An appointment must be secured at least 24 hours prior to delivery by calling the depot at 209-839-5579.

An iRAPT (Formerly WAWF) Report must accompany every shipment sent to Tracy Depot. Shipments without the proper paperwork will be processed into litigation status.

Inspection/Acceptance: Contractor paid USDA-AMS Origin end-item inspection is required for all characteristics herein. Government acceptance will be at destination for identity, count, and condition for all terms and conditions of the contract.

In addition to the terms and conditions of Solicitation SPE3S1-16-Q-0019, which are incorporated into this contract, the following clauses have been updated.

CONTRACT REQUIREMENTS

1. PACKAGING:

Preservation, packaging, etc. furnished by suppliers shall meet or exceed the following requirements:

Unit packages shall be designed and constructed so that the contents of each package shall be protected from damage during shipment and storage. Unit packages shall also be able to withstand subsequent handling. Unit packs susceptible to corrosion or deterioration shall be protected by preservative coatings. Items requiring protection from physical damage, or which are fragile in nature (i.e., glass) shall be protected by wrapping,

CONTINUED ON NEXT PAGE

cushioning, etc. or other means to mitigate damage during handling and shipment. If screw caps are used, they shall be secured to the bottles with a band of plastic shrink film or plastic tape. All bottles shall be hermetically sealed (inner seal) and secured to withstand any position in the shipping container without leaking.

2. TRACEABILITY:

In order to facilitate an effective Traceability Program for the end-item Group Ration Program, the contractor shall ensure that each primary container (unit pack) and intermediate container, if required, has a lot number and/or Date of Pack (DOP). The date of pack is equal to the date of production. The date of pack on the Placards shall be identical to the material code on each individual case. These package codes shall be permanent and legible. Failure to comply will result in delayed payment.

Use of the Julian Date for the lot number and a time stamp (hour and minute of filling/sealing) is preferred. For example, (1296 12:15), 1296 = October 23, 2011 and 12:15 representing the time of filling/sealing. If the contractor's lot identification is of their own coding, the contractor shall provide the coding information for the primary containers and the contract data markings upon delivery. Package codes per case lot number shall be identified on the accompanying iRapt Report/Bill of Lading/DD250 upon delivery.

Additionally, the contractor shall ensure that Traceability Records include identifying ALL ingredients and ALL sources for those ingredients. This shall be accomplished for each item, brand, and component that is shipped to the Defense Depot (Assembler) for the Unitized Group Ration Programs. This information shall be made available within 24 hours.

3. DATE OF PACK:

Acceptance will be limited to product processed and packed subsequent to date of award of delivery order. Additionally, all shipments of components/product from a producer to destination/assembly points shall not be older than 90 days at time of shipment.

4. MISCELLANEOUS REQUIREMENTS:

Compliance with the provisions contained in Title 21, Code of Federal Regulations Part 110 "Current Good Manufacturing Practice in Manufacturing, Packaging or Holding Human Food," and all regulations referenced herein, is required. In addition, the contractor is required to comply with all the provisions contained within specific parts of the Code of Federal Regulations. For example, low-acid canned food manufacturers, Part 110 and 113 are applicable.

The Contracting Officer or any Government personnel designated by him shall be permitted entry into the contractor's and subcontractor's plants during performance of manufacturing operations. Except for inspection service, the Contracting Officer shall give prior notice of the purpose of the meetings and shall furnish dates of the visit.

5. MARKING OF SHIPPING CONTAINERS AND MARKING OF UNIT LOADS:

For shipments to Department of Defense Depots, all Shipping Containers and Unit Load shall be marked in accordance with DLA Troop Support Form 3556, entitled "Marking Instructions for Boxes, Sacks, and Unit Loads of Perishable and Semi-perishable Subsistence, dated October 2010."

All unit loads shall be clearly marked with the following information on two adjacent sides of the load with the largest characters possible as follows:

Unitized Ration Component
National Stock Number
Item Name
Date of Pack and/or Lot Number

Number of Shipping Containers per Pallet

Contract Number

Contractor's Name and Address

Inspection Test Date (ITD) *

*The Inspection Test Date, the expected shelf life is found in the applicable solicitation/contract. To calculate the ITD, add the shelf life value to the month/year date of pack. Example, if the Date of Pack is June 2007, and the shelf life is 36 months (3 years), then the ITD is computed as follows: 6/07 + 3 years = 6/10. If labels are used, they shall be permanently affixed with water-resistant adhesive tape.

Shipments without the appropriate Shipping Container and Unit Load Markings will be rejected and returned to origin, or at the Contracting Officers discretion, reworked at a labor rate determined by the destination activity (not DLA Troop Support).

Pallets containing mixed lots will not be accepted.

Pallets containing material labeled with mixed delivery order numbers will not be accepted.

6. UNITIZATION:

Unit loads shall have the shipping containers arranged on a 40 inch by 48 inch commercial wood or plywood four-way entry pallet, or on a 48 inch by 40 inch Grocery Manufacturers of America wood four-way entry pallet. The load shall be bonded with non-metallic strapping, shrink or stretch film, or others means that comply with carrier rules and regulations applicable to the mode of transportation (adhesive bonding is not acceptable).

Bonding material shall secure the load to the pallet to form a consolidated, stable cargo which can be handled as a unit. For example, when strapping is used to secure the load, the straps shall pass under the top deck boards of the pallet. When stretch or shrink film is used, it must be applied low enough on the pallet to secure the load to the pallet. The unit load height shall not exceed 50 inches.

Inspection of unit loads shall be in accordance with classification Type III, Class G of DLA Troop Support Form 3507 of April 2014 entitled "Loads, Unit; Preparation of Semi-perishable Subsistence Items." The unit load dimensions are 40 inches in length by 48 inches in width and 50 inches in height (Please note: In the height dimension, this includes the 1-3/8" slave board that the pallet and material are placed on). These dimensions are exact and can be no larger than what is specified. No overhang is permitted.

7. INTEGRATED PEST MANAGEMENT (IPM)

The procedures contained in the "Integrated Pest Management (IPM) Program Requirements for Operational Rations," of April 2011 are required and apply to all Operational Rations components. Each contractor is to have an IPM program in place prior to the initiation of production of Government product. The IPM plan and the associated pesticide labels and MSDS documents are not to be submitted to DLA Troop Support. The contractor shall have those documents available for on-site review during a Quality Systems Management Visit (QSMV) or Quality Systems Compliance Audit. In addition, evidence of an insect or rodent infestation, or contamination involving any end item will be cause for rejection of the involved lot. IPM program requirements can be found on the DLA Troop Support website at: http://www.dla.mil/Portals/104/Documents/TroopSupport/Subsistence/FoodSafety/FoodQuality/TS_ipm-cpaf_151204.pdf

8. PRODUCT SANITARILY APPROVED SOURCE REQUIREMENTS:

As required by 48 CFR 246.471 Authorizing Shipment of Supplies, AR 40-657, Veterinary/Medical Food Safety, Quality Assurance and Laboratory Service, DLAR 4155.3, Inspections of Subsistence Supplies and Services, DLAD 52.246-9044, "SANITARY CONDITIONS (APR 2014), and as clarified by the Armed Forces Food Risk Evaluation Committee, 31 JAN 1996, all Operational Ration Food Components will originate from sanitarily approved establishments. Acceptable sanitary approval is constituted by listing in the "Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement," published by the U.S. Army Institute of Public

Health (USAIPH), or an establishment inspected and approved by the U.S. Department of Agriculture (USDA) or the U.S. Department of Commerce (USDC) and possessing a USDA/USDC establishment number. This requirement applies to all GFM and CFM Operational Ration Food Components and to all Operational Ration types. Requests for inspection and "Directory" listing by USAIPH will be routed through DLA Troop Support-FTRE for coordination and action. Situations involving sole sources of supply, proprietary supply sources, and commercial Brand Name items will be evaluated directly by the Chief, DLA Troop Support-FTRE, in coordination with the Chief, Approved Sources Division, USAIPH.

