In the event the government is prevented from making such survey by the offeror or its proposed subcontractor, the offer may be rejected. As a part of the pre-award survey, the offeror may be required to obtain from its intended sources of supply, letters confirming availability of components, materials machinery and tooling.

STATEMENT OF WORK

1. INTRODUCTION

DLA Troop Support intends to enter into one Firm-Fixed Price Contract with the purpose to provide pan coated peanut butter disks to be used in the Unitized Group Ration - Heat & Serve and UGR-M Programs.

This solicitation is hereby issued using Low Price Technically Acceptable (LPTA) award methodology. Offerors must meet all terms, conditions, and requirements of this solicitation. See FAR Provision 52.212-2 Evaluation-Commercial Items for evaluation criteria. DLA Troop Support will use **Low Price Technically Acceptable** procedures to evaluate all offers. A Technical Proposal will be determined Technically Acceptable if it meets all terms and conditions of Government's submission requirements of the solicitation. The Pricing Proposal will be determined to be the lowest awardable total aggregate dollar value according to the unit price multiplied by the maximum ceiling quantity. The required submissions must be received from offerors before the time set for closing. Failure to furnish this information by the time specified may be cause for rejection if not otherwise acceptable under FAR provisions for considering late offers. In order to receive consideration for award, both the lowest awardable price and technical acceptability must be met. Technical acceptability will be rated as either acceptable or unacceptable.

The Government will award an indefinite delivery contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

(i) Technical evaluation:

Past performance to include all contracts from the previous two years of similar product, dollar value, and quantity.

Product Samples, if requested.

(ii) Price

Note: Technical factors and Price will be evaluated equally. In order for an offer to be considered within competitive range and considered for an award, both price and technical evaluation factors must be rated acceptable.

2. CONTRACTING AUTHORITY

SECTION A - SOLICITATION/CONTRACT FORM (CONTINUED)

A. DLA Troop Support Contracting Officer is the **ONLY** person authorized to approve changes to, or modify any requirement of the contract. Notwithstanding any provisions contained elsewhere in the contract, said authority remains solely with the DLA Troop Support Contracting Officer.

B. In the event the vendor effects any change at the direction of any person other than the DLA Troop Support Contracting Officer, the change will be considered to have been made without authority and no adjustments will be made to cover any costs associated with such change.

3. NEGOTIATIONS

For the subject acquisition, the Government intends to award on initial offers but reserves the right to conduct negotiations if determined by the Contracting Officer to be necessary. Initial responses to negotiations shall be in a form of communication customary in the industry for transmitting information to include phone, facsimile transmission, letter, in-person and e-mail.

TECHNICAL/QUALITY DATA

I. Product Demonstration Model (PDM) Information:

Product Demonstration Model (PDM): The Government requires Product Demonstration Models (PDMs) for each item while the solicitation is open. The PDMs must be received no later than the time set for closing of offers. Offers will be evaluated to determine compliance with all characteristics listed for evaluation in FAR 52.212-2 herein. Failure to furnish this information and PDMs by the time specified in the solicitation may be cause for rejection of the proposal. The offer may be rejected under the late offer clause or may be rejected because additional submissions will be tantamount to a submission of a new offer. A cover letter may accompany the offer to set forth any information you wish to bring to the attention of the Government.

Solicitation Provisions:

Product Demonstration Models (PDMs) are to be submitted at no expense to the Government and must be received prior to the time set for closing of offers. PDMs will become the property of the Government and will not be returned to the offeror. Failure to submit PDMs may result in rejection of an offer.

- a. The PDM is the standard to which all production under any contract resulting from this solicitation must conform. Offerors are cautioned that samples produced in test facilities may not be comparable to the product produced on a production line, which result in rejection of the product. Also major changes in production methodology or packaging, such as implementation of new technology, may result in production that does not meet the production standard, which would require the submission and evaluation of new PDMs. Should the contractor at any time plan to, or actually produce the product using different raw material or process methodologies from the approved Product Standard, which result in a product non-comparable to the Product Standard, the contractor shall arrange for a Replacement PDM approval. In any event, all product produced must meet all requirements of this document including Product Standard comparability.
- b. The Government will evaluate the PDMs for compliance with the item descriptions and product specifications and will also evaluate the sensory attributes of the food product to include appearance, odor, flavor and texture using the recognized 9-point quality rating scale to determine product quality. PDMs must conform to all specification/production description characteristics. Failure of models to conform to the specification may result in rejection of offer. Product offered shall conform to all packaging, labeling, and packing requirements as well as analytical requirements.

CONTINUED ON NEXT PAGE

SECTION A - SOLICITATION/CONTRACT FORM (CONTINUED)

The government shall not accept product from any resultant contract which does not conform to all requirements.

- c. Vendors shall have one opportunity to correct any deficiencies found during the evaluation of PDMs submitted as part of the initial proposal and have their PDM pass evaluation. Vendors are advised that if they have any unacceptable PDMs after the second evaluation, their proposal will be determined to be technically unacceptable and they will not be considered for award. The Government shall require each PDM to be rated as "Acceptable". Revised or alternate PDMs submitted during negotiations shall be evaluated for the same criteria detailed above.

- d. PDMs shall be submitted as follows:

A total of 30 samples of PDM items shall be submitted as stated below:

- i. A total of 12 PDMs shall be sent to:

DEPARTMENT OF THE ARMY
FCDD-SCC-EMR (Attn Jill Bates)
COMBAT CAPABILITIES DEVELOPMENT COMMAND-SOLDIER CENTER
10 GENERAL GREENE AVENUE
NATICK, MA 01760-5056
Lab # 508-233-5653
jill.m.bates.civ@army.mil

Note: The end or side of the box should have a sticker, or be printed on the box, with the following information:

Product Demonstration Model Sample
Solicitation Number
Product Identity
Lot #
Company Name and Address
Point of Contact Name and Phone Number

Inside the case, along with the samples, should be the required paperwork, fully identifying the product, solicitation number, contract number (if applicable), whether the item is an Initial, Replenishment, or Replacement PDM, USDA certification, any test results available, or any other information to assist in identifying the product and conducting the evaluation.

Offerors may direct proposed subcontractors to submit PDM samples directly to DEVCOM SC on their behalf. In those instances, the offeror will send written notification of subcontractor submissions to DEVCOM SC and such PDMs must be clearly labeled for which offeror they are being submitted. This documentation must also be part of their proposal. PDMs will not be evaluated until written notification from the offeror is received. This consideration does not relieve the offeror of the full responsibility for submitting all PDMs in a timely manner. Late submissions of PDMs may be the basis for rejection of the proposal.

The Offeror shall provide a complete list of its PDMs submitted, with its technical proposal, to include: item, source of supply name and address, and item lot number. Note: Offerors may submit PDMs to DEVCOM SC for evaluation any time after solicitation issuance. However, PDM Samples and documentation must be submitted by the deadline for receipt of proposals to the Business Opportunities Office (BOO) at DLA TROOP SUPPORT with the aforementioned supplier and lot number information.

- ii. A total of 16 PDMs shall be sent to the cognizant in-plant Government inspector. In this instance, the offeror

CONTINUED ON NEXT PAGE

SECTION A - SOLICITATION/CONTRACT FORM (CONTINUED)

shall advise the Government inspector after production of the PDMs and shall obtain a signed statement from the inspector confirming possession of the samples and identifying the samples as from the same production lot as those submitted to DEVCOM SC. The offeror shall submit this statement(s) with this balance of PDM samples submitted to DLA Troop Support.

- iii. The remaining 2 PDMs of the same product lot code as those submitted to DEVCOM SC and the USDA government inspector shall be mailed along with your technical proposal to the address indicated on Block 9 at DLA Troop Support (attn. Adam Kovnat) on the first page of the solicitation. Coordinate sample submission with the Contracting Officer prior to submittal to DLA Troop Support- Subsistence.
 - iv. PLEASE NOTE: This requirement is waived for any offeror who has submitted and received an acceptable rating on a PDM or FA from DEVCOM SC, in the 12 months prior to the solicitation close date. Please provide documentation from DEVCOM SC of the passing PDM score.
 - v. Late submissions of PDMs may be the basis for rejection of the proposal.
 - vi. The PDMs required in this part of the solicitation, which are submitted to DEVCOM SC, must have any required analytical results included as part of the offer for this technical evaluation factor. The analyticals are to be self-certified or certified by the USDA (i.e., testing of official USDA samples by a USDA/AMS laboratory) for current suppliers of these items and self-certified by other potential offerors. Failure to submit the required certified analyticals with PDMs may result in the proposal not being considered for award. The offeror should include applicable documentation to establish that the product has been processed to meet commercial sterility requirements. e.g.: including incubation sample results.
- e. Every 12 months, the Government Quality Assurance Representative (GQAR) will randomly select 12 replenishment samples for DEVCOM SC and 16 replenishment samples for the government's supply at origin from a lot accepted by the government for all contractual requirements. The contractor will be responsible for shipment to DEVCOM SC. This replenishment may occur earlier if necessary to ensure an adequate supply of PDM samples. The contractor will also use samples from this same lot as the production standard.
- i. Replenishment PDMs are defined as product samples used to reestablish the product standard due to depleting the current PDM stocks or as required by schedule. Replenishment PDMs will be evaluated for appearance, odor, flavor and texture, must be equal to or better than the existing product standard for all characteristics, and must meet the requirements for those characteristics in the appropriate product technical requirements document or specification(s). Upon acceptance the replenishment PDM will become the new product standard.
 - ii. If a Replenishment PDM is rejected by DEVCOM SC, the next conforming production lot will be submitted by USDA as a Resolution PDM Replenishment. This follow-up Resolution PDM Replenishment and any subsequent Resolution lots cannot be shipped by the manufacturer without an acceptable evaluation

SECTION A - SOLICITATION/CONTRACT FORM (CONTINUED)

result from DEVCOM SC.

- iii. The cut-off date for PDM Replenishments will be 18 months. After 18 months, USDA will submit a PDM sample to DEVCOM SC as a Replacement PDM, following the PDM submittal process. The production lot that is used for the Replacement PDM submittal cannot be shipped by the manufacturer without an acceptable evaluation result from DEVCOM SC.

f. If the contractor wishes to establish a new standard, that new standard would be called a Replacement PDM.

