresponding country as listed for that product.

(ii) The offeror may supply an end product listed in paragraph (i)(1) of this provision that was mined, produced, or manufactured in the corresponding country as listed for that product. The offeror certifies that it has made a good faith effort to determine whether forced or indentured child labor was used to mine, produce, or manufacture any such end product furnished under this contract. On the basis of those efforts, the offeror certifies that it is not aware of any such use of child labor.

(j) *Place of manufacture.* (Does not apply unless the solicitation is predominantly for the acquisition of manufactured end products.) For statistical purposes only, the offeror shall indicate whether the place of manufacture of the end products it expects to provide in response to this solicitation is predominantly—

(1) In the United States (Check this box if the total anticipated price of offered end products manufactured in the United States exceeds the total anticipated price of offered end products manufactured outside the United States); or

(2) Outside the United States.

(k) Certificates regarding exemptions from the application of the Service Contract Labor Standards. (Certification by the offeror as to its compliance with respect to the contract also constitutes its certification as to compliance by its subcontractor if it subcontracts out the exempt services.) [The contracting officer is to check a box to indicate if paragraph (k)(1) or (k)(2) applies.]

(1) Maintenance, calibration, or repair of certain equipment as described in FAR 22.1003-4(c)(1). The offeror does does not certify that—

(i) The items of equipment to be serviced under this contract are used regularly for other than Governmental purposes and are sold or traded by the offeror (or subcontractor in the case of an exempt subcontract) in substantial quantities to the general public in the course of normal business operations;

(ii) The services will be furnished at prices which are, or are based on, established catalog or market prices (see FAR 22.1003-4(c)(2)(ii)) for the maintenance, calibration, or repair of such equipment; and

(iii) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract will be the same as that used for these employees and equivalent employees servicing the same equipment of commercial customers.

(2) Certain services as described in FAR 22.1003-4(d)(1). The offeror does does not certify that—

(i) The services under the contract are offered and sold regularly to non-Governmental customers, and are provided by the offeror (or subcontractor in the case of an exempt subcontract) to the general public in substantial quantities in the course of normal business operations;

(ii) The contract services will be furnished at prices that are, or are based on, established catalog or market prices (see FAR 22.1003-4(d)(2)(iii));

(iii) Each service employee who will perform the services under the contract will spend only a small portion of his or her time (a monthly average of less than 20 percent of the available hours on an annualized basis, or less than 20 percent of available hours during the contract period if the contract period is less than a month) servicing the Government contract; and

(iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this clause applies—

(i) If the offeror does not certify to the conditions in paragraph (k)(1) or (k)(2) and the Contracting Officer did not attach a Service Contract Labor Standards wage determination to the solicitation, the offeror shall notify the Contracting Officer as soon as possible; and

(ii) The Contracting Officer may not make an award to the offeror if the offeror fails to execute the certification in paragraph (k)(1) or (k)(2) of this clause or to contact the Contracting Officer as required in paragraph (k)(3)(i) of this clause.

(l) *Taxpayer identification number (TIN)* (26 U.S.C. 6109, 31 U.S.C. 7701). (Not applicable if the offeror is required to provide this information to the SAM database to be eligible for award.)

(1) All offerors must submit the information required in paragraphs (l)(3) through (l)(5) of this provision to comply with debt collection requirements of 31 U.S.C. 7701(c) and 3325(d), reporting requirements of 26 U.S.C. 6041, 6041A, and 6050M, and implementing regulations issued by the Internal Revenue Service (IRS).

(2) The TIN may be used by the government to collect and report on any delinquent amounts arising out of the offeror's relationship with the Government (31 U.S.C. 7701(c)(3)). If the resulting contract is subject to the payment reporting requirements described in FAR 4.904, the TIN provided hereunder may be matched with IRS records to verify the accuracy of the offeror's TIN.

52.212-4 -- Contract Terms and Conditions -- Commercial Items.

As prescribed in 12.301(b)(3), insert the following clause:

Contract Terms and Conditions -- Commercial Items (May 2015)

(a) *Inspection/Acceptance.* The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. If repair/replacement or reperformance will not correct the defects or is not possible, the government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. The Government must exercise its post-acceptance rights --

(1) Within a reasonable time after the defect was discovered or should have been discovered; and

(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(b) *Assignment.* The Contractor or its assignee may assign its rights to receive payment due as a result of performance of this contract to a bank, trust company, or other financing institution, including any Federal lending agency in accordance with the Assignment of Claims Act (31 U.S.C.3727). However, when a third party makes payment (e.g., use of the Governmentwide commercial purchase card), the Contractor may not assign its rights to receive payment under this contract.

(c) *Changes.* Changes in the terms and conditions of this contract may be made only by written agreement of the parties.

(d) *Disputes.* This contract is subject to 41 U.S.C. chapter 71, Contract Disputes. Failure of the parties to this contract to reach agreement on any request for equitable adjustment, claim, appeal or action arising under or relating to this contract shall be a dispute to be resolved in accordance with the clause at FAR 52.233-1, Disputes, which is incorporated herein by reference. The Contractor shall proceed diligently with performance of this contract, pending final resolution of any dispute arising under the contract.

(e) *Definitions.* The clause at FAR 52.202-1, Definitions, is incorporated herein by reference.

(f) *Excusable delays.* The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(g) *Invoice.*

(1) The Contractor shall submit an original invoice and three copies (or electronic invoice, if authorized) to the address designated in the contract to receive invoices. An invoice must include --

(i) Name and address of the Contractor;

(ii) Invoice date and number;

(iii) Contract number, contract line item number and, if applicable, the order number;

(iv) Description, quantity, unit of measure, unit price and extended price of the items delivered;

(v) Shipping number and date of shipment, including the bill of lading number and weight of shipment if shipped on Government bill of lading;

(vi) Terms of any discount for prompt payment offered;

(vii) Name and address of official to whom payment is to be sent;

(viii) Name, title, and phone number of person to notify in event of defective invoice; and

(ix) Taxpayer Identification Number (TIN). The Contractor shall include its TIN on the invoice only if required elsewhere in this contract.

(x) Electronic funds transfer (EFT) banking information.

(A) The Contractor shall include EFT banking information on the invoice only if required elsewhere in this contract.

(B) If EFT banking information is not required to be on the invoice, in order for the invoice to be a proper invoice, the Contractor shall have submitted correct EFT banking information in accordance with the applicable solicitation provision, contract clause (e.g., 52.232-33, Payment by Electronic Funds Transfer— System for Award Management, or 52.232-34, Payment by Electronic Funds Transfer—Other Than System for Award Management), or applicable agency procedures.

(C) EFT banking information is not required if the Government waived the requirement to pay by EFT.

(2) Invoices will be handled in accordance with the Prompt Payment Act (31 U.S.C. 3903) and Office of Management and Budget (OMB) prompt payment regulations at 5 CFR part 1315.

(h) *Patent indemnity.* The Contractor shall indemnify the Government and its officers, employees and agents against liability, including costs, for actual or alleged direct or contributory infringement of, or inducement to infringe, any United States or foreign patent, trademark or copyright, arising out of the performance of this contract, provided the Contractor is reasonably notified of such claims and proceedings.

(i) Payment.

(1) Items accepted. Payment shall be made for items accepted by the Government that have been delivered to the delivery destinations set forth in this contract.

(2) Prompt Payment. The Government will make payment in accordance with the Prompt Payment Act (31 U.S.C. 3903) and prompt payment regulations at 5 CFR Part 1315.

(3) Electronic Funds Transfer (EFT). If the Government makes payment by EFT, see 52.212-5(b) for the appropriate EFT clause.

(4) *Discount.* In connection with any discount offered for early payment, time shall be computed from the date of the invoice. For the purpose of computing the discount earned, payment shall be considered to have been made on the date which appears on the payment check or the specified payment date if an electronic funds transfer payment is made.

(5) *Overpayments.* If the Contractor becomes aware of a duplicate contract financing or invoice payment or that the Government has otherwise overpaid on a contract financing or invoice payment, the Contractor shall—

(i) Remit the overpayment amount to the payment office cited in the contract along with a description of the overpayment including the—

(A) Circumstances of the overpayment (e.g., duplicate payment, erroneous payment, liquidation errors, date(s) of overpayment);

(B) Affected contract number and delivery order number, if applicable;

(C) Affected contract line item or subline item, if applicable; and

(D) Contractor point of contact.

(ii) Provide a copy of the remittance and supporting documentation to the Contracting Officer.

(6) Interest.

(i) All amounts that become payable by the Contractor to the Government under this contract shall bear simple interest from the date due until paid unless paid within 30 days of becoming due. The interest rate shall be the interest rate established by the Secretary of the Treasury as provided in 41 U.S.C. 7109, which is applicable to the period in which the amount becomes due, as provided in (i)(6)(v) of this clause, and then at the rate applicable for each six-month period at fixed by the Secretary until the amount is paid.

(ii) The Government may issue a demand for payment to the Contractor upon finding a debt is due under the contract.

(iii) Final decisions. The Contracting Officer will issue a final decision as required by 33.211 if—

(A) The Contracting Officer and the Contractor are unable to reach agreement on the existence or amount of a debt within 30 days;

(B) The Contractor fails to liquidate a debt previously demanded by the Contracting Officer within the timeline specified in the demand for payment unless the amounts were not repaid because the Contractor has requested an installment payment agreement; or

(C) The Contractor requests a deferment of collection on a debt previously demanded by the Contracting Officer (see 32.607-2).

(iv) If a demand for payment was previously issued for the debt, the demand for payment included in the final decision shall identify the same due date as the original demand for payment.

(v) Amounts shall be due at the earliest of the following dates:

(A) The date fixed under this contract.

(B) The date of the first written demand for payment, including any demand for payment resulting from a default termination.

(vi) The interest charge shall be computed for the actual number of calendar days involved beginning on the due date and ending on—

(A) The date on which the designated office receives payment from the Contractor;

(B) The date of issuance of a Government check to the Contractor from which an amount otherwise payable has been withheld as a credit against the contract debt; or

(C) The date on which an amount withheld and applied to the contract debt would otherwise have become payable to the Contractor.

(vi) The interest charge made under this clause may be reduced under the procedures prescribed in 32.608-2 of the Federal Acquisition Regulation in effect on the date of this contract.

(j) *Risk of loss.* Unless the contract specifically provides otherwise, risk of loss or damage to the supplies provided under this contract shall remain with the Contractor until, and shall pass to the Government upon:

- (1) Delivery of the supplies to a carrier, if transportation is f.o.b. origin; or
- (2) Delivery of the supplies to the Government at the destination specified in the contract, if transportation is f.o.b. destination.

(k) *Taxes.* The contract price includes all applicable Federal, State, and local taxes and duties.

(l) *Termination for the Government's convenience.* The Government reserves the right to terminate this contract, or any part hereof, for its sole convenience. In the event of such termination, the Contractor shall immediately stop all work hereunder and shall immediately cause any and all of its suppliers and subcontractors to cease work. Subject to the terms of this contract, the Contractor shall be paid a percentage of the contract price reflecting the percentage of the work performed prior to the notice of termination, plus reasonable charges the Contractor can demonstrate to the satisfaction of the Government using its standard record keeping system, have resulted from the termination. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. This paragraph does not give the Government any right to audit the Contractor's records. The Contractor shall not be paid for any work performed or costs incurred which reasonably could have been avoided.

(m) *Termination for cause.* The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(n) *Title.* Unless specified elsewhere in this contract, title to items furnished under this contract shall pass to the Government upon acceptance, regardless of when or where the Government takes physical possession.

