

18 April 2013
NSN: 8960-01-523-6348 (TPNS)

*MONOGRAPH NO: M7J

Item: **Beverage bases (Powdered), Sweetened with nutritive sweetener, Tropical punch, Fortified with ascorbic acid and enhanced with maltodextrin, Small flat pouch (Type II, Flavor 10, Formulation d, Design E)**

Document: **CID A-A-20098, Beverage Bases (Powdered) and PKG&QAP**

Approximate Caloric Value Per Serving: **130** Component Classification: **Secondary**

Estimated Shelf Life: **36 months at 80°F**

Item Characteristics

Appearance: Dehydrated product: Uniformly blended, free flowing, and a homogenous dry mixture free of hard lumps. Granulation may vary from a fine powder to small agglomerated crystals.

Rehydrated product: Light red, sediment free, clear to slightly cloudy.

Odor: Rehydrated product: Tropical fruit blend.

Flavor: Rehydrated product: Tropical fruit blend.

Texture: Dehydrated product: Free of hard lumps.
Rehydrated product: Fully dissolve within two minutes with constant stirring.

Possible Deteriorative Changes

Appearance: Rehydrated: Coagulated, jelled, surface frothing, or cloudiness, excessive sediment significantly affecting aesthetic appearance or flavor.

Odor: Burnt, scorched, moldy/mildew.

Flavor: Oxidized or any other flavor not typical of the type of beverage.

Texture: Lumpy or caked, not free flowing.

Unique Examination/Test Procedures

Prepare beverage IAW package instructions. Product should dissolve completely within about two minutes.

Special Notes

18 April 2013

NSN: **8960-01-523-6348** (TPNS)

***MONOGRAPH NO: M7J**

If slight sedimentation and clouding are observed but the odor and flavor are normal, do not score the sedimentation as a defect during surveillance inspection; make note of it in the narrative for future use. Coagulation/gelation may occur if the original formulation was incorrect or if the product has been temperature abused for a long time. Coagulation / gelation results in clumps of granules that do not readily dissolve when product is reconstituted. Particles tend to float in suspension (look like gel pockets or tapioca granules that are clumped together).