SANITARY CONDITIONS**(a) Food establishments.**

(1) All establishments and distributors furnishing subsistence items under DLA Troop Support contracts are subject to sanitation approval and surveillance as deemed appropriate by the Military Medical Service or by other Federal agencies recognized by the Military Medical Service. The Government does not intend to make any award for, nor accept, any subsistence products manufactured, processed, or stored in a facility which fails to maintain acceptable levels of food safety and food defense, is operating under such unsanitary conditions as may lead to product contamination or adulteration constituting a health hazard, or which has not been listed in an appropriate Government directory as a sanitarily approved establishment when required.

Accordingly, the supplier agrees that, except as indicated in paragraphs (2) and (3) below, products furnished as a result of this contract will originate only in establishments listed in the U.S. Army Institute of Public Health (USAIPH) Circular 40-1, Worldwide Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement, (Worldwide Directory) (available at:

<http://phc.amedd.army.mil/topics/foodwater/ca/Pages/DoDAApprovedFoodSources.aspx>). Compliance with the current edition of DoD Military Standard 3006A, Sanitation Requirements for Food Establishments, is mandatory for listing of establishments in the Worldwide Directory. Suppliers also agree to inform the Contracting Officer immediately upon notification that a facility is no longer sanitarily approved and/or removed from the Worldwide Directory and/or other Federal agency's listing, as indicated in paragraph (2) below. Suppliers also agree to inform the Contracting Officer when sanitary approval is regained and listing is reinstated.

(2) Establishments furnishing the products listed below and appearing in the publications indicated need not be listed in the worldwide directory. Additional guidance on specific listing requirements for products/plants included in or exempt from listing is provided in Appendix A of the worldwide directory.

(i) Meat and meat products and poultry and poultry products may be supplied from establishments which are currently listed in the "Meat, Poultry and Egg Inspection Directory," published by the United States Department of Agriculture, Food Safety and Inspection Service (USDA, FSIS), at <http://www/fsis.usda.gov/wps/portal/fsis/topics/inspection/mpi-directory>. The item, to be acceptable, shall,

on delivery, bear on the product, its wrappers or shipping container, as applicable, the USDA shield and applicable establishment number. USDA listed establishments processing products not subject to the Federal Meat and Poultry Products Inspection Acts must be listed in the Worldwide Directory for those items.

(ii) Intrastate commerce of meat and meat products and poultry and poultry products for direct delivery to military installations within the same state (intrastate) may be supplied when the items are processed in establishments under state inspection programs certified by the USDA as being "at least equal to" the Federal Meat and Poultry Products Inspection Acts. The item, to be acceptable, shall, on delivery, bear on the product, its wrappers or shipping container, as applicable, the official inspection legend or label of the inspection agency and applicable establishment number.

(iii) Shell eggs may be supplied from establishments listed in the "List of Plants Operating under USDA Poultry and Egg Grading Programs" published by the USDA, Agriculture Marketing Service (AMS) at <http://www.ams.usda.gov/poultry/grading.htm>.

(iv) Egg products (liquid, dehydrated, frozen) may be supplied from establishments listed in the "Meat, Poultry and Egg Product Inspection Directory" published by the USDA FSIS at http://apps.ams.usda.gov/plantbook/Query_Pages/PlantBook_Query.asp. All products, to be acceptable, shall, on delivery, bear on the product, its wrappers or shipping container, as applicable, the official inspection legend or label of the inspection agency and applicable establishment number.

(v) Fish, fishery products, seafood, and seafood products may be supplied from establishments listed under "U.S. Establishments Approved For Sanitation And For Producing USDC Inspected Fishery Products" in the "USDC Participants List for Firms, Facilities, and Products", published electronically by the U.S. Department of Commerce, National Oceanic and Atmospheric Administration Fisheries (USDC, NOAA) (available at: seafood.nmfs.noaa.gov). All products, to be acceptable, shall, on delivery, bear on the product, its wrappers

CONTINUED ON NEXT PAGE

or shipping container, as applicable, the full name and address of the producing facility.

(vi) Pasteurized milk and milk products may be supplied from plants having a pasteurization plant compliance rating of 90 percent or higher, as certified by a state milk sanitation officer and listed in "Sanitation Compliance and Enforcement Ratings of Interstate Milk Shippers" (IMS), published by the U.S. Department of Health and Human Services, Food and Drug Administration (USDHHS, FDA) at <http://www.fda.gov/Food/GuidanceRegulation/FederalStateFoodPrograms/ucm2007965.htm>. These plants may serve as sources of pasteurized milk and milk products as defined in Section I of the "Grade 'A' Pasteurized Milk Ordinance" (PMO) published by the USDHHS, FDA at <http://www.fda.gov/Food/GuidanceRegulation/GuidanceDocumentsRegulatoryInformation/Milk/default.htm>.

(vii) Manufactured or processed dairy products only from plants listed in Section I of the "Dairy Plants Surveyed and Approved for USDA Grading Service", published electronically by Dairy Grading Branch, AMS, USDA (available at: <http://www.ams.usda.gov/AMSv1.0/getfile?dDocName=STELPRD3651022>) may serve as sources of manufactured or processed dairy products as listed by the specific USDA product/operation code. Plants producing products not specifically listed by USDA product/operation code must be Worldwide Directory listed (e.g., plant is coded to produce cubed cheddar but not shredded cheddar; or, plant is coded for cubed cheddar but not cubed mozzarella). Plants listed in Section II and denoted as "P" codes (packaging and processing) must be Worldwide Directory listed.

(viii) Oysters, clams and mussels from plants listed in the "Interstate Certified Shellfish Shippers Lists" (ICSSL), published by the USDHHS, FDA at <http://www.fda.gov/food/guidanceregulation/federalstatefoodprograms/ucm2006753.htm>.

(3) Establishments exempt from Worldwide Directory listing. Refer to AR 40-657/NAVSUPINST 4355.4H/MCO P1010.31H, Veterinary/Medical Food Safety, Quality Assurance, and Laboratory Service, for a list of establishment types that may be exempt from Worldwide Directory listing. (AR 40-657 is available from National Technical Information Service, 5301 Shawnee Road, Alexandria, VA 22312 ; 1-888-584-8332 ; or download from web site: http://www.apd.army.mil/pdf/files/r40_657.pdf) For the most current listing of exempt plants/products, see the Worldwide Directory (available at: <http://phc.amedd.army.mil/topics/foodwater/ca/Pages/DoDAApprovedFoodSources.aspx>).

(4) Subsistence items other than those exempt from listing in the Worldwide Directory, bearing labels reading "Distributed By", "Manufactured For", etc., are not acceptable unless the source of manufacturing/processing is indicated on the label or on accompanying shipment documentation.

(5) When the Military Medical Service or other Federal agency acceptable to the Military Medical Service determines the levels of food safety and food defense of the establishment or its products have or may lead to product contamination or adulteration, the Contracting Officer will suspend the work until such conditions are remedied to the satisfaction of the appropriate inspection agency. Suspension of the work shall not extend the life of the contract, nor shall it be considered sufficient cause for the Contractor to request an extension of any delivery date. In the event the Contractor fails to correct such objectionable conditions within the time specified by the Contracting Officer, the Government shall have the right to terminate the contract in accordance with the "Default" clause of the contract.

(b) Delivery conveyances.

The supplies delivered under this contract shall be transported in delivery conveyances maintained to prevent tampering with and /or adulteration or contamination of the supplies, and if applicable, equipped to maintain a prescribed temperature. The delivery conveyances shall be subject to inspection by the government at all reasonable times and places. When the sanitary conditions of the delivery conveyance have led, or may lead to product contamination, adulteration, constitute a health hazard, or the delivery conveyance is not equipped to maintain prescribed temperatures, or the transport results in product 'unfit for intended purpose', supplies tendered for acceptance may be rejected without further inspection.