(o) *Warranty.* The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

(p) *Limitation of liability.* Except as otherwise provided by an express warranty, the Contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items.

(q) *Other compliances.* The Contractor shall comply with all applicable Federal, State and local laws, executive orders, rules and regulations applicable to its performance under this contract.

(r) *Compliance with laws unique to Government contracts.* The Contractor agrees to comply with 31 U.S.C. 1352 relating to limitations on the use of appropriated funds to influence certain Federal contracts; 18 U.S.C. 431 relating to officials not to benefit; 40 U.S.C. chapter 37, Contract Work Hours and Safety Standards; 41 U.S.C. chapter 87, Kickbacks; 41 U.S.C. 4712 and 10 U.S.C. 2409 relating to whistleblower protections; 49 U.S.C. 40118, Fly American; and 41 U.S.C. chapter 21 relating to procurement integrity.

(s) *Order of precedence.* Any inconsistencies in this solicitation or contract shall be resolved by giving precedence in the following order:

- (1) The schedule of supplies/services.
- (2) The Assignments, Disputes, Payments, Invoice, Other Compliances, Compliance with Laws Unique to Government Contracts, and Unauthorized Obligations paragraphs of this clause.
- (3) The clause at 52.212-5.
- (4) Addenda to this solicitation or contract, including any license agreements for computer software.
- (5) Solicitation provisions if this is a solicitation.
- (6) Other paragraphs of this clause.
- (7) The Standard Form 1449.
- (8) Other documents, exhibits, and attachments.
- (9) The specification.

(t) System for Award Management (SAM).

(1) Unless exempted by an addendum to this contract, the Contractor is responsible during performance and through final payment of any contract for the accuracy and completeness of the data within the SAM database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain

registered in the SAM database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the SAM database to ensure it is current, accurate and complete. Updating information in the SAM does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(2)

(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in Subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to:

(A) Change the name in the SAM database;

(B) Comply with the requirements of Subpart 42.12 of the FAR;

(C) Agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor must provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (t)(2)(i) of this clause, or fails to perform the agreement at paragraph (t)(2)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the SAM information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.

(3) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the SAM record to reflect an assignee for the purpose of assignment of claims (see FAR Subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the SAM database. Information provided to the Contractor's SAM record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the "Suspension of payment" paragraph of the EFT clause of this contract.

(4) Offerors and Contractors may obtain information on registration and annual confirmation requirements via SAM accessed through <https://www.acquisition.gov>.

(u) Unauthorized Obligations.

(1) Except as stated in paragraph (u)(2) of this clause, when any supply or service acquired under this contract is subject to any End Use License Agreement (EULA), Terms of Service (TOS), or similar legal instrument or agreement, that includes any clause requiring the Government to indemnify the Contractor or any person or entity for damages, costs, fees, or any other loss or liability that would create an Anti-Deficiency Act violation (31 U.S.C. 1341), the following shall govern:

(i) Any such clause is unenforceable against the Government.

(ii) Neither the Government nor any Government authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. If the EULA, TOS, or similar legal instrument or agreement is invoked through an "I agree" click box or other comparable mechanism (e.g., "click-wrap" or "browse-wrap" agreements), execution does not bind the Government or any Government authorized end user to such clause.

(iii) Any such clause is deemed to be stricken from the EULA, TOS, or similar legal instrument or agreement.

(2) Paragraph (u)(1) of this clause does not apply to indemnification by the Government that is expressly authorized by statute and specifically authorized under applicable agency regulations and procedures.

(v) *Incorporation by reference.* The Contractor's representations and certifications, including those completed electronically via the System for Award Management (SAM), are incorporated by reference into the contract.

52.215-6 PLACE OF PERFORMANCE (OCT 1997) – FAR

(a) The offeror or respondent, in the performance of any contract resulting from this solicitation, ___ intends, ___ does not intend [*check applicable block*] to use one or more plants or facilities located at a different address from the address of the offeror or respondent as indicated in this proposal or response to request for information.

(b) If the offeror or respondent checks "intends" in paragraph (a) of this provision, it shall insert in the following spaces the required information:

52.215-9023 REVERSE AUCTION (OCT 2013) – DLAD

The Contracting Officer may utilize on-line reverse auctioning as a means of conducting price discussions under this solicitation. If the Contracting Officer does not conduct a reverse auction, award may be made on the basis of initial offers or following discussions not using reverse auctioning as a pricing technique. If the Contracting Officer decides to use on-line reverse auctioning to conduct price negotiations, the Contracting Officer will notify Offerors of this decision and the following provisions will apply:

- (a) The award decision will be made in accordance with the evaluation factors as set forth in the solicitation. The reverse on-line auction will be used as a pricing technique during discussions to establish the final offered prices from each Offeror. These prices will be used in conjunction with the evaluation factors stated elsewhere in the solicitation in order to make the award decision in accordance with the basis for award stated in the solicitation.
- (b) Following the decision to conduct discussions using reverse auctioning as a pricing technique, the Contracting Officer or his/her representative will provide Offerors determined to be in the competitive range with information concerning the auction process.
- (c) Prior to conducting the reverse auction, the Contracting Officer may hold discussions with the Offerors concerning matters appropriate for discussion, such as issues involving technical proposals or unbalanced pricing.
- (d) Unless auction instructions indicate that only Offeror's rankings will be displayed, the lowest Offeror's price(s) for each round of the reverse auction will be disclosed to other Offerors and anyone else having authorized access to the auction. This disclosure is anonymous, meaning that each Offeror's identity will be concealed from other Offerors (although it will be known to the Government; only a generic identifier will be used for each Offeror's proposed pricing, such as "Offeror A" or "lowest-priced Offeror"). By submitting a proposal in response to the solicitation, Offerors agree to participate in the reverse auction and that their prices may be disclosed, including to other Offerors, during the reverse auction.
- (e) An Offeror's final auction price at the close of the reverse auction will be considered its final price proposal revision. No price revisions will be accepted after the close of the reverse auction, unless the Contracting Officer decides that further discussions are needed and final price proposal revisions are again requested in accordance with Federal Acquisition Regulation (FAR) 15.307, or the Contracting Officer determines that it would be in the best interest of the Government to re-open the auction.
- (f) The following requirements apply when the Government uses a commercial web-based product to conduct the reverse auction:
 - (1) Each Offeror identified by the Contracting Officer as a participant in the reverse auction will be contacted by Defense Logistic Agency's commercial reverse auction service provider to advise the Offeror of the event and to provide an explanation of the process.
 - (2) In order for an Offeror to participate in the reverse auction, such Offeror must agree with terms and conditions of the entire solicitation, including this provision, and agree to the commercial reverse auction service provider's terms and conditions for using its service. Information concerning the reverse auction process and the commercial service provider's terms and conditions is embedded within the email notification sent by the on-line reverse auction pricing tool system administrator.
 - (3) Offerors shall secure the passwords and other confidential materials provided by the commercial reverse auction service provider or the Government and ensure they are used only for purposes of participation in the reverse auction. Offerors shall keep their own and other Offeror's pricing in confidence until after contract award.
 - (4) The reverse auction system currently in use designates offers as "Lead," meaning the current low price in that auction, or "Not Lead," meaning not the current low price in that auction. In the event of a tie offer, the reverse auction provider's system designates the first offer of that price as "Lead" and the second or subsequent offer of that price as "Not Lead." Offerors shall not submit a tie offer, since this is inconsistent with the purpose of the reverse auction. If a tie offer is submitted and no evaluation factors other than price were identified in the solicitation, the "Not Lead" Offeror that submitted the tie offer must offer a changed price; otherwise its offer will be ineligible for award if their final price in the auction is the tie offer price. If evaluation factors in addition to price were listed in the solicitation, tie offers that are "Not Lead" will be considered and evaluated in accordance with those evaluation factors.

(5) Any Offerors unable to enter pricing through the commercial reverse auction service provider's system during a reverse auction must notify the Contracting Officer or designated representative immediately. The Contracting Officer may, at his/her sole discretion, extend or re-open the reverse auction if the reason for the Offeror's inability to enter pricing is determined to be without fault on the part of the Offeror and outside the Offeror's control.

(6) The reverse auction will be conducted using the commercial reverse auction service provider's website as embedded in the email notification. Offerors shall be responsible for providing their own computer and internet connection.

(7) Training:

(i) The commercial reverse auction service provider and/or a Government representative will provide familiarization training to Offerors' employees; this training may be provided through written material, the commercial reverse auction service provider's website, and/or other means.

(ii) An employee of an Offeror who successfully completes the training shall be designated as a "Trained Offeror." Only Trained Offerors may participate in a reverse auction. The Contracting Officer reserves the right to request that Offerors provide an alternate Offeror employee to become a Trained Offeror. The Contracting Officer also reserves the right to take away the Trained Offeror's designation from any Trained Offeror who fails to abide by the solicitation's or commercial reverse auction service provider's terms and conditions.

52.216-1 TYPE OF CONTRACT (APR 1984) – FAR

The Government contemplates award of a fixed-price, Indefinite Delivery/Indefinite Quantity Contract resulting from this solicitation.

52.233-9001 DISPUTES: AGREEMENT TO USE ALTERNATIVE DISPUTE RESOLUTION (ADR) (NOV 2011) – DLAD

(a) The parties agree to negotiate with each other to try to resolve any disputes that may arise. If unassisted negotiations are unsuccessful, the parties will use alternative dispute resolution (ADR) techniques to try to resolve the dispute. Litigation will only be considered as a last resort when ADR is unsuccessful or has been documented by the party rejecting ADR to be inappropriate for resolving the dispute.

(b) Before either party determines ADR inappropriate, that party must discuss the use of ADR with the other party. The documentation rejecting ADR must be signed by an official authorized to bind the contractor (see Federal Acquisition Regulation (FAR) clause 52.233-1), or, for the Agency, by the contracting officer, and approved at a level above the contracting officer after consultation with the ADR Specialist and with legal. Contractor personnel are also encouraged to include the ADR Specialist in their discussions with the contracting officer before determining ADR to be inappropriate.

(c) The offeror should check here to opt out of this clause:

[] Alternate wording may be negotiated with the contracting officer.

52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998) – FAR

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es): <http://farsite.hill.af.mil/>

252.204-7008 Compliance with Safeguarding Covered Defense Information Control (DEC 2015)

(a) *Definitions.* As used in this provision—

“Controlled technical information,” “covered contractor information system,” and “covered defense information” are defined in clause 252.204-7012, Safeguarding Covered Defense Information and Cyber Incident Reporting.

(b) The security requirements required by (b) contract clause 252.204-7012, Covered Defense Information and Cyber Incident Reporting, shall be implemented for all covered defense information on all covered contractor information systems that support the performance of this contract.

(c) For covered contractor information systems that are not part of an information technology (IT) service or system operated on behalf of the Government (see 252.204-7012(b)(1)(ii))—

(1) By submission of this offer, the Offeror represents that it will implement the security requirements specified by National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, “Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations” (see <http://dx.doi.org/10.6028/NIST.SP.800-171>), not later than December 31, 2017.

(2)(i) If the Offeror proposes to vary from any of the security requirements specified by NIST SP 800-171 that is in effect at the time the solicitation is issued or as authorized by the Contracting Officer, the Offeror shall submit to the Contracting Officer, for consideration by the DoD Chief Information Officer (CIO), a written explanation of—

(A) Why a particular security requirement is not applicable; or

(B) How an alternative but equally effective, security measure is used to compensate for the inability to satisfy a particular requirement and achieve equivalent protection.

