

DLA Troop Support

Deployable Field Feeding Equipment

National Stock Numbers

The following is a list of kitchen systems (equipment) used by the military, for field feeding (number in use is Army only). Spare part items in bold print are managed by DSCP.

1) **Mobile Kitchen Trailer - (MKT) 7360-01-313-2238**

It is a complete kitchen unit mounted on a trailer chassis that can be towed by a standard 2 1/2-ton or 5-ton truck. Currently, 5 models of the MKT are in use. Two or three are used together to feed a battalion.

**** Note: **The MKT is soon to be replaced by the Containerized Kitchen (CK).** *The CK requirement calls for a rapidly deployable, trailer-mounted, containerized field kitchen capable of supporting up to 500 soldiers. The Army anticipates fielding 1277 ea., of the CK.*

<u>ITEM</u>	<u>NSN</u>	<u>PER MKT</u>
Accessory Outfit, Field Range	7360-00-187-4757	1
Adapter, Warmer	7330-01-242-9180	2
Bag, Water Sterilizing	4610-00-268-9890	2

Utensil Holder Assy	7330-01-191-4666	1
Extinguisher, Fire	4210-00-270-4512	1

2) Food Sanitation Center (FSC)

7360-01-277-2558

FSC consists of equipment required to clean and sanitize the food service equipment. Sanitation Center equipment includes: three field sinks and sink covers, two drain tables, one worktable, two storage racks, three burner units, one extendible modular utility tent (16x 20 ft), one gasoline lantern, one 50-foot drain hose assembly, one fire extinguisher, three thermostats for the sink and three brackets for the thermometers, two plastic trash barrels, two sink immersion racks, two sink adapters (to connect sinks at the top).

<u>ITEM</u>	<u>NSN</u>	<u>PER FSC</u>
Tent	8340-01-185-2613	1
Lantern, Gasoline	6260-00-837-0996	2
Storage Rack Assembly	7125-01-334-3159	6
Sink Assembly	7320-01-333-9186	3
M2 Burner Unit or MBU	7310-01-113-9172	3
	7310-01-452-8137	3
Drain Table	7125-01-333-8486	1
Work Table	7105-01-333-8493	1
Rack, Sink Immersion	7320-01-334-3160	2
Waste Receptacle	7240-00-151-6629	2
Assy Drain Hose	4720-01-333-8489	1
Drain Hose	4720-01-333-8488	3

3) Kitchen, Company Level, Field Feeding Enhanced - (KCLFF-E)

7360-01-200-9828

The KCLFF is an assemblage of equipment that provides the capability of heating and serving Tray Pack rations (t-rations). The kitchen is designed for field preparation of hot meals in support of company size units of Light Infantry Divisions. Water is required to operate the kitchen, as well as gasoline for the M2 burner units and lantern. It is operated by two cooks, and can feed 200 people in a 3 hour time frame. Components of the KCLFF-E:

<u>ITEM</u>	<u>NSN</u>	<u>PER KCLFF-E</u>
Dispenser, Liquid, Insulated (Brown)	7320-01-093-7371	4 (Total)
Dispenser, Liquid, Insulated (Olive Drab)	7310-01-245-6937	4
Burner Unit, M2 or MBU	7310-01-113-9172	3
	7310-01-452-8137	3
Cooking Pot, 10 gal, w/cover	7330-00-292-2306	1
Cooking Pot, 15 gal, w/cover	7330-00-292-2307	1
Heater Tank Assy	7360-01-248-6041	1
Insulated Food Container w/inserts	7360-01-408-4911	12

Pot, Stock (15 gal)	7330-00-292-2307	1
Pump, Inflating	4320-00-852-9036	1
Rack, Base	7360-01-250-3649	
Rack, Burner	7360-01-250-3652	
Screwdriver, Flat	5120-00-222-8852	1
Spoon, Basting	7340-00-223-7800	1
Spoon, Serving, Slotted	7340-00-205-1421	1
Tool Chest	7310-00-310-8544	1
Wrench, Adj. Crescent	5120-00-240-5326	1
Wrench, Combination	5120-00-303-7737	1

4) Modular Field Kitchen (MFK) 7360-01-276-9817

The MFK is issued to all hospital units except the MASH. Each MFK is designed to support up to 250 personnel, to include staff personnel and patients, with T-Rations. Because the MFK is modular, it can be consolidated with other MFK modules to feed larger units. Basic items of issue for the MFK, are shown on page 10-4 of the Army Field Manual 10-23.