9. MISCELLANEOUS REQUIREMENTS:

Compliance with the provisions contained in Title 21, Code of Federal Regulations Part 110 "Current Good Manufacturing Practice in Manufacturing, Packaging or Holding Human Food," and all regulations referenced herein, is required. In addition, the contractor is required to comply with all with the provisions contained within specific parts of the Code of Federal Regulations. For example, low-acid canned food manufacturers, Part 110 and 113 are applicable.

10. REWORK OF NONCONFORMING PRODUCT PRE OR POST ACCEPTANCE

Rework of Nonconforming Product: The Government QAR must be informed and provided documentation of all rework results when product is presented for Government verification inspection or prior to Government inspection as indicated below.

A. Corrective Action (Rework/Screen Inspections) Taken Prior to Government Verification Inspection (Receipt, In-Process And End-Item Inspections): Unless otherwise specified below, all reworks and screening inspections conducted prior to the Government verification inspection do not require approval from the Government. Although the QAR must be informed of all reworks, the contractor is not required to obtain approval to take corrective and preventive action as deemed necessary to ensure compliance with contractual requirements. For reworks requiring the Government's approval (as specified below), the contractor may submit a Standard Rework Procedure (SRP), for certain defects, under the contractor's documented QSP section XII - Corrective and Preventive Action Program. The SRPs must be specific and these must be evaluated by DLA Troop Support-FTR, and DLA Troop Support-FTRE, and approved by the applicable Contracting Officer.

NOTE: All requests for rework shall be accompanied with a COMPREHENSIVE rework plan. The rework plan will include rational information and data that supports the rework plan and ensures the elimination of nonconforming material from the lot. When a contractor determines as a result of his end item inspection(s) or QSP that supplies do not conform to contractual requirements and the supplies cannot be reworked (such as drained weight, viscosity, piece size, residual air, etc), he has the alternative to request the Contracting Officer for a waiver for the nonconforming requirement. If the Contracting Officer approves the waiver request for a specific requirement, the written waiver approval shall be provided to the QAR when the supplies are presented for Government Verification Inspection (the skip-lot inspection does not apply in this case). The QAR shall inspect the supplies for compliance with all requirements of the contract, except the waived requirement. The Contracting Officer, in special circumstances, may request the QAR to inspect for the non-conforming characteristics also, after the waiver for the nonconforming requirement has been provisionally approved, to determine severity of nonconformance only. Due to the type of statistical sampling cited in the contract, under no circumstances shall a lot found nonconforming by the contractor be inspected by the QAR to determine conformance to a requirement that has previously been established as nonconforming by the contractor's inspection. After any lot's failure or rework, if the lot is reinspected, it will be both Contractor and Government inspected at the next higher sample size.

B. The Following Reworks Must Be Coordinated with The Supervisory QAR and Approved by The Applicable DLA Troop Support-FTR Office.

1. Insect or Rodent Infestation/Contamination: Reworks must be approved by DLA Troop Support-FTRE.

2. Food Safety and Foreign Material: All corrective actions for product retained due to processed/unprocessed container mix-ups must be approved by FTR. Thermal process deviations or deviations from the preparation, formulation or critical factors cited in the approved process schedule must be accompanied by a detailed letter from the plant's Processing Authority. The involved subcode(s), the deviation, and the disposition of the product shall be clearly identified when the complete lot is presented for Government end item verification inspection. If the producer fails to provide enough information/data in the case of a deviation, the QAR shall contact FTR for approval to proceed with the Government end item verification inspection. These requirements are in addition to applicable Code of Federal Regulations or other regulatory requirements (USDA-FSIS, FDA). Foreign material identified during normal in-process control actions do not require a waiver request. However, foreign material discovered during in-house or QAR/USDA end item inspection is cause for rejection of the lot. Rework request that result from foreign material identified during end item inspection of the in-house and/or QAR/USDA requires prior approval from DLA Troop Support FTR.

Foreign material identified during normal in-process control actions does not require a waiver request from DLA Troop Support FTR, but does require USDA notification of the incident. However, foreign material discovered during the Contractor or QAR/USDA end item inspection is cause for rejection of the lot. Rework

CONTINUED ON NEXT PAGE

requests that involve foreign material identified during end item inspections require approval from DLA Troop Support FTR before the rework activity can proceed.

"Retesting/re-inspection/rework of product that tested positive for food borne pathogens (salmonella, e. coli, etc.) is not authorized."

Note: Deviations (that occur during or prior to the production of a product) from specific preparation/formulation/ingredient requirements cited in the specifications shall be submitted as a request for product deviation and must be approved and coordinated with the Specification Preparing Activity (Natick) through the applicable Contracting Officer.

3. Container Integrity Defects: All reworks due to container integrity defects noted during the producer's end item inspection (for critical container defects only) or Government final lot end item verification inspection, must be approved by FTR unless 100% primary container rework of the entire lot is conducted at source. All containers exhibiting same or other container integrity defects must be removed during the 100% primary container rework and noted on the rework paperwork. Reworked lots will be inspected or re-inspected, as applicable, by the contractor at the location of the rework using the next larger sample size (for example, from 200 samples to 315, or if a second rework, from 315 samples to 500 samples). Rework results must be included with other paperwork when the lot is presented for Government end item verification inspection.

4. Second Time Reworks: All second time reworks must be approved by the applicable FTR office.

5. Nonconformances Noted During the Government End Item Verification Inspection: All rework requests submitted for defects noted during Government end item verification inspections must be approved by the applicable Contracting Officer, unless exempted under paragraph 3 above.

C. Contractor's Quality History:

1. Effectiveness of corrective actions (rework/screen inspections) taken by the contractor prior to Government end item verification inspection (receipt, in-process and contractor's end-item inspections) will be determined by the results of the end item verification inspection performed by the QCAR. Corrective actions taken to ensure compliance with the contractual requirements prior to the Government end item verification inspection will not be counted against the contractor's quality history. If product is found conforming during the Government end item verification inspection, the corrective action will be determined to have been effective. However, all requests for waivers and product deviations will be counted.

2. If product is found nonconforming during the Government end item verification inspection following contractor corrective action for the same defect (or defect category in case of critical container defects) for which the contractor took a corrective action, the corrective action will be determined to have been ineffective. In addition to any action taken, the contractor must reevaluate their documented QSP and/or the implemented corrective and preventive action program by an internal audit and results must be submitted to DLA Troop Support-FTSB (Quality Systems Auditors). All corrective actions (rework/screening inspections, etc.) taken by the contractor due to a Government end item verification inspection rejection will be documented in the contractor's quality history records.

NOTE: If the contractor elects to rework nonconforming product, it must be reworked and reoffered within 30 days from date of initial rejection.

All requests for rework shall be accompanied with a comprehensive rework plan. The rework plan will include rational information and data that supports the rework plan and ensures the elimination of nonconforming material from the lot. See "Request for Rework, Request for Waiver, Request for Deviation, or Re-inspection of Nonconforming Supplies".