(ii) An authorized representative of the DoD CIO will adjudicate offeror requests to vary from NIST SP 800-171 requirements in writing prior to contract award. Any accepted variance from NIST SP 800-171 shall be incorporated into the resulting contract.

252.204-7009 Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information. (DEC 2015)

(a) *Definitions.* As used in this clause—

“Compromise” means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

“Controlled technical information” means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

“Covered defense information” means unclassified information that—

(1) Is—

(i) Provided to the contractor by or on behalf of DoD in connection with the performance of the contract; or

(ii) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract; and

(2) Falls in any of the following categories:

(i) Controlled technical information.

(ii) *Critical information (operations security)*. Specific facts identified through the Operations Security process about friendly intentions, capabilities, and activities vitally needed by adversaries for them to plan and act effectively so as to guarantee failure or unacceptable consequences for friendly mission accomplishment (part of Operations Security process).

(iii) *Export control*. Unclassified information concerning certain items, commodities, technology, software, or other information whose export could reasonably be expected to adversely affect the United States national security and nonproliferation objectives. To include dual use items; items identified in export administration regulations, international traffic in arms regulations and munitions list; license applications; and sensitive nuclear technology information.

(iv) Any other information, marked or otherwise identified in the contract, that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Government wide policies (e.g., privacy, proprietary business information).

“Cyber incident” means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein.

(b) *Restrictions*. The Contractor agrees that the following conditions apply to any information it receives or creates in the performance of this contract that is information obtained from a third-party’s reporting of a cyber incident pursuant to DFARS clause 252.204-7012, Safeguarding Covered Defense Information and Cyber Incident Reporting (or derived from such information obtained under that clause):

(1) The Contractor shall access and use the information only for the purpose of furnishing advice or technical assistance directly to the Government in support of the Government’s activities related to clause 252.204-7012, and shall not be used for any other purpose.

(2) The Contractor shall protect the information against unauthorized release or disclosure.

CONTINUED ON NEXT PAGE

(3) The Contractor shall ensure that its employees are subject to use and non-disclosure obligations consistent with this clause prior to the employees being provided access to or use of the information.

(4) The third-party contractor that reported the cyber incident is a third-party beneficiary of the non-disclosure agreement between the Government and Contractor, as required by paragraph (b)(3) of this clause.

(5) A breach of these obligations or restrictions may subject the Contractor to—

(i) Criminal, civil, administrative, and contractual actions in law and equity for penalties, damages, and other appropriate remedies by the United States; and

(ii) Civil actions for damages and other appropriate remedies by the third party that reported the cyber incident, as a third party beneficiary of this clause.

(c) *Subcontracts.* The Contractor shall include this clause, including this paragraph (c), in subcontracts, or similar contractual instruments, for services that include support for the Government's activities related to safeguarding covered defense information and cyber incident reporting, including subcontracts for commercial items, without alteration, except to identify the parties.

252.204-7012 Safeguarding Covered Defense Information and Cyber Incident Reporting. (DEC 2015)

(a) *Definitions.* As used in this clause—

"Adequate security" means protective measures that are commensurate with the consequences and probability of loss, misuse, or unauthorized access to, or modification of information.

"Compromise" means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

"Contractor attributional/proprietary information" means information that identifies the contractor(s), whether directly or indirectly, by the grouping of information that can be traced back to the contractor(s) (e.g., program description, facility locations), personally identifiable information, as well as trade secrets, commercial or financial information, or other commercially sensitive information that is not customarily shared outside of the company.

"Contractor information system" means an information system belonging to, or operated by or for, the Contractor.

"Controlled technical information" means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

"Covered contractor information system" means an information system that is owned, or operated by or for, a contractor and that processes, stores, or transmits covered defense information.

"Covered defense information" means unclassified information that—

(i) Is—

(A) Provided to the contractor by or on behalf of DoD in connection with the performance of the contract; or

CONTINUED ON NEXT PAGE

(B) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract; and

(ii) Falls in any of the following categories:

(A) *Controlled technical information.*

(B) *Critical information (operations security).* Specific facts identified through the Operations Security process about friendly intentions, capabilities, and activities vitally needed by adversaries for them to plan and act effectively so as to guarantee failure or unacceptable consequences for friendly mission accomplishment (part of Operations Security process).

(C) *Export control.* Unclassified information concerning certain items, commodities, technology, software, or other information whose export could reasonably be expected to adversely affect the United States national security and nonproliferation objectives. To include dual use items; items identified in export administration regulations, international traffic in arms regulations and munitions list; license applications; and sensitive nuclear technology information.

(D) Any other information, marked or otherwise identified in the contract, that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Governmentwide policies (e.g., privacy, proprietary business information).

“Cyber incident” means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein.

“Forensic analysis” means the practice of gathering, retaining, and analyzing computer-related data for investigative purposes in a manner that maintains the integrity of the data.

“Malicious software” means computer software or firmware intended to perform an unauthorized process that will have adverse impact on the confidentiality, integrity, or availability of an information system. This definition includes a virus, worm, Trojan horse, or other code-based entity that infects a host, as well as spyware and some forms of adware.

“Media” means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which information is recorded, stored, or printed within an information system.

“Operationally critical support” means supplies or services designated by the Government as critical for airlift, sealift, intermodal transportation services, or logistical support that is essential to the mobilization, deployment, or sustainment of the Armed Forces in a contingency operation.

“Rapid(ly) report(ing)” means within 72 hours of discovery of any cyber incident.

“Technical information” means technical data or computer software, as those terms are defined in the clause at DFARS 252.227-7013, Rights in Technical Data-Non Commercial Items, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code.

CONTINUED ON NEXT PAGE

(b) *Adequate security.* The Contractor shall provide adequate security for all covered defense information on all covered contractor information systems that support the performance of work under this contract. To provide adequate security, the Contractor shall—

(1) Implement information systems security protections on all covered contractor information systems including, at a minimum—

(i) For covered contractor information systems that are part of an Information Technology (IT) service or system operated on behalf of the Government—

(A) Cloud computing services shall be subject to the security requirements specified in the clause 252.239-7010, Cloud Computing Services, of this contract; and

(B) Any other such IT service or system (i.e., other than cloud computing) shall be subject to the security requirements specified elsewhere in this contract; or

(ii) For covered contractor information systems that are not part of an IT service or system operated on behalf of the Government and therefore are not subject to the security requirement specified at paragraph (b)(1)(i) of this clause—

(A) The security requirements in National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, "Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations," <http://dx.doi.org/10.6028/NIST.SP.800-171> that is in effect at the time the solicitation is issued or as authorized by the Contracting Officer, as soon as practical, but not later than December 31, 2017. The Contractor shall notify the DoD CIO, via email at osd.dibcsia@mail.mil, within 30 days of contract award, of any security requirements specified by NIST SP 800-171 not implemented at the time of contract award; or

(B) Alternative but equally effective security measures used to compensate for the inability to satisfy a particular requirement and achieve equivalent protection accepted in writing by an authorized representative of the DoD CIO; and

(2) Apply other information systems security measures when the Contractor reasonably determines that information systems security measures, in addition to those identified in paragraph (b)(1) of this clause, may be required to provide adequate security in a dynamic environment based on an assessed risk or vulnerability.

(c) *Cyber incident reporting requirement.*

(1) When the Contractor discovers a cyber incident that affects a covered contractor information system or the covered defense information residing therein, or that affects the contractor's ability to perform the requirements of the contract that are designated as operationally critical support, the Contractor shall—

(i) Conduct a review for evidence of compromise of covered defense information, including, but not limited to, identifying compromised computers, servers, specific data, and user accounts. This review shall also include analyzing covered contractor information system(s) that were part of the cyber incident, as well as other information systems on the Contractor's network(s), that may have been accessed as a result of the incident in order to identify compromised covered defense information, or that affect the Contractor's ability to provide operationally critical support; and

(ii) Rapidly report cyber incidents to DoD at <http://dibnet.dod.mil>.

(2) *Cyber incident report.* The cyber incident report shall be treated as information created by or for DoD and shall include, at a minimum, the required elements at <http://dibnet.dod.mil>.

(3) *Medium assurance certificate requirement.* In order to report cyber incidents in accordance with this clause, the Contractor or subcontractor shall have or acquire a DoD-approved medium assurance certificate to report cyber incidents. For information on obtaining a DoD-approved medium assurance certificate, see <http://iase.disa.mil/pki/eca/Pages/index.aspx>.

(d) *Malicious software.* The Contractor or subcontractors that discover and isolate malicious software in connection with a reported cyber incident shall submit the malicious software in accordance with instructions provided by the Contracting Officer.

(e) *Media preservation and protection.* When a Contractor discovers a cyber incident has occurred, the Contractor shall preserve and protect images of all known affected information systems identified in paragraph (c)(1)(i) of this clause and all relevant monitoring/packet capture data for at least 90 days from the submission of the cyber incident report to allow DoD to request the media or decline interest.

(f) *Access to additional information or equipment necessary for forensic analysis.* Upon request by DoD, the Contractor shall provide DoD with access to additional information or equipment that is necessary to conduct a forensic analysis.

(g) *Cyber incident damage assessment activities.* If DoD elects to conduct a damage assessment, the Contracting Officer will request that the Contractor provide all of the damage assessment information gathered in accordance with paragraph (e) of this clause.

(h) *DoD safeguarding and use of contractor attributional/proprietary information.* The Government shall protect against the unauthorized use or release of information obtained from the contractor (or derived from information obtained from the contractor) under this clause that includes contractor attributional/proprietary information, including such information submitted in accordance with paragraph (c). To the maximum extent practicable, the Contractor shall identify and mark attributional/proprietary information. In making an authorized release of such information, the Government will implement appropriate procedures to minimize the contractor attributional/proprietary information that is included in such authorized release, seeking to include only that information that is necessary for the authorized purpose(s) for which the information is being released.

(i) *Use and release of contractor attributional/proprietary information not created by or for DoD.* Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is not created by or for DoD is authorized to be released outside of DoD—

(1) To entities with missions that may be affected by such information;

(2) To entities that may be called upon to assist in the diagnosis, detection, or mitigation of cyber incidents;

(3) To Government entities that conduct counterintelligence or law enforcement investigations;

(4) For national security purposes, including cyber situational awareness and defense purposes (including with Defense Industrial Base (DIB) participants in the program at 32 CFR part 236); or

(5) To a support services contractor ("recipient") that is directly supporting Government activities under a contract that includes the clause at 252.204-7009, Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information.

(j) *Use and release of contractor attributional/proprietary information created by or for DoD.* Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is created by or for DoD (including the information submitted pursuant to paragraph (c) of this clause) is authorized to be used and released outside of DoD for purposes and activities authorized by paragraph (i) of this clause, and for any other lawful Government purpose or activity, subject to all applicable statutory, regulatory, and policy based restrictions on the Government's use and release of such information.

(k) The Contractor shall conduct activities under this clause in accordance with applicable laws and regulations on the interception, monitoring, access, use, and disclosure of electronic communications and data.

(l) *Other safeguarding or reporting requirements.* The safeguarding and cyber incident reporting required by this clause in no way abrogates the Contractor's responsibility for other safeguarding or cyber incident reporting pertaining to its unclassified information systems as required by other applicable clauses of this contract, or as a result of other applicable U.S. Government statutory or regulatory requirements.