Replacement PDMs are defined as product samples that are non-comparable to the established PDM, e.g. due to different ingredients or process methodologies. Replacement PDMs are submitted by the contractor and follow the same submittal process as the initial PDM. At no time will there be two standards for the product.

- g. Periodic Review samples are required for all Polymeric Tray items. The following are the requirements and distribution of samples: The USDA Inspector shall select eight samples of each item produced during each month of Polymeric Tray production. The eight samples will be selected from four random sampling points in the lot and DEVCOM SC will receive samples from each of those four sampling points. The remaining samples will be distributed to the USDA review locations. These samples shall be designated as Monthly Review Samples. The USDA Inspector will ship them monthly to the following locations at the contractor's expense:

One sample of all items to the USDA, AMS, FV, SCI Division Review Locations (Washington, DC; Oshkosh, WI; South Bend, IN and Winter Haven, FL)

AND

Four samples of all items to:

DEPARTMENT OF THE ARMY
FCDD-SCC-EMR (Attn Jill Bates)
COMBAT CAPABILITIES DEVELOPMENT COMMAND-SOLDIER CENTER
10 GENERAL GREENE AVENUE
NATICK, MA 01760-5056

- h. In the event that an offeror's PDM was found technically acceptable, but not offered the award, the offeror may present the remainder of the PDM lot, to the Government for purchase at the awarded price. The Government retains the option to purchase the remainder of the lot at the order price.

52.212- 2 EVALUATION-COMMERCIAL ITEMS (OCT 2014) - FAR

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and meeting the requirements of the solicitation considered. The following shall be used to evaluate offers:

- DLA Troop Support will use **Low Price Technically Acceptable** procedures to evaluate all offers. The Government will

CONTINUED ON NEXT PAGE

SECTION A - SOLICITATION/CONTRACT FORM (CONTINUED)

evaluate each offeror's unit prices. Pricing will be evaluated for indefinite quantity to one destination. The indefinite quantities for this acquisition will be multiplied by the offered unit price to estimate the lowest overall aggregate cost to the Government.

- The Government requests PDMs and will evaluate **the PDMs** for compliance with the item descriptions and product specifications and will also evaluate the sensory attributes of the food product to include appearance, odor, flavor, and texture using the recognized 9-point quality rating scale to determine product quality. The PDMs will be evaluated by DEVCOM SC and **will be rated "ACCEPTABLE" if it meets the requirement of the item description and its Quality Scale result from DEVCOM SC is equal or above 6.** Approval or acceptance of a PDM shall not constitute a waiver of any specification requirement unless specifically stated by the Contracting Officer. The 12 acceptable **PDMs** will be used as production standards.
- If negotiations are conducted, offerors having unacceptable PDMs (Quality Scale is lower than 6) will be given an opportunity to correct deficient PDMs. The final rating will be based on second submission (if negotiations are conducted) and it must be rated "ACCEPTABLE" otherwise the final proposal will be rejected.

(b) *Options.* The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

II. INSPECTION AND ACCEPTANCE REQUIREMENTS

A. For the purposes of Inspection/Acceptance and Shipment/Delivery, a manufacturer's "lot" shall be considered no greater than a single shift's production.

Note: When product is being delivered to Tracy Depot in California, lot numbers will not be mixed on the same pallet.

B. OPTIONAL CONTRACTOR TESTING is provided by the alternate inspection requirements of DLAD 52.246-9024, Alternative Inspection Requirements for Selected Items.

III. ITEM DESCRIPTION

The below listed item descriptions include the required technical specification (i.e. Performance Contract Requirements (PCRs), Commercial Item Descriptions (CIDs), etc) for this acquisition.

IV. TRACEABILITY

In order to facilitate an effective traceability for the Unitized Group Ration Program, the contractor shall ensure that each primary container (unit pack) and intermediate container, if required, has a lot number and Date of Pack (DOP). These package codes shall be permanent and legible.

Use of the Julian Date for the lot number and a time stamp (hour and minute of filling/sealing) is preferred. For example (1296 12:15), 1296 = October 23, 2021 and 12:15 representing the time of filling/sealing. When not required by specification, the contractor's lot identification may be of their own coding, i.e. a closed code, but the contractor shall provide the coding information for the primary containers and the contract data markings upon delivery. Package codes (to include tim per case lot number shall be identified on the appropriate accompanying DD Form 250 upon delivery.

Additionally, the contractor shall ensure that traceability records include identifying ALL ingredients and ALL sources for those ingredients. This shall be accomplished for each item, brand and component that is shipped to the Defense Depot (Assembler) for the Unitized Group Ration Programs.

This information shall be made available within 24 hours.

V. PRODUCT SANITARILY APPROVED SOURCE REQUIREMENTS

As required by 48 CFR 246.471 Authorizing Shipment of Supplies, AR 40-657, Veterinary/Medical Food Safety, Quality Assurance and Laboratory Service, DLAR 4155.3, Veterinary Medical and Inspections of Subsistence Supplies and Services, DLAD 52.246-9044, "SANITARY CONDITIONS (APR 2014), and as clarified by the Armed Forces Food Risk Evaluation Committee, 31 JAN 1996, all Operational Ration Food Components will originate from sanitarily approved establishments. Acceptable sanitary approval is constituted by listing in the "Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement," published by the U. S. Army Medical Command Veterinary Services Directorate, or an establishment inspected and approved by the U.S. Department of Agriculture (USDA) or the U.S. Department of Commerce (USDC) and possessing a USDA/USDC establishment number. This requirement applies to all GFM and CFM Operational Ration Food Components and to all Operational Ration types. Requests for inspection and "Directory" listing by U. S. Army Medical Command Veterinary Services Directorate will be routed through DLA Troop Support- FTW Food Safety Office for coordination and action. Situations involving sole sources of supply, proprietary supply sources, and commercial Brand Name items will be evaluated directly by the Chief, DLA Troop Support-FTSC, in coordination with the Chief, Approved Sources Division, US Army Veterinary Services.

SANITARY CONDITIONS

(a) Food establishments.

(1) All establishments and distributors furnishing subsistence items under DLA Troop Support contracts are subject to sanitation approval and surveillance as deemed appropriate by the Military Medical Service or by other Federal agencies recognized by the Military Medical Service. The Government does not intend to make any award for, nor accept, any subsistence products manufactured, processed, or stored in a facility which fails to maintain acceptable levels of food safety and food defense, is operating under such unsanitary conditions as may lead to product contamination or adulteration constituting a health hazard, or which has not been listed in an appropriate Government directory as a sanitarily approved establishment when required. Accordingly, the supplier agrees that, except as indicated in paragraphs (2) and (3) below, products furnished as a result of this contract will originate only in establishments listed in the MEDCOM Circular 40-1, Worldwide Directory of Sanitarily

SECTION A - SOLICITATION/CONTRACT FORM (CONTINUED)

Approved Food Establishments for Armed Forces Procurement, (Worldwide Directory) (available at: <http://phc.amedd.army.mil/topics/foodwater/ca/Pages/DoDAApprovedFoodSources.aspx>). Compliance with the current edition of DoD Military Standard 3006A, Sanitation Requirements for Food Establishments, is mandatory for listing of establishments in the Worldwide Directory. Suppliers also agree to inform the Contracting Officer immediately upon notification that a facility is no longer sanitarily approved and/or removed from the Worldwide Directory and/or other Federal agency's listing, as indicated in paragraph (2) below. Suppliers also agree to inform the Contracting Officer when sanitary approval is regained and listing is reinstated.

(2) Establishments furnishing the products listed below and appearing in the publications indicated need not be listed in the worldwide directory. Additional guidance on specific listing requirements for products/plants included in or exempt from listing is provided in Appendix A of the Worldwide Directory.

(i) Meat and meat products and poultry and poultry products may be supplied from establishments which are currently listed in the "Meat, Poultry and Egg Inspection Directory," published by the United States Department of Agriculture, Food Safety and Inspection Service (USDA, FSIS), at <https://www.fsis.usda.gov/inspection/establishments/meat-poultry-and-egg-product-inspection-directory>. The item, to be acceptable, shall, on delivery, bear on the product, its wrappers or shipping container, as applicable, the USDA shield and applicable establishment number. USDA listed establishments processing products not subject to the Federal Meat and Poultry Products Inspection Acts must be listed in the Worldwide Directory for those items.

(ii) Intrastate commerce of meat and meat products and poultry and poultry products for direct delivery to military installations within the same state (intrastate) may be supplied when the items are processed in establishments under state inspection programs certified by the USDA as being "at least equal to" the Federal Meat and Poultry Products Inspection Acts. The item, to be acceptable, shall, on delivery, bear on the product, its wrappers or shipping container, as applicable, the official inspection legend or label of the inspection agency and applicable establishment number.

(iii) Shell eggs may be supplied from establishments listed in the "List of Plants Operating under USDA Poultry and Egg Grading Programs" published by the USDA, Agriculture Marketing Service (AMS) at <http://www.ams.usda.gov/poultry/grading.htm>.

(iv) Egg products (liquid, dehydrated, frozen) may be supplied from establishments listed in the "Meat, Poultry and Egg Product Inspection Directory" published by the USDA FSIS at <https://www.fsis.usda.gov/inspection/establishments/meat-poultry-and-egg-product-inspection-directory>. All products, to be acceptable, shall, on delivery, bear on the product, its wrappers or shipping container, as applicable, the official inspection legend or label of the inspection agency and applicable establishment number.

(v) Fish, fishery products, seafood, and seafood products may be supplied from establishments listed under "U.S. Establishments Approved For Sanitation And For Producing USDC Inspected Fishery Products" in the "USDC Participants List for Firms, Facilities, and Products", published electronically by the U.S. Department of Commerce, National Oceanic and Atmospheric Administration Fisheries (USDC, NOAA) (available at: seafoodinspection.nmfs.noaa.gov). All products, to be acceptable, shall, on delivery, bear on the product, its wrappers or shipping container, as applicable, the full name and address of the producing facility.