D. Request for Rework, Request for Waiver, Request for Deviation, or Re-inspection of

Nonconforming Supplies

1. When contractor inspection or QSP, or Government verification by the QAR, reveals a process deviation or nonconforming lot, the contractor's written request for deviation, waiver, rework or re-inspection of the nonconforming lot(s) must be furnished, as appropriate to the Contracting Officer and cognizant Government QAR and shall at a minimum contain the following:

NOTE: Subject line should include what is being asked for (i.e.: Request for Waiver for Drain Weight of Beef Stew or Request for Rework for Residual Air for Apple Dessert)

- a. Type of Request: Waiver, Notification, Re-inspection, Rework
- b. Approval Required from DLA: Yes or No
- c. Contractor Name/Address
- d. Contract Number
- e. Product Name
- f. National Stock Number
- g. Batch Number(s) (If Applicable)
- h. Sublot(s) (If Applicable)
- i. Lot Number(s)
- j. Process Category (i.e. Work-progress/End Item)
- k. Quantity
- l. Specification Requirement Number (PCR, CID, etc)
- m. Sample Size; Defect; Accept/Reject
- n. Defect Classification: Critical, Major, Minor, NA
- o. Inspection Failure (Summary of non-conformances)
- p. Failure Identified: Processing, Packaging, End Item
- q. Inspector: In-plant/Contractor or USDA
- r. Date of Incident
- s. Attachments (Provide in-house, USDA worksheets, in-process data)
- t. Root Cause of nonconformance or deviation (Describe using a short detailed paragraph; Tell a story of the incident)
- u. Corrective Action (Describe using a short detailed paragraph)
- v. Preventive Action (Describe using a short detailed paragraph; if preventive action is not possible, state why)
- w. Occurrence (Has this occurred before/when; if yes, what was the date/contract/lot number of last occurrence)
- x. Estimated Cost
- y. Effect on Delivery
- z. Justification for request (What are you asking for?)

NOTE: All requests for rework shall be accompanied with a COMPREHENSIVE rework plan. The rework plan will include rational information and data that supports the rework plan and ensures the elimination of nonconforming material from the lot. After any lot's failure or rework, if the lot is reinspected, it will be both Contractor and Government inspected at the next higher sample size.

2. When a valid technical reason for re-inspection without rework is offered and permission is granted by the PCO, the contractor shall take corrective action to eliminate the cause of the inspection revealed failure; reinspect the non-reworked lot after taking the corrective action, and evaluate the results of the initial inspection and the re-inspection by means of recognized statistical methods.

a. If the statistical tests reveal no significant difference between the results of the two inspections, acceptability will be based on re-inspection results. A significant difference is one that is real and not due to chance variation. Statistically, a difference which has a 0.05 probability of occurring by chance alone is usually considered a significant difference.

b. If such statistical tests reveal no significant difference between the results of the two inspections, both results will be reported to the Contracting Officer.

1. The results of the two inspections will be averaged and acceptability will be based on

whether the resulting average meets the requirement, when the requirement is an average (variable) requirement.

2. The results of the initial (original) inspection will be the basis for the acceptability decision when the requirement is a unit (attribute) requirement.

11. QUALITY ASSURANCE PROVISIONS- GOVERNMENT INSPECTION AND ACCEPTANCE:

A. Government inspection shall also be at destination (Defense Depot) for identity, count and condition for all terms and conditions of the contract. This shall include but is not limited to the following

- a. All shipments must be accompanied by a Bill of Lading and a iRapt Report.
- b. For the purposes of Inspection/Acceptance and Shipment/Delivery, a manufacturer's "lot" shall be considered no greater than a single shift's production.
- c. All unit loads must be marked in accordance with DLA Troop Support 3507.
- d. All unit loads shall be stable and not exceed 50 inches high.
- e. All delivered product shall be free of defects.
- f. All shipments must contain the correct quantity as specified by DLA Troop Support.
- g. Appointments must be scheduled with the receiving activity prior to delivery.
- h. All delivered product must meet or exceed the appropriate product requirements as described in this Solicitation.
- i. All delivered products must meet the required date of pack/shelf life requirements.
- j. To determine the date of pack, any closed date code must be accompanied with documentation deciphering the closed product code. Date of pack on individual cases shall match date specified on placards.
- k. All delivered products must be free of insect and rodent infestation.

Failure to comply with ANY of the above conditions may result in the shipment(s) being rejected and returned to origin, or at the Contracting Officer's discretion reworked at a labor rate determined by the destination activity (not DLA Troop Support).

B. ALTERNATIVE INSPECTION REQUIREMENTS FOR SELECTED ITEMS - DLA TROOP SUPPORT - SUBSISTENCE

(a) Optional Contractor testing of Contractor-furnished materials.

To expedite shipment, the Contractor has the option to perform, or have performed by an independent laboratory, contractually-required tests of end items or component material not specified by the U.S. Standards of Grade. The inspector for the Government agency having jurisdiction over ascertaining compliance may permit shipment, provided all other requirements of the contract are met. The designated Government inspector will select random samples of each lot of end items or component material for verification testing until the Contractor's testing system is determined reliable in accordance with paragraph (c) of this clause. It is the intent of the Government to rely on Contractor test results to the maximum extent practicable and minimize Government verification testing.

(b) Compliance of product.

Acceptance of material as complying with required characteristics shall be based on the Contractor's test results; provided that Government verification indicates the Contractor's testing system is reliable, in accordance with paragraph (c) of this clause, as to each of the required characteristics. If the Contractor's test system is determined to be unreliable, product compliance will be determined based solely on Government test results. In the event the Government detects any irregularities in the Contractor's testing system, the designated Government inspector may withhold approval until Government test results indicate products conform to contract requirements. (For Meal, Ready-to-Eat (MRE) items, if Government laboratory test results show that product is nonconforming, the product shall be withheld from final assembly and subject to return and replacement by the component Contractor, even if previously approved by the Government inspector.)

(c) Reliability conditions.

(1) To be considered reliable, the Contractor's testing system shall produce results comparable to the Government test results; unless the Government agency having jurisdiction has inspected the item produced at the Contractor's plant within the previous 120 days. Unless otherwise specified in this contract, the Government inspector will select samples randomly from the first three lots of end items presented for inspection and will conduct verification testing on a skip-lot basis. Skip-lot verification is done by random

CONTINUED ON NEXT PAGE

selection of samples from not less than one lot in six consecutive lots presented for inspection. The sampling procedure under skip-lot places the succeeding lots not chosen for inspection back into the universe available for subsequent inspection. (For instance, starting with a group of six lots (i.e., 1-6), one lot is randomly selected for inspection. If lot 4 is selected, the next samples will be selected from lots 5, 6, 7, 8, 9, or 10. If lot 8 is selected, the next samples will be selected from lots 9, 10, 11, 12, 13, or 14; and so on.)

(2) Contractor's testing system shall be considered unreliable when (i) the Government verification results indicate product nonconformance to contract requirements; and (ii) a significant disparity exists between Government laboratory results and Contractor test results. When a Contractor's testing system is determined to be unreliable, compliance testing will revert to the Government, and all items shall be inspected by the Government prior to shipment.

(3) Contractor's testing system will be considered doubtful when (i) a significant disparity exists between Government laboratory results and Contractor test results; (ii) the Government test results indicate significantly poorer quality than the Contractor's; and (iii) the Government laboratory test results do not indicate product nonconformance to a statistically significant degree. When the Contractor's testing system is considered doubtful, verification testing will be performed on each lot produced; however, the Government will continue to permit the Contractor to ship based on its own test results.

(4) Contractor testing system reliability will be determined by applying recognized statistical tests to the Contractor's and Government's test results. These determinations shall be accomplished by the DLA Troop Support, Directorate of Subsistence, Product Services Office, 700 Robbins Avenue, Philadelphia, Pennsylvania 19111-5092.

(5) The Contracting Officer will notify the Contractor of any change in reliability status. Notification will include details of the statistical determinations and test results used in reliability studies. Telephonic notification and copies of these determinations will be provided to the Government by DLA Troop Support FTRE.

(d) Procedures. When the Contractor elects to perform testing, the following shall apply:

(1) Reporting of Contractor's results. Test reports for each lot of end item and components shall be submitted in the format contained in this clause by the Contractor in an original and one copy to the designated Government inspector. The inspector will forward one completed copy to DLA Troop Support FTRE.