(m) *Subcontracts.* The Contractor shall—

(1) Include this clause, including this paragraph (m), in subcontracts, or similar contractual instruments, for operationally critical support, or for which subcontract performance will involve a covered contractor information system, including subcontracts for commercial items, without alteration, except to identify the parties; and

(2) When this clause is included in a subcontract, require subcontractors to rapidly report cyber incidents directly to DoD at <http://dibnet.dod.mil> and the prime Contractor. This includes providing the incident report number, automatically assigned by DoD, to the prime Contractor (or next higher-tier subcontractor) as soon as practicable.

“Structural component of a tent”—

(i) Means a component that contributes to the form and stability of the tent (e.g., poles, frames, flooring, guy ropes, pegs);

(ii) Does not include equipment such as heating, cooling, or lighting.

“United States” means the 50 States, the District of Columbia, and outlying areas.

“U.S.-flag vessel” means a vessel of the United States or belonging to the United States, including any vessel registered or having national status under the laws of the United States.

(b) The Contractor shall deliver under this contract only such of the following items, either as end products or components, that have been grown, reprocessed, reused, or produced in the United States:

(1) Food.

(2) Clothing and the materials and components thereof, other than sensors, electronics, or other items added to, and not normally associated with, clothing and the materials and components thereof. Clothing includes items such as outerwear, headwear, underwear, nightwear, footwear, hosiery, handwear, belts, badges, and insignia.

(3)

(i) Tents and structural components of tents;

(ii) Tarpaulins; or

(iii) Covers.

(4) Cotton and other natural fiber products.

(5) Woven silk or woven silk blends.

(6) Spun silk yarn for cartridge cloth.

(7) Synthetic fabric, and coated synthetic fabric, including all textile fibers and yarns that are for use in such fabrics.

(8) Canvas products.

(9) Wool (whether in the form of fiber or yarn or contained in fabrics, materials, or manufactured articles).

(10) Any item of individual equipment (Federal Supply Class 8465) manufactured from or containing fibers, yarns, fabrics, or materials listed in this paragraph (b).

(c) This clause does not apply—

(1) To items listed in section 25.104(a) of the Federal Acquisition Regulation (FAR), or other items for which the Government has determined that a satisfactory quality and sufficient quantity cannot be acquired as and when needed at U.S. market prices;

(2) To incidental amounts of cotton, other natural fibers, or wool incorporated in an end product, for which the estimated value of the cotton, other natural fibers, or wool—

- (i) Is not more than 10 percent of the total price of the end product; and
- (ii) Does not exceed the simplified acquisition threshold in FAR Part 2;

(3) To waste and byproducts of cotton or wool fiber for use in the production of propellants and explosives;

(4) To foods, other than fish, shellfish, or seafood, that have been manufactured or processed in the United States, regardless of where the foods (and any component if applicable) were grown or produced. Fish, shellfish, or seafood manufactured or processed in the United States and fish, shellfish, or seafood contained in foods manufactured or processed in the United States shall be provided in accordance with paragraph (d) of this clause;

(5) To chemical warfare protective clothing produced in a qualifying country; or

(6) To fibers and yarns that are for use in synthetic fabric or coated synthetic fabric (but does apply to the synthetic or coated synthetic fabric itself), if—

(i) The fabric is to be used as a component of an end product that is not a textile product. Examples of textile products, made in whole or in part of fabric, include

(A) Draperies, floor coverings, furnishings, and bedding (Federal Supply Group 72, Household and Commercial Furnishings and Appliances);

(B) Items made in whole or in part of fabric in Federal Supply Group 83, Textile/leather/furs/apparel/findings/tents/flags, or Federal Supply Group 84, Clothing, Individual Equipment and Insignia;

52.212-04 CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS (MAY 2015) FAR

(a) Inspection/Acceptance. The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. If repair/replacement or reperformance will not correct the defects or is not possible, the Government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. The Government must exercise its post-acceptance rights—

(1) Within a reasonable time after the defect was discovered or should have been discovered; and

(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(b) Assignment. The Contractor or its assignee may assign its rights to receive payment due as a result of performance of this contract to a bank, trust company, or other financing institution, including any Federal lending agency in accordance with the Assignment of Claims Act ([31 U.S.C. 3727](#)). However, when a third party makes payment (e.g., use of the Governmentwide commercial purchase card), the Contractor may not assign its rights to receive payment under this contract.

(c) Changes. Changes in the terms and conditions of this contract may be made only by written agreement of the parties.

(d) Disputes. This contract is subject to the Contract Disputes Act of 1978, as amended ([41 U.S.C. 601-613](#)). Failure of the parties to this contract to reach agreement on any request for equitable adjustment, claim, appeal or action arising under or relating to this contract shall be a dispute to be resolved in accordance with the clause at FAR [52.233-1](#), Disputes, which is incorporated herein by

CONTINUED ON NEXT PAGE

reference. The Contractor shall proceed diligently with performance of this contract, pending final resolution of any dispute arising under the contract.

(e) Definitions. The clause at FAR [52.202-1](#), Definitions, is incorporated herein by reference.

(f) Excusable delays. The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(g) Invoice.

(1) The Contractor shall submit an original invoice and three copies (or electronic invoice, if authorized) to the address designated in the contract to receive invoices. An invoice must include—

(i) Name and address of the Contractor;

(ii) Invoice date and number;

(iii) Contract number, contract line item number and, if applicable, the order number;

(iv) Description, quantity, unit of measure, unit price and extended price of the items delivered;

(v) Shipping number and date of shipment, including the bill of lading number and weight of shipment if shipped on Government bill of lading;

(vi) Terms of any discount for prompt payment offered;

(vii) Name and address of official to whom payment is to be sent;

(viii) Name, title, and phone number of person to notify in event of defective invoice; and

(ix) Taxpayer Identification Number (TIN). The Contractor shall include its TIN on the invoice only if required elsewhere in this contract.

(x) Electronic funds transfer (EFT) banking information.

(A) The Contractor shall include EFT banking information on the invoice only if required elsewhere in this contract.

(B) If EFT banking information is not required to be on the invoice, in order for the invoice to be a proper invoice, the Contractor shall have submitted correct EFT banking information in accordance with the applicable solicitation provision, contract clause (e.g., [52.232-33](#), Payment by Electronic Funds Transfer—Central Contractor Registration, or [52.232-34](#), Payment by Electronic Funds Transfer—Other Than Central Contractor Registration), or applicable agency procedures.

(C) EFT banking information is not required if the Government waived the requirement to pay by EFT.

(2) Invoices will be handled in accordance with the Prompt Payment Act ([31 U.S.C. 3903](#)) and Office of Management and Budget (OMB) prompt payment regulations at 5 CFR Part 1315.

(h) Patent indemnity. The Contractor shall indemnify the Government and its officers, employees and agents against liability, including costs, for actual or alleged direct or contributory infringement of, or inducement to infringe, any United States or foreign patent, trademark or copyright, arising out of the performance of this contract, provided the Contractor is reasonably notified of such claims and proceedings.

(i) Payment.—

(1) Items accepted. Payment shall be made for items accepted by the Government that have been delivered to the delivery destinations set forth in this contract.

(2) Prompt payment. The Government will make payment in accordance with the Prompt Payment Act ([31 U.S.C. 3903](#)) and prompt payment regulations at 5 CFR Part 1315.

(3) Electronic Funds Transfer (EFT). If the Government makes payment by EFT, see [52.212-5](#)(b) for the appropriate EFT clause.

(4) Discount. In connection with any discount offered for early payment, time shall be computed from the date of the invoice. For the purpose of computing the discount earned, payment shall be considered to have been made on the date which appears on the payment check or the specified payment date if an electronic funds transfer payment is made.

(5) Overpayments. If the Contractor becomes aware of a duplicate contract financing or invoice payment or that the Government has otherwise overpaid on a contract financing or invoice payment, the Contractor shall—

(i) Remit the overpayment amount to the payment office cited in the contract along with a description of the overpayment including the—

(A) Circumstances of the overpayment (e.g., duplicate payment, erroneous payment, liquidation errors, date(s) of overpayment);

(B) Affected contract number and delivery order number, if applicable;

(C) Affected contract line item or subline item, if applicable; and

(D) Contractor point of contact.

(ii) Provide a copy of the remittance and supporting documentation to the Contracting Officer.

(6) Interest.

(i) All amounts that become payable by the Contractor to the Government under this contract shall bear simple interest from the date due until paid unless paid within 30 days of becoming due. The interest rate shall be the interest rate established by the Secretary of the Treasury as provided in Section 611 of the Contract Disputes Act of 1978 (Public Law 95-563), which is applicable to the period in which the amount becomes due, as provided in (i)(6)(v) of this clause, and then at the rate applicable for each six-month period as fixed by the Secretary until the amount is paid.

(ii) The Government may issue a demand for payment to the Contractor upon finding a debt is due under the contract.

(iii) Final decisions. The Contracting Officer will issue a final decision as required by [33.211](#) if—

CONTINUED ON NEXT PAGE

- (A) The Contracting Officer and the Contractor are unable to reach agreement on the existence or amount of a debt within 30 days;
- (B) The Contractor fails to liquidate a debt previously demanded by the Contracting Officer within the timeline specified in the demand for payment unless the amounts were not repaid because the Contractor has requested an installment payment agreement; or
- (C) The Contractor requests a deferment of collection on a debt previously demanded by the Contracting Officer (see [32.607-2](#)).
- (iv) If a demand for payment was previously issued for the debt, the demand for payment included in the final decision shall identify the same due date as the original demand for payment.
- (v) Amounts shall be due at the earliest of the following dates:
- (A) The date fixed under this contract.
- (B) The date of the first written demand for payment, including any demand for payment resulting from a default termination.
- (vi) The interest charge shall be computed for the actual number of calendar days involved beginning on the due date and ending on—
- (A) The date on which the designated office receives payment from the Contractor;
- (B) The date of issuance of a Government check to the Contractor from which an amount otherwise payable has been withheld as a credit against the contract debt; or
- (C) The date on which an amount withheld and applied to the contract debt would otherwise have become payable to the Contractor.
- (vii) The interest charge made under this clause may be reduced under the procedures prescribed in [32.608-2](#) of the Federal Acquisition Regulation in effect on the date of this contract.
- (j) Risk of loss. Unless the contract specifically provides otherwise, risk of loss or damage to the supplies provided under this contract shall remain with the Contractor until, and shall pass to the Government upon:
- (1) Delivery of the supplies to a carrier, if transportation is f.o.b. origin; or
- (2) Delivery of the supplies to the Government at the destination specified in the contract, if transportation is f.o.b. destination.
- (k) Taxes. The contract price includes all applicable Federal, State, and local taxes and duties.
- (l) Termination for the Government's convenience. The Government reserves the right to terminate this contract, or any part hereof, for its sole convenience. In the event of such termination, the Contractor shall immediately stop all work hereunder and shall immediately cause any and all of its suppliers and subcontractors to cease work. Subject to the terms of this contract, the Contractor shall be paid a percentage of the contract price reflecting the percentage of the work performed prior to the notice of termination, plus reasonable charges the Contractor can demonstrate to the satisfaction of the Government using its standard record keeping system, have resulted from the termination. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. This paragraph does not give the Government any right to audit the Contractor's records. The Contractor shall not be paid for any work performed or costs incurred which reasonably could have been avoided.
- (m) Termination for cause. The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.
- (n) Title. Unless specified elsewhere in this contract, title to items furnished under this contract shall pass to the Government upon acceptance, regardless of when or where the Government takes physical possession.
- (o) Warranty. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.
- (p) Limitation of liability. Except as otherwise provided by an express warranty, the Contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items.
- (q) Other compliances. The Contractor shall comply with all applicable Federal, State and local laws, executive orders, rules and regulations applicable to its performance under this contract.
- (r) Compliance with laws unique to Government contracts. The Contractor agrees to comply with [31 U.S.C. 1352](#) relating to limitations on the use of appropriated funds to influence certain Federal contracts; [18 U.S.C. 431](#) relating to officials not to benefit; [40 U.S.C. 3701](#), et seq., Contract Work Hours and Safety Standards Act; [41 U.S.C. 51-58](#), Anti-Kickback Act of 1986; [41 U.S.C. 265](#) and [10 U.S.C. 2409](#) relating to whistleblower protections; [49 U.S.C. 40118](#), Fly American; and [41 U.S.C. 423](#) relating to procurement integrity.
- (s) Order of precedence. Any inconsistencies in this solicitation or contract shall be resolved by giving precedence in the following order:
- (1) The schedule of supplies/services.
- (2) The Assignments, Disputes, Payments, Invoice, Other Compliances, and Compliance with Laws Unique to Government Contracts paragraphs of this clause.
- (3) The clause at [52.212-5](#).
- (4) Addenda to this solicitation or contract, including any license agreements for computer software.
- (5) Solicitation provisions if this is a solicitation.
- (6) Other paragraphs of this clause.
- (7) The [Standard Form 1449](#).
- (8) Other documents, exhibits, and attachments.
- (9) The specification.
- (t) Central Contractor Registration (CCR).
- (1) Unless exempted by an addendum to this contract, the Contractor is responsible during performance and through final payment of any contract for the accuracy and completeness of the data within the CCR database, and for any liability resulting from the

