CAUTION NOTICE

This procurement is being solicited under the Federal Acquisition Regulations (FAR) part 12 as totally set-aside for Small Business. Solicitation SPE3S1-15-R-0005 is for Boil-In-Bag Dehydrated Egg Mix for the Unitized Group Ration Heat and Serve (UGR-H&S) and Unitized Group Ration M (UGR-M) Programs.

Trade Off Source Selection Procedures will be used for this acquisition. This Solicitation will result in a Fixed Price with Economic Price Adjustment, Indefinite Delivery/Quantity Type Contract. See FAR Provision 52.212-2 Evaluation - Commercial Items (Oct 2104) for evaluation criteria.

The resulting contract will be for a five (5) years Tiered Period. Acceptance of each of the Tiers is mandatory. Failure to indicate acceptance of each Tier by annotating the offeror's unit prices as described in the Schedule of Supplies Blocks 19-24, may be deemed as non-acceptance of the terms and conditions, and may result in rejection of the offeror's entire proposal.

Offerors are cautioned to take extreme care when preparing proposals for this solicitation. All terms and conditions should be reviewed carefully.

Alternate offers/pricing will NOT be accepted. One offer per contractor is permitted.

OFFEROR IS REQUIRED TO SUBMIT ONE ORIGINAL PROPOSAL PLUS TWO(2) COMPLETE COPIES.

THE GOVERNMENT INTENDS TO AWARD TO THE RESPONSIBLE OFFEROR THAT CONFORMS TO THE SOLICITATION REQUIREMENTS AND OFFERS THE BEST VALUE TO THE GOVERNMENT.

Offerors are cautioned to include a completed copy of the provision FAR 52.212-3 Offeror Representations and Certifications- Commercial Items, with their offer. The Offeror shall complete only paragraph(b) of this provision if the Offeror has completed the annual representations and certification electronically via the System for Award Management (SAM) website accessed through <http://www.acquisition.gov>. If the Offeror has not completed the annual representations and certifications electronically, the Offeror shall complete only paragraphs (c) through (p) of this provision.

The Government may utilize a Reverse Auction contained at Provision DLAD 52.215-9023, under this solicitation.

Proposals submitted are considered proprietary and/or competition sensitive in nature. Use of the information provided in the proposals is for evaluation purposes only and will be limited to duly accredited officials of the Department of Defense who are subject to penalties for unlawful disclosure.

RapidGate

Many bases currently require enrollment in RapidGate and will not allow entry without RapidGate clearance. During the contract implementation period, the Contractor must contact all customer locations to determine whether enrollment in RapidGate or another security program is required for access to each location. If RapidGate or other security enrollment is required, the contractor must take all necessary steps to obtain this in time for the start of performance under this contract. Failure to have RapidGate clearance may result in a vendor being turned away from the base and being unable to complete delivery. The contractor is responsible for the additional cost for RapidGate enrollment and must ensure that a RapidGate enrolled driver is available for all deliveries. We currently estimate that RapidGate enrollment will cost about \$250 per company and \$200 per enrolled employee for 1 year of access to multiple locations, but the cost of RapidGate or other security enrollment may vary, so the contractor should contact RapidGate to determine its own costs. If more than one driver is required, RapidGate enrollment must be obtained for each driver. Note that enrollment can take several weeks, so an awardee that is not already enrolled must begin enrollment at the time of award notification at the latest. If difficulty or delay in enrollment in RapidGate is encountered during the implementation period, the contractor MUST contact RapidGate and/or the Security Officer at the applicable customer locations to resolve any issues with processing RapidGate enrollment so that the contractor will be able to deliver as required. For additional information regarding RapidGate, including enrollment instructions, please visit their website at www.rapidgate.com.

CONTINUED ON NEXT PAGE

Please note that RapidGate is currently a requirement for access to some military bases; however, these and other locations may require enrollment in other security programs at some time in the future. In this event, the contractor is responsible for obtaining all required enrollments and clearances for each of their drivers as soon as they receive notice of such a requirement.

CONTRACTOR CODE OF BUSINESS ETHICS (FEB 2012)

FAR Part 3.1002(a) requires all government contractors to conduct themselves with the highest degree of integrity and honesty. Contractors should have a written code of business ethics and conduct within thirty days of award. To promote compliance with such code of business ethics and conduct, contractors should have an employee business ethics and compliance training program that facilitates timely discovery and disclosure of improper conduct in connection with government contracts and ensures corrective measures are promptly instituted and carried out. A contractor may be suspended and/or debarred for knowing failure by a principal to timely disclose to the government, in connection with the award, performance, or closeout of a government contract performed by the contractor or a subcontract awarded there under, credible evidence of a violation of federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in title 18 of the United States Code or a violation of the False Claims Act. (31 U.S.C. 3729-3733)

If this solicitation or contract includes FAR clause 52.203-13 - CONTRACTOR CODE OF BUSINESS ETHICS AND CONDUCT; the contractor shall comply with the terms of the clause and have a written code of business ethics and conduct; exercise due diligence to prevent and detect criminal conduct; promote ethical conduct and a commitment to compliance with the law within their organization; and timely report any violations of federal criminal law involving fraud, conflict of interest, bribery or gratuity violations found in title 18 of the United States Code or any violations of the False Claims Act. (31 U.S.C. 3729-3733). When FAR 52.203-13 is included in the contract, contractors must provide a copy of its written code of business ethics and conduct to the contracting officer upon request by the contracting officer.

iRAPT FORMERLY WIDE AREA WORKFLOW

ALL SUPPLIERS ARE REQUIRED TO PROCESS INVOICES ELECTRONICALLY THROUGH THE DLA INVOICING, RECEIPT, ACCEPTANCE, AND PROPERTY TRANSFER (iRAPT) SYSTEM formerly known as WIDE AREA WORKFLOW (WAWF). iRAPT is a secure web based system for electronic invoicing, receipt, acceptance, and property transfer. iRAPT allows government vendors to submit and track invoices and receipt/acceptance documents over the web and allows government personnel to process those invoices in a real-time, paperless environment. It is also the only application that will be used to capture the Unique Identification (UID) of Tangible Items information. iRapt is in accordance with the 2001 National Defense Authorization Act (DFARS 252.232-7003/252.232.7003 Electronic Submission of Payment Requests and Receiving Reports) which requires claims for payment under a Department of Defense Contract to be submitted in electronic form. As of March 03, 2008, DOD has issued a final rule amending the Defense Federal Acquisition Regulation supplement (DFARS) to require use of the iRAPT formerly Wide Area Workflow as the only acceptable electronic system for submitting requests for payment (invoices and receiving reports) under DOD contracts. For access to the iRAPT formerly WAWF system, please go to the following website: <https://wawf.eb.mil/>.

ADDENDUM TO 52.212-4

The following paragraph(s) of 52.212-4 are amended as indicated below:

1. Paragraph (a), Inspection/Acceptance, is revised to add FAR clause 52.246-2, Inspection of Supplies – Fixed Price. FAR 52.246-2 expands the definition of “Supplies,” to include, but not limit to, raw materials, components, intermediate assemblies, end products, and supply lots. FAR 52.246-2 provides a basis for the Government's right to perform Product Verification Testing (PVT), which is a requirement on any resulting contract(s). PVT is addressed in DLAD clause 52.246-9004. Each clause is contained in full text elsewhere in the solicitation.