(2) Verification actions. The Government will perform verification testing for food items and component material required by the contract to assure that the Contractor's testing results are reliable. Verification samples will be accompanied by a Department of Defense (DD) form 1222, Request for and Results of Tests. The Government laboratory that performs the tests will provide copies of the test results to the Government inspector and to DLA Troop Support FTRE. The Government laboratory will telephone the results to DLA Troop Support HS (215-737-4259) when testing identifies nonconformance. The Government reserves the right to (i) increase the rate or amount of verification testing up to and including full lot-by-lot testing, in the event the Contractor does not furnish reliable test results or certificates; or (ii) obtain additional data when significant disparities exist between the Contractor's results and the results of the Government laboratory testing. When any element of the Contractor testing system is determined unreliable, the Government may consider the testing system as a whole unreliable and return to full lot-by-lot verification for every test. Testing by the Government will continue until such time as the Contractor's reliability is again established.

(3) Standby test samples. The Government reserves the right to withdraw and hold standby test samples of component or finished product or both (the quantity of which shall be the next larger available sample size required for unit testing and the same sample size required for composite testing) for inspection purposes. Unused samples will be returned to the Contractor.

(e) Charges applicable to unreliable test status. The prime Contractor shall be charged the costs of lot-by-lot inspection during the period that its testing system is considered unreliable. These charges will be processed and approved by the Contracting Officer.

(f) Format for Contractor/subcontractor test report.

Name and address of Contractor:

Name and address of subcontractor: (if applicable)

Received for testing: (date)

Contract number:

Sample tested: (end item or component, indicate by name)

Quantity tested:

Applicable specification:

Identification of lot: (end item or component lot number, as applicable)

Quantity in lot: (units)

Testing completed: (date)

Test report

(Report test results for each sample unit tested and the sample average, if required by the specification, and identify results obtained from composite samples.)

(Typed name and title of laboratory official and signature)

The following certification shall be affixed to the test report when testing was performed on component items by supplier's laboratory or by subcontractor's laboratory.

Certification

I certify that the above test results were furnished to this firm to cover the testing of samples which are representative of the lot, and to the best of my knowledge and belief, have been found to comply with the analytical requirements of the specification, contract no. _____

Signature: _____

(typed name and title of Contractor's representative who is authorized to sign the certificate, and the date)

The following certification shall be affixed to the test report when testing was performed on component and/or end item by Contractor's laboratory or an independent laboratory.

Certification

I certify that the item presented for acceptance under terms of above referenced contract has been tested, as required by the contract, through the testing of samples that were representative of the lot, and to the best of my knowledge and belief, were found to comply with the analytical requirements of the specification and the contract.

Signature: _____

(typed name and title of Contractor's representative who is authorized to sign the certificate, and the date)

Distribution:

(Original and one (1) copy to Government inspector, who will forward one (1) copy to DLA Troop Support FTRE; and hard copy with each shipment, when DD Form 250 (MIRR) reports are not provided.)

12. ELECTRONIC INVOICING BY SUPPLIERS VIA IRAPT (FORMERLY WAWF):

All suppliers are required to process invoices electronically by using iRAPT. Suppliers must have at least two trained company representatives with access to iRAPT. Suppliers shall submit an "Invoice and Receiving Report Combo" document. A copy of the iRAPT Report and a Bill of Lading shall be provided to Tracy Depot for each individual shipment. The iRAPT report and Bill of lading shall be presented by the truck driver or it must be attached to the last pallet of a shipment. The iRAPT report is the only acceptable invoice and must be completely in order to receive payment. This is a condition for contract award. Due to audit readiness, trucks arriving without proper packet shall be rejected.

iRAPT is a secure web based system for electronic invoicing, receipt, acceptance, and property transfer. iRAPT allows government vendors to submit and track invoices and receipt/acceptance documents over the web and allows government personnel to process those invoices in a real-time, paperless environment. It is also the only application that will be used to capture the Unique Identification (UID) of Tangible Items information. iRap is in accordance with the 2001 National Defense Authorization Act (DFARS 252.232-7003/252.232.7003 Electronic Submission of Payment Requests and Receiving Reports) which requires claims for payment under a Department of Defense Contract to be submitted in electronic form. As of March 03, 2008, DOD has issued a final rule amending the Defense Federal Acquisition Regulation supplement (DFARS) to require use of the iRAPT formerly Wide Area Workflow as the only acceptable electronic system for submitting requests for payment (invoices and receiving reports) under DOD contracts. For access to the iRAPT formerly WAWF system, please go to the following website: <https://wawf.eb.mil/>.

iRAPT System Requirements

iRAPT is a free internet application. Contractors should refer to the "Machine Setup" information on the iRAPT homepage, <https://wawf.eb.mil>

The minimum system requirements are:

133 MHz or more Pentium microprocessor (or equivalent)
SVGA Color Monitor (minimum 256 color)
64 MB RAM (minimum)
Internet Access (broadband recommended)

Try the "iRAPT Mobile" App!

CONTRACT CLAUSES

52.211-16 VARIATION IN QUANTITY (APR 1984) FAR

(b) The permissible variation shall be limited to:

2.00 Percent increase

0.00 Percent decrease

This increase or decrease shall apply to each individual line item.

52.212-4 Contract Terms and Conditions -- Commercial Items (MAY 2015) - FAR is incorporated in this solicitation by reference. Its full text may be accessed electronically at <https://www.acquisition.gov/far/index.html>. Text is available for viewing in Subpart 52.2 Text of Provisions and Clauses, through either the HTML or PDF Format links.

The following paragraph(s) of 52.212-4 are amended as indicated below:

1. Paragraph (a), Inspection/Acceptance, is revised to add FAR clause 52.246-2, Inspection of Supplies - Fixed Price. FAR 52.246-2 expands the definition of "Supplies," to include, but not limit to, raw materials, components, intermediate assemblies, end products, and supply lots. FAR 52.246-2 provides a basis for the Government's right to perform Product Verification Testing (PVT), which is a requirement on any resulting contract(s). PVT is addressed in DLAD clause 52.246-9004. Each clause is contained in full text elsewhere in the solicitation.

2. Paragraph (c), Changes, is deleted in its entirety and replaced with the following:

(c) Changes.

The Contracting Officer may at any time, by unilateral written order, make changes within the general scope of this contract in any one or more of the following:

(i) Method of shipment or packing;

(ii) Place, manner, or time of delivery.

(2) If such change causes an increase or decrease in the cost of, or time required for, performance for any part of the work under this contract, the Contracting Officer shall make equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract.

(3) The Contractor must assert its right to an adjustment under this clause within thirty (30) days from the date of receipt of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.

(4) Failure to agree to any adjustment shall be a dispute under the Disputes Clause. However, nothing in this clause shall excuse the Contractor from proceeding with the contract.

3. Paragraph (m), Termination for Cause is deleted and replaced with the following:

(m) Termination for Cause. The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for

CONTINUED ON NEXT PAGE

supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If this contract is terminated in whole or in part for cause, and the supplies or services covered by the contract so terminated are repurchased by the Government, the Government will incur administrative costs in such repurchases. The Contractor and the Government expressly agree that, in addition to any excess costs of repurchase, or any other damages resulting from such default, the Contractor shall pay, and the Government shall accept, the sum of \$1,350.00 as payment in full for the administrative costs of such repurchase. This assessment of damages for administrative costs shall apply for any termination for cause following which the Government repurchases the terminated supplies or services together with any incidental or consequential damages incurred because of the termination. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

4. Paragraph (o), Warranty is deleted in its entirety and replaced with the following:

(a) Definitions.

"Acceptance," as used in this clause, means the act of an authorized representative of the Government by which the Government assumes for itself, or as an agent of another, ownership of existing supplies, or approves specific services as partial or complete performance of the contract.

"Correction," as used in this clause, means the elimination of a defect.

"Supplies," as used in this clause, means the end item furnished by the Contractor and related services required under the contract. The word does not include "data".

(b) Contractor's obligations.