Government's reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Updating information in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(2)(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in FAR [Subpart 42.12](#), the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to (A) change the name in the CCR database; (B) comply with the requirements of [Subpart 42.12](#); and (C) agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor must provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (t)(2)(i) of this clause, or fails to perform the agreement at paragraph (t)(2)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the CCR information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.

(3) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the CCR record to reflect an assignee for the purpose of assignment of claims (see [Subpart 32.8](#), Assignment of Claims). Assignees shall be separately registered in the CCR database. Information provided to the Contractor's CCR record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the "Suspension of payment" paragraph of the EFT clause of this contract.

(4) Offerors and Contractors may obtain information on registration and annual confirmation requirements via CCR accessed through <https://www.acquisition.gov> or by calling 1-888-227-2423 or 269-961-5757.

(d) *Comptroller General Examination of Record* The Contractor shall comply with the provisions of this paragraph (d) if this contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-2, Audit and Records -- Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(e)

(1) Notwithstanding the requirements of the clauses in paragraphs (a), (b), (c) and (d) of this clause, the Contractor is not required to flow down any FAR clause, other than those in this paragraph (e)(1) in a subcontract for commercial items. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause—

(i) 52.203-13, Contractor Code of Business Ethics and Conduct (Oct 2015) (41 U.S.C. 3509).

(ii) 52.219-8, Utilization of Small Business Concerns (Oct 2014) (15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds \$700,000 (\$1.5 million for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(iii) 52.222-17, Nondisplacement of Qualified Workers (May 2014) (E.O. 13495). Flow down required in accordance with paragraph (1) of FAR clause 52.222-17.

252.204-7012 SAFEGUARDING COVERED DEFENSE INFORMATION AND CYBER INCIDENT REPORTING (DEC 2015) DFARS

(a) *Definitions.* As used in this clause—

“Adequate security” means protective measures that are commensurate with the consequences and probability of loss, misuse, or unauthorized access to, or modification of information.

“Compromise” means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

“Contractor attributional/proprietary information” means information that identifies the contractor(s), whether directly or indirectly, by the grouping of information that can be traced back to the contractor(s) (e.g., program description, facility locations), personally identifiable information, as well as trade secrets, commercial or financial information, or other commercially sensitive information that is not customarily shared outside of the company.

“Contractor information system” means an information system belonging to, or operated by or for, the Contractor.

“Controlled technical information” means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

“Covered contractor information system” means an information system that is owned, or operated by or for, a contractor and that processes, stores, or transmits covered defense information.

“Covered defense information” means unclassified information that—

(i) Is—

- (A) Provided to the contractor by or on behalf of DoD in connection with the performance of the contract; or
- (B) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract; and

(ii) Falls in any of the following categories:

(A) *Controlled technical information.*

(B) *Critical information (operations security).* Specific facts identified through the Operations Security process about friendly intentions, capabilities, and activities vitally needed by adversaries for them to plan and act effectively so as to guarantee failure or unacceptable consequences for friendly mission accomplishment (part of Operations Security process).

(C) *Export control.* Unclassified information concerning certain items, commodities, technology, software, or other information whose export could reasonably be expected to adversely affect the United States national security and nonproliferation objectives. To include dual use items; items identified in export administration regulations, international traffic in arms regulations and munitions list; license applications; and sensitive nuclear technology information.

(D) Any other information, marked or otherwise identified in the contract, that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Governmentwide policies (e.g., privacy, proprietary business information).

“Cyber incident” means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein.

CONTINUED ON NEXT PAGE

"Forensic analysis" means the practice of gathering, retaining, and analyzing computer-related data for investigative purposes in a manner that maintains the integrity of the data.

"Malicious software" means computer software or firmware intended to perform an unauthorized process that will have adverse impact on the confidentiality, integrity, or availability of an information system. This definition includes a virus, worm, Trojan horse, or other code-based entity that infects a host, as well as spyware and some forms of adware.

"Media" means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which information is recorded, stored, or printed within an information system.

"Operationally critical support" means supplies or services designated by the Government as critical for airlift, sealift, intermodal transportation services, or logistical support that is essential to the mobilization, deployment, or sustainment of the Armed Forces in a contingency operation.

"Rapid(ly) report(ing)" means within 72 hours of discovery of any cyber incident.

"Technical information" means technical data or computer software, as those terms are defined in the clause at DFARS 252.227-7013, Rights in Technical Data-Non Commercial Items, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code.

(b) *Adequate security.* The Contractor shall provide adequate security for all covered defense information on all covered contractor information systems that support the performance of work under this contract. To provide adequate security, the Contractor shall—

(1) Implement information systems security protections on all covered contractor information systems including, at a minimum—

(i) For covered contractor information systems that are part of an Information Technology (IT) service or system operated on behalf of the Government—

(A) Cloud computing services shall be subject to the security requirements specified in the clause 252.239-7010, Cloud Computing Services, of this contract; and

(B) Any other such IT service or system (i.e., other than cloud computing) shall be subject to the security requirements specified elsewhere in this contract; or

(ii) For covered contractor information systems that are not part of an IT service or system operated on behalf of the Government and therefore are not subject to the security requirement specified at paragraph (b)(1)(i) of this clause—

(A) The security requirements in National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, "Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations," <http://dx.doi.org/10.6028/NIST.SP.800-171> that is in effect at the time the solicitation is issued or as authorized by the Contracting Officer, as soon as practical, but not later than December 31, 2017. The Contractor shall notify the DoD CIO, via email at osd.dibcsia@mail.mil, within 30 days of contract award, of any security requirements specified by NIST SP 800-171 not implemented at the time of contract award; or

(B) Alternative but equally effective security measures used to compensate for the inability to satisfy a particular requirement and achieve equivalent protection accepted in writing by an authorized representative of the DoD CIO; and

(2) Apply other information systems security measures when the Contractor reasonably determines that information systems security measures, in addition to those identified in paragraph (b)(1) of this clause, may be required to provide adequate security in a dynamic environment based on an assessed risk or vulnerability.

(c) *Cyber incident reporting requirement.*

(1) When the Contractor discovers a cyber incident that affects a covered contractor information system or the covered defense information residing therein, or that affects the contractor's ability to perform the requirements of the contract that are designated as operationally critical support, the Contractor shall—

(i) Conduct a review for evidence of compromise of covered defense information, including, but not limited to, identifying compromised computers, servers, specific data, and user accounts. This review shall also include analyzing covered contractor information system(s) that were part of the cyber incident, as well as other information systems on the Contractor's network(s), that may have been accessed as a result of the incident in order to identify compromised covered defense information, or that affect the Contractor's ability to provide operationally critical support; and

(ii) Rapidly report cyber incidents to DoD at <http://dibnet.dod.mil>.

(2) *Cyber incident report.* The cyber incident report shall be treated as information created by or for DoD and shall include, at a minimum, the required elements at <http://dibnet.dod.mil>.

(3) *Medium assurance certificate requirement.* In order to report cyber incidents in accordance with this clause, the Contractor or subcontractor shall have or acquire a DoD-approved medium assurance certificate to report cyber incidents. For information on obtaining a DoD-approved medium assurance certificate, see <http://iase.disa.mil/pki/eca/Pages/index.aspx>.

(d) *Malicious software.* The Contractor or subcontractors that discover and isolate malicious software in connection with a reported cyber incident shall submit the malicious software in accordance with instructions provided by the Contracting Officer.

(e) *Media preservation and protection.* When a Contractor discovers a cyber incident has occurred, the Contractor shall preserve and protect images of all known affected information systems identified in paragraph (c)(1)(i) of this clause and all relevant monitoring/packet capture data for at least 90 days from the submission of the cyber incident report to allow DoD to request the media or decline interest.

(f) *Access to additional information or equipment necessary for forensic analysis.* Upon request by DoD, the Contractor shall provide DoD with access to additional information or equipment that is necessary to conduct a forensic analysis.

(g) *Cyber incident damage assessment activities.* If DoD elects to conduct a damage assessment, the Contracting Officer will request that the Contractor provide all of the damage assessment information gathered in accordance with paragraph (e) of this clause.

(h) *DoD safeguarding and use of contractor attributional/proprietary information.* The Government shall protect against the unauthorized use or release of information obtained from the contractor (or derived from information obtained from the contractor) under this clause that includes contractor attributional/proprietary information, including such information submitted in accordance with paragraph (c). To the maximum extent practicable, the Contractor shall identify and mark attributional/proprietary information. In making an authorized release of such information, the Government will implement appropriate procedures to minimize the contractor attributional/proprietary information that is included in such authorized release, seeking to include only that information that is necessary for the authorized purpose(s) for which the information is being released.

(i) *Use and release of contractor attributional/proprietary information not created by or for DoD.* Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is not created by or for DoD is authorized to be released outside of DoD—

- (1) To entities with missions that may be affected by such information;
- (2) To entities that may be called upon to assist in the diagnosis, detection, or mitigation of cyber incidents;
- (3) To Government entities that conduct counterintelligence or law enforcement investigations;
- (4) For national security purposes, including cyber situational awareness and defense purposes (including with Defense Industrial Base (DIB) participants in the program at 32 CFR part 236); or
- (5) To a support services contractor (“recipient”) that is directly supporting Government activities under a contract that includes the clause at 252.204-7009, Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information.

(j) *Use and release of contractor attributional/proprietary information created by or for DoD.* Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is created by or for DoD (including the information submitted pursuant to paragraph (c) of this clause) is authorized to be used and released outside of DoD for purposes and activities authorized by paragraph (i) of this clause, and for any other lawful Government purpose or activity, subject to all applicable statutory, regulatory, and policy based restrictions on the Government’s use and release of such information.

(k) The Contractor shall conduct activities under this clause in accordance with applicable laws and regulations on the interception, monitoring, access, use, and disclosure of electronic communications and data.