2. Paragraph (a), Inspection/Acceptance, is revised to add the following:

(a) Inspection at Contractor's Plant, and Acceptance at Destination by the authorized Government representative.

(b) Resultant award(s) or contract(s) will contain the name and address of the office responsible for performance of inspection.

(c) Offeror shall indicate below the location where supplies will be inspected:

Plant: _____

Street: _____

City/State/Zip: _____

3. Paragraph (c), Changes, is deleted in its entirety and replaced with the following:

(c) Changes.

The Contracting Officer may at anytime, by unilateral written order, make changes within the general scope of this contract in any one or more of the following:

- (i) Method of shipment or packing;
- (ii) Place, manner, or time of delivery.

(2) If such change causes an increase or decrease in the cost of, or time required for, performance for any part of the work under this contract, the Contracting Officer shall make equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract.

(3) The Contractor must assert its right to an adjustment under this clause within thirty (30) days from the date of receipt of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.

(4) Failure to agree to any adjustment shall be a dispute under the Disputes Clause. However, nothing in this clause shall excuse the Contractor from proceeding with the contract.

4. Paragraph (d), Disputes, is revised to add the following:

CONTINUED ON NEXT PAGE

52.233-9001 DISPUTES – AGREEMENT TO USE ALTERNATIVE DISPUTE RESOLUTION (NOV 2011)

(a) The parties agree to negotiate with each other to try to resolve any disputes that may arise. If unassisted negotiations are unsuccessful, the parties will use alternative dispute resolution (ADR) techniques to try to resolve the dispute. Litigation will only be considered as a last resort when ADR is unsuccessful or has been documented by the party rejecting ADR to be inappropriate for resolving the dispute.

(b) Before either party determines ADR inappropriate, that party must discuss the use of ADR with the other party. The documentation rejecting ADR must be signed by an official authorized to bind the Contractor (see Federal Acquisition Regulation (FAR) clause 52.233-1), or, for the Agency, by the Contracting Officer, and approved at a level above the Contracting Officer after consultation with the ADR Specialist and with legal. Contractor personnel are also encouraged to include the ADR Specialist in their discussions with the Contracting Officer before determining ADR to be inappropriate.

I The offeror should check here to opt out of this clause: [] Alternate wording may be negotiated with the Contracting Officer.

5. Paragraph (m), Termination for Cause is deleted and replaced with the following:

(m) Termination for Cause. The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If this contract is terminated in whole or in part for cause, and the supplies or services covered by the contract so terminated are repurchased by the Government, the Government will incur administrative costs in such repurchases. The Contractor and the Government expressly agree that, in addition to any excess costs of repurchase, or any other damages resulting from such default, the Contractor shall pay, and the Government shall accept, the sum of \$1,350.00 as payment in full for the administrative costs of such repurchase. This assessment of damages for administrative costs shall apply for any termination for cause following which the Government repurchases the terminated supplies or services together with any incidental or consequential damages incurred because of the termination. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

6. Paragraph (o) Warranty: The following clause will supersede FAR 52.212-4(o) referenced in this solicitation.

52.246-9060 WARRANTY OF SUPPLIES (COMMERCIAL ITEMS) (SEP 2008) – DLAD

(a) Definitions.

"Acceptance," as used in this clause, means the act of an authorized representative of the Government by which the Government assumes for itself, or as an agent of another, ownership of existing supplies, or approves specific services as partial or complete performance of the contract.

"Correction," as used in this clause, means the elimination of a defect.

"Supplies," as used in this clause, means the end item furnished by the Contractor and related services required under the contract. The word does not include "data".

(b) Contractor's obligations.

(1) Notwithstanding inspection and acceptance by the Government of supplies furnished under this contract, or any condition of this contract concerning the conclusiveness thereof, the Contractor warrants that for 6 months after receipt of supplies at destination or, in the case of supplies required to bear an expiration date, for the expiration date indicated in the labeling thereof, all supplies furnished

(i) Are of a quality to pass without objection in the trade under the contract description;

(ii) Are fit for the ordinary purposes for which the supplies are used;

(iii) Are within the variations permitted by the contract, and are of an even kind, quality and quantity within each unit and among all units;

(iv) Are adequately contained, packaged, and marked as the contract may require; and

(v) Conform to the promises or affirmations of fact made on the container.

(2) When return of the supplies to the contractor and redelivery, if applicable, is required, transportation charges and responsibility for the supplies while in transit shall be borne by the contractor. Contractor shall also be liable for:

(i) Handling costs and incidental charges incurred by the Government in the preparation of the above described supplies for return to the contractor and in return of said supplies to storage, after redelivery by the contractor; and

(ii) For cost of Government examination of the corrected or replaced supplies computed and charged at the flat rate of \$49.28 per hour.

CONTINUED ON NEXT PAGE

(3) Any supplies or parts thereof, corrected or furnished in replacement under this clause, shall also be subject to the terms of this clause to the same extent as supplies initially delivered. The warranty, with respect to supplies or parts thereof, shall be equal in duration to that in paragraph (b)(1) of this clause and shall run from the date of receipt of the corrected or replaced supplies at destination.

(c) Remedies available to the government.

(1) Notice Requirement: The Contracting Officer shall give written notice to the contractor of any breach of warranties in paragraph (b)(1) of this clause within 7 days from receipt of supplies at destination or, in the case of supplies required to bear an expiration date, no later than one month following the expiration date indicated in the labeling.

(2) Conformance of supplies or parts thereof subject to warranty action shall be determined in accordance with the inspection and acceptance procedures contained in the contract except as provided herein. If the contract provides for sampling, the Contracting Officer may group any supplies delivered under this contract. The size of the sample shall be that required by the sampling procedure specified in the contract for the quantity of supplies on which warranty action is proposed, except when projecting sampling results. Warranty sampling results may be projected over supplies in the same shipment or other supplies contained in other shipments even though all of such supplies are not present at the point of reinspection and regardless of whether such supplies have been issued or consumed, provided (1) the supplies from which the samples were drawn are reasonably representative of the quantity on which warranty action is proposed, and (2) the defects found in the sample size are sufficient to reject the quantity of supplies on which warranty action is proposed, even though the sample size may be less than that required for such quantity. The original inspection lots need not be reconstituted, nor shall the Contracting Officer be required to use the same lot size as on original inspection. Within a reasonable time after the notice, the Contracting Officer may exercise one or more of the following options; and also, following the exercise of any option, may unilaterally change it to one or more of the other options set forth below:

(i) Require an equitable adjustment in the contract price for any supplies or group of supplies;

(ii) Screen the supplies grouped under this clause at contractor's expense and return all nonconforming supplies to the contractor for correction or replacement;

(iii) Require the contractor to screen the supplies at depots designated by the Government within the continental United States and to correct or replace all nonconforming supplies;

(iv) Return any supplies or group of supplies under this clause to the contractor (irrespective of the f.o.b. point or the point of acceptance) for screening and correction or replacement;

(v) Return or hold for contractor's account any supplies or group of supplies delivered hereunder, whereupon the contractor shall repay the contract price paid therefore. In such event, the Government may reprocur similar supplies upon such terms and in such manner as the Contracting Officer may deem appropriate, and charge to the contractor the additional cost occasioned the Government thereby.