(1) Notwithstanding inspection and acceptance by the Government of supplies furnished under this contract, or any condition of this contract concerning the conclusiveness thereof, the Contractor warrants that for 6 months after receipt of supplies at destination or, in the case of supplies required to bear an expiration date, for the expiration date indicated in the labeling thereof, all supplies furnished

(i) Are of a quality to pass without objection in the trade under the contract description;

(ii) Are fit for the ordinary purposes for which the supplies are used;

(iii) Are within the variations permitted by the contract, and are of an even kind, quality and quantity within each unit and among all units;

(iv) Are adequately contained, packaged, and marked as the contract may require; and

(v) Conform to the promises or affirmations of fact made on the container.

(2) When return of the supplies to the contractor and redelivery, if applicable, is required, transportation charges and responsibility for the supplies while in transit shall be borne by the contractor. Contractor shall also be liable for:

(i) Handling costs and incidental charges incurred by the Government in the preparation of the above described supplies for return to the contractor and in return of said supplies to storage, after redelivery by the contractor; and

(ii) For cost of Government examination of the corrected or replaced supplies computed and charged at the flat rate of \$49.28 per hour.

(3) Any supplies or parts thereof, corrected or furnished in replacement under this clause, shall also be subject to the terms of this clause to the same extent as supplies initially delivered. The warranty, with respect to supplies or parts thereof, shall be equal in duration to that in paragraph (b)(1) of this clause and shall run from the date of receipt of the corrected or replaced supplies at destination.

(c) Remedies available to the government.

(1) Notice Requirement: The Contracting Officer shall give written notice to the contractor of any breach of warranties in paragraph (b)(1) of this clause within 7 days from receipt of supplies at destination or, in the case of supplies required to bear an expiration date, no later than one month following the expiration date indicated in the labeling.

(2) Conformance of supplies or parts thereof subject to warranty action shall be determined in accordance with the inspection and acceptance procedures contained in the contract except as provided herein. If the contract provides for sampling, the Contracting Officer may group any supplies delivered under this contract. The size of the sample shall be that required by the sampling procedure specified in the contract for the quantity of supplies on which warranty action is proposed, except when projecting sampling results. Warranty sampling results may be projected over supplies in the same shipment or other supplies contained in other shipments even though all of such supplies are not present at the point of reinspection and regardless of whether such supplies have been issued or consumed, provided (1) the supplies from which the samples were

CONTINUED ON NEXT PAGE

drawn are reasonably representative of the quantity on which warranty action is proposed, and (2) the defects found in the sample size are sufficient to reject the quantity of supplies on which warranty action is proposed, even though the sample size may be less than that required for such quantity. The original inspection lots need not be reconstituted, nor shall the Contracting Officer be required to use the same lot size as on original inspection. Within a reasonable time after the notice, the Contracting Officer may exercise one or more of the following options; and also, following the exercise of any option, may unilaterally change it to one or more of the other options set forth below:

(i) Require an equitable adjustment in the contract price for any supplies or group of supplies;

(ii) Screen the supplies grouped under this clause at contractor's expense and return all nonconforming supplies to the contractor for correction or replacement;

(iii) Require the contractor to screen the supplies at depots designated by the Government within the continental United States and to correct or replace all nonconforming supplies;

(iv) Return any supplies or group of supplies under this clause to the contractor (irrespective of the f.o.b. point or the point of acceptance) for screening and correction or replacement;

(v) Return or hold for contractor's account any supplies or group of supplies delivered hereunder, whereupon the contractor shall repay the contract price paid therefore. In such event, the Government may reprocur similar supplies upon such terms and in such manner as the Contracting Officer may deem appropriate, and charge to the contractor the additional cost occasioned the Government thereby.

(3) When remedy (c) (2) (iii) or (c) (2) (iv) of this clause is exercised, the contractor is required to submit in writing and within 30 days after receipt of notice of such invocation a schedule for either:

(i) Correction and/or replacement of all defective supplies and subsequent redelivery of the returned supplies; or,

(ii) Screening defective supplies at each depot involved and subsequent redelivery of all corrected and/or replaced supplies.

Such schedule will become a part of the contract delivery schedule upon agreement thereto by the Government. If the contractor fails to provide an agreeable schedule within the specified period, or any extension agreed to by the Government, the Government may correct the items and charge the contractor's account; or, issue a contract for correction of the items and charge the contractor's account; or, exercise one or more of the remedies specified in paragraph (4) below.

(4) If the contractor fails to accept return of the nonconforming supplies; or, fails to make redelivery of the corrected or replaced supplies to the Government within the time established; or, fails to make progress after their return to correct or replace them so as to endanger performance within the time established for redelivery and does not cure such failure within a period of 10 days (or such longer period as the Contracting Officer may authorize in writing) after receipt of notice from the Contracting Officer specifying such failure, the Contracting Officer may exercise one or more of the following remedies:

(i) Retain or have the contractor return the nonconforming supplies and require an equitable adjustment in the contract price.

(ii) Return or hold the nonconforming supplies for contractor's account, or require the return of the nonconforming supplies and then hold for contractor's account, whereupon the contractor shall repay the contract price therefore. In such event, the Government may reprocur similar supplies upon such terms and in such manner as the Contracting Officer may deem appropriate, and charge to the contractor the additional costs occasioned the Government thereby.

(iii) If the contractor fails to furnish timely disposition instructions, dispose of the nonconforming supplies for the contractor's account in a reasonable manner, in which case the Government is entitled to reimbursement from the contractor or from the proceeds for the reasonable expenses of the care and disposition of the nonconforming supplies, as well as for any other costs incurred or to be incurred.

(5) The rights and remedies of the Government provided in this clause are in addition to and do not limit any rights afforded to the Government by any other clause of this contract.

(d) Failure to agree upon any determination to be made under this clause shall be a dispute concerning a question of fact within the meaning of the "Disputes" clause of this contract.

(e) When the contract specifies ultimate delivery of supplies to a location outside the contiguous United States, such location shall be deemed the destination for purposes of this clause.

5. Paragraph (r) Compliance with laws unique to Government contracts is revised to include the following:

(r) The Contractor agrees to comply with 31 U.S.C. 1352 relating to limitations on the use of appropriated

CONTINUED ON NEXT PAGE

funds to influence certain Federal contracts; 18 U.S.C. 431 relating to officials not to benefit; 40 U.S.C. 3701, et seq., Contract Work Hours and Safety Standards Act; 41 U.S.C. 51-58, Anti-Kickback Act of 1986; 41 U.S.C. 265 and 10 U.S.C. 2409 relating to whistleblower protections; Section 1553 of the American Recovery and Reinvestment Act of 2009 relating to whistleblower protections for contracts funded under that Act; 49 U.S.C. 40118, Fly American; and 41 U.S.C. 423 relating to procurement integrity.

6. Paragraph (t), System for Award Management (SAM).

Add the following:

(5) Definitions.

"System for Award Management (SAM)" means the primary Government repository for prospective Federal awardee and Federal awardee information and the centralized Government system for certain contracting, grants, and other assistance-related processes.

"Commercial and Government Entity (CAGE) Code" means—

(a) A code assigned by the Defense Logistics Information Service (DLIS) to identify a commercial or Government entity; or

(b) A code assigned by a member of the North Atlantic Treaty Organization that DLIS records and maintains in the CAGE master file. This type of code is known as an "NCAGE code".

"Data Universal Number System (DUNS) Number" means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities.

"Data Universal Numbering System+4 (DUNS+4) Number" means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional SAM records for identifying alternative Electronic Funds Transfer (EFT) accounts (see Subpart 32.11 of the Federal Acquisition Regulation) for the same parent concern.

"Registered in the SAM Database" means that—

(a) The Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, into the SAM database;

(b) The Contractor's CAGE code is in the SAM database; and

(c) The Government has validated all mandatory data fields and has marked the records "Active."