(vi) Pasteurized milk and milk products may be supplied from plants having a pasteurization plant compliance rating of 90 percent or higher, as certified by a state milk sanitation officer and listed in "Sanitation Compliance and Enforcement Ratings of Interstate Milk Shippers" (IMS), published by the U.S. Department of Health and Human Services, Food and Drug Administration (USDHHS, FDA) at <http://www.fda.gov/Food/GuidanceRegulation/FederalStateFoodPrograms/ucm2007965.htm>. These plants may serve as sources of pasteurized milk and milk products as defined in Section I of the "Grade 'A' Pasteurized Milk Ordinance" (PMO) published by the USDHHS, FDA at <https://www.fda.gov/food/guidance-documents-regulatory-information-topic-food-and-dietary-supplements/milk-guidance-documents-regulatory-information>.

(vii) Manufactured or processed dairy products only from plants listed in Section I of the "Dairy Plants Surveyed and Approved for USDA Grading Service", published electronically by Dairy Grading Branch, AMS, USDA (available at: <https://apps.ams.usda.gov/dairy/ApprovedPlantList/>) may serve as sources of manufactured or processed dairy products as listed by the specific USDA product/operation code. Plants producing products not specifically listed by USDA product/operation code must be Worldwide Directory listed (e.g., plant is coded to produce cubed cheddar but not shredded cheddar; or, plant is coded for cubed

cheddar but not cubed mozzarella). Plants listed in Section II and denoted as “P” codes (packaging and processing) must be Worldwide Directory listed.

(viii) Oysters, clams and mussels from plants listed in the “Interstate Certified Shellfish Shippers Lists” (ICSSL), published by the USDHHS, FDA at <http://www.fda.gov/food/guidanceregulation/federalstatefoodprograms/ucm2006753.htm>.

(3) Establishments exempt from Worldwide Directory listing. Refer to AR 40-657/NAVSUPINST 4355.4H/MCO P1010.31H, Veterinary/Medical Food Safety, Quality Assurance, and Laboratory Service, for a list of establishment types that may be exempt from Worldwide Directory listing. (AR 40-657 is available from National Technical Information Service, 5301 Shawnee Road, Alexandria, VA 22312 ; 1-888-584-8332 ; or download from web site: http://www.apd.army.mil/pdffiles/r40_657.pdf) For the most current listing of exempt plants/products, see the Worldwide Directory (available at: <http://phc.amedd.army.mil/topics/foodwater/ca/Pages/DoDAApprovedFoodSources.aspx>).

(4) Subsistence items other than those exempt from listing in the Worldwide Directory, bearing labels reading “Distributed By”, “Manufactured For”, etc., are not acceptable unless the source of manufacturing/processing is indicated on the label or on accompanying shipment documentation.

(5) When the Military Medical Service or other Federal agency acceptable to the Military Medical Service determines the levels of food safety and food defense of the establishment or its products have or may lead to product contamination or adulteration, the Contracting Officer will suspend the work until such conditions are remedied to the satisfaction of the appropriate inspection agency. Suspension of the work shall not extend the life of the contract, nor shall it be considered sufficient cause for the Contractor to request an extension of any delivery date. In the event the Contractor fails to correct such objectionable conditions within the time specified by the Contracting Officer, the Government shall have the right to terminate the contract in accordance with the “Default” clause of the contract.

(b) Delivery conveyances.

The supplies delivered under this contract shall be transported in delivery conveyances maintained to prevent tampering with and /or adulteration or contamination of the supplies, and if applicable, equipped to maintain a prescribed temperature. The delivery conveyances shall be subject to inspection by the government at all reasonable times and places. When the sanitary conditions of the delivery conveyance have led, or may lead to product contamination, adulteration, constitute a health hazard, or the delivery conveyance is not equipped to maintain prescribed temperatures, or the transport results in product 'unfit for intended purpose', supplies tendered for acceptance may be rejected without further inspection.

VI. MARKING OF SHIPPING CONTAINERS AND MARKING OF UNIT LOADS

All Shipping Containers and Unit Loads shall be clearly marked, in accordance with DLA Troop Support Form 3556 entitled “Marking Instructions for Boxes, Sacks, and Unit Loads of Perishable and Semi-perishable Subsistence, dated April 2014, with the following information on two adjacent sides of the load with the largest characters possible as follows:

Unitized Ration Component

National Stock Number

Item Name

Date of Pack and Lot Number

Number of Shipping Containers per Pallet

Contract Number

Contractor's name and Address

Inspection Test Date (ITD)

SECTION A - SOLICITATION/CONTRACT FORM (CONTINUED)

Note: For the Inspection Test Date, the expected shelf life is found in the applicable solicitation/contract. To calculate the ITD, add the shelf life value to the month/year date of pack.
Example, if the Date of Pack is June 2024, and the shelf life is 36 months (3 years), then the ITD is computed as follows: 6/24 + 3 years = 6/27. If labels are used, they shall be permanently affixed with water-resistant adhesive tape.

Shipments without the appropriate Shipping Container and Unit Load Markings will be rejected and returned to origin, or at the Contracting Officers discretion, reworked at a labor rate determined by the destination activity (not DLA Troop Support).

VII. UNITIZATION

Unit loads shall have the shipping containers arranged on a 40 inch by 48 inch commercial wood or plywood four-way entry pallet, or on a 48 inch by 40 inch Grocery Manufacturers of America wood four-way entry pallet. The load shall be bonded with non-metallic strapping, shrink or stretch film, or others means that comply with carrier rules and regulations applicable to the mode of transportation (adhesive bonding is not acceptable).

Bonding material shall secure the load to the pallet to form a consolidated, stable cargo which can be handled as a unit. For example, when strapping is used to secure the load, the straps shall pass under the top deck boards of the pallet. When stretch or shrink film is used, it must be applied low enough on the pallet to secure the load to the pallet. The unit load height shall not exceed 50 inches.

Inspection of unit loads shall be in accordance with classification Type III, Class G of DLA Troop Support Form 3507 of April 2014 entitled "Loads, Unit: Preparation of Semi-perishable Subsistence Items."

NOTE: The unit load dimensions are 40 inches in length by 48 inches in width and 50 inches in height. These dimensions are exact and can be no larger than what is specified. No overhang is permitted.

REQUIREMENTS FOR TREATMENT OF WOOD PACKAGING MATERIAL (WPM)
WOOD PACKAGING MATERIAL (WPM) WILL BE USED TO MAKE SHIPMENTS UNDER THIS CONTRACT AND/OR WHEN WPM IS BEING ACQUIRED UNDER THIS CONTRACT.

Wood packaging material (WPM) means wood pallets, skids, load boards, pallet collars, wooden boxes, reels, dunnage, crates, frame and cleats. The definition excludes materials that have undergone a manufacturing process, such as corrugated fiberboard, plywood, particleboard, veneer, and oriented strand board (OSD).

All Wood Packaging Material (WPM) used to make shipments under DoD contracts and/or acquired by DoD must meet requirements of International Standards for Phytosanitary Measures (ISPM) 15, "Guidelines for Regulating Wood Packaging Materials in International Trade." DoD shipments inside and outside of the United States must meet ISPM 15 whenever WPM is used to ship DoD cargo.

All WPM shall comply with the official quality control program for heat treatment (HT) or kiln dried heat treatment (KD HT) in accordance with American Lumber Standard Committee, Incorporated (ALSC) Wood Packaging Material Program and WPM Enforcement Regulations (see <http://www.alsc.org/>).

All WPM shall include certification/quality markings in accordance with the ALSC standard. Markings shall be placed in an unobstructed area that will be readily visible to inspectors. Pallet markings shall be applied to the stringer or block on diagonally opposite sides of the pallet and be contrasting and clearly visible. All containers shall be marked on a side other than the top or bottom, contrasting and clearly visible. All dunnage used in configuring and/or securing the load shall also comply with ISPM 15 and be marked with an ASLC approved DUNNAGE stamp.

Failure to comply with the requirements of this restriction may result in refusal, destruction, or treatment of materials at the point

of entry. The Agency reserves the right to recoup from the Contractor any remediation costs incurred by the Government.

VIII. QUALITY ASSURANCE PROVISIONS INSPECTION/ACCEPTANCE

The contractor must meet all characteristics specified herein. For product requiring contractor-paid USDA, only end-item inspection of the finished product for compliance with contract requirements shall be lot inspected by USDA, AMS, FV, PPB. In addition, Government inspection shall also be at destination for identity, count and condition for all terms and conditions of the contract. This shall include but is not limited to the following:

1. All shipments must be accompanied by an accurate DD-250, and all other pertinent invoices as required.
2. All unit loads must be marked in accordance with DLA Troop Support Form 3556.
3. All unit loads shall be stable and not exceed 50 inches in height including pallet material.
4. All delivered product shall be free of defects.
5. All shipments must contain the correct quantity as specified by DLA Troop Support.
6. Appointments must be scheduled with the receiving activity prior to delivery.
7. All delivered product must meet or exceed the appropriate product requirements as described in this Solicitation.
8. All delivered products must meet the required date of pack/shelf-life requirements.
9. To determine the date of pack, any closed date code must be accompanied with documentation deciphering the closed product code.
10. All delivered products must be free of insect and rodent infestation.

Failure to comply with ANY of the above conditions may result in the shipment(s) being rejected and returned to origin, or at the Contracting Officer's discretion reworked at a labor rate determined by the destination activity (not DLA Troop Support).

QUALITY ASSURANCE PROVISIONS:

By submitting an offer, the contractor certifies that the product offered meets: the specified finished product salient characteristics and all requirements of this contract; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories, or possessions; and is sold on the commercial market.

The Government reserves the right to determine proof of such conformance prior to the first delivery from the point of origin and any time thereafter, as may be necessary, to include delivery at final destination, and for the time the product is covered under warranty, to determine conformance with the provisions of the contract.

End item lots determined nonconforming may be reworked to correct or screen out the defective units. Rework shall only be considered acceptable to the Government when the rework procedure has a reasonable probability of correcting the deficiency.

An end item lot rejected by the contractor or Government must be reworked and re-offered within 30 days from the date of initial rejection.

The supplies or products furnished under the contract shall be produced in accordance with the provisions of 21 CFR, Part 110, "Current Good Manufacturing Practices in Manufacturing, Packing or Holding Human Food," and all regulations referenced therein.

If FAR Clauses 52.246-2 and 52.246-11 are applicable to this solicitation/contract they shall be cited to properly enforce the Higher-Level Contract Quality requirements.

In addition to any inspection requirements cited in contract and/or prime documents, inspection for

packaging, labeling and packing, and marking shall be in accordance with the quality assurance provisions contained in this solicitation.