(3) When remedy (c) (2) (iii) or (c) (2) (iv) of this clause is exercised, the contractor is required to submit in writing and within 30 days after receipt of notice of such invocation a schedule for either:

(i) Correction and/or replacement of all defective supplies and subsequent redelivery of the returned supplies; or,

(ii) Screening defective supplies at each depot involved and subsequent redelivery of all corrected and/or replaced supplies.

Such schedule will become a part of the contract delivery schedule upon agreement thereto by the Government. If the contractor fails to provide an agreeable schedule within the specified period, or any extension agreed to by the Government, the Government may correct the items and charge the contractor's account; or, issue a contract for correction of the items and charge the contractor's account; or, exercise one or more of the remedies specified in paragraph (4) below.

(4) If the contractor fails to accept return of the nonconforming supplies; or, fails to make redelivery of the corrected or replaced supplies to the Government within the time established; or, fails to make progress after their return to correct or replace them so as to endanger performance within the time established for redelivery and does not cure such failure within a period of 10 days (or such longer period as the Contracting Officer may

CONTINUED ON NEXT PAGE

authorize in writing) after receipt of notice from the Contracting Officer specifying such failure, the Contracting Officer may exercise one or more of the following remedies:

- (i) Retain or have the contractor return the nonconforming supplies and require an equitable adjustment in the contract price.
 - (ii) Return or hold the nonconforming supplies for contractor's account, or require the return of the nonconforming supplies and then hold for contractor's account, whereupon the contractor shall repay the contract price therefore. In such event, the Government may reprocure similar supplies upon such terms and in such manner as the Contracting Officer may deem appropriate, and charge to the contractor the additional costs occasioned the Government thereby.

52.211-16 VARIATION IN QUANTITY (APR 1984) – FAR

A variation in the quantity of any item called for by this contract will not be accepted unless the variation has been caused by conditions of loading, shipping, or packing, or allowances in manufacturing processes, and then only to the extent, if any, specified in paragraph (b) of this clause.

The permissible variation shall be limited to:

- 2 Percent increase
- 2 Percent decrease

This increase or decrease shall apply to each line item

52.212-9000 CHANGES – MILITARY READINESS (NOV 2011) – DLAD

The commercial changes clause at Federal Acquisition Regulation (FAR) 52.212-4(c) is applicable to this contract in lieu of the changes clause at FAR 52.243-1. However, in the event of a contingency operation or a humanitarian or peace keeping operation, as defined below, the Contracting Officer may, by written order, change 1) the method of shipment or packing, and 2) the place of delivery. If any such change causes an increase in the cost of, or the time required for performance, the Contracting Officer shall make an equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract. The Contractor must assert its right to an adjustment within 30 days from the date of receipt of the modification.

“Contingency operation” means a military operation that is designated by the Secretary of Defense as an operation in which members of the armed forces are or may become involved in military actions, operations, or hostilities against an enemy of the United States or against an opposing military force; or results in the call or order to, or retention on, active duty of members of the uniformed services under 10 United States Code (U.S.C.) 688, 12301(a), 12302, 12304, 12305, or 12406, chapter 15 of U.S.C., or any other provision of law during a war or during a national emergency declared by the President or Congress (10 U.S.C. 101(a)(13)).

“Humanitarian or peacekeeping operation” means a military operation in support of the provision of humanitarian or foreign disaster assistance or in support of peacekeeping operation under Chapter VI or VII of the Charter of the United Nations. The term does not include routine training, force rotation, or stationing. (10 U.S.C. 2302 (8) and 41 U.S.C. 259(d)(2)(B)).

52.214-9008 ALTERNATE I ROUNDING OFF OF OFFER AND AWARD PRICES (AUG 2008) – DLAD

In lieu of five decimal places, unit prices shall be limited to a maximum of two decimal places. For evaluation and award purposes, offerors containing a unit price of more than two decimal places shall be rounded off to two decimal places, as follows:

- \$0.01 to \$0.104 = \$0.10
- \$0.105 to \$0.109 = \$0.11
- \$0.111 to \$0.114 = \$0.11
- \$0.115 to \$0.119 = \$0.12, etc

52.216-19 ORDER LIMITATIONS (OCT 1995) – FAR

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than **2,200 each** the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum order. The Contractor is not obligated to honor—

- (1) Any order for a single item in excess of **840,000 each**;
- (2) Any order for a combination of items in excess of N/A ; or
- (3) A series of orders from the same ordering office within **7 calendar days** that together call for quantities exceeding the limitation in paragraph (b)(1) or (2) of this section.

CONTINUED ON NEXT PAGE

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 7 days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

52.216-22 INDEFINITE QUANTITY (OCT 1995) – FAR

(a) This is an indefinite-quantity contract for the supplies or services specified and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum." The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum."

(c) Except for any limitations on quantities in the Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; *provided*, that the Contractor shall not be required to make any deliveries under this contract after 90 days after the effective period expires.

52.216-9007 CONTRACT AND DELIVERY ORDER LIMITATIONS (NOV 2011) – DLAD

[X] (a) Delivery orders will specify delivery no less than 120 days from the date of order. Changes or cancellations to delivery orders may be made by giving the Contractor notice no less than 7 days [remembering that days are always calendar days unless otherwise defined] before the required delivery date.

[] (i) Base period of one year.

____(Quantity)

____ (Percentage of the annual estimated quantity or dollar value)

[X] (ii) Base period of two or more years.

The minimum quantity that may be ordered against this contract is: 48,000 EA ____ (Percentage) multiplied by 1 ____.

[] (iii) The following minimum quantities within the time periods prescribed (quarter (QTR) represents a three-month period computed from date of award):

Contract Line-Item (CLIN) First Quarter Second Quarter Third Quarter Fourth Quarter

[X] (iv) The Contractor will not be obligated to honor any order with F.O.B. Destination terms that requires delivery to a single destination of a quantity less than that shown below:

CLIN	Minimum Quantity Per Destination
_____	<u>2,200 EA</u>

(2) The Government may fulfill the guarantee by a single delivery order or by any number of delivery orders subject to the minimum per order specified in the clause Order Limitations, Federal Acquisition Regulation (FAR) clause 52.216-19 (a). The maximum quantity per order does not apply until after the guaranteed minimum is satisfied.

(3) In the event that a single delivery order includes both items that are within the guaranteed minimum and items in excess of the guaranteed minimum, the maximum delivery order limitations in FAR 52.216-19 (b) shall apply, and the Contractor shall be governed by the notice requirement of FAR 52.216-19 (d).

(4) The total of the delivery orders issued during the base contract period will apply to the minimum guarantee stated in this paragraph (c). The Government’s obligations with regard to the guarantee will be satisfied when the total of the delivery orders equals or exceeds the guaranteed quantity or guaranteed dollar value, as applicable.

(d) If this is an invitation for bids (IFB) and the Government elects to award a different quantity than that solicited or bid upon, the delivery schedule will be changed in direct proportion to the change in quantity. If this solicitation involves a partial set-aside, the Government will consider each destination (or combined destinations) separately in awarding the set-aside portion. The destination(s) appearing on page(s) _____ is (are) the non-set-aside portion.