52.212-5 --Contract Terms and Conditions Required to Implement Statutes or Executive Orders -- Commercial Items (JUN 2016) FAR

(a) The Contractor shall comply with the following Federal Acquisition Regulation (FAR) clauses, which are incorporated in this contract by reference, to implement provisions of law or Executive orders applicable to acquisitions of commercial items:

(1) 52.209-10, Prohibition on Contracting with Inverted Domestic Corporations (Nov 2015)

(2) 52.233-3, Protest After Award (AUG 1996) (31 U.S.C. 3553).

(3) 52.233-4, Applicable Law for Breach of Contract Claim (OCT 2004) (Public Laws 108-77, 108-78 (19 U.S.C. 3805 note)).

(b) The Contractor shall comply with the FAR clauses in this paragraph (b) that the contracting officer has indicated as being incorporated in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items:

[Contracting Officer check as appropriate.]

(1) 52.203-6, Restrictions on Subcontractor Sales to the Government (Sept 2006), with Alternate I (Oct 1995) (41 U.S.C. 4704 and 10 U.S.C. 2402).

(2) 52.203-13, Contractor Code of Business Ethics and Conduct (Oct 2015) (41 U.S.C. 3509).

(3) 52.203-15, Whistleblower Protections under the American Recovery and Reinvestment Act of 2009 (Jun 2010) (Section 1553 of Pub L. 111-5) (Applies to contracts funded by the American Recovery and Reinvestment Act of 2009).

(4) 52.204-10, Reporting Executive compensation and First-Tier Subcontract Awards (Oct 2015) (Pub. L. 109-282) (31 U.S.C. 6101 note).

(5) [Reserved]

(6) 52.204-14, Service Contract Reporting Requirements (Jan 2014) (Pub. L. 111-117, section 743 of Div. C).

(7) 52.204-15, Service Contract Reporting Requirements for Indefinite-Delivery Contracts (Jan 2014) (Pub.

SECTION F - DELIVERIES OR PERFORMANCE**52.247-34 F.O.B. DESTINATION (NOV 1991) FAR****SECTION I - CONTRACT CLAUSES****252.204-7008 COMPLIANCE WITH SAFEGUARDING COVERED DEFENSE INFORMATION CONTROLS (OCT 2016) DFARS**

(a) *Definitions.* As used in this provision—
“Controlled technical information,” “covered contractor information system,” and “covered defense information” are defined in clause 252.204-7012, Safeguarding Covered Defense Information and Cyber Incident Reporting.

(b) The security requirements required by contract clause 252.204-7012, Covered Defense Information and Cyber Incident Reporting, shall be implemented for all covered defense information on all covered contractor information systems that support the performance of this contract.

(c) For covered contractor information systems that are not part of an information technology (IT) service or system operated on behalf of the Government (see 252.204-7012(b)(1)(ii))—

(1) By submission of this offer, the Offeror represents that it will implement the security requirements specified by National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, “Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations” (see <http://dx.doi.org/10.6028/NIST.SP.800-171>), not later than December 31, 2017.

(2)(i) If the Offeror proposes to vary from any of the security requirements specified by NIST SP 800-171 that is in effect at the time the solicitation is issued or as authorized by the Contracting Officer, the Offeror shall submit to the Contracting Officer, for consideration by the DoD Chief Information Officer (CIO), a written explanation of—

(A) Why a particular security requirement is not applicable; or

(B) How an alternative but equally effective, security measure is used to compensate for the inability to satisfy a particular requirement and achieve equivalent protection.

(ii) An authorized representative of the DoD CIO will adjudicate offeror requests to vary from NIST SP 800-171 requirements in writing prior to contract award. Any accepted variance from NIST SP 800-171 shall be incorporated into the resulting contract.

(End of provision)

252.204-7009 LIMITATIONS ON THE USE OR DISCLOSURE OF THIRD-PARTY CONTRACTOR REPORTED CYBER INCIDENT INFORMATION (OCT 2016) DFARS

(a) *Definitions.* As used in this clause—
“Compromise” means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

“Controlled technical information” means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

“Covered defense information” means unclassified information that—

(1) Is—

(i) Provided to the contractor by or on behalf of DoD in connection with the performance of the contract; or
(ii) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract; and

(2) Falls in any of the following categories:

(i) Controlled technical information.

(ii) *Critical information (operations security).* Specific facts identified through the Operations Security process about friendly intentions, capabilities, and activities vitally needed by adversaries for them to plan and act effectively so as to guarantee failure or unacceptable consequences for friendly mission accomplishment (part of Operations Security process).

(iii) *Export control.* Unclassified information concerning certain items, commodities, technology, software, or other information whose export could reasonably be expected to adversely affect the United States national security and nonproliferation objectives. To include dual use items; items identified in export administration

regulations, international traffic in arms regulations and munitions list; license applications; and sensitive nuclear technology information.

(iv) Any other information, marked or otherwise identified in the contract, that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Governmentwide policies (e.g., privacy, proprietary business information).

“Cyber incident” means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein.

(b) *Restrictions*. The Contractor agrees that the following conditions apply to any information it receives or creates in the performance of this contract that is information obtained from a third-party’s reporting of a cyber incident pursuant to DFARS clause 252.204-7012, Safeguarding Covered Defense Information and Cyber Incident Reporting (or derived from such information obtained under that clause):

(1) The Contractor shall access and use the information only for the purpose of furnishing advice or technical assistance directly to the Government in support of the Government’s activities related to clause 252.204-7012, and shall not be used for any other purpose.

(2) The Contractor shall protect the information against unauthorized release or disclosure.

(3) The Contractor shall ensure that its employees are subject to use and non-disclosure obligations consistent with this clause prior to the employees being provided access to or use of the information.

(4) The third-party contractor that reported the cyber incident is a third-party beneficiary of the non-disclosure agreement between the Government and Contractor, as required by paragraph (b)(3) of this clause.

(5) A breach of these obligations or restrictions may subject the Contractor to—

(i) Criminal, civil, administrative, and contractual actions in law and equity for penalties, damages, and other appropriate remedies by the United States; and

(ii) Civil actions for damages and other appropriate remedies by the third party that reported the cyber incident, as a third party beneficiary of this clause.

(c) *Subcontracts*. The Contractor shall include this clause, including this paragraph (c), in subcontracts, or similar contractual instruments, for services that include support for the Government’s activities related to safeguarding covered defense information and cyber incident reporting, including subcontracts for commercial items, without alteration, except to identify the parties.

(End of clause)

252.204-7012 SAFEGUARDING COVERED DEFENSE INFORMATION AND CYBER INCIDENT REPORTING (OCT 2016) DFARS

(a) *Definitions*. As used in this clause—

“Adequate security” means protective measures that are commensurate with the consequences and probability of loss, misuse, or unauthorized access to, or modification of information.

“Compromise” means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

“Contractor attributional/proprietary information” means information that identifies the contractor(s), whether directly or indirectly, by the grouping of information that can be traced back to the contractor(s) (e.g., program description, facility locations), personally identifiable information, as well as trade secrets, commercial or financial information, or other commercially sensitive information that is not customarily shared outside of the company.

“Contractor information system” means an information system belonging to, or operated by or for, the Contractor.

“Controlled technical information” means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

“Covered contractor information system” means an information system that is owned, or operated by or for, a contractor and that processes, stores, or transmits covered defense information.

“Covered defense information” means unclassified information that—

(i) Is—

(A) Provided to the contractor by or on behalf of DoD in connection with the performance of the contract; or
(B) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract; and

(ii) Falls in any of the following categories:

(A) *Controlled technical information*.

(B) *Critical information (operations security)*. Specific facts identified through the Operations Security process about friendly intentions, capabilities, and activities vitally needed by adversaries for them to plan

CONTINUED ON NEXT PAGE

and act effectively so as to guarantee failure or unacceptable consequences for friendly mission accomplishment (part of Operations Security process).