The Quality Assurance Provisions found in Section Quality/Technical of this solicitation are required for DCMA and Government inspection, unless otherwise specified by this solicitation/contract.

IX. DATE OF PACK

Acceptance will be limited to product processed and packed subsequent to date of award of delivery order. Additionally, all shipments of components/product from a producer to destination/assembly points shall not be older than 90 days at delivery.

X. REWORK OF NONCONFORMING PRODUCT PRE OR POST ACCEPTANCE

Rework of Nonconforming Product: The Government QAR must be informed and provided documentation of all rework results when product is presented for Government verification inspection or prior to Government inspection as indicated below.

A. Corrective Action (Rework/Screen Inspections) Taken Prior To Government Verification Inspection (Receipt, In-Process And End-Item Inspections): Unless otherwise specified below, all reworks and screening inspections conducted prior to the Government verification inspection do not require approval from the Government. Although the GQAR must be informed of all reworks, the contractor is not required to obtain approval to take corrective and preventive action as deemed necessary to ensure compliance with contractual requirements. For reworks requiring the Government's approval (as specified below), the contractor may submit a Standard Rework Procedure (SRP), for certain defects, under the contractor's documented QSP section XII - Corrective and Preventive Action Program. The SRPs must be specific and these must be evaluated by DLA Troop Support-FTR, and DLA Troop Support-FTSC, and approved by the applicable Contracting Officer.

NOTE: All requests for rework shall be accompanied with a COMPREHENSIVE rework plan. The rework plan will include rational information and data that supports the rework plan and ensures the elimination of nonconforming material from the lot. When a contractor determines as a result of his end item inspection(s) or QSP that supplies do not conform to contractual requirements and the supplies cannot be reworked (such as drained weight, viscosity, piece size, residual air, etc), he has the alternative to request the Contracting Officer for a waiver for the nonconforming requirement. If the Contracting Officer approves the waiver request for a specific requirement, the written waiver approval shall be provided to the GQAR when the supplies are presented for Government Verification Inspection (the skip-lot inspection does not apply in this case). The GQAR shall inspect the supplies for compliance with all requirements of the contract, except the waived requirement. The Contracting Officer, in special circumstances, may request the GQAR to inspect for the non-conforming characteristics also, after the waiver for the nonconforming requirement has been provisionally approved, to determine severity of nonconformance only. Due to the type of statistical sampling cited in the contract, under no circumstances shall a lot found nonconforming by the contractor be inspected by the GQAR to determine conformance to a requirement that has previously been established as nonconforming by the contractor's inspection. After any lot's failure or rework, if the lot is reinspected, it will be both Contractor and Government inspected at the next higher sample size; however, the accept/reject numbers used for the normal inspection will be used.

B. The Following Reworks Must Be Coordinated With The Supervisory GQAR And Approved By The Applicable DLA Troop Support-FTR Office.

1. Insect or Rodent Infestation/Contamination: Reworks must be approved by DLA Troop Support-FTSC.

2. Food Safety and Foreign Material: All corrective actions for product retained due to processed/unprocessed container mix-ups must be approved by FTR. Thermal process deviations or deviations from the preparation, formulation or critical factors cited in the approved process schedule must be accompanied by a detailed letter from the plant's Processing

SECTION A - SOLICITATION/CONTRACT FORM (CONTINUED)

Authority. The involved subcode(s), the deviation, and the disposition of the product shall be clearly identified when the complete lot is presented for Government end item verification inspection. These requirements are in addition to applicable Code of Federal Regulations or other regulatory requirements (USDA-FSIS, FDA).

Foreign material identified during normal in-process control actions does not require a waiver request from DLA Troop Support FTR, but does require USDA notification of the incident. However, foreign material discovered during the Contractor or GQAR/USDA end item inspection is cause for rejection of the lot. Rework requests that involve foreign material identified during end item inspections require approval from DLA Troop Support FTR before the rework activity can proceed.

Note: A notification of nonconformance containing ineffective corrective actions, as identified by USDA, require DLA-TS attention and action

“Retesting/re-inspection/rework of product that tested positive for food borne pathogens (salmonella, e. coli, etc.) is not authorized.”

Note: Deviations (that occur during or prior to the production of a product) from specific preparation/ formulation/ingredient requirements cited in the specifications shall be submitted as a request for product deviation and must be approved and coordinated with the Specification Preparing Activity (DEVCOM SC) through the applicable Contracting Officer.

3. Container Integrity Defects: All reworks due to container integrity defects noted during the producer's end item inspection (for critical container defects only) or Government final lot end item verification inspection, must be approved by FTR unless 100% primary container rework of the entire lot is conducted at source (Note: All second time reworks must be approved by the applicable FTR office). All containers exhibiting same or other container integrity defects must be removed during the 100% primary container rework and noted on the rework paperwork. Reworked lots will be inspected or re-inspected, as applicable, by the contractor at the location of the rework using the next larger sample size (for example, from 200 samples to 315, or if a second rework, from 315 samples to 500 samples). Rework results must be included with other paperwork when the lot is presented for Government end item verification inspection.

4. Second Time Reworks: All second time reworks must be approved by the applicable FTR office.

5. Nonconformances Noted During The Government End Item Verification Inspection:

All rework requests submitted for defects noted during Government end item verification inspections must be approved by the applicable Contracting Officer, unless exempted under paragraph 3 above.

C. Contractor's Quality History:

1. Effectiveness of corrective actions (rework/screen inspections) taken by the contractor prior to Government end item verification inspection (receipt, in-process and contractor's end-item inspections) will be determined by the results of the end item verification inspection performed by the GQAR. **Corrective actions taken to ensure compliance with the contractual requirements prior to the Government end item verification inspection will not be counted against the contractor's quality history.** If product is found conforming during the Government end item verification inspection, the corrective action will be determined to have been effective. However, all requests for waivers and product deviations will be counted.

2. If product is found nonconforming during the Government end item verification inspection following contractor corrective action for the same defect (or defect category in case of critical container defects) for which the contractor took a corrective action, the corrective action will be determined to have been ineffective. In addition to any action taken, the contractor must reevaluate their documented QSP and/or the implemented corrective and preventive action program by an internal audit and results must be submitted to DLA Troop Support-FTSB (Quality Systems Auditors). **All corrective actions (rework/screening inspections, etc.) taken by the contractor due to a Government end item verification inspection rejection will be documented in the contractor's quality history records.**

SECTION A - SOLICITATION/CONTRACT FORM (CONTINUED)

NOTE: If the contractor elects to rework nonconforming product, it must be reworked and reoffered within 30 days from date of initial rejection.

All requests for rework shall be accompanied with a **comprehensive** rework plan. The rework plan will include rational information and data that supports the rework plan and ensures the elimination of nonconforming material from the lot. See "Request for Rework, Request for Waiver, Request for Deviation, or Re-inspection of Nonconforming Supplies".

D. Request for Rework, Request for Waiver, Request for Deviation, or Re-inspection of Nonconforming Supplies

1. When contractor inspection or QSP, or Government verification by the QAR, reveals a process deviation or nonconforming lot, the contractor's written request for deviation, waiver, rework or re-inspection of the nonconforming lot(s) must be furnished, as appropriate to the Contracting Officer and cognizant Government QAR and shall at a minimum contain the following:

NOTE: Subject line should include what is being asked for (i.e.: Request for Waiver for Drain Weight of Beef Stew or Request for Rework for Residual Air for Apple Dessert)

- a. Type of Request: Waiver, Notification, Re-inspection, Rework
- b. Approval Required from DLA: Yes or No
- c. Contractor Name/Address
- d. Contract Number
- e. Product Name
- f. National Stock Number
- g. Batch Number(s) (If Applicable)
- h. Sublot(s) (If Applicable)
- i. Lot Number(s)
- j. Process Category (i.e. Work-progress/End Item)
- k. Quantity
- l. Specification Requirement Number (PCR, CID, etc)
- m. Sample Size; Defect; Accept/Reject
- n. Defect Classification: Critical, Major, Minor, NA
- o. Inspection Failure (Summary of non-conformances)
- p. Failure Identified: Processing, Packaging, End Item
- q. Inspector: In-plant/Contractor or USDA
- r. Date of Incident
- s. Attachments (Provide in-house, USDA worksheets, in-process data)
- t. Root Cause of nonconformance or deviation (Describe using a short detailed paragraph; Tell a story of the incident)
- u. Corrective Action (Describe using a short detailed paragraph)
- v. Preventive Action (Describe using a short detailed paragraph; if preventive action is not possible, state why)
- w. Occurrence (Has this occurred before/when; if yes, what was the date/contract/lot number of last occurrence)
- x. Estimated Cost
- y. Effect on Delivery
- z. Justification for request (What are you asking for?)

NOTE: All requests for rework shall be accompanied with a **COMPREHENSIVE** rework plan. The rework plan will include rational information and data that supports the rework plan and ensures the elimination of nonconforming material from the lot. After any lot's failure or rework, if the lot is re-inspected, it will be both Contractor and Government inspected at the next higher sample size; however, the accept/reject numbers used for the normal inspection will be used.

2. When a valid technical reason for re-inspection without rework is offered and permission is granted by the

PCO, the contractor shall take corrective action to eliminate the cause of the inspection revealed failure; reinspect the non-reworked lot after taking the corrective action, and evaluate the results of the initial inspection and the re-inspection by means of recognized statistical methods.

a. If the statistical tests reveal no significant difference between the results of the two inspections, acceptability will be based on re-inspection results. A significant difference is one that is real and not due to chance variation. Statistically, a difference which has a 0.05 probability of occurring by chance alone is usually considered a significant difference.

b. If such statistical tests reveal no significant difference between the results of the two inspections, both results will be reported to the Contracting Officer.

1. The results of the two inspections will be averaged and acceptability will be based on whether the resulting average meets the requirement, when the requirement is an average (variable) requirement.

2. The results of the initial (original) inspection will be the basis for the acceptability decision when the requirement is a unit (attribute) requirement.