Addendum to 52.216-9007

Paragraph (c) (ii) Base Period refers to Tier 1.

52.216-9062 ECONOMIC PRICE ADJUSTMENT (EPA) - UNITIZED GROUP RATION (UGR) (AUG 2014)

(a) Warranties: For the portion of the schedule that is covered by this EPA clause, the Contractor warrants that the unit prices included in the Schedule does not include allowances for any portion of the contingency covered by this clause. Refer to Defense Logistics Acquisition Directive (DLAD) clause 52.217-9001, Option To Extend The Term Of The Contract - Separate Firm Fixed Price And Fixed Price With Economic Price Adjustment Portions, contained elsewhere in this solicitation.

(b) Base unit price: The base unit prices for the purpose of the adjustment calculations under this clause shall be the arithmetic average of the weekly or monthly prices of each applicable economic indicator only (e.g. an average of egg indices for egg products, pork belly indices for pork products, and skim milk and butterfat indices for milk products) only for the period specified under the “BASE Unit Price” column in paragraph (b) immediately preceding (i) the closing date for proposals, (if no discussions are held), (ii) the due date for final proposal revisions, (if discussions are held), or (iii) the opening date, (if sealed bidding is used).

ITEM	EPA FACTOR/ COMPONENT	ECONOMIC INDICATOR	PUBLISHER / PUBLICATION / FREQUENCY PUBLISHED	BASE UNIT PRICE	ADJ. UNIT PRICE
Boil-In-Bag Dehy Egg Mix	Egg	National Liquid Egg, Whole, Weighted Average	USDA / Egg Market News Report / Weekly	52 week period	52 week period

CONTINUED ON NEXT PAGE

(c) Adjusting unit price: The adjusting unit prices shall be the arithmetic average of the weekly or monthly prices of each applicable economic indicator only for the period specified under the "Adjusting Unit Price" column shown in paragraph (b) immediately preceding the effective date the option term is exercised.

(d) An established market price is a price that is established in the course of ordinary and usual trade between buyers and sellers free to bargain and that can be substantiated by data from sources independent of the offeror(s); and the net price after applying any standard trade discounts offered by the Contractor. The established market price under this clause may reflect industry-wide and/or geographically based market price fluctuations for commodity groups or specific supplies. The established market price that shall be used for the EPA factors subject to price adjustments under this clause, and the economic indicators and publications to be used are listed in paragraph (b) of this clause.

(e) With respect to increases or decreases under this clause, no adjustment shall be made to the base term contract unit prices. One adjustment calculation shall be made annually to determine the unit prices applicable to the forthcoming option term (if exercised).

(f) EPA allowance factor: For the purpose of price adjustment pursuant to this clause, it shall be conclusively presumed that the amount shown under "Portion Subject to EPA" represents the cost of each item that is subject to adjustment. The portion subject to EPA refers to the element of cost for each item that is outside the control of the vendor and in "Schedule B" the offerors will be required to fill in this amount. This is the only portion of the cost that will be subject to the EPA provision. The EPA provisions based on changes in market prices for product material costs such as egg, pork belly, skim milk, and buttermilk, are subject to the EPA, because there is serious doubt concerning the stability of market conditions. The balance of product costs for items such as labor, overhead, General and Administrative (G&A), transportation, and profit are those contingencies that can be included in the contract price and can be identified and covered separately through firm fixed prices. The EPA allowance factor remains fixed throughout the life of the contract unless a Government authorized change is made to the contract which affects this allowance.

(g) Performance requirement: The United States Army Research, Development and Engineering Command (RDECOM) Natick Soldier Center (NSC) who prepares the specifications has moved from Military Specifications to Performance Requirements. The Government no longer states the specific amount of product (egg, pork belly, skim milk, buttermilk etc.) (a unitized group ration item) that goes into a Unitized Group Ration, only an overall amount with a protein and carbohydrate requirement. Meeting the protein and carbohydrate requirement indicates that the Contractor has put in sufficient quantities of required ingredients in the Unitized Group Ration to satisfy the requirement. (Different Contractors will put in differing quantities of egg, pork belly, skim milk, buttermilk etc. to meet the protein and carbohydrate performance requirements). This is why specific weights or quantities cannot be specified in advance in this EPA as would be used in a Military Specification and the cost for the items subject to adjustment will be entered by the Contractor in Section B. The Government performs oversight to ensure that the performance requirements are met or exceeded.

(h) Adjustments shall be calculated as follows: (Round to four decimal places)

(1) Compute the Adjusting Unit Price and the Base Unit Price.

(2) $(\text{Adjusting Unit Price} - \text{Base Unit Price}) / \text{Base Unit Price} = \text{Market Price Change (+ or -)}$.

(3) $\text{Market Price Change} \times \text{Allowance Factor} = \text{Contract Unit Price Adjustment (+ or -)}$ for each item subject to EPA adjustment.

(4) The original option unit price(s) for each option will be the sum of the firm fixed price portion and the portion subject to the EPA (Allowance Factor). The adjusted unit price(s) for each option shall be determined by increasing or decreasing (as appropriate) the Allowance Factor by the Contract Unit Price Adjustment and adding that to the firm fixed price portion agreed to at the time of award for the option period being adjusted.

(5) Determine the Contract Price Adjustment by computing the sum total of the price Adjustment of all items subject to EPA.

(i) Price adjustments pursuant to this clause shall be made by contract modification showing the calculations used to derive the adjusted contract unit price.

(j) Payments: Payment for items pending adjustment under this clause shall be at the existing unadjusted current unit price until an adjustment modification has been issued. Following issuance of an adjusting contract modification, the Government shall pay the Contractor, upon submission of proper invoices or vouchers, the adjusted price stated in the contract modification for the applicable option period. The Contractor represents by submitting its final invoice that the total amount billed under this contract reflects all increases or decreases required or authorized by this clause.

(k) Any pricing actions pursuant to the "Changes" clause or other provisions of the contract will be priced as though there were no provisions for economic price adjustment.

(l) No adjustment will be made under this clause unless the total change in the contract amount is \$500.00 or more.

CONTINUED ON NEXT PAGE

(m) Upward ceiling on economic price adjustment: The total increase in any contract unit price shall not exceed 10% per annum of the original option unit prices agreed to at time of award. There is no percentage limit on downward adjustments under this clause.

(n) Revision of market price indicator: In the event (i) any applicable market price indicator is discontinued or its method of derivation is altered substantially or (ii) the Contracting Officer determines that a particular market price indicator consistently and substantially no longer reflects market conditions, the parties shall mutually agree upon an appropriate and comparable substitute and the contract shall be modified to reflect such substitute effective on the date the indicator was discontinued, altered, or began to consistently and substantially fail to reflect market conditions.

(o) Disputes: If the parties fail to agree on an appropriate substitute market price indicator or implementation of other matters addressed by this EPA clause then the matter shall be resolved in accordance with the Disputes clause of the contract.

(p) Authority to add additional items to this clause: Paragraph (b) of this clause identifies 3 unique components contained in the ration. These components are selected based on historical data and may not be included in every ration. Refer elsewhere in the solicitation/contract for listing of the exact component makeup. Due to customer requirements, the Contracting Officer may add additional components to the ration. The Contracting Officer will show within paragraph (b) the additional components(s).