<u>ITEM</u>	<u>NSN</u>	<u>PER MKF</u>
Antiseize, Compound	8030-00-087-8630	1
Bag, Drinking Water	4610-00-268-9890	2
Base, Rack Assembly	7360-01-250-3652	2

Wrench, Adjustable crescent, 8 -inch	5120-00-240-5328	1

5) M59 Field Range Outfit and Accessories Parts List

The M59 (NSN's 7360-00-082-2153 and 7360-00-702-1719) will **no longer** be **provided** they will be **replaced by the M59A** (7360-01-479-0312). DSCP will continue to provide **spare parts support only for the M59** as long as demand exists.

The M59 field range is portable and can be adapted to many different cooking configurations. One field range outfit may be used to cook for up to 50 people. Each field range comes with pots, pans, and cooking and serving utensils. One accessory outfit is authorized for every one to four ranges. An accessory kit includes tools, fire extinguisher, and maintenance items. The M59 field range can be used to bake, roast, boil, grill and deep-fat fry foods by putting the burner unit in top or bottom position.

Upper Door Assembly**7360-00-999-9882****1****5A) M59A Field Range Outfit and Accessories****7360-01-479-0312**

The M59 Range has been redesigned; design changes were incorporated to eliminate the need for government tooling and to simplify manufacturing on modern equipment. The M59A was fielded in mid 2003. The ranges are the same in form fit and function and the range outfit provides all necessary utensils for meal preparation. The M59A will be provided without a burner, the customer will have to provide a M2 or MBU depending on their requirements. The field range is portable and can be adapted to many different cooking configurations. One field range outfit may be used to cook for up to 50 people. Each field range comes with pots, pans, and cooking and serving utensils (refer to the utensils listed for the M59). One accessory outfit is authorized for every one to four ranges. An accessory kit includes tools, fire extinguisher, and maintenance items. The M59A field range can be used to bake, roast, boil, grill and deep-fat fry foods by putting the burner unit in the bottom position.

5B) Tray Ration Heating System (TRH) Set**7310-01-295-7479**

The TRH consists of a stainless steel hot-water tank and a multi-fuel, Airtronic Burner that operates from its own fuel source (5-gallon can). A thermodisc maintains water temperature between 180 F to 200 F (180 F +/-5 F is required for heating tray packs). The TRH will heat 18 tray packs to serving temperature in about 40 minutes. When installed on the HMMWV, the

TRH uses vehicular electrical power. If the TRH is not HMMWV-mounted, it can be plugged into any 120 VAC, 60 Hz source.

Modern Burner Unit (MBU-V3) 7310-01-507-9310 Quantity
1

Modern Burner Unit, Version 3 (MBU-V3) is the updated version of the original MBU (7310-01-452-8137). The changes incorporated are to reduce the low temperature output and the noise level of the original MBU. The MBU-V3 is provided with a parts over-pack. However, the parts over-pack is not compatible with the original MBU.

7. SINGLE PALLET EXPEDITIONARY KITCHEN (SPEK)

The SPEK is a lightweight, quick response kitchen, designed to provide hot meals using “heat and serve” UGR rations for approximately 550 people in support of Air Expeditionary Force (AEF) deployments. The SPEK is capable of providing hot meals within 4 hours after rations arrive. It is best utilized as a flyaway package for tasked Prime RIBS units at austere contingency locations for periods of 30 days or less.

Fax request to 215-737-0313/2988 or 4115	

U.S. government customers who prefer to pay by government credit card now have the capability to order DLA NSNs (except those managed by the Defense Fuel Support Center, obsolete items, and other excluded items) by dialing the Virtual Contact Center at 1-877-DLA-CALL or DSN 932-7766 and selecting option 3, then when prompted option 3 again when the call is answered to connect to one of our operators.

After callers press option 3 and then 3 again they are immediately connected with a customer service agent in the Virtual Contact Center. The customer service agents are trained to interrogate the DLA supply system through DoD EMALL for the NSN(s) that the caller specifies. Although customers' orders are entered into the DLA system through DoD EMALL, it is not necessary for these customers to be registered in DoD EMALL in order to be able to use this telephone entry service.

If the material the customer requires is available, the customer service agent will prompt the callers to provide data needed to complete the order. In addition to the NSN, the caller should at the very least be able to provide the customer service agent with such information as the quantity they require, the "ship to" location, including zip code/DoDAAC and the credit card information.