XI. INTEGRATED PEST MANAGEMENT (IPM) and FOOD DEFENSE/PROTECTION PLAN

A. INTEGRATED PEST MANAGEMENT

The procedures contained in the “Integrated Pest Management (IPM) Program Requirements for Operational Rations,” of 15 November 2017 are required and apply to all Operational Rations components. Each contractor is to have an IPM program in place prior to the initiation of production of Government product. The IPM plan is required to be submitted to DLA Troop Support upon submittal of proposals. Associated pesticide labels and SDS documents are not required but are to be made available upon request by DLA Troop Support. The contractor shall have those documents available for on-site review during a Quality Systems Management Visit (QSMV) or Quality Systems Compliance Audit. In addition, evidence of an insect or rodent infestation, or contamination involving any end item will be cause for rejection of the involved lot. IPM program requirements can be found on the DLA Troop Support website at: https://www.dla.mil/Portals/104/Documents/TroopSupport/Subsistence/FoodSafety/FoodQuality/TS_ipm-cpaf_171120.pdf

B. FOOD DEFENSE PLAN

Currently, all DLA Troop Support Subsistence contracts have a requirement for submission and implementation of some type of Food Defense Plan at each contractor facility. As a result of increased risk for the potential of intentional food tampering the plan shall describe (in general terms) the type of preventive measures that are taken or will be taken to reduce Food Defense Plan vulnerabilities and to protect the food intended for DLA Troop Support's customers at CONUS and OCONUS locations. The plan must include preventive steps taken to safeguard product from intentional tampering/contamination during all stages of receipt, production, storage, assembly, delivery, and shipment. Areas of concern listed in this checklist must be addressed in the plan. The Food Defense Plan will be received, reviewed, rated, and kept on record in the Quality Audits & Product Protection Branch (DTA Troop Support-FTSB). Note: Points will be deducted for not responding to a question with a YES, NO, N/A or for not providing the information requested (e.g., establishment registration information). To download a copy of the DLA Troop Support Food Defense Checklist go to <https://www.dla.mil/Troop-Support/Subsistence/Food-Safety/Food-Quality/> or contact the applicable DLA Troop Support Contracting Officer or the Quality Audits & Product Protection Branch (DLA Troop Support-FTSB). The Quality Audits Food Defense Branch (FTSB) is the only DLA/DLA Troop Support office authorized to

receive, review and approve Food Defense Plans. ALL Food Defense Plans and QSPs are maintained and secured by FTSB.

C. CURRENT GOOD MANUFACTURING PRACTICES IN MANUFACTURING, PACKAGING OR HOLDING HUMAN FOOD

Compliance with the provisions contained in Title 21, Code of Federal Regulations Part 110 "Current Good Manufacturing Practice in Manufacturing, Packaging or Holding Human Food," and all regulations referenced herein, is required. In addition, the contractor is required to comply with all with the provisions contained within specific parts of the Code of Federal Regulations. For example, low-acid canned food manufacturers, Part 110 and 113 are applicable.

XII. ENTRY INTO PLANT

The Contracting Officer or any Government personnel designated by him shall be permitted entry into the Contractor's and Subcontractor's plants at any time during the effective period of the contract. Except for inspection services, the Contracting Officer shall give prior notice of the purpose of the meeting and shall furnish dates of the visit.

XIII. PLACE OF PERFORMANCE

- A. The offeror must stipulate in its proposal to this solicitation information pertinent to the place of performance.
- B. Any change in place(s) of performance cited in this offer and in any resulting contract is prohibited unless it is specifically approved in advance by the Contracting Officer.

XIV. PACKAGING:

If applicable, preservation, packaging, etc. furnished by suppliers shall meet or exceed the following requirements: Unit packages shall be designed and constructed so that the contents of each package shall be protected from damage during shipment and storage. Unit packages shall also be able to withstand subsequent handling. Unit packs susceptible to corrosion or deterioration shall be protected by preservative coatings. Items requiring protection from physical damage, or which are fragile in nature (i.e., glass) shall be protected by wrapping, cushioning, etc. or other means to mitigate damage during handling and shipment. If screw caps are used, they shall be secured to the bottles with a band of plastic shrink film or plastic tape. All bottles shall be hermetically sealed (inner seal) and secured to withstand any position in the shipping container without leaking.

XV. LABELING:

If applicable, labeling for unit and intermediate containers shall meet those used in the commercial distribution or over the counter retail sales. The labeling shall be sufficient to clearly and visibly identify the contents of the package. All markings must comply with the applicable laws as set forth by the Federal Food Drug and Cosmetic Act and regulations promulgated there under.

XVI. PACKING:

If applicable, the shipping container (including any necessary blocking, bracing cushioning or waterproofing) shall comply with the regulations of the carrier used and provide safe delivery to the destination point at the lowest possible tariff cost. It shall be capable of multiple handling and storage under favorable conditions for a minimum of one year.

XVII. ELECTRONIC INVOICING BY SUPPLIERS VIA WIDE AREA WORKFLOW (WAWF):

All suppliers are required to process invoices electronically by using WAWF. Suppliers must have at least two trained company representatives with access to WAWF. A copy of the WAWF Report and a Bill of Lading shall be provided to Tracy Depot for each individual shipment. The WAWF report and Bill of lading shall be presented by the truck driver or it must be

attached to the last pallet of a shipment. The WAWF report is the only acceptable invoice and must be completely in order to receive payment. This is a condition for contract award.

Wide Area Workflow (WAWF) is a secure web based system for electronic invoicing, receipt, and acceptance. WAWF allows government vendors to submit and track invoices and receipt/acceptance documents over the web and allows government personnel to process those invoices in a real-time, paperless environment. It is also the only application that will be used to capture the Unique Identification (UID) of Tangible Items information.

WAWF System Requirements

WAWF is a free internet application. Contractors should refer to the "Machine Setup" information on the WAWF homepage, <https://wawf.eb.mil>

The minimum system requirements are:

133 MHz or more Pentium microprocessor (or equivalent)

SVGA Color Monitor (minimum 256 color)

64 MB RAM (minimum)

Internet Access (broadband recommended)

WAWF is in accordance with the 2001 National Defense Authorization Act (DFARS 252.232-7003/252.232.7003 Electronic Submission of Payment Requests - January 2004) which requires claims for under a Department of Defense Contract to be submitted in electronic form.

As of March 03, 2008, DOD has issued a final rule amending the Defense Federal Acquisition Regulation supplement (DFARS) to require use of the Wide Area Workflow as the only acceptable electronic system for submitting requests for payment (invoices and receiving reports) under DOD contracts.

XVIII. QUOTES:

Due the time sensitive nature of these UGR Components, quotes received after closing will NOT be considered.

CAUTION - CONTRACTOR CODE OF BUSINESS ETHICS (FEB 2012)

FAR Part 3.1002(a) requires all government contractors to conduct themselves with the highest degree of integrity and honesty. Contractors should have a written code of business ethics and conduct within thirty days of award. To promote compliance with such code of business ethics and conduct, contractors should have an employee business ethics and compliance training program that facilitates timely discovery and disclosure of improper conduct in connection with government contracts and ensures corrective measures are promptly instituted and carried out. A contractor may be suspended and/or debarred for knowing failure by a principal to timely disclose to the government, in connection with the award, performance, or closeout of a government contract performed by the contractor or a subcontract awarded there under, credible evidence of a violation of federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in title 18 of the United States Code or a violation of the False Claims Act. (31 U.S.C. 3729-3733)

If this solicitation or contract includes FAR clause 52.203-13 - CONTRACTOR CODE OF BUSINESS ETHICS AND CONDUCT; the contractor shall comply with the terms of the clause and have a written code of business ethics and conduct; exercise due diligence to prevent and detect criminal conduct; promote ethical conduct and a commitment to compliance with the law within their organization; and timely report any violations of federal criminal law involving fraud, conflict of interest, bribery or gratuity violations found in title 18 of the United States Code or any violations of the False Claims Act. (31 U.S.C. 3729-3733). When FAR 52.203-13 is included in the contract, contractors must provide a copy of its written code of business ethics and conduct to the contracting officer upon request by the contracting officer.

Addendum to 52.212-1:

The following paragraphs of 52.212-1 are amended as indicated below:

1. Paragraph (b), Submission of Offers.

Submit signed and dated offers as specified above in the “Notice to our valued suppliers” section on or before the exact due date/local time as specified on page 1 at Block 8. [X] Facsimile offers are NOT authorized for this solicitation

b. Submission Requirements: Offerors are required to submit the completed solicitation including the Technical Proposal as well as the Pricing Proposal as required.

Technical Proposal**Factor I: Technical Capabilities**

Offeror is required to submit past performance.

Factor II: Past Performance/Delivery and Quality History

Offerors shall provide a list of contracts, commercial or government, performed within the last two years. Offerors shall provide a point of contact address, telephone number, average dollar amount of the contract per annum, period of performance, and a description of the items provided. For government contracts, provide the government agency, point of contact, telephone number, contract number, dollar value, period of performance, and a sample listing of the items provided.

Offerors shall list and address how any “problems” or discrepancies (i.e. late deliveries, shortages, overages, damages, defects, mis-shipments, etc) experienced in the past two years for the customers reported in response to commercial accounts listed above and for prior Government contracts, were handled and remedied.

Price Proposal

The offeror shall provide their offered unit price multiplied by the estimated annual quantity. Refer to page _____ within the proposal and extend to the total estimated dollar value.

2. Paragraph (c), Period for acceptance of offers.

Change “30 calendar days” to read “180 calendar days”.

3. Paragraph (d), Product samples: Add the following:

As part of your offer, Product Samples are not required with the submission of the offer, however the Government

reserves the right to request product samples when needed to verify the product's technical acceptability pertaining to, but not limited to, packaging, shelf life data and organoleptic quality. If Product Samples are requested, they must be submitted at no expense to the Government. Product samples must be shipped within 10 days of the Contracting Officer's request. Proof of shipment shall be provided to the Contracting Officer. If not destroyed by testing, samples will be returned at the offeror's request and expense. The Product Samples shall be packaged and packed as proposed. The Product Samples shall be the standard for any resultant contract.

A total of Six (6) Product Samples shall be mailed to:

Department of the Army

Product Samples will be evaluated for all characteristics of the applicable item document. The Product Sample evaluation factor permits examination of the offered item for the purpose of determining the overall quality of the proposed item. The Product Sample should meet the product's technical requirements and be acceptable to Natick organoleptically (i.e. flavor, texture, odor, appearance, etc.)