(q) Examination of records: The Contractor agrees that the Contracting Officer or designated representative shall have the right to examine the Contractor's books, records, documents, or other data the Contracting Officer deems necessary to verify Contractor adherence to the provisions of the clause.

(r) In the event any applicable market price indicator is not published for any week(s), that week will not be included in calculating the base unit price or the adjusting unit price as applicable. For instance, if within a 52 week period an indicator is not published 4 times, the average of the 48 published prices only will be calculated. When a range of prices is provided, for the purposes of the calculations the arithmetic average of the high and low number will be calculated to determine the indicator for that period.

(End of Clause)

Addendum to 52.216-9062

Option refers to Tier 2, Tier 3, Tier 4 or Tier 5.

DLAD 52.217-9001 is not applicable and not included in this solicitation because there are no options.

52.246-15 CERTIFICATE OF CONFORMANCE (APR 1984) – FAR

(a) When authorized in writing by the cognizant Contract Administration Office (CAO), the Contractor shall ship with a Certificate of Conformance any supplies for which the contract would otherwise require inspection at source. In no case shall the Government's right to inspect supplies under the inspection provisions of this contract be prejudiced. Shipments of such supplies will not be made under this contract until use of the Certificate of Conformance has been authorized in writing by the CAO, or inspection and acceptance have occurred.

(b) The Contractor's signed certificate shall be attached to or included on the top copy of the inspection or receiving report distributed to the payment office or attached to the CAO copy when contract administration (Block 10 of the DD Form 250) is performed by the Defense Contract Administration Services. In addition, a copy of the signed certificate shall also be attached to or entered on copies of the inspection or receiving report accompanying the shipment.

(c) The Government has the right to reject defective supplies or services within a reasonable time after delivery by written notification to the Contractor. The Contractor shall in such event promptly replace, correct, or repair the rejected supplies or services at the Contractor's expense.

(d) The certificate shall read as follows:

I certify that on _____ [insert date], the _____ [insert Contractor's name] furnished the supplies or services called for by Contract No. _____ via _____ [Carrier] on _____ [identify the bill of lading or shipping document] in accordance with all applicable requirements. 52.246-9004 PRODUCT VERIFICATION TESTING (NOV 2011) – DLAD

(a) The requirements of Federal Acquisition Regulation (FAR) clause 52.246-2, "Inspection of Supplies-Fixed Price," American National Standards Institute (ANSI)/American Society for Quality (ASQ) Z1.4-1993, "Sampling Procedures and Tables for Inspection by Attributes," apply. These documents form the basis for the Government's right to perform product verification testing (PVT) of this product. FAR 52.246-2 is hereby incorporated by reference into the contract if not otherwise called out in the purchase document. The current version of ANSI/ASQC Z1.4 can be found at <http://asq.org>. The private sector and non-Department of Defense (DOD) agencies may purchase copies of ANSI/ASQC Z1.4 from the American Society for Quality at <http://asq.org/index.aspx>.

(b) The Contractor is responsible for ensuring that supplies are manufactured, produced, and subjected to all tests required by applicable material specifications/drawings specified in the purchase description of the contract. Notwithstanding any other clause to the contrary, and/or in addition thereto, the Government reserves the right to conduct PVT to ascertain if any or all requirements of the purchase identification description contained elsewhere herein are met prior to final acceptance.

(c) On any given contract, the Government may require PVT through a Government-designated testing laboratory on the contract or production lot at Government expense to verify conformance. When the contract is designated by the Procurement Contracting Officer (PCO)/Administrative Contracting Officer (ACO) for PVT, the Government Quality Assurance Representative (QAR) will select a random sample, from lots presented by the Contractor for Government acceptance, to verify that the entire lot tendered meets the requirements of the contract or during production to ensure critical manufacturing processes are in control and send the samples to a Government-designated laboratory for testing at the Government's expense. The PVT samples shall be shipped with a copy of the Department of Defense (DD) Form 250, a DD Form 1222 (as prepared in coordination with the QAR) and marked as follows: "Product Verification Test Samples, Contract number _____, lot/item number _____." Upon shipment of the PVT samples, the original unsigned DD Form 250, along with a copy of the DD Form 1222, shall be submitted to the PCO.

Upon notification to the Contractor that PVT is invoked, the Contractor shall not ship any material from the sampled lot until the Contractor receives notification of acceptable PVT results. Government reserves the right to reject the lot, or withhold payment if the Contractor ships prior to Government approval of the PVT. The Government will notify the Contractor of the results of the testing within 15 working days after receipt of the samples by the Government.

(d) Samples subjected to PVT are deemed to be part of the contract quantity. Samples destroyed during testing will be paid for at the contract price, provided the samples pass PVT. Those samples not destroyed during PVT will be returned to the Contractor at the Government's expense and will be included as part of the total contract quantity within the limits of the quantity variation clause specified in the contract.

(e) The Contractor will not be paid for those samples destroyed during testing which fail PVT. Such failure will result in rejection of the entire contract lot from which the samples were taken. Those samples from a rejected lot which were not destroyed during PVT may be returned to the Contractor at the Contractor's request and expense.

(f) [This subparagraph pertains only to contracts and bilateral purchase orders.]

(1) The QAR will evaluate the test results and accept or reject the rest of the production lot based on those results. At acceptance, the QAR is authorized to notify the Contractor and send copies of the report to the Product Verification Program (PVP) Office and the PCO. If the Government fails to act within the period set

forth herein for notification, the Contracting Officer shall, upon timely written request, equitably adjust, under the Changes clause of this contract, the delivery or performance dates and/or the contract price and any other contractual terms affected by the delay. The Government is not required to accept/reject the supplies tendered until after receipt of the PVT results.

(2) The Government shall have the option to require the Contractor to screen the entire lot tendered for any defects noted by the PVT. Any defects found shall be corrected before re-tendering the lot for acceptance by the Government. Furthermore, the Government may subject this lot to additional PVT. If the Government disapproves the lot tendered for acceptance because of a failure to pass PVT, the Contractor shall be deemed to have failed to make delivery within the meaning of the Default clause of this contract. In such case, the Government reserves all rights to remedies to which it is otherwise entitled by law, regulation, or this contract.

(g) [This subparagraph pertains only to unilateral purchase orders.]

(1) The QAR will evaluate the test results and accept or reject the rest of the production lot based on those results. At acceptance, the QAR is authorized to notify the Contractor and send copies of the report to the PVP Office and the PCO. The Government is not required to accept/reject the supplies tendered until after receipt of the PVT results.

(2) The Government shall have the option to require the Contractor to screen the entire lot tendered for any defects noted by the PVT. Any defects so found shall be corrected before re-tendering the lot for acceptance by the Government. Furthermore, the Government may subject this lot to additional PVT. If the Government disapproves the lot tendered for acceptance because of a failure to pass the PVT, the Government has the right to reject the entire offer, thereby releasing the parties from further obligations under the purchase order.

Alternate III When acquiring Instrument Bearings, use paragraphs (a) and (c) in addition to the basic clause and paragraph (b) in lieu of paragraph (c) in the basic clause.