(l) *Other safeguarding or reporting requirements.* The safeguarding and cyber incident reporting required by this clause in no way abrogates the Contractor’s responsibility for other safeguarding or cyber incident reporting pertaining to its unclassified information systems as required by other applicable clauses of this contract, or as a result of other applicable U.S. Government statutory or regulatory requirements.

(m) *Subcontracts.* The Contractor shall—

- (1) Include this clause, including this paragraph (m), in subcontracts, or similar contractual instruments, for operationally critical support, or for which subcontract performance will involve a covered contractor information system, including subcontracts for commercial items, without alteration, except to identify the parties; and
- (2) When this clause is included in a subcontract, require subcontractors to rapidly report cyber incidents directly to DoD at <http://dibnet.dod.mil> and the prime Contractor. This includes providing the incident report number, automatically assigned by DoD, to the prime Contractor (or next higher-tier subcontractor) as soon as practicable.

52.216-19 ORDER LIMITATIONS (OCT 1995) FAR

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than , the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum order. The Contractor is not obligated to honor—

(1) Any order for a single item in excess of ;

(2) Any order for a combination of items in excess of ; or

(3) A series of orders from the same ordering office within days that together call for quantities exceeding the limitation in paragraph (b)(1) or (2) of this section.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of clause)

52.216-22 INDEFINITE QUANTITY (OCT 1995) FAR

(a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum." The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum."

(c) Except for any limitations on quantities in the Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after

 (a) The Contractor shall remove or obliterate from a rejected end item and its packing and packaging, any marking, symbol, or other representation that the end item or any part of it has been produced or manufactured for the United States Government. Removal or obliteration shall be accomplished prior to any donation, sale, or disposal in commercial channels. The Contractor, in making disposition in commercial channels of rejected supplies, is responsible for compliance with requirements of the Federal Trade Commission Act (15

United States Code (U.S.C.) 45 et seq.) and the Federal Food, Drug and Cosmetic Act (21 U.S.C. 301 et seq.), as well as other Federal or State laws and regulations promulgated pursuant thereto.

(b) Unless otherwise authorized by the Contracting Officer, the Contractor is responsible for removal or obliteration of government identifications within 72 hours of rejection of nonconforming supplies including supplies manufactured for the Government but not offered or supplies transferred from the Government's account to the cold storage Contractor's account at origin or destination. (For product rejected at destination and returned to the Contractor's plant, the 72 hour period starts with the time of Contractor receipt of returned product). After removal or obliteration is accomplished and prior to disposition, the Contractor must notify the Government inspector.

52.247-60 GUARANTEED SHIPPING CHARACTERISTICS (DEC 1989) FAR

(a) The offeror is requested to complete paragraph (a)(1) of this clause, for each part or component which is packed or packaged separately. This information will be used to determine transportation costs for evaluation purposes. If the offeror does not furnish sufficient data in paragraph (a)(1) of this clause, to permit determination by the Government of the item shipping costs, evaluation will be based on the shipping characteristics submitted by the offeror whose offer produces the highest transportation costs or in the absence thereof, by the Contracting Officer's best estimate of the actual transportation costs. If the item shipping costs, based on the actual shipping characteristics, exceed the item shipping costs used for evaluation purposes, the Contractor agrees that the contract price shall be reduced by an amount equal to the difference between the transportation costs actually incurred, and the costs which would have been incurred if the evaluated shipping characteristics had been accurate.

(a) *Definition.* "Export-controlled items," as used in this clause, means items subject to the Export Administration Regulations (EAR) (15 CFR Parts 730-774) or the International Traffic in Arms Regulations (ITAR) (22 CFR Parts 120-130). The term includes:

- (1) "Defense items," defined in the Arms Export Control Act, 22 U.S.C. 2778(j)(4)(A), as defense articles, defense services, and related technical data, and further defined in the ITAR, 22 CFR Part 120.
- (2) "Items," defined in the EAR as "commodities", "software", and "technology," terms that are also defined in the EAR, 15 CFR 772.1.

(b) The Contractor shall comply with all applicable laws and regulations regarding export-controlled items, including, but not limited to, the requirement for contractors to register with the Department of State in accordance with the ITAR. The Contractor shall consult with the Department of State regarding any questions relating to compliance with the ITAR and shall consult with the Department of Commerce regarding any questions relating to compliance with the EAR.

(c) The Contractor's responsibility to comply with all applicable laws and regulations regarding export-controlled items exists independent of, and is not established or limited by, the information provided by this clause.

(d) Nothing in the terms of this contract adds, changes, supersedes, or waives any of the requirements of applicable Federal laws, Executive orders, and regulations, including but not limited to—

- (1) The Export Administration Act of 1979, as amended (50 U.S.C. App. 2401, *et seq.*);
- (2) The Arms Export Control Act (22 U.S.C. 2751, *et seq.*);
- (3) The International Emergency Economic Powers Act (50 U.S.C. 1701, *et seq.*);
- (4) The Export Administration Regulations (15 CFR Parts 730-774);
- (5) The International Traffic in Arms Regulations (22 CFR Parts 120-130); and

Part 12 Provisions**52.212-01 INSTRUCTIONS TO OFFERORS - COMMERCIAL ITEMS (OCT 2015)****52.212-03 OFFEROR REPRESENTATIONS AND CERTIFICATIONS - COMMERCIAL ITEMS (NOV 2015) FAR**

An offeror shall complete only paragraph (b) of this provision if the offeror has completed the annual representations and certifications electronically via <https://www.acquisition.gov>. If an offeror has not completed the annual representations and certifications electronically at the ORCA website, the offeror shall complete only paragraphs (c) through (o) of this provision.

(a) *Definitions.* As used in this provision—

"Economically disadvantaged women-owned small business (EDWOSB) concern" means a small business concern that is at least 51 percent directly and unconditionally owned by, and the management and daily business operations of which are controlled by, one or more women who are citizens of the United States and who are economically disadvantaged in accordance with 13 CFR part 127. It automatically qualifies as a women-owned small business eligible under the WOSB Program.

"Forced or indentured child labor" means all work or service—

- (1) Exacted from any person under the age of 18 under the menace of any penalty for its nonperformance and for which the worker does not offer himself voluntarily; or
- (2) Performed by any person under the age of 18 pursuant to a contract the enforcement of which can be accomplished by process or penalties.

CONTINUED ON NEXT PAGE

"Inverted domestic corporation" as used in this section, but now is incorporated in a foreign country, or is a subsidiary whose parent corporation is incorporated in a foreign country, that meets the criteria specified in 6 U.S.C. 395(b), applied in accordance with the rules and definitions of 6 U.S.C. 395(c). An inverted domestic corporation as herein defined does not meet the definition of an inverted domestic corporation as defined by the Internal Revenue code at 26 U.S.C. 7874.

"Manufactured end product" means any end product in Federal Supply Classes (FSC) 1000-9999, except—

- (1) FSC 5510, Lumber and Related Basic Wood Materials;
- (2) Federal Supply Group (FSG) 87, Agricultural Supplies;

- (10) FSC 9630, Additive Metal Materials.

"Place of manufacture" means the place where an end product is assembled out of components, or otherwise made or processed from raw materials into the finished product that is to be provided to the Government. If a product is disassembled and reassembled, the place of reassembly is not the place of manufacture.

"Restricted business operations" means business operations in Sudan that include power production activities, mineral extraction activities, oil-related activities, or the production of military equipment, as those terms are defined in the Sudan Accountability and Divestment Act of 2007 (Pub. L. 110-174). Restricted business operations do not include business operations that the person (as that term is defined in Section 2 of the Sudan Accountability and Divestment Act of 2007) conducting the business can demonstrate—

- (1) Are conducted under contract directly and exclusively with the regional government of southern Sudan;
- (2) Are conducted pursuant to specific authorization from the Office of Foreign Assets Control in the Department of the Treasury, or are expressly exempted under Federal law from the requirement to be conducted under such authorization;
- (3) Consist of providing goods or services to marginalized populations of Sudan;
- (4) consist of providing goods or services to an internationally recognized peacekeeping force or humanitarian organization;
- (5) Consist of providing goods or services that are used only to promote health or education; or
- (6) Have been voluntarily suspended.

"Sensitive technology" –

- (1) Means hardware, software, telecommunications equipment, or any other technology that is to be used specifically-
 - (i) To restrict the free flow of unbiased information in Iran; or
 - (ii) To disrupt, monitor, or otherwise restrict speech of the people or Iran; and
- (2) Does not include information or informational materials the export of which the President does not have the authority to regulate or prohibit pursuant to section 203(b)(3) of the International Emergency Economic Powers Act (50 U.S.C. 1702(b)(3)).

"Service-disabled veteran-owned small business concern"—

- (1) Means a small business concern—
 - (i) Not less than 51 percent of which is owned by one or more service-disabled veterans or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more service-disabled veterans; and
 - (ii) The management and daily business operations of which are controlled by one or more service-disabled veterans or, in the case of a service-disabled veteran with permanent and severe disability, the spouse or permanent caregiver of such veteran.
- (2) Service-disabled veteran means a veteran, as defined in 38 U.S.C. 101(2), with a disability that is service-connected, as defined in 38 U.S.C. 101(16).

"Small business concern" means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR Part 121 and size standards in this solicitation.

"Subsidiary" means an entity in which more than 50 percent of the entity is owned –

- (1) Directly by a parent corporation; or
- (2) Through another subsidiary of a parent corporation.

"Veteran-owned small business concern" means a small business concern—

(ii) It is, is not a **HUBZone joint venture** that complies with the requirements of 13 CFR Part 126, and the representation in paragraph (c)(11)(i) of this provision is accurate for each HUBZone small business concern participating in the HUBZone joint venture. [The offeror shall enter the names of each of the HUBZone small business concerns participating in the HUBZone **joint venture**: _____.] Each HUBZone small business concern participating in the HUBZone joint venture shall submit a

separate signed copy of the HUBZone representation.

(d) Representations required to implement provisions of Executive Order 11246—

(1) Previous contracts and compliance. The offeror represents that—

(i) It has, has not participated in a previous contract or subcontract subject to the Equal Opportunity clause of this solicitation; and

(ii) It has, has not filed all required compliance reports.

(2) Affirmative Action Compliance. The offeror represents that—

(i) It has developed and has on file, has not developed and does not have on file, at each establishment, affirmative action programs required by rules and regulations of the Secretary of Labor (41 CFR parts 60-1 and 60-2), or

(ii) It has not previously had contracts subject to the written affirmative action programs requirement of the rules and regulations of the Secretary of Labor.

(e) Certification Regarding Payments to Influence Federal Transactions (31 U.S.C. 1352). (Applies only if the contract is expected to exceed \$150,000.) By submission of its offer, the offeror certifies to the best of its knowledge and belief that no Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress or an employee of a Member of Congress on his or her behalf in connection with the award of any resultant contract. If any registrants under the Lobbying Disclosure Act of 1995 have made a lobbying contact on behalf of the offeror with respect to this contract, the offeror shall complete and submit, with its offer, OMB Standard Form LLL,

Disclosure of Lobbying Activities, to provide the name of the registrants. The offeror need not report regularly employed officers or employees of the offeror to whom payments of reasonable compensation were made.

(f) Buy American Act Certificate. (Applies only if the clause at Federal Acquisition Regulation (FAR) 52.225-1, Buy American Act—Supplies, is included in this solicitation.)