Characteristics for which the Product Samples will be tested or evaluated are: flavor, odor, texture, and overall quality.

Product Samples shall be submitted in the same packaging that will be used for contract production. The packaging of the Product Samples will be evaluated for package integrity.

Each Product Sample will be evaluated individually and on its own merit. The intended purpose of the Product Sample is to evaluate the contractor's ability to furnish an acceptable product. The acceptable Product Sample will be used as production standards.

After contract award, if the contractor elects to use different methodology, ingredients and/or packaging than what was initially offered, the contractor is required to inform the Contracting Officer and arrange for the submission of a new production standard.

The approval of any Product Sample for the aforementioned characteristics will not constitute approval of the product as meeting other contractual requirements, such as but not limited to analytical requirements, physical requirements, microbiological requirements and/or performance requirements. Failure of Product Samples to conform to such requirements may be cause for rejection of the offer.

NOTE: If Product Samples are not requested, it will NOT be used as a Technical Factor in the evaluation process of the Solicitation.

52.212-2 -- Evaluation -- Commercial Items. (Nov 2021)

(a) The Government will award a purchase order resulting from this solicitation to the responsible and responsive offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

(i) Technical Proposal

(1) The Government will assess the capability of the item offered to meet the Government's requirement of providing the exact commercial item description.

(2) The Government will assess the offeror's performance record for the past two years, regarding timely delivery, product quality history of the offered or similar items, and customer service, and based on that evaluation, will assign each offeror a rating that will reflect the government's degree of confidence that the offeror will perform satisfactorily. The assessment will be based on the information provided by the offeror in its proposal, Government in house records including PPIRS if available, and information obtained from other sources.

Past performance sub-factors Delivery History and Quality will be evaluated equally.

1) Delivery History

The government will evaluate the offeror's past performance for the past two years as it relates to delivery of each offeror's own corporate entity and any partners, joint ventures, subcontractors, etc., who will be performing on the proposed contract for the offered item or similar item. Based on that evaluation, each offeror will be assigned a rating that will reflect the government's degree of confidence that the offeror will perform satisfactorily. The government will evaluate the offeror's record of past performance as reflected in its performance of previous government and commercial contracts, and the contractor's reliability in providing delivery of product that conforms to the solicitation. The government will consider all relevant facts and circumstances, and therefore, encourages offeror to divulge and explain in their proposal any unfavorable delivery instances that occurred for the past two years.

2) Quality History

The government will evaluate the offeror's record of past performance as reflected in its performance of previous government and commercial contracts, and the contractor's reliability in providing product that conforms to the solicitation requirements. Based on that evaluation, each offeror will be assigned a rating that will reflect the government's degree of confidence that the offeror has the ability to produce an acceptable quality product that meet the specification requirements. This assessment will be based on information provided by the offeror in its proposal, information contained in records maintained by the government and possibly by investigation of the contractor's record of performing commercial contracts. The government will

consider all relevant facts and circumstances, and therefore, encourages offerors to divulge and explain in their proposal any unfavorable quality instance that occurred for the past two years.

The government will consider all relevant facts and circumstances, and therefore, encourages offeror to divulge and explain in their proposal any unfavorable delivery instances that occurred for the past two years.

(2) Product Samples

The Government will evaluate proposed product for compliance with the item description. Items will be evaluated under 2 sub-factors, Specification Requirements and Organoleptic Acceptability.

- Specification Requirements - Product Samples will be evaluated to determine acceptability pertaining to, but not limited to packaging and shelf life
- Organoleptic Acceptability - Natick will evaluate the organoleptic characteristics of the product using the 9 points quality scale.

NOTE: If Product Samples are not requested, it will NOT be used as a Technical Factor in the evaluation process of the Solicitation.

NOTE: The Government reserves the right to limit the number of accounts reviewed for verifying past contract performance. Furthermore, we reserve the right to contact other contractor accounts, both commercial and Governmental, that are not provided in the proposal for the purpose of reviewing past performance.

(ii) Price Proposal

(1) The Government will evaluate each offeror's unit prices. Pricing will be evaluated to determine the lowest awardable total aggregate dollar value price. The maximum contract quantity for this acquisition will be multiplied by the final proposed unit price to calculate the maximum contract dollar cost to the Government. Cost and pricing data will not be required at solicitation closing.

The Government's rating assessments under low price technically acceptable award methodology will be deemed either acceptable or unacceptable.

The Government intends to award to the responsive and responsible offeror that conforms to the solicitation requirements Technical Factors and Price considered. The Government expects to make a single award for this contract.

Please note, taking exception to any of the terms and conditions of the Solicitation may remove your company from consideration for award.

Both Technical and Price are equally important evaluation factors.

A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party.

Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of Provision)The following paragraph of 52.212-2 is amended as indicated below:

Paragraph (b), Options, is deleted in its entirety.

SECTION A - SOLICITATION/CONTRACT FORM (CONTINUED)

The offeror shall complete only paragraphs (b) of this provision if the Offeror has completed the annual representations and certification electronically via the System for Award Management (SAM) Web site located at <http://www.sam.gov/portal>. If the Offeror has not completed the annual representations and certifications electronically, the Offeror shall complete only paragraphs (c) through (u) of this provision.

(a) *Definitions.* As used in this provision--

“Economically disadvantaged women-owned small business (EDWOSB) concern” means a small business concern that is at least 51 percent directly and unconditionally owned by, and the management and daily business operations of which are controlled by, one or more women who are citizens of the United States and who are economically disadvantaged in accordance with 13 CFR part 127. It automatically qualifies as a women-owned small business eligible under the WOSB Program.

“Forced or indentured child labor” means all work or service --

(6) Exacted from any person under the age of 18 under the menace of any penalty for its nonperformance and for which the worker does not offer himself voluntarily; or

(7) Performed by any person under the age of 18 pursuant to a contract the enforcement of which can be accomplished by process or penalties.

“Highest-level owner” means the entity that owns or controls an immediate owner of the offeror, or that owns or controls one or more entities that control an immediate owner of the offeror. No entity owns or exercises control of the highest level owner.

“Immediate owner” means an entity, other than the offeror, that has direct control of the offeror. Indicators of control include, but are not limited to, one or more of the following: Ownership or interlocking management, identity of interests among family members, shared facilities and equipment, and the common use of employees.

“Inverted domestic corporation,” means a foreign incorporated entity that meets the definition of an inverted domestic corporation under 6 U.S.C. 395(b), applied in accordance with the rules and definitions of 6 U.S.C. 395(c).

“Manufactured end product” means any end product in product and service codes (PSCs) 1000-9999, except --

- (1) PSC 5510, Lumber and Related Basic Wood Materials;
- (2) Product or Service Group (PSG) 87, Agricultural Supplies;
- (3) PSG 88, Live Animals;
- (4) PSG 89, Subsistence;
- (5) PSC 9410, Crude Grades of Plant Materials;
- (6) PSC 9430, Miscellaneous Crude Animal Products, Inedible;
- (7) PSC 9440, Miscellaneous Crude Agricultural and Forestry Products;
- (8) PSC 9610, Ores;
- (9) PSC 9620, Minerals, Natural and Synthetic; and
- (10) PSC 9630, Additive Metal Materials.

“Place of manufacture” means the place where an end product is assembled out of components, or otherwise made or processed from raw materials into the finished product that is to be provided to the Government. If a product is disassembled and reassembled, the place of reassembly is not the place of manufacture.

(iii) The Government will evaluate offers in accordance with the policies and procedures of FAR Part 25. For line items covered by the WTO GPA, the Government will evaluate offers of U.S.-made or designated country end products without regard to the restrictions of the Buy American statute. The Government will consider for award only offers of U.S.-made or designated country end products unless the Contracting Officer determines that there are no offers for such products or that the offers for such products are insufficient to fulfill the requirements of the solicitation.

(h) *Certification Regarding Responsibility Matters (Executive Order 12689).* (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals--

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of

contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property; and

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,500 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals Contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at 22.1503(b).]

(1) Listed End Product

Listed End Product: Listed Countries of Origin:

SECTION A - SOLICITATION/CONTRACT FORM (CONTINUED)

(2) Certification. [If the Contracting Officer has identified end products and countries of origin in paragraph (i)(1) of this provision, then the offeror must certify to either (i)(2)(i) or (i)(2)(ii) by checking the appropriate block.]

☐ (i) The offeror will not supply any end product listed in paragraph (i)(1) of this provision that was mined, produced, or manufactured in the corresponding country as listed for that product.

☐ (ii) The offeror may supply an end product listed in paragraph (i)(1) of this provision that was mined, produced, or manufactured in the corresponding country as listed for that product. The offeror certifies that it has made a good faith effort to determine whether forced or indentured child labor was used to mine, produce, or manufacture any such end product furnished under this contract. On the basis of those efforts, the offeror certifies that it is not aware of any such use of child labor.

(j) *Place of manufacture.* (Does not apply unless the solicitation is predominantly for the acquisition of manufactured end products.) For statistical purposes only, the offeror shall indicate whether the place of manufacture of the end products it expects to provide in response to this solicitation is predominantly --

(1) ☐ In the United States (Check this box if the total anticipated price of offered end products manufactured in the United States exceeds the total anticipated price of offered end products manufactured outside the United States); or

(2) ☐ Outside the United States.

(k) Certificates regarding exemptions from the application of the Service Contract Labor Standards. (Certification by the offeror as to its compliance with respect to the contract also constitutes its certification as to compliance by its subcontractor if it subcontracts out the exempt services.) [The contracting officer is to check a box to indicate if paragraph (k)(1) or (k)(2) applies.]

(1) ☐ Maintenance, calibration, or repair of certain equipment as described in FAR 22.1003-4(c)(1). The offeror ☐ does ☐ does not certify that --

(i) The items of equipment to be serviced under this contract are used regularly for other than Governmental purposes and are sold or traded by the offeror (or subcontractor in the case of an exempt subcontract) in substantial quantities to the general public in the course of normal business operations;

(ii) The services will be furnished at prices which are, or are based on, established catalog or market prices (see FAR 22.1003-4(c)(2)(ii)) for the maintenance, calibration, or repair of such equipment; and

(iii) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract will be the same as that used for these employees and equivalent employees servicing the same equipment of commercial customers.