(a) When PVT is a requirement, the Contractor shall notify the PCO and the QAR in writing at least 30 calendar days before anticipated completion of manufacture of the contract quantity or first manufacturing lot. This is to allow for sufficient time for scheduling and PCO coordination with the Government test facility.

(b) In the event that the Government test activity performs destructive testing on any of the PVT samples, the Contractor shall receive the full contract unit price for that sample or samples as long as the testing found that sample or samples to be in conformance with technical requirements. PVT samples determined to be conforming and not destroyed or degraded in testing shall be returned, by the Government test activity, to the Contractor at Government expense. The Contractor shall examine the returned PVT samples, refurbish as necessary, and may include them in the production quantity if found to be unharmed by the PVT.

(c) The PCO may waive the requirement for PVT where supplies being offered are identical to supplies that were accepted by the Government within a period of two years prior to the date of current solicitation. Offerors offering such products, who wish to rely on such prior acceptance by the Government, must furnish evidence with the offer that prior Government acceptance is presently appropriate for the products to be furnished hereunder by indicating below the information for identical supplies accepted by the Government.

Contract Number _____

Date of Contract _____

NSN _____ Specification/Part Number _____

In all cases, the PCO reserves the right to make final waiver determination.

The contract delivery schedule shall be reduced by 30 calendar days (time allotted for submission and approval of PVT sample(s)) if submission of PVT sample(s) is waived by the Government.

52.246-9024 ALTERNATIVE INSPECTION REQUIREMENTS FOR SELECTED ITEMS - DLA TROOP SUPPORT - SUBSISTENCE (NOV 2011)

(a) Optional Contractor Testing of Contractor-Furnished Materials.

To expedite shipment, the Contractor has the option to perform, or have performed by an independent laboratory, contractually-required tests of end items or component material not specified by the U.S. Standards of Grade. The inspector for the Government agency having jurisdiction over ascertaining compliance may permit shipment, provided all other requirements of the contract are met. The designated Government inspector will select random samples of each lot of end items or component material for verification testing until the Contractor's testing system is determined reliable in accordance with paragraph (c) of this clause. It is the intent of the Government to rely on Contractor test results to the maximum extent practicable and minimize Government verification testing.

(b) Compliance of Product.

Acceptance of material as complying with required characteristics shall be based on the Contractor's test results; provided that Government verification indicates the Contractor's testing system is reliable, in accordance with paragraph (c) of this clause, as to each of the required characteristics. If the Contractor's test system is determined to be unreliable, product compliance will be determined based solely on Government test results. In the event the Government detects any irregularities in the Contractor's testing system, the designated Government inspector may withhold approval until Government test results indicate products conform to contract requirements. (For Meal, Ready-to-Eat (MRE) items, if Government laboratory test results show that product is nonconforming, the product shall be withheld from final assembly and subject to return and replacement by the component Contractor, even if previously approved by the Government inspector.)

(c) Reliability Conditions.

(1) To be considered reliable, the Contractor's testing system shall produce results comparable to the Government test results; unless the Government agency having jurisdiction has inspected the item produced at the Contractor's plant within the previous 120 days. Unless otherwise specified in this contract, the Government inspector will select samples randomly from the first three lots of end items presented for inspection and will conduct verification testing on a skip-lot basis. Skip-lot verification is done by random selection of samples from not less than one lot in six consecutive lots presented for inspection. The sampling procedure under skip-lot places the succeeding lots not chosen for inspection back into the universe available for subsequent inspection. (For instance, starting with a group of six lots (i.e., 1-6), one lot is randomly selected for inspection. If lot 4 is selected, the next samples will be selected from lots 5, 6, 7, 8, 9, or 10. If lot 8 is selected, the next samples will be selected from lots 9, 10, 11, 12, 13, or 14; and so on.)

(2) Contractor's testing system shall be considered unreliable when (i) the Government verification results indicate product nonconformance to contract requirements; and (ii) a significant disparity exists between Government laboratory results and Contractor test results. When a Contractor's testing system is determined to be unreliable, compliance testing will revert to the Government, and all items shall be inspected by the Government prior to shipment.

(3) Contractor's testing system will be considered doubtful when (i) a significant disparity exists between Government laboratory results and Contractor test results; (ii) the Government test results indicate significantly poorer quality than the Contractor's; and (iii) the Government laboratory test results do not indicate product nonconformance to a statistically significant degree. When the Contractor's testing system is considered doubtful, verification testing will be performed on each lot produced; however, the Government will continue to permit the Contractor to ship based on its own test results.

(4) Contractor testing system reliability will be determined by applying recognized statistical tests to the Contractor's and Government's test results. These determinations shall be accomplished by the DLA Troop Support, Directorate of Subsistence, Product Services Office, 700 Robbins Avenue, Philadelphia, Pennsylvania 19111-5092.

CONTINUED ON NEXT PAGE

(5) The Contracting Officer will notify the Contractor of any change in reliability status. Notification will include details of the statistical determinations and test results used in reliability studies. Telephonic notification and copies of these determinations will be provided to the Government by DLA Troop Support FTRE.

(d) Procedures. When the Contractor elects to perform testing, the following shall apply:

(1) Reporting of Contractor's Results. Test reports for each lot of end item and components shall be submitted in the format contained in this clause by the Contractor in an original and one copy to the designated Government inspector. The inspector will forward one completed copy to DLA Troop Support FTRE.

(2) Verification Actions. The Government will perform verification testing for food items and component material required by the contract to assure that the Contractor's testing results are reliable. Verification samples will be accompanied by a DD Form 1222, Request for and Results of Tests. The Government laboratory that performs the tests will provide copies of the test results to the Government inspector and to DLA Troop Support FTRE. The Government laboratory will telephone the results to DLA Troop Support HS (215-737-4259) when testing identifies nonconformance. The Government reserves the right to (i) increase the rate or amount of verification testing up to and including full lot-by-lot testing, in the event the Contractor does not furnish reliable test results or certificates; or (ii) obtain additional data when significant disparities exist between the Contractor's results and the results of the Government laboratory testing. When any element of the Contractor testing system is determined unreliable, the Government may consider the testing system as a whole unreliable and return to full lot-by-lot verification for every test. Testing by the Government will continue until such time as the Contractor's reliability is again established.

(3) Standby Test Samples. The Government reserves the right to withdraw and hold standby test samples of component or finished product or both (the quantity of which shall be the next larger available sample size required for unit testing and the same sample size required for composite testing) for inspection purposes. Unused samples will be returned to the Contractor.

(e) Charges Applicable to Unreliable Test Status. The prime Contractor shall be charged the costs of lot-by-lot inspection during the period that its testing system is considered unreliable. These charges will be processed and approved by the Contracting Officer.

TECHNICAL/QUALITY DATA**I. MARKING OF SHIPPING CONTAINERS AND MARKING OF UNIT LOADS**

For shipments to Department of Defense Depots, all Shipping Containers and Unit Load shall be marked in accordance with DLA Troop Support Form 3556, entitled "Marking Instructions for Boxes, Sacks, and Unit Loads of Perishable and Semi-perishable Subsistence, dated October 2010."