(1) The offeror certifies that each end product, except those listed in paragraph (f)(2) of this provision, is a domestic end product and that for other than COTS items, the offeror has considered components of unknown origin to have been mined, produced, or manufactured outside the United States. The offeror shall list as foreign end products those end products manufactured in the United States that do not qualify as domestic end products, i.e., an end product that is not a COTS item and does not meet the component test in paragraph (2) of the definition of “domestic end product.” The terms “commercially available off-the-shelf (COTS) item” “component,” “domestic end product,” “end product,” “foreign end product,” and “United States” are defined in the clause of this solicitation entitled “Buy American Act—Supplies.”

(2) Foreign End Products:

Line Item No.	Country of Origin

(List as necessary)

(3) The Government will evaluate offers in accordance with the policies and procedures of FAR Part 25.

(g)(1) Buy American Act—Free Trade Agreements—Israeli Trade Act Certificate. (Applies only if the clause at FAR 52.225-3, Buy American Act—Free Trade Agreements—Israeli Trade Act, is included in this solicitation.)

(i) The offeror certifies that each end product, except those listed in paragraph (g)(1)(ii) or (g)(1)(iii) of this provision, is a domestic end product and that for other than COTS items, the offeror has considered components of unknown origin to have been mined, produced, or manufactured outside the United States. The terms “Bahrainian, Moroccan, Omani, or Peruvian end product,” “commercially available off-the-shelf (COTS) item,” “component,” “domestic end product,” “end product,” “foreign end product,” “Free Trade Agreement country,” “Free Trade Agreement country end product,” “Israeli end product,” and “United States” are defined in the clause of this solicitation entitled “Buy American Act—Free Trade Agreements—Israeli Trade Act.”

(ii) The offeror certifies that the following supplies are Free Trade Agreement country end products (other than Bahrainian, Moroccan, Omani, Panamanian, or Peruvian end products) or Israeli end products as defined in the clause of this solicitation entitled “Buy American Act—Free Trade Agreements—Israeli Trade Act”:

Free Trade Agreement Country End Products (Other than Bahrainian, Moroccan, Omani, Panamanian, or Peruvian End Products) or Israeli End Products:

Line Item No.	Country of Origin

(List as necessary)

(iii) The offeror shall list those supplies that are foreign end products (other than those listed in paragraph (g)(1)(ii) of this provision) as defined in the clause of this solicitation entitled “Buy American Act—Free Trade Agreements—Israeli Trade Act.” The offeror shall list as other foreign end products those end products manufactured in the United States that do not qualify as domestic end products, i.e., an end product that is not a COTS item and does not meet the component test in paragraph (2) of the definition of “domestic end product.”

Other Foreign End Products:

Line Item No.	Country of Origin

(List as necessary)

(iv) The Government will evaluate offers in accordance with the policies and procedures of FAR Part 25.

(2) Buy American Act—Free Trade Agreements—Israeli Trade Act Certificate, Alternate I. If Alternate I to the clause at FAR 52.225-3 is included in this solicitation, substitute the following paragraph (g)(1)(ii) for paragraph (g)(1)(ii) of the basic provision:

(g)(1)(ii) The offeror certifies that the following supplies are Canadian end products as defined in the clause of this solicitation entitled “Buy American Act—Free Trade Agreements—Israeli Trade Act”:

Canadian End Products:

Line Item No.

(List as necessary)

(3) Buy American Act—Free Trade Agreements—Israeli Trade Act Certificate, Alternate II. If Alternate II to the clause at FAR 52.225-3 is included in this solicitation, substitute the following paragraph (g)(1)(ii) for paragraph (g)(1)(ii) of the basic provision:
 (g)(1)(ii) The offeror certifies that the following supplies are Canadian end products or Israeli end products as defined in the clause of this solicitation entitled “Buy American Act—Free Trade Agreements—Israeli Trade Act”:

Canadian or Israeli End Products:

Line Item No.	Country of Origin

(List as necessary)

(4) Buy American Act – Free Trade Agreements – Israeli Trade Act Certificate, Alternate III. If Alternate III to the clause at 52.225-3 is included in this solicitation, substitute the following paragraph (g)(1)(ii) for paragraph (g)(1)(ii) of the basic provision:
 (g)(1)(ii) The offeror certifies that the following supplies are Free Trade Agreement country end products (other than Bahrainian, Korean, Moroccan, Omani, Panamanian, or Peruvian end products) or Israeli end products as defined in the clauses of this solicitation entitled “Buy American Act-Free Trade Agreements – Israeli Trade Act”:

(List as necessary)

(54) Trade Agreements Certificate. (Applies only if the clause at FAR 52.225-5, Trade Agreements, is included in this solicitation.)
 (i) The offeror certifies that each end product, except those listed in paragraph (g)(5)(ii) of this provision, is a U.S.-made or designated country end product, as defined in the clause of this solicitation entitled “Trade Agreements.”
 (ii) The offeror shall list as other end products those end products that are not U.S.-made or designated country end products.

Other End Products:

Line Item No.	Country of Origin

(List as necessary)

(iii) The Government will evaluate offers in accordance with the policies and procedures of FAR Part 25. For line items covered by the WTO GPA, the Government will evaluate offers of U.S.-made or designated country end products without regard to the restrictions of the Buy American Act. The Government will consider for award only offers of U.S.-made or designated country end products unless the Contracting Officer determines that there are no offers for such products or that the offers for such products are insufficient to fulfill the requirements of the solicitation.
 (h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—
(1) () Are, () are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;
(2) () Have, () have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal,

state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) **Are,** **are not presently indicted for,** or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) **Have,** **have not, within a three-year period preceding this offer,** been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

- (i) Taxes are considered delinquent if both of the following criteria apply:
 - (A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.
 - (B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at 22.1503(b).]

(1) Listed end products.

Listed End Product	Listed Countries of Origin

(2) Certification. [If the Contracting Officer has identified end products and countries of origin in paragraph (i)(1) of this provision, then the offeror must certify to either (i)(2)(i) or (i)(2)(ii) by checking the appropriate block.]

(i) The offeror will not supply any end product listed in paragraph (i)(1) of this provision that was mined, produced, or manufactured in the corresponding country as listed for that product.

(ii) The offeror may supply an end product listed in paragraph (i)(1) of this provision that was mined, produced, or manufactured in the corresponding country as listed for that product. The offeror certifies that it has made a good faith effort to determine whether forced or indentured child labor was used to mine, produce, or manufacture any such end product furnished under this contract. On the basis of those efforts, the offeror certifies that it is not aware of any such use of child labor.

(j) Place of manufacture. (Does not apply unless the solicitation is predominantly for the acquisition of manufactured end products.) For statistical purposes only, the offeror shall indicate whether the place of manufacture of the end products it expects to provide in response to this solicitation is predominantly—

(1) **In the United States** (Check this box if the total anticipated price of offered end products manufactured in the United States exceeds the total anticipated price of offered end products manufactured outside the United States); or

(2) **Outside the United States.**

(k) Certificates regarding exemptions from the application of the Service Contract Act. (Certification by the offeror as to its compliance with respect to the contract also constitutes its certification as to compliance by its subcontractor if it subcontracts out the exempt services.) [The contracting officer is to check a box to indicate if paragraph (k)(1) or (k)(2) applies.]

(1) Maintenance, calibration, or repair of certain equipment as described in FAR 22.1003-4 (c)(1). The offeror () does () does not certify that—

(i) The items of equipment to be serviced under this contract are used regularly for other than Governmental purposes and are sold or traded by the offeror (or subcontractor in the case of an exempt subcontract) in substantial quantities to the general public in the course of normal business operations;

(ii) The services will be furnished at prices which are, or are based on, established catalog or market prices (see FAR 22.1003-4 (c)(2)(ii)) for the maintenance, calibration, or repair of such equipment; and

(iii) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract will be the same as that used for these employees and equivalent employees servicing the same equipment of commercial customers.

(2) Certain services as described in FAR 22.1003-4 (d)(1). The offeror () does () does not certify that—

(i) The services under the contract are offered and sold regularly to non-Governmental customers, and are provided by the offeror (or subcontractor in the case of an exempt subcontract) to the general public in substantial quantities in the course of normal business operations;

(ii) The contract services will be furnished at prices that are, or are based on, established catalog or market prices (see FAR 22.1003-4 (d)(2)(iii));

(iii) Each service employee who will perform the services under the contract will spend only a small portion of his or her time (a monthly average of less than 20 percent of the available hours on an annualized basis, or less than 20 percent of available hours during the contract period if the contract period is less than a month) servicing the Government contract; and

(iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this clause applies—

(i) If the offeror does not certify to the conditions in paragraph (k)(1) or (k)(2) and the Contracting Officer did not attach a Service Contract Act wage determination to the solicitation, the offeror shall notify the Contracting Officer as soon as possible; and

(ii) The Contracting Officer may not make an award to the offeror if the offeror fails to execute the certification in paragraph (k)(1) or (k)(2) of this clause or to contact the Contracting Officer as required in paragraph (k)(3)(i) of this clause.

(l) Taxpayer Identification Number (TIN) (26 U.S.C 6109, 31 U.S.C. 7701). (Not applicable if the offeror is required to provide this information to a central contractor registration database to be eligible for award.)

(1) All offerors must submit the information required in paragraphs (l)(3) through (l)(5) of this provision to comply with debt collection requirements of 31 U.S.C. 7701(c) and 3325(d), reporting requirements of 26 U.S.C. 6041, 6041A, and 6050M, and implementing regulations issued by the Internal Revenue Service (IRS).

(2) The TIN may be used by the Government to collect and report on any delinquent amounts arising out of the offeror's relationship with the Government (31 U.S.C. 7701(c) (3)). If the resulting contract is subject to the payment reporting requirements described in FAR 4.904, the TIN provided hereunder may be matched with IRS records to verify the accuracy of the offeror's TIN.

(3) Taxpayer Identification Number (TIN).

() TIN: _____.

() TIN has been applied for.

() TIN is not required because:

() Offeror is a nonresident alien, foreign corporation, or foreign partnership that does not have income effectively connected with the conduct of a trade or business in the United States and does not have an office or place of business or a fiscal paying agent in the United States;

() Offeror is an agency or instrumentality of a foreign government;

() Offeror is an agency or instrumentality of the Federal Government.

(4) Type of organization.

() Sole proprietorship;

() Partnership;

() Corporate entity (not tax-exempt);

() Corporate entity (tax-exempt);

() Government entity (Federal, State, or local);

- () Foreign government;
- () International organization per 26 CFR 1.6049-4;
- () Other _____.
- (5) Common parent.
- () Offeror is not owned or controlled by a common parent;
- () Name and TIN of common parent:
Name _____.
- TIN _____.

(m) Restricted business operations in Sudan. By submission of its offer, the offeror certifies that the offeror does not conduct any restricted business operations in Sudan.

(n) Prohibition on Contracting with Inverted Domestic Corporations.

(1) Relation to Internal Revenue Code. An inverted domestic corporation as herein defined does not meet the definition of an inverted domestic corporation as defined by the Internal Revenue Code 25 U.S.C. 7874.

(2) Representation. By submission of its offer, the offeror represents that—

- (i) it is not an inverted domestic corporation; and
- (ii) It is not a subsidiary of an inverted domestic corporation.

(o) Prohibition on contracting with entities engaging in certain activities or transactions relating to Iran.

(1) The offeror shall e-mail questions concerning sensitive technology to the Department of State at CISADA106@state.gov.