(2) ☐ Certain services as described in FAR 22.1003-4(d)(1). The offeror ☐ does ☐ does not certify that --

(i) The services under the contract are offered and sold regularly to non-Governmental customers, and are provided by the offeror (or subcontractor in the case of an exempt subcontract) to the general public in substantial quantities in the course of normal business operations;

(ii) The contract services will be furnished at prices that are, or are based on, established catalog or market prices (see FAR 22.1003-4(d)(2)(iii));

(iii) Each service employee who will perform the services under the contract will spend only a small portion of

his or her time (a monthly average of less than 20 percent of the available hours on an annualized basis, or less than 20 percent of available hours during the contract period if the contract period is less than a month) servicing the Government contract; and

(iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this clause applies --

(i) If the offeror does not certify to the conditions in paragraph (k)(1) or (k)(2) and the Contracting Officer did not attach a Service Contract Labor Standards wage determination to the solicitation, the offeror shall notify the Contracting Officer as soon as possible; and

(ii) The Contracting Officer may not make an award to the offeror if the offeror fails to execute the certification in paragraph (k)(1) or (k)(2) of this clause or to contact the Contracting Officer as required in paragraph (k)(3)(i) of this clause.

(l) *Taxpayer identification number (TIN) (26 U.S.C. 6109, 31 U.S.C. 7701).* (Not applicable if the offeror is required to provide this information to the SAM database to be eligible for award.)

(1) All offerors must submit the information required in paragraphs (l)(3) through (l)(5) of this provision to comply with debt collection requirements of 31 U.S.C. 7701(c) and 3325(d), reporting requirements of 26 U.S.C. 6041, 6041A, and 6050M, and implementing regulations issued by the Internal Revenue Service (IRS).

(2) The TIN may be used by the government to collect and report on any delinquent amounts arising out of the offeror's relationship with the Government (31 U.S.C. 7701(c)(3)). If the resulting contract is subject to the payment reporting requirements described in FAR 4.904, the TIN provided hereunder may be matched with IRS records to verify the accuracy of the offeror's TIN.

(3) Taxpayer Identification Number (TIN).

☐ TIN: _____.

☐ TIN has been applied for.

☐ TIN is not required because:

☐ Offeror is a nonresident alien, foreign corporation, or foreign partnership that does not have income effectively connected with the conduct of a trade or business in the United States and does not have an office or place of business or a fiscal paying agent in the United States;

☐ Offeror is an agency or instrumentality of a foreign government;

☐ Offeror is an agency or instrumentality of the Federal Government;

(4) Type of organization.

☐ Sole proprietorship;

☐ Partnership;

☐ Corporate entity (not tax-exempt);

☐ Corporate entity (tax-exempt);

☐ Government entity (Federal, State, or local);

(q) *Representation by Corporations Regarding Delinquent Tax Liability or a Felony Conviction under any Federal Law.*

(1) As required by section 744 and 745 of Division E of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113-235), and similar provisions, if contained in subsequent appropriations acts, the Government will not enter into a contract with any corporation that --

(i) Has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, where the awarding agency is aware of the unpaid tax liability, unless and agency has considered suspension or debarment of the corporation and made a determination that suspension or debarment is not necessary to protect the interests of the Government; or

(ii) Was convicted of a felony criminal violation under any Federal law within the preceding 24 months, where the awarding agency is aware of the conviction, unless an agency has considered suspension or debarment of the corporation and made a determination that this action is not necessary to protect the interests of the Government.

(2) The Offeror represents that--

(i) It is ☐ is not ☐ a corporation that has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability; and

(t) Public Disclosure of Greenhouse Gas Emissions and Reduction Goals. Applies in all solicitations that require offerors to register in SAM (52.212-1(k)).

(1) This representation shall be completed if the Offeror received \$7.5 million or more in contract awards in the prior Federal fiscal year. The representation is optional if the Offeror received less than \$7.5 million in Federal contract awards in the prior Federal fiscal year.

(2) Representation. *[Offeror to check applicable block(s) in paragraph (t)(2)(i) and (ii)].*

(i) The Offeror (itself or through its immediate owner or highest-level owner) ☐ does, ☐ does not publicly disclose greenhouse gas emissions, i.e., makes available on a publicly accessible Web site the results of a greenhouse gas inventory, performed in accordance with an accounting standard with publicly available and consistently applied criteria, such as the Greenhouse Gas Protocol Corporate Standard.

(ii) The Offeror (itself or through its immediate owner or highest-level owner) ☐ does, ☐ does not publicly disclose a quantitative greenhouse gas emissions reduction goal, i.e., make available on a publicly accessible Web site a target to reduce absolute emissions or emissions intensity by a specific quantity or percentage.

(iii) A publicly accessible Web site includes the Offeror's own Web site or a recognized, third-party greenhouse gas emissions reporting program.

(3) If the Offeror checked "does" in paragraphs (t)(2)(i) or (t)(2)(ii) of this provision, respectively, the Offeror shall provide the publicly accessible Web site(s) where greenhouse gas emissions and/or reduction goals are reported: _____.

(u)

(1) In accordance with section 743 of Division E, Title VII, of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113-235) and its successor provisions in subsequent appropriations acts (and as extended in continuing resolutions), Government agencies are not permitted to use appropriated (or otherwise made available) funds for contracts with an entity that requires employees or subcontractors of such entity seeking to report waste, fraud, or abuse to sign internal confidentiality agreements or statements prohibiting or otherwise restricting such employees or subcontractors from lawfully reporting such waste, fraud, or abuse to a designated investigative or law enforcement representative of a Federal department or agency authorized to receive such information.

(2) The prohibition in paragraph (u)(1) of this provision does not contravene requirements applicable to Standard Form 312 (Classified Information Nondisclosure Agreement), Form 4414 (Sensitive Compartmented Information Nondisclosure Agreement), or any other form issued by a Federal department or agency governing the nondisclosure of classified information.

52.212-4 Contract Terms and Conditions -- Commercial Items (Nov 2023) - FAR is incorporated in this solicitation by reference. Its full text may be accessed electronically at <https://www.acquisition.gov/far/index.html>. Text is available for viewing in Subpart 52.2 Text of Provisions and Clauses, through either the HTML or PDF Format links.

The following paragraph(s) of 52.212-4 are amended as indicated below:

1. Paragraph (a), Inspection/Acceptance, is revised to add FAR clause 52.246-2, Inspection of Supplies - Fixed Price. FAR 52.246-2 expands the definition of "Supplies," to include, but not limit to, raw materials, components, intermediate assemblies, end products, and supply lots. FAR 52.246-2 provides a basis for the Government's right to perform Product Verification Testing (PVT), which is a requirement on any resulting contract(s). PVT is addressed in DLAD clause 52.246-9004. Each clause is contained in full text elsewhere in the solicitation.

2. Paragraph (c), Changes, is deleted in its entirety and replaced with the following:

(c) Changes.

The Contracting Officer may at any time, by unilateral written order, make changes within the general scope of this contract in any one or more of the following:

(i) Method of shipment or packing;

(ii) Place, manner, or time of delivery.

(2) If such change causes an increase or decrease in the cost of, or time required for, performance for any part of the work under this contract, the Contracting Officer shall make equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract.

(3) The Contractor must assert its right to an adjustment under this clause within thirty (30) days from the date of receipt

of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.

(4) Failure to agree to any adjustment shall be a dispute under the Disputes Clause. However, nothing in this clause shall excuse the Contractor from proceeding with the contract.

3. Paragraph (m), Termination for Cause is deleted and replaced with the following:

(m) Termination for Cause. The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If this contract is terminated in whole or in part for cause, and the supplies or services covered by the contract so terminated are repurchased by the Government, the Government will incur administrative costs in such repurchases. The Contractor and the Government expressly agree that, in addition to any excess costs of repurchase, or any other damages resulting from such default, the Contractor shall pay, and the Government shall accept, the sum of \$1,350.00 as payment in full for the administrative costs of such repurchase. This assessment of damages for administrative costs shall apply for any termination for cause following which the Government repurchases the terminated supplies or services together with any incidental or consequential damages incurred because of the termination. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

4. Paragraph (o), Warranty is deleted in its entirety and replaced with the following:

(a) Definitions.

"Acceptance," as used in this clause, means the act of an authorized representative of the Government by which the Government assumes for itself, or as an agent of another, ownership of existing supplies, or approves specific services as partial or complete performance of the contract.

"Correction," as used in this clause, means the elimination of a defect.

"Supplies," as used in this clause, means the end item furnished by the Contractor and related services required under the contract. The word does not include "data".

(b) Contractor's obligations.

(1) Notwithstanding inspection and acceptance by the Government of supplies furnished under this contract, or any condition of this contract concerning the conclusiveness thereof, the Contractor warrants that for 6 months after receipt of supplies at destination or, in the case of supplies required to bear an expiration date, for the expiration date indicated in the labeling thereof, all supplies furnished

- (i) Are of a quality to pass without objection in the trade under the contract description;
- (ii) Are fit for the ordinary purposes for which the supplies are used;
- (iii) Are within the variations permitted by the contract, and are of an even kind, quality and quantity within each unit and among all units;
- (iv) Are adequately contained, packaged, and marked as the contract may require; and
- (v) Conform to the promises or affirmations of fact made on the container.

(2) When return of the supplies to the contractor and redelivery, if applicable, is required, transportation charges and responsibility for the supplies while in transit shall be borne by the contractor. Contractor shall also be liable for:

- (i) Handling costs and incidental charges incurred by the Government in the preparation of the above described supplies for return to the contractor and in return of said supplies to storage, after redelivery by the contractor; and

(ii) For cost of Government examination of the corrected or replaced supplies computed and charged at the flat rate of \$49.28 per hour.

(3) Any supplies or parts thereof, corrected or furnished in replacement under this clause, shall also be subject to the terms of this clause to the same extent as supplies initially delivered. The warranty, with respect to supplies or parts thereof, shall be equal in duration to that in paragraph (b)(1) of this clause and shall run from the date of receipt of the corrected or replaced supplies at destination.

(c) Remedies available to the government.

(1) Notice Requirement: The Contracting Officer shall give written notice to the contractor of any breach of warranties in paragraph (b)(1) of this clause within 7 days from receipt of supplies at destination or, in the case of supplies required to bear an expiration date, no later than one month following the expiration date indicated in the labeling.