All unit loads shall be clearly marked with the following information on two adjacent sides of the load with the largest characters possible as follows:

Unitized Ration Component
National Stock Number
Item Name
Date of Pack and Lot Number
Number of Shipping Containers per Pallet
Contract Number
Contractor's Name and Address
Inspection Test Date (ITD) *

*The Inspection Test Date, the expected shelf life is found in the applicable solicitation/contract. To calculate the ITD, add the shelf life value to the month/year date of pack. Example, if the Date of Pack is June 2007, and the shelf life is 36 months (3 years), then the ITD is computed as follows: 6/07 + 3 years = 6/10. If labels are used, they shall be permanently affixed with water-resistant adhesive tape.

Shipments without the appropriate Shipping Container and Unit Load Markings will be rejected and returned to origin, or at the Contracting Officers discretion, reworked at a labor rate determined by the destination activity (not DLA Troop Support).

II. UNITIZATION

strapping, shrink or stretch film, or others means that comply with carrier rules and regulations applicable to the mode of transportation (adhesive bonding is not acceptable).

Bonding material shall secure the load to the pallet to form a consolidated, stable cargo which can be handled as a unit. For example, when strapping is used to secure the load, the straps shall pass under the top deck boards of the pallet. When stretch or shrink film is used, it must be applied low enough on the pallet to secure the load to the pallet. The unit load height shall not exceed 50 inches.

Inspection of unit loads shall be in accordance with classification Type III, Class G of DLA Troop Support Form 3507 of October 2011 entitled "Loads, Unit; Preparation of Semi-perishable Subsistence Items."

The unit load dimensions are 40 inches in length by 48 inches in width and 50 inches in height (Please note: In the height dimension, this includes the 1-3/8" slave board that the pallet and material are placed on).

These dimensions are exact and can be no larger than what is specified. No overhang is permitted.

III. STORED PRODUCTS PEST MANAGEMENT PROGRAM

52.212-2 EVALUATION-COMMERCIAL ITEMS (OCT 2014) – FAR

The Government will award a contract resulting from this solicitation to the responsible offeror(s) whose offer conforming to the solicitation will be most advantageous to the Government, technical factors and price considered. Factor 1 is more important than factor 2. Subfactors 1.1 and 1.2 are of equal importance. Technical merit will be determined by assessment of the following evaluation factors, listed in descending order of importance.

Past Performance

Delivery
Quality history

Product Demonstration Models (PDM)

Technical factors, when combined, are significantly more important than cost or price. As technical and past performance factors become more equal, the evaluated cost or price becomes more important.

Food Defense Plan: The Government will evaluate the offeror's Food Defense Plan for acceptability. A rating of acceptable or unacceptable will be assigned.

Pricing: The Government will evaluate each offeror's unit prices. Pricing will be evaluated for the estimated quantity. The estimated quantities for this acquisition will be multiplied by the offered unit price for each tier. The total price of all tiers will be used to estimate the overall lowest price to the Government. The Government may determine that an offer is unacceptable if the Tier prices are significantly unbalanced.

All required submissions must be received from offerors before the time set for closing. Failure to furnish this information by the time specified may be cause for rejection if not otherwise acceptable under FAR provisions for considering late offers.

(b) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(c) Evaluation Process:

(1) Subsequent to the date specified in the solicitation for receipt of proposals, all timely proposals will undergo an evaluation for the factors above. Each evaluation factor will be evaluated separately and then an integrated assessment of the offeror will be made by the contracting officer. The contracting officer will make a competitive range determination (CRD) based on these evaluations and submit it to the Source Selection Authority (SSA) for approval. Offers so technically deficient as to make them technically unacceptable will be rejected as unacceptable and will not be included in the competitive range. If award is not made on the basis of initial proposals, written and/or oral discussions will be conducted with all offerors in the competitive range.

52.212-2 EVALUATION COMMERCIAL ITEMS (OCT 2014) (Continuation)

Final Revision Proposals and offers resulting from discussions will undergo further similar evaluations. Finally, a proposal will be selected for award by the Source Selection Authority (SSA), as described in paragraph (e) below. While the SSA's assessment will strive to determine the overall value of each offeror, subjective judgment on the part of the Government evaluators is implicit in the entire process. The Government reserves the right to select a successful offeror at other than the lowest price submitted and in accordance with the evaluation factors set forth.

(d) Selection. Final evaluation reports will be furnished to the contracting officer. The contracting officer will analyze the reports and prepare a written source evaluation report and present it to the SSA. Based on the reports and analysis, the SSA will make the decision as to which offeror(s) is (are) selected for award. The responsible offeror(s) whose proposal(s) is (are) most advantageous to the Government, as determined by the evaluation of proposal(s) according to the evaluation factors established above will be selected for award.

TECHNICAL PROPOSAL EVALUATION CRITERIA

1.0 Past Performance

The Government will assess the offeror's performance record for the past two years, regarding timely delivery, product quality history of the offered or similar items, and customer service, and based on that evaluation, will assign each offeror a rating that will reflect the government's degree of confidence that the offeror will perform satisfactorily.

The assessment will be based on the information provided by the offeror in its proposal, Government in house records including PPIRS if available, and information obtained from other sources.

Delivery

The government will evaluate the offeror's past performance for the past two years as it relates to delivery of each offeror's own corporate entity and any partners, joint ventures, subcontractors, etc., who will be performing on the proposed contract for the offered item or similar item. Based on that evaluation, each offeror will be assigned a rating that will reflect the government's degree of confidence that the offeror will perform satisfactorily. The government will evaluate the offeror's record of past performance as reflected in its performance of previous government and commercial contracts, and the contractor's reliability in providing delivery of product that conforms to the solicitation.

The government will consider all relevant facts and circumstances, and therefore, encourages offeror to divulge and explain in their proposal any unfavorable delivery instances that occurred for the past two years.

1.2 Quality History

The government will evaluate the offeror's record of past performance as reflected in its performance of previous government and commercial contracts, and the contractor's reliability in providing product that conforms to the solicitation requirements. Based on that evaluation, each offeror will be assigned a rating that will reflect the government's degree of confidence that the offeror has the ability to produce an acceptable quality product that meet the specification requirements.

This assessment will be based on information provided by the offeror in its proposal, information contained in records maintained by the government and possibly by investigation of the contractor's record of performing commercial contracts. The government will consider all relevant facts and circumstances, and therefore, encourages offerors to divulge and explain in their proposal any unfavorable quality instance that occurred for the past two years.

2.0 Product Demonstration Models (PDM)

PDM will be evaluated for compliance with the product specifications to include shelf life, package integrity, and the organoleptic qualities of the food product to include taste, texture, odor and appearance using the recognized Hedonic rating scale.

52.215-9003 Use of Past Performance Information Retrieval System – Statistical Reporting (PPIRS-SR) Information in Past Performance Evaluation (APR 2014)

(a) General.

(1) Past performance is an indicator of a Contractor's ability to perform satisfactorily on future awards.

(2) When used in best value source selections, past performance information will be evaluated based upon the currency and relevancy of past performance information in order to reach a confidence assessment for each offeror from which offers were received.

(3) The Defense Logistics Agency (DLA) will evaluate offerors' past performance, which may include, but is not limited to, their record of conforming to specifications, conformance to the standards of good workmanship, adherence to contract schedules, and commitment to customer satisfaction.

(b) Past Performance Information Retrieval System – Statistical Reporting (PPIRS-SR), authorized by the Department of Defense for use by participating activities during the acquisition of supplies and services may, be used in evaluating contractor past performance.