(C) *Export control.* Unclassified information concerning certain items, commodities, technology, software, or other information whose export could reasonably be expected to adversely affect the United States national security and nonproliferation objectives. To include dual use items; items identified in export administration regulations, international traffic in arms regulations and munitions list; license applications; and sensitive nuclear technology information.

(D) Any other information, marked or otherwise identified in the contract, that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Governmentwide policies (e.g., privacy, proprietary business information).

“Cyber incident” means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein.

“Forensic analysis” means the practice of gathering, retaining, and analyzing computer-related data for investigative purposes in a manner that maintains the integrity of the data.

“Malicious software” means computer software or firmware intended to perform an unauthorized process that will have adverse impact on the confidentiality, integrity, or availability of an information system. This definition includes a virus, worm, Trojan horse, or other code-based entity that infects a host, as well as spyware and some forms of adware.

“Media” means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which information is recorded, stored, or printed within an information system.

“Operationally critical support” means supplies or services designated by the Government as critical for airlift, sealift, intermodal transportation services, or logistical support that is essential to the mobilization, deployment, or sustainment of the Armed Forces in a contingency operation.

“Rapid(ly) report(ing)” means within 72 hours of discovery of any cyber incident.

“Technical information” means technical data or computer software, as those terms are defined in the clause at DFARS 252.227-7013, Rights in Technical Data-Non Commercial Items, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code.

(b) *Adequate security.* The Contractor shall provide adequate security for all covered defense information on all covered contractor information systems that support the performance of work under this contract. To provide adequate security, the Contractor shall—

(1) Implement information systems security protections on all covered contractor information systems including, at a minimum—

(i) For covered contractor information systems that are part of an Information Technology (IT) service or system operated on behalf of the Government—

(A) Cloud computing services shall be subject to the security requirements specified in the clause 252.239-7010, Cloud Computing Services, of this contract; and

(B) Any other such IT service or system (i.e., other than cloud computing) shall be subject to the security requirements specified elsewhere in this contract; or

(ii) For covered contractor information systems that are not part of an IT service or system operated on behalf of the Government and therefore are not subject to the security requirement specified at paragraph (b)(1)(i) of this clause—

(A) The security requirements in National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, “Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations,” <http://dx.doi.org/10.6028/NIST.SP.800-171> that is in effect at the time the solicitation is issued or as authorized by the Contracting Officer, as soon as practical, but not later than December 31, 2017. The Contractor shall notify the DoD CIO, via email at osd.dibcsia@mail.mil, within 30 days of contract award, of any security requirements specified by NIST SP 800-171 not implemented at the time of contract award; or

(B) Alternative but equally effective security measures used to compensate for the inability to satisfy a particular requirement and achieve equivalent protection accepted in writing by an authorized representative of the DoD CIO; and

(2) Apply other information systems security measures when the Contractor reasonably determines that information systems security measures, in addition to those identified in paragraph (b)(1) of this clause, may be required to provide adequate security in a dynamic environment based on an assessed risk or vulnerability.

(c) *Cyber incident reporting requirement.*

(1) When the Contractor discovers a cyber incident that affects a covered contractor information system or the covered defense information residing therein, or that affects the contractor's ability to perform the requirements of the contract that are designated as operationally critical support, the Contractor shall—

- (i) Conduct a review for evidence of compromise of covered defense information, including, but not limited to, identifying compromised computers, servers, specific data, and user accounts. This review shall also include analyzing covered contractor information system(s) that were part of the cyber incident, as well as other information systems on the Contractor's network(s), that may have been accessed as a result of the incident in order to identify compromised covered defense information, or that affect the Contractor's ability to provide operationally critical support; and
- (ii) Rapidly report cyber incidents to DoD at <http://dibnet.dod.mil>.

(2) *Cyber incident report.* The cyber incident report shall be treated as information created by or for DoD and shall include, at a minimum, the required elements at <http://dibnet.dod.mil>.

(3) *Medium assurance certificate requirement.* In order to report cyber incidents in accordance with this clause, the Contractor or subcontractor shall have or acquire a DoD-approved medium assurance certificate to report cyber incidents. For information on obtaining a DoD-approved medium assurance certificate, see <http://iase.disa.mil/pki/eca/Pages/index.aspx>.

(d) *Malicious software.* The Contractor or subcontractors that discover and isolate malicious software in connection with a reported cyber incident shall submit the malicious software in accordance with instructions provided by the Contracting Officer.

(e) *Media preservation and protection.* When a Contractor discovers a cyber incident has occurred, the Contractor shall preserve and protect images of all known affected information systems identified in paragraph (c)(1)(i) of this clause and all relevant monitoring/packet capture data for at least 90 days from the submission of the cyber incident report to allow DoD to request the media or decline interest.

(f) *Access to additional information or equipment necessary for forensic analysis.* Upon request by DoD, the Contractor shall provide DoD with access to additional information or equipment that is necessary to conduct a forensic analysis.

(g) *Cyber incident damage assessment activities.* If DoD elects to conduct a damage assessment, the Contracting Officer will request that the Contractor provide all of the damage assessment information gathered in accordance with paragraph (e) of this clause.

(h) *DoD safeguarding and use of contractor attributional/proprietary information.* The Government shall protect against the unauthorized use or release of information obtained from the contractor (or derived from information obtained from the contractor) under this clause that includes contractor attributional/proprietary information, including such information submitted in accordance with paragraph (c). To the maximum extent practicable, the Contractor shall identify and mark attributional/proprietary information. In making an authorized release of such information, the Government will implement appropriate procedures to minimize the contractor attributional/proprietary information that is included in such authorized release, seeking to include only that information that is necessary for the authorized purpose(s) for which the information is being released.

(i) *Use and release of contractor attributional/proprietary information not created by or for DoD.* Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is not created by or for DoD is authorized to be released outside of DoD—

- (1) To entities with missions that may be affected by such information;
- (2) To entities that may be called upon to assist in the diagnosis, detection, or mitigation of cyber incidents;
- (3) To Government entities that conduct counterintelligence or law enforcement investigations;
- (4) For national security purposes, including cyber situational awareness and defense purposes (including with Defense Industrial Base (DIB) participants in the program at 32 CFR part 236); or
- (5) To a support services contractor ("recipient") that is directly supporting Government activities under a contract that includes the clause at 252.204-7009, Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information.

(j) *Use and release of contractor attributional/proprietary information created by or for DoD.* Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is created by or for DoD (including the information submitted pursuant to paragraph (c) of this clause) is authorized to be used and released outside of DoD for purposes and activities authorized by paragraph (i) of this clause, and for any other lawful Government purpose or activity, subject to all applicable statutory, regulatory, and policy based restrictions on the Government's use and release of such information.

(k) The Contractor shall conduct activities under this clause in accordance with applicable laws and regulations on the interception, monitoring, access, use, and disclosure of electronic communications and data.

(l) *Other safeguarding or reporting requirements.* The safeguarding and cyber incident reporting required by this clause in no way abrogates the Contractor's responsibility for other safeguarding or cyber incident reporting pertaining to its unclassified information systems as required by other applicable clauses of this contract, or as a result of other applicable U.S. Government statutory or regulatory requirements.

(m) *Subcontracts.* The Contractor shall—

(1) Include this clause, including this paragraph (m), in subcontracts, or similar contractual instruments, for operationally critical support, or for which subcontract performance will involve a covered contractor information system, including subcontracts for commercial items, without alteration, except to identify the parties; and

(2) When this clause is included in a subcontract, require subcontractors to rapidly report cyber incidents directly to DoD at <http://dibnet.dod.mil> and the prime Contractor. This includes providing the incident report number, automatically assigned by DoD, to the prime Contractor (or next higher-tier subcontractor) as soon as practicable.