(2) Conformance of supplies or parts thereof subject to warranty action shall be determined in accordance with the inspection and acceptance procedures contained in the contract except as provided herein. If the contract provides for sampling, the Contracting Officer may group any supplies delivered under this contract. The size of the sample shall be that required by the sampling procedure specified in the contract for the quantity of supplies on which warranty action is proposed, except when projecting sampling results. Warranty sampling results may be projected over supplies in the same shipment or other supplies contained in other shipments even though all of such supplies are not present at the point of reinspection and regardless of whether such supplies have been issued or consumed, provided (1) the supplies from which the samples were drawn are reasonably representative of the quantity on which warranty action is proposed, and (2) the defects found in the sample size are sufficient to reject the quantity of supplies on which warranty action is proposed, even though the sample size may be less than that required for such quantity. The original inspection lots need not be reconstituted, nor shall the Contracting Officer be required to use the same lot size as on original inspection. Within a reasonable time after the notice, the Contracting Officer may exercise one or more of the following options; and also, following the exercise of any option, may unilaterally change it to one or more of the other options set forth below:

(i) Require an equitable adjustment in the contract price for any supplies or group of supplies;

(ii) Screen the supplies grouped under this clause at contractor's expense and return all nonconforming supplies to the contractor for correction or replacement;

(iii) Require the contractor to screen the supplies at depots designated by the Government within the continental United States and to correct or replace all nonconforming supplies;

(iv) Return any supplies or group of supplies under this clause to the contractor (irrespective of the f.o.b. point or the point of acceptance) for screening and correction or replacement;

(v) Return or hold for contractor's account any supplies or group of supplies delivered hereunder, whereupon the contractor shall repay the contract price paid therefore. In such event, the Government may repro cure similar supplies upon such terms and in such manner as the Contracting Officer may deem appropriate, and charge to the contractor the additional cost occasioned the Government thereby.

(3) When remedy (c) (2) (iii) or (c) (2) (iv) of this clause is exercised, the contractor is required to submit in writing and within 30 days after receipt of notice of such invocation a schedule for either:

(i) Correction and/or replacement of all defective supplies and subsequent redelivery of the returned supplies; or,

(ii) Screening defective supplies at each depot involved and subsequent redelivery of all corrected and/or replaced supplies.

Such schedule will become a part of the contract delivery schedule upon agreement thereto by the Government. If the contractor fails to provide an agreeable schedule within the specified period, or any extension agreed to by the Government, the Government may correct the items and charge the contractor's account; or, issue a contract for correction of the items and charge

the contractor's account; or, exercise one or more of the remedies specified in paragraph (4) below.

(4) If the contractor fails to accept return of the nonconforming supplies; or, fails to make redelivery of the corrected or replaced supplies to the Government within the time established; or, fails to make progress after their return to correct or replace them so as to endanger performance within the time established for redelivery and does not cure such failure within a period of 10 days (or such longer period as the Contracting Officer may authorize in writing) after receipt of notice from the Contracting Officer specifying such failure, the Contracting Officer may exercise one or more of the following remedies:

(i) Retain or have the contractor return the nonconforming supplies and require an equitable adjustment in the contract price.

(ii) Return or hold the nonconforming supplies for contractor's account, or require the return of the nonconforming supplies and then hold for contractor's account, whereupon the contractor shall repay the contract price therefore. In such event, the Government may reprocur similar supplies upon such terms and in such manner as the Contracting Officer may deem appropriate, and charge to the contractor the additional costs occasioned the Government thereby.

(iii) If the contractor fails to furnish timely disposition instructions, dispose of the nonconforming supplies for the contractor's account in a reasonable manner, in which case the Government is entitled to reimbursement from the contractor or from the proceeds for the reasonable expenses of the care and disposition of the nonconforming supplies, as well as for any other costs incurred or to be incurred.

(5) The rights and remedies of the Government provided in this clause are in addition to and do not limit any rights afforded to the Government by any other clause of this contract.

(d) Failure to agree upon any determination to be made under this clause shall be a dispute concerning a question of fact within the meaning of the "Disputes" clause of this contract.

(e) When the contract specifies ultimate delivery of supplies to a location outside the contiguous United States, such location shall be deemed the destination for purposes of this clause.

5. Paragraph (r) Compliance with laws unique to Government contracts is revised to include the following:

(r) The Contractor agrees to comply with 31 U.S.C. 1352 relating to limitations on the use of appropriated funds to influence certain Federal contracts; 18 U.S.C. 431 relating to officials not to benefit; 40 U.S.C. 3701, *et seq.*, Contract Work Hours and Safety Standards Act; 41 U.S.C. 51-58, Anti-Kickback Act of 1986; 41 U.S.C. 265 and 10 U.S.C. 2409 relating to whistleblower protections; Section 1n553 of the American Recovery and Reinvestment Act of 2009 relating to whistleblower protections for contracts funded under that Act; 49 U.S.C. 40118, Fly American; and 41 U.S.C. 423 relating to procurement integrity.

6. Paragraph (t), System for Award Management (SAM).

Add the following:

(End of Clause)

252.204-7008 Compliance with Safeguarding Covered Defense Information Controls. (OCT 2016) -DFARS

(a) *Definitions.* As used in this provision --

“Controlled technical information,” “covered contractor information system,” “covered defense information,” “cyber incident,” “information system,” and “technical information” are defined in clause [252.204-7012](#), Safeguarding Covered Defense

Information and Cyber Incident Reporting.

(b) The security requirements required by contract clause [252.204-7012](#), shall be implemented for all covered defense information on all covered contractor information systems that support the performance of this contract.

(c) For covered contractor information systems that are not part of an information technology service or system operated on behalf of the Government (see [252.204-7012\(b\)\(2\)](#) --

(1) By submission of this offer, the Offeror represents that it will implement the security requirements specified by National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171 “Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations” (see

<http://dx.doi.org/10.6028/NIST.SP.800-171>) that are in effect at the time the solicitation is issued or as authorized by the contracting officer not later than December 31, 2017.

(2)(i) If the Offeror proposes to vary from any of the security requirements specified by NIST SP 800-171 that are in effect at the time the solicitation is issued or as authorized by the Contracting Officer, the Offeror shall submit to the Contracting Officer, for consideration by the DoD Chief Information Officer (CIO), a written explanation of --

(A) Why a particular security requirement is not applicable; or

(B) How an alternative but equally effective, security measure is used to compensate for the inability to satisfy a particular requirement and achieve equivalent protection.

(ii) An authorized representative of the DoD CIO will adjudicate offeror requests to vary from NIST SP 800-171 requirements in writing prior to contract award. Any accepted variance from NIST SP 800-171 shall be incorporated into the resulting contract.

252.204-7009 Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information. (Jan 2023) -DFARS

(a) *Definitions.* As used in this clause --

CONTINUED ON NEXT PAGE

SECTION A - SOLICITATION/CONTRACT FORM (CONTINUED)

“Compromise” means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

“Controlled technical information” means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

“Covered defense information” means unclassified controlled technical information or other information (as described in the Controlled Unclassified Information (CUI) Registry at <http://www.archives.gov/cui/registry/category-list.html>) that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Governmentwide policies, and is --

- (1) Marked or otherwise identified in the contract, task order, or delivery order and provided to the contractor by or on behalf of DoD in support of the performance of the contract; or
- (2) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract.

“Cyber incident” means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein.

“Information system” means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information.

“Media” means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which covered defense information is recorded, stored, or printed within a covered contractor information system.

“Technical information” means technical data or computer software, as those terms are defined in the clause at DFARS [252.227-7013](#), Rights in Technical Data-Noncommercial Items, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code.

(b) *Restrictions.* The Contractor agrees that the following conditions apply to any information it receives or creates in the performance of this contract that is information obtained from a third-party's reporting of a cyber incident pursuant to DFARS clause [252.204-7012](#), Safeguarding Covered Defense Information and Cyber Incident Reporting (or derived from such information obtained under that clause):

- (1) The Contractor shall access and use the information only for the purpose of furnishing advice or technical assistance directly to the Government in support of the Government's activities related to clause [252.204-7012](#), and shall not be used for any other purpose.
- (2) The Contractor shall protect the information against unauthorized release or disclosure.
- (3) The Contractor shall ensure that its employees are subject to use and non-disclosure obligations consistent with this clause prior to the employees being provided access to or use of the information.
- (4) The third-party contractor that reported the cyber incident is a third-party beneficiary of the non-disclosure agreement between the Government and Contractor, as required by paragraph (b)(3) of this

clause.

(5) A breach of these obligations or restrictions may subject the Contractor to --

(i) Criminal, civil, administrative, and contractual actions in law and equity for penalties, damages, and other appropriate remedies by the United States; and

(ii) Civil actions for damages and other appropriate remedies by the third party that reported the cyber incident, as a third party beneficiary of this clause.

(c) *Subcontracts*. The Contractor shall include this clause, including this paragraph (c), in subcontracts, or similar contractual instruments, for services that include support for the Government's activities related to safeguarding covered defense information and cyber incident reporting, including subcontracts for commercial items, without alteration, except to identify the parties.

(End of clause)

52.211-17 DELIVERY OF EXCESS QUANTITIES (SEP 1989) FAR

Material ordered under the terms of this contract shall be delivered within 30 days after the date of the order. Notwithstanding any other provisions/clauses of this contract, no deliveries shall be made prior to issuance of delivery order (DD Form 1155).

252.222-7007 Representation Regarding Combating Trafficking in Persons. (Jan 2015) - DFARS**

By submission of its offer, the Offeror represents that it --

(a) Will not engage in any trafficking in persons or related activities, including but not limited to the use of forced labor, in the performance of this contract;

(b) Has hiring and subcontracting policies to protect the rights of its employees and the rights of subcontractor employees and will comply with those policies in the performance of this contract; and

(c) Has notified its employees and subcontractors of --

(1) The responsibility to report trafficking in persons violations by the Contractor, Contractor employees, or subcontractor employees, at any tier; and

(2) Employee protection under 10 U.S.C. 2409, as implemented in DFARS subpart [203.9](#), from reprisal for whistleblowing on trafficking in persons violations.

52.216-22 INDEFINITE QUANTITY (OCT 1995) FAR

(a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum." The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum."