(c) PPIRS-SR classifications are established for each supplier and can be reviewed at <http://www.ppirs.gov/>. Contractors are granted access to PPIRS-SR for their own classifications. Offerors are encouraged to review their own classifications as well as the PPIRS-SR reporting procedures and rating methodology detailed in the PPIRS-SR procedures manual and the PPIRS-SR user guide available at <http://www.ppirs.gov/>.

(1) PPIRS-SR classifications. Specific information as to how PPIRS-SR determines delivery and quality classifications can be found in the PPIRS Reference Material, specifically the "PPIRS-SR Evaluation Criteria" document on the PPIRS-SR Website at <http://www.ppirs.gov/ppirfiles/reference.htm>.

(2) Classifications are calculated based upon three years of data.

(3) Data sources for PPIRS-SR information can be found in the PPIRS Reference Material, "PPIRS-SR Evaluation Criteria" document on the PPIRS-SR Website at <http://www.ppirs.gov/ppirfiles/reference.htm>.

(4) PPIRS-SR will make negative quality and delivery data reflected in the PPIRS-SR Classification available to contractors for review and challenge. This is accomplished within the PPIRS-SR system.

(d) The following procedures will be followed when the Contracting Officer evaluates PPIRS-SR classifications:

(1) The Contracting Officer may consider the volume of business on which the classification is based as a measure of confidence in the classification as an indication of performance risk.

(2) Specifics as to how PPIRS-SR calculations are affected when there is no delivery or quality information provided by the source data bases can be found in the PPIRS Reference Material, specifically the "PPIRS-SR Evaluation Criteria" document on the PPIRS-SR Website at <http://www.ppirs.gov/ppirfiles/reference.htm>.

(3) In the case of a Contractor without a record of relevant past performance or for whom information on past performance is not available in the PPIRS-SR, the Contractor will be evaluated neither favorably nor unfavorably on past performance.

(4) Contractor-caused discrepancies or delinquencies will be reflected in a contractor's past performance assessment. Repair, replacement or reimbursement of quality and packaging defects will not provide relief of negative DLA performance data. Contractor-caused delivery extensions, regardless of consideration paid, will be reflected in the delivery classification for contracts issued by DLA.

(e) The Contracting Officer may collect and analyze other relevant information in addition to any past performance information derived from PPIRS-SR.

(1) Are, are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) Have, have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property; and

(3) Are, are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) Have, have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals Contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). 52.215-9023 REVERSE AUCTION (OCT 2013) – DLAD

The Contracting Officer may utilize on-line reverse auctioning as a means of conducting price discussions under this solicitation. If the Contracting Officer does not conduct a reverse auction, award may be made on the basis of initial offers or following discussions not using reverse auctioning as a pricing technique. If the

Contracting Officer decides to use on-line reverse auctioning to conduct price negotiations, the Contracting Officer will notify Offerors of this decision and the following provisions will apply:

(a) The award decision will be made in accordance with the evaluation factors as set forth in the solicitation. The reverse on-line auction will be used as a pricing technique during discussions to establish the final offered prices from each Offeror. These prices will be used in conjunction with the evaluation factors stated elsewhere in the solicitation in order to make the award decision in accordance with the basis for award stated in the solicitation.

(b) Following the decision to conduct discussions using reverse auctioning as a pricing technique, the Contracting Officer or his/her representative will provide Offerors determined to be in the competitive range with information concerning the auction process.

(c) Prior to conducting the reverse auction, the Contracting Officer may hold discussions with the Offerors concerning matters appropriate for discussion, such as issues involving technical proposals or unbalanced pricing.

(d) Unless auction instructions indicate that only Offeror's rankings will be displayed, the lowest Offeror's price(s) for each round of the reverse auction will be disclosed to other Offerors and anyone else having authorized access to the auction. This disclosure is anonymous, meaning that each Offeror's identity will be concealed from other Offerors (although it will be known to the Government; only a generic identifier will be used for each Offeror's proposed pricing, such as "Offeror A" or "lowest-priced Offeror"). By submitting a proposal in response to the solicitation, Offerors agree to participate in the reverse auction and that their prices may be disclosed, including to other Offerors, during the reverse auction.

(e) An Offeror's final auction price at the close of the reverse auction will be considered its final price proposal revision. No price revisions will be accepted after the close of the reverse auction, unless the Contracting Officer decides that further discussions are needed and final price proposal revisions are again requested in accordance with Federal Acquisition Regulation (FAR) 15.307, or the Contracting Officer determines that it would be in the best interest of the Government to re-open the auction.

(f) The following requirements apply when the Government uses a commercial web-based product to conduct the reverse auction:

(1) Each Offeror identified by the Contracting Officer as a participant in the reverse auction will be contacted by Defense Logistic Agency's commercial reverse auction service provider to advise the Offeror of the event and to provide an explanation of the process.

(2) In order for an Offeror to participate in the reverse auction, such Offeror must agree with terms and conditions of the entire solicitation, including this provision, and agree to the commercial reverse auction service provider's terms and conditions for using its service. Information concerning the reverse auction process and the commercial service provider's terms and conditions is embedded within the email notification sent by the on-line reverse auction pricing tool system administrator.

(3) Offerors shall secure the passwords and other confidential materials provided by the commercial reverse auction service provider or the Government and ensure they are used only for purposes of participation in the reverse auction. Offerors shall keep their own and other Offeror's pricing in confidence until after contract award.

(4) The reverse auction system currently in use designates offers as "Lead," meaning the current low price in that auction, or "Not Lead," meaning not the current low price in that auction. In the event of a tie offer, the reverse auction provider's system designates the first offer of that price as "Lead" and the second or subsequent offer of that price as "Not Lead." Offerors shall not submit a tie offer, since this is inconsistent with the purpose of the reverse auction. If a tie offer is submitted and no evaluation factors other than price were identified in the solicitation, the "Not Lead" Offeror that submitted the tie offer must offer a changed price; otherwise its offer will be ineligible for award if their final price in the auction is the tie offer price. If evaluation factors in addition to price were listed in the solicitation, tie offers that are "Not Lead" will be considered and evaluated in accordance with those evaluation factors.

(5) Any Offerors unable to enter pricing through the commercial reverse auction service provider's system during a reverse auction must notify the Contracting Officer or designated representative immediately. The

CONTINUED ON NEXT PAGE

Contracting Officer may, at his/her sole discretion, extend or re-open the reverse auction if the reason for the Offeror's inability to enter pricing is determined to be without fault on the part of the Offeror and outside the Offeror's control.

(6) The reverse auction will be conducted using the commercial reverse auction service provider's website as embedded in the email notification. Offerors shall be responsible for providing their own computer and internet connection.

(7) Training:

(i) The commercial reverse auction service provider and/or a Government representative will provide familiarization training to Offerors' employees; this training may be provided through written material, the commercial reverse auction service provider's website, and/or other means.

(ii) An employee of an Offeror who successfully completes the training shall be designated as a "Trained Offeror." Only Trained Offerors may participate in a reverse auction. The Contracting Officer reserves the right to request that Offerors provide an alternate Offeror employee to become a Trained Offeror. (4) () Have, () have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at 22.1503(b).]