(2) Representation and Certifications. Unless a waiver is granted or an exception applies as provided in paragraph (o)(3) of this provision, by submission of its offer, the offeror—

- (i) Represents, to the best of its knowledge and belief, that the offeror does not export any sensitive technology to the government of Iran or any entities or individuals owned or controlled by, or acting on behalf or at the direction of, the government of Iran;
- (ii) Certifies that the offeror, or any person owned or controlled by the offeror, does not engage in any activities for which sanctions may be imposed under section 5 of the Iran Sanctions Act; and
- (iii) Certifies that the offeror, and any person owned or controlled by the offeror, does not knowingly engage in any transaction that exceeds \$3,000 with Iran's Revolutionary Guard Corps or any of its officials, agents, or affiliates, the property and interests in property of which are blocked pursuant to the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.) (see OFAC's Specially Designated Nationals and Blocked Persons List at <http://www.treasury.gov/ofac/downloads/t11sbn.pdf>).

(3) The representation and certification requirements of paragraph (o)(2) of this provision do not apply if—

- (i) This solicitation includes a trade agreements certification (e.g., 52.212-3(g) or a comparable agency provision); and
 - (ii) The offeror has certified that all the offered products to be supplied are designated country end products.
- (End of provision)

52.207-04 ECONOMIC PURCHASE QUANTITY - SUPPLIES (AUG 1987) FAR

(a) Offerors are invited to state an opinion on whether the quantity(ies) of supplies on which bids, proposals or quotes are requested in this solicitation is (are) economically advantageous to the Government.

(b) Each offeror who believes that acquisitions in different quantities would be more advantageous is invited to recommend an economic purchase quantity. If different quantities are recommended, a total and a unit price must be quoted for applicable items. An economic purchase quantity is that quantity at which a significant price break occurs. If there are significant price breaks at different quantity points, this information is desired as well.

- "Principal" means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

(b) The offeror [] has [] does not have current active Federal contracts and grants with total value greater than \$10,000,000.
 (c) If the offeror checked "has" in paragraph (b) of this provision, the offeror represents, by submission of this offer, that the information it has entered in the Federal Awardee Performance and Integrity Information System (FAPIIS) is current, accurate, and complete as of the date of submission of this offer with regard to the following information:

- (1) Whether the offeror, and/or any of its principals, has or has not, within the last five years, in connection with the award to or performance by the offeror of a Federal contract or grant, been the subject of a proceeding, at the Federal or State level that resulted in any of the following dispositions:
 - (i) In a criminal proceeding, a conviction.
 - (ii) In a civil proceeding, a finding of fault and liability that results in the payment of a monetary fine, penalty, reimbursement, restitution, or damages of \$5,000 or more.
 - (iii) In an administrative proceeding, a finding of fault and liability that results in—
 - (A) The payment of a monetary fine or penalty of \$5,000 or more; or
 - (B) The payment of a reimbursement, restitution, or damages in excess of \$100,000.
 - (iv) In a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgment of fault by the Contractor if the proceeding could have led to any of the outcomes specified in paragraphs (c)(1)(i), (c)(1)(ii), or (c)(1)(iii) of this provision.
- (2) If the offeror has been involved in the last five years in any of the occurrences listed in (c)(1) of this provision, whether the offeror has provided the requested information with regard to each occurrence.

(d) The offeror shall post the information in paragraphs (c)(1)(i) through (c)(1)(iv) of this provision in FAPIIS as required through maintaining an active registration in the Central Contractor Registration database via <https://www.acquisition.gov> (see 52.204-7).

52.211-9011 DELIVERY TERMS AND EVALUATION (APR 2014) DLAD

52.215-20 REQUIREMENTS FOR CERTIFIED COST OR PRICING DATA AND DATA OTHER THAN CERTIFIED COST AND PRICING DATA (OCT 2010) FAR

(a) Exceptions from cost or pricing data.

(1) In lieu of submitting cost or pricing data, offerors may submit a written request for exception by submitting the information described in the following paragraphs. The Contracting Officer may require additional supporting information, but only to the extent necessary to determine whether an exception should be granted, and whether the price is fair and reasonable.

(i) Identification of the law or regulation establishing the price offered. If the price is controlled under law by periodic rulings, reviews, or similar actions of a governmental body, attach a copy of the controlling document, unless it was previously submitted to the contracting office.

(ii) Commercial item exception. For a commercial item exception, the offeror shall submit, at a minimum, information on prices at which the same item or similar items have previously been sold in the commercial market that is adequate for evaluating the reasonableness of the price for this acquisition. Such information may include—

(A) For catalog items, a copy of or identification of the catalog and its date, or the appropriate pages for the offered items, or a statement that the catalog is on file in the buying office to which the proposal is being submitted. Provide a copy or describe current discount policies and price lists (published or unpublished), e.g., wholesale, original equipment manufacturer, or reseller. Also explain the basis of each offered price and its relationship to the established catalog price, including how the proposed price relates to the price of recent sales in quantities similar to the proposed quantities;

(B) For market-priced items, the source and date or period of the market quotation or other basis for market price, the base amount, and applicable discounts. In addition, describe the nature of the market;

(C) For items included on an active Federal Supply Service Multiple Award Schedule contract, proof that an exception has been granted for the schedule item.

CONTINUED ON NEXT PAGE

(2) The offeror grants the Contracting Officer or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify any request for an exception under this provision, and the reasonableness of price. For items priced using catalog or market prices, or law or regulation, access does not extend to cost or profit information or other data relevant solely to the offeror's determination of the prices to be offered in the catalog or marketplace.

(b) Requirements for cost or pricing data. If the offeror is not granted an exception from the requirement to submit cost or pricing data, the following applies:

(1) The offeror shall prepare and submit cost or pricing data and supporting attachments in accordance with Table 15-2 of FAR 15.408.

(2) As soon as practicable after agreement on price, but before contract award (except for unpriced actions such as letter contracts), the offeror shall submit a Certificate of Current Cost or Pricing Data, as prescribed by FAR 15.406-2.

252.215-7007 NOTICE OF INTENT TO RESOLICIT (JUN 2012) DFARS

52.215-9002 SOCIOECONOMIC PROPOSAL (FEB 2012) DLAD

52.215-9023 REVERSE AUCTIONS (OCT 2013) (DLAD)

The Contracting Officer may utilize on-line reverse auctioning as a means of conducting price discussions under this solicitation. If the Contracting Officer does not conduct a reverse auction, award may be made on the basis of initial offers or following discussions not using reverse auctioning as a pricing technique. If the Contracting Officer decides to use on-line reverse auctioning to conduct price negotiations, the Contracting Officer will notify offerors of this decision and the following provisions will apply.

(a) The award decision will be made in accordance with the evaluation factors as set forth in the solicitation. The reverse on-line auction will be used as a pricing technique during discussions to establish the final offered prices from each offeror. These prices will be used in conjunction with the evaluation factors stated elsewhere in the solicitation in order to make the award decision in accordance with the basis for award stated in the solicitation.

(b) Following the decision to conduct discussions using on-line reverse auctioning as a pricing technique, the Contracting Officer or his/her representative will provide offerors determined to be in the competitive range with information concerning the on-line auction process. The Government intends to use a commercial web-based product to conduct the reverse auction.

(c) Prior to or simultaneously with conducting the on-line reverse auction, the Contracting Officer may hold discussions with the offerors concerning matters appropriate for discussion, such as issues involving technical proposals or unbalanced pricing.

(d) The lowest offeror's price(s) for each round of the reverse auction will be disclosed to other offerors and anyone else having authorized access to the on-line auction. This disclosure is anonymous, meaning that each offeror's identity will be concealed from other offerors (although it will be known to the Government; only a generic identifier will be used for each offeror's proposed pricing, such as "Offeror A" or "lowest-priced offeror"). By submitting a proposal in response to the solicitation, offerors agree to participate in the reverse auction and that their prices may be disclosed, including to other offerors, during the reverse auction.

(e) The reverse auction system currently in use designates offers as "Lead," meaning the current low price in that auction, or "Not Lead," meaning not the current low price in that auction. In the event of a tie offer, the reverse auction provider's system designates the first offer of that price as "Lead" and the second or subsequent offer of that price as "Not Lead." Offerors shall not submit a tie offer, since this is inconsistent with the purpose of the reverse auction. If a tie offer is submitted, the "Not Lead" offeror that submitted the tie offer must offer a changed price; it will be ineligible for award if the final price in the auction is the tie offer price.

(f) An offeror's final auction price at the close of the reverse auction will be considered its final proposal revision. No price revisions will be accepted after the close of the reverse auction, unless the Contracting Officer decides that further discussions are needed and final proposal revisions are again requested in accordance with Federal Acquisition Regulation (FAR) 15.307, or the Contracting Officer determines that it would be in the best interest of the Government to re-open the auction.

(g) The following information is provided regarding the procedures to be followed if a reverse auction is conducted.

(1) Each offeror identified by the Contracting Officer as a participant in the reverse auction will be contacted by Defense Logistic Agency's commercial reverse auction service provider to advise the offeror of the event and to provide an explanation of the process.

(2) In order for an Offeror to participate in the reverse auction, such offeror must agree with terms and conditions of the entire solicitation, including this provision, and agree to the commercial reverse auction service provider's terms and conditions for using its service. Information concerning the reverse auction process and the commercial service provider's terms and conditions is embedded within the email notification sent by the on-line reverse auction pricing tool system administrator.

(3) Offerors shall secure the passwords and other confidential materials provided by the commercial reverse auction service provider or the Government and ensure they are used only for purposes of participation in the reverse auction. Offerors shall keep their own and other offerors' pricing in confidence until after contract award.

(4) Any offeror unable to enter pricing through the commercial reverse auction service provider's system during a reverse auction must notify the Contracting Officer or designated representative immediately. The Contracting Officer may, at his/her sole discretion, extend

CONTINUED ON NEXT PAGE

or re-open the reverse auction if the reason for the offeror's inability to enter pricing is determined to be without fault on the part of the offeror and outside the offeror's control.

(5) The reverse auction will be conducted using the commercial reverse auction service provider's website as embedded in the email notification. Offerors shall be responsible for providing their own computer and internet connection.

(6) Training:

(i) The commercial reverse auction service provider and/or a Government representative will provide familiarization training to offerors' employees; this training may be provided through written material, the commercial reverse auction service provider's website, and/or other means.

(ii) An employee of an offeror who successfully completes the training shall be designated as a 'trained offeror.' Only trained offerors may participate in a reverse auction. The Contracting Officer reserves the right to request that offerors provide an alternate offeror employee to become a 'trained offeror.' The Contracting Officer also reserves the right to take away the 'trained offeror' designation from any trained offeror who fails to abide by the solicitation's or commercial reverse auction service provider's terms and conditions.

52.216-9013 EVALUATION OF OFFERS FOR INDEFINITE DELIVERY TYPE SOLICITATIONS (NOV 2011) DLAD

(c) If checked, and subject to the terms and conditions of the solicitation relating to the evaluation of offers, the following procedures will be followed:

(1) When offers are requested on a quantity increment basis, each contract line item (CLIN) will be evaluated for price by:

applying a weighted factor of 18% to the first quantity increment, 36% to the second increment, and 46% to the third increment to arrive at an average weighted unit price.

applying a weighted factor of 5% to the first quantity increment, 65% to the second increment, 25% to the third increment, and 5% to the fourth increment to arrive at an average weighted unit price.

(5) If checked, when F.O.B. origin offers are authorized, transportation costs will be considered in evaluation and will be based on the best estimated quantity of each CLIN as specified elsewhere in this solicitation. Carload or truckload rates will be used to evaluate the cost of transportation for each CLIN unless the best estimated quantity would not constitute a carload or truckload. In such case, Less than Carload (LCL) or Less than Truckload (LTL) rates will be used for evaluation purposes.
